AN OPEN SECRET

AMONG THE LADIES

The brilliant, fascinating tints of complexion for which ladies strive are chiefly artificial, and all who will take the trouble may secure them. These roses, by which hues follow the use of Magnolia Balm—a delicate, harmless and always reliable article. Sold by all druggists.

The Magnolia Balm conceals every blemish, removes Saltness, Tan, Redness, Eruptions, all evidences of excitement and every imperfection. Its effects are immediate and so natural that no human being can detect its application.

The Sugar Trade.

NEW YORK, S.—The Tribune's

Washington special says: Assistant

Secretary French, of the Treasury

Department, said yesterday

that the amount of sugar admitted

duty free, into the port of San

Francisco, from the Sandwich Is-

lands during the month of August

would have paid, if imported from

any other country, revenue to the

amount of \$150,000. This sugar

was ostensibly the product of the

Sandwich Islands, and therefore,

was, under the treaty with that

country, not subject to customs

duties. The increasing importations

under the treaty have attracted

the attention of the Treasury

Department. Mr. French says

there is reason to believe that sugar

is being shipped to the Sandwich

Islands, and then re-exported to

San Francisco, to evade the pay-

ment of duties. An investigation

of this subject is now being

made. In relation to the states-

ments lately made by N. McKay,

respecting Demarara sugars, and

his criticisms on the Treasury

Department, French said that Mr.

McKay came to the Treasury De-

partment, and explaining that he

was about to visit Demarara on private

business, asked an appointment as

special agent, to investigate the

sugar trade. He said one or two

members of the committee on ways

and means expressed a desire that

he should make such investigations.

It was known at the department

that Mr. McKay, who is holding a

railroad in Demarara, and has oc-

casional to send out frequent cargoes

of iron and other material and sup-

plies, was anxious to procure return

cargoes for his vessels. For the

reason that the Treasury De-

partment wished to make an impartial

investigation, he was not appoint-

ed. It is understood that he then

applied to the State Department

for an appointment, and was also

refused. French said he did not

think that McKay went abroad with

any authority from the commis-

sion on ways and means to make

any investigations.

In relation to the modification of

the sugar order, made last week,

French says he thinks that it will

be regarded with greater satisfac-

tion as it becomes better under-

stood.

Result of the California Election.

The Sun says: The first election

in California under the new consti-

tution has resulted, on the whole,

rather disastrously for the friends of

that instrument. The success of

Reynolds, for Governor, and the

rejection of the Central Pacific Rail-

road, and more than anything

else to provoke the uprising of the

people and the radical element of

the organic law of the State.

The Governor and State officers of

California will be bound by the

provisions of the new constitution,

and less than if they were not, but

in view of the importance of the

experiment that is to be work-

ed out in California during the

next few years, it is to be regret-

ted that the administration has

been put at the outset into the

hands of those who will do their

utmost to nullify its purposes. The

test of the law, good or bad, is its

faithful execution. The long and

short of the election of the republi-

can State ticket and a republican

legislature is, that the power of the

money of the organization, of its

unscrupulous methods, and of its

extensive political experience, has

availed against the divided opposi-

tion. In the vote of last May there

were only two parties, for the new

constitution and against it. In this

election the monopolists have held

all forces which they had then, and

acting in the same of the republi-

can party, they had to contend with

an enemy split into factions by the

greed of office.

Consp.

A special from Washington says:

Secretary Evans and wife will

soon visit the Marquis of Lorne.

The visit has no political signifi-

cance.

The Herald says: The best news

from Memphis is that the fever is

believed to have reached its cli-

max.

The Herald starts the story that

possibly the next we will hear of

California is that he has accepted a

call from some large London con-

gregation.

Frank Dixon, brother of Captain

Dixon who was killed in Yazoo

county, Miss., has been appointed

to a clerkship in the pension bu-

reau, in Washington.

Mr. McKim, commissioner

general to the Paris Exposition, has

received the medals and diplomas

awarded to American exhibitors,

and will distribute them this week.

At the President, Mrs. Hayes, Gen.

Sheridan and Webb Hayes, left

Washington, to-day, for Cincin-

nati. The President expects to

make a speech in that city on Wed-

nesday.
