Albert A. Knapp Taken From the Home of His Bride.
WOMEN WERE THE VICTIMS

Have a talk with your doctor. He knows more about your case than you know yourself. Tell him how you neglected your cold, until now you cough so hard you are greatly worried. The chances are he will tell you to take

Ayer's Cherry Pectoral

What makes us think so? Because doctors have been doing just this for sixty years. They cannot find anything better for colds and coughs. And it's about the only medicine needed in consumption.

PENN. RY. TUNNEL.

Work on One Under North and East Rivers Begun.

New York, Feb. 25.—The first blow was struck today on the work of constructing the Pennsylvania railroad tunnel under the East and North rivers and through New York city. The destruction of buildings at the foot of West Thirty-second street at the North river was begun to clear ground for sinking a shaft and establishing a basis of operation for what the engineers have named the "North River section" of the tunnel. When the work on the great undertaking, which will eventually cost the Pennsylvania Railroad company about \$50,000,000, was actually begun, there assembled at the first building to be razed the chief engineers, Charles M. Jacobs and Alfred Noble, and their staff, and a number of others immediately interested in the work.

VOLCANO COLIMA ACTIVE.

Terrified People Are Seeking Refuge In Distant Towns.

Mexico City, Feb. 25.—News from the region surrounding the volcano Colima continues alarming. The people, terrified by the belching flames and pouring lava are seeking refuge in distant towns and villages. The city of Tuxpan in the state of Jalisco continues all day under a cloud of smoke. The volcano is alight with flames. The new eruption yesterday afternoon has increased the general fear.

An American who slept near the volcano on the night of the eruption was awakened by a tremendous explosion and saw the mountain ejecting flames to a great height. He waited until morning, enjoying the magnificent spectacle. There is not much alarm in the city of Colima, but fears are felt for the farmers in the neighborhood of the volcano.

A CURE FOR LEPROSY.

An American Physician in China Discusses One.

Washington, Feb. 25.—According to United States Consul McWade at Canton, it has remained for an American physician, Dr. Adolph Daxing, to discover a means of curing and exterminating leprosy. In a report to the state department the consul says that "wonderful success has attended the efforts of this physician, and his work has attracted the attention of the highest Manchurian and Chinese officials. This work began in June, 1902, in a leper village six miles distant from Canton. Of four cases treated there have been discharged as completely cured, and the last is making a practical recovery. The physician urges strongly the adoption of his methods for the treatment of leprosy in the Philippines and Hawaii. The main features of the treatment, which is shown in detail in the consul's report, appears to consist of minute and prolonged sanitation and the use of highly antiseptic drugs.

Italian Murders His Wife.

Portland, Feb. 25.—After beating his wife to death with an ax this afternoon, Frank De Falco, an Italian, attempted to commit suicide by jumping from the fourth street bridge into the Marquam. As he was about to make the fatal leap, H. J. Schner, a bystander, seized him and held him until the police arrived. The prisoner says that he killed his wife because he was jealous of another man. The dead woman leaves seven children.

Statehood Bidders Withdrawn.

Washington, Feb. 25.—The senate today made rapid progress. The statehood riders to the agricultural and postoffice appropriation bills were withdrawn and both bills passed. The house amendments to the Philippine currency bill were agreed to with but slight discussion, thus sending the bill to the president. The sundry civil bill was nearly completed. A large number of pension bills were also passed.

In the course of the day Civil Service Commissioner Foulke was severely criticized on account of a letter written by him to Mr. Spooner regarding the dismissal of an employee of the surveyor general's office, Idaho, who had been

organized to raise \$1,000,000 for the Methodist dominations in this city. Thousands will be disappointed, as the hall seats only 3,100.

The speakers will be President Roosevelt, who will discuss the progress of Methodism; Chancellor Day of Syracuse, who will deliver an address on "The Gospel of John Wesley," and Bishop Andrews, whose theme will be "Then and Now—A. D. 1573 and A. D. 1903."

Negro Shoots Girl and Suicides.

Kansas City, Mo., Feb. 26.—William P. Wallace, a negro 15 years old, shot and fatally wounded a young girl, a young negro girl, at midnight last night, and then shot and killed himself in a room in this city. Schley Leaves for California.

Boni Castellane Coming.

New York, Feb. 25.—Count Boni Castellane has left for New York, says the Paris representative of the American. Before embarking on Cherbourg, he said: "The primary object of my visit is to see my relatives and friends and bring back my wife and children. I shall also visit Florida. While the trip gives me pleasure, it is one of duty also. I would like to speak in the United States about increased ties and even formal alliance between France and the United States. This is the psychological moment for such an alliance, particularly as Germany is showing an extraordinary appetite for extra European territory. If we had such an alliance neither England nor Germany nor any other country could upset the peace of the world nor could all combined do so, for very soon the American navy will be the greatest in the world, just as our submarine fleet is now the strongest. The grandest spectacle of the twentieth century would be to see the two greatest democracies defying the combined monarchies of Europe. I trust the lesson of Venezuela will not be lost on the United States."

FIREARMS IN CHINA.

Reports of Heavy Importations Very Much Exaggerated.

Washington, Feb. 25.—As the United States government recently has been addressed by the other signatory powers to the treaty of Peking respecting the exclusion of firearms from China, it may be stated that this government is doing all it can to carry out the treaty agreement at that point. Its policy is to restrict in the direction of co-operating with China to prevent the entry of arms into that country, as it cannot prevent American merchants from exporting arms. Investigation has satisfied the officials, however, that there have been no really heavy importations of firearms into China.

TO THE PUBLIC

FOR THE first time in over five years Gardner's Daily Store News does not appear in this paper. Last night I severed my connection from the clothing house of J. P. Gardner. This may not be of much moment to you, but it is to me. It gives me an opportunity to say something. For over five years I have tried to paint Daily Word Pictures of the clothes we've had to sell. I have tried to tell you as truthfully as I know how of the styles and the values. To those who have responded let me express my greatest thanks. I know you have not been disappointed. But if I have not been able to convince YOU that J. P. Gardner sells the best clothes for man and boy that can be made for the money, let me say plainly and frankly IT HAS NOT BEEN THE FAULT OF THE CLOTHES. IT HAS BEEN THE FAULT OF THE ADVERTISING.

Respectfully yours,
FRED W. SCARFF.
