

## INSURGENTS WERE BADLY ROUTED.

Capt. Wainwright Tells How the  
San Domingan Rebels Were  
Put to Flight.

## STORMED WITH SHOT AND SHELL

It Took but Little of This to Restore  
Order and Respect for Neu-  
tral Vessels.

Washington, Feb. 24.—The report of Capt. Richard Wainwright, commanding the Newark, regarding his reconnoissance about Santo Domingo was made public at the navy department today. Capt. Wainwright found on his arrival at Sanchez that the daughter and brother-in-law of the American consul agent both had been wounded by the same bullet in the fighting there. He wrote a letter to the commanders of the government and insurgent forces, protesting against further firing in the streets of the city or toward the houses of the inhabitants, and to make his protest effective, landed a force of 29 marines and a company of bluejackets. There was no further firing.

Regarding the firing on the American steamship New York by the insurgent forces while she was unloading her cargo, Capt. Wainwright says: "I arrived at Santo Domingo City about 10 o'clock on the morning of the 11th.

"The New York reported that she had entered Monte Cristi, having cargo for that place, but that Gen. Morales had fired upon the lighters coming out to take this cargo. The New York went to Puerto Plata, where a written agreement was entered into between Gen. Morales and the Clyde agents that the cargo for Monte Cristi, with the exception of arms and ammunition, should be deposited there in the custom house, and later sent overland to Monte Cristi.

"The whole southeastern peninsula is in the hands of the insurgents and Santo Domingo City is surrounded and closely invested by about 1,500 men of the insurgent forces.

"The steamship New York arrived shortly after me and at noon went alongside the dock in the river to unload her cargo, about 1,900 barrels.

"Capt. Miller of the Columbia had made a written agreement with the commanding generals of both forces that there would be no firing on that side of the city while the New York was at the dock.

"The Columbia's steam launch, with a large United States flag in the bows, went into the dock preceding the New York also flying an American flag. The insurgents from the east bank of the river fired upon the New York and upon the Columbia's steam launch.

"After consultation with Capt. Miller, and by his direction, I moved to a position directly opposite the river and shelled the east bank of the river in order to drive back into the interior all insurgents in that neighborhood, preparing the way for landing a battalion composed of the landing force of the Columbia and Newark.

"The battalion landed at about 4:30. At a small town in the interior the insurgents were found in some force, under the command of Gen. Jose Tiburzer.

"Such things neither make the blood any purer nor the system any cleaner, and to depend upon them alone is suicidal and senseless. The sore or ulcer is only a symptom, an outlet for the poisons circulating in the blood, and as long as it remains impure the sore will never heal. It may scab over and appear to be getting well, but a fresh outpour of matter from the diseased blood starts it again, and thus it goes on, sometimes for years, slowly sapping away the life of the patient.

The only way to get rid of these disgusting evidences of impure blood is to remove the cause by purifying the polluted blood, and nothing does this so surely and effectively as S. S. S. It drives out of the circulation impurities and germs of every kind; and under the tonic effect of this great remedy the general health rapidly recuperates and broken-down constitutions are built up and strength and vigor are restored to all parts of the system. When S. S. S. gets into the circulation, impurities that have been clogging the blood and causing the old sore or ulcer, are driven out through the natural channels of the body, and the place begins to heal, the discharge gradually ceases, new flesh forms and smooth, healthy skin hides all signs of the painful, sickening sore.

S. S. S. is an entirely vegetable remedy, containing both purifying and tonic properties, making it the ideal medicine where the blood is out of order and the health undermined by some previous ailment resulting in chronic sores, ulcers, boils or abscesses.

A sore that does not heal promptly, no matter how small, will bear watching. It is a sure indication of bad blood, and may develop into something far more serious than a common ulcer. It may be Cancer. Through our medical department we are rendering valuable help to those afflicted with sores and ulcers of various kinds. Write us, and our physicians will advise you without charge.

## Ayer's Hair Vigor

No hair? The trouble is your hair does not have life enough. Save your hair. Feed it with Ayer's Hair Vigor. If the gray hairs are coming, and you begin to look old, remember that Ayer's Hair Vigor restores color every time. Tested for over half a century.

21.00 a bottle. All druggists. J. C. Ayer Co., Lowell, Mass.

The general was warned to remove his forces at once back into the interior away from the east bank of the river, and that he should not fire on the town again from that side. He signed another written agreement to that effect and at once collected his forces and marched his men into the interior.

## To Save the Fur Seals.

Washington, Feb. 24.—The senate committee on foreign relations today considered Senator Dillingham's bill to prevent the extermination of fur-bearing animals in Alaska.

Arguments in favor of the bill were made by Messrs. Dillingham and Nelson of the special committee which visited Alaska with a view to suggesting legislation needed by that territory.

Turkey and Bulgaria are on the point of reaching a Pacific understanding regarding Macedonia.

## U. S. WARSHIPS RECALLED.

Result of Ratification of the Panama Canal Treaty.

New York, Feb. 25.—Ratification of the Panama canal treaty resulted in the immediate recall of the United States warships and about one-half of the marines from the isthmus says a Herald dispatch from Panama.

The Marbled, Petrel, Wyoming and two torpedo boats will remain on the Pacific side. The New York, Boston, and Bennington will proceed to Callao.

On the Atlantic side all the warships except two will proceed north for the maneuvers. Four hundred and fifty marines, under Maj. Cole, will leave Thursday for Guantanamo. The belief is that they will proceed later to Santo Domingo. Despite Colombia's internal disturbances, letters just received from there declare that the Colombians are ready to fight as soon as news arrives that the treaty has been ratified.

One general is quoted as saying that if the government does not declare war the troops on the border will invade Panama anyhow.

The last information from the coast is that another regiment of soldiers has been sent from Cartagena to the frontier.

Half of the 4,000 soldiers originally sent to Titumati have been moved 25

miles further up the Darien coast toward Panama.

It is known that at Inaniquana, the San Blas chief, has visited Titumati three or four times. American officers have given him notice that the big canoes he has collected near the frontier, if used to transport Colombian troops, will be sunk. He promised to remain neutral and said he wished peace.

On account of the feeling of the Indians the Panama government has displaced Inaniquana as the principal port and has named Henry Clay, whose headquarters are the mouth of the Rio Diablo, to be governor-general with a command in the army.

San Blas is very friendly to the Americans and flies the Panama flag. If the Colombians carry out the threat to attack they cannot reach the railroad as fast as vessels can be sent from the United States after news of the advance arrives.

## Will Watch the War.

Washington, Feb. 24.—Lieut. Granville R. Porteus, Fourth cavalry, one of the president's military aides, at his own request, has been granted leave of absence and will go to the far east as a personal observer of hostilities from the Japanese side.

## Japan Seizes Mess Beef.

Nagasaki, Feb. 24.—The Japanese government has seized 670 tons of mess beef which was shipped from San Francisco on the steamer Korea, Feb. 2, and which was consigned to the Russian government at Vladivostok. It is thought that the Japanese government will purchase the beef.

## FIVE ACCEPT.

Will be Members of Panama Canal Commission.

Washington, Feb. 24.—President Roosevelt has received definite acceptance from five of his appointees on the new isthmian canal commission. They are:

Rear Admiral John G. Walker, United States navy, retired.

Gen. George W. Davis, United States army, retired.

Col. Frank Hecker of Detroit, director of transportation during the Spanish-American war.

William Barclay Parsons, engineer of the New York subway.

William H. Burr, professor of engineering at Columbia university, New York, and at one time a member of the Walker Isthmian Canal commission.

It is quite likely, although it has not been determined absolutely, that the other two members of the commission will be Benjamin M. Harrod of New Orleans, an engineer of the Mississippi River commission, and C. Edward Grunsky of San Francisco, a distinguished

hydraulic engineer. It is believed that Mr. Grunsky will accept.

It was hoped by the president that Alfred Noble, engineer of the Pennsylvania railroad, would accept one of the appointments, but it is understood tonight that he has declined definitely.

The president expects to complete the personnel of the commission soon, perhaps tomorrow. He will send the appointments to the senate at once.

## JAPANESE CABLE.

One May Possibly be Landed on Guam.

Washington, Feb. 24.—Inquiries have been addressed to the government by representatives of the Commercial Cable company as to whether permission could be secured to land on the island of Guam, an ocean cable connecting with Japan. The request is based on apprehension that the existing Japanese cables, both of which run to Shanghai, crossing the mouth of the Yellow sea, may, from the exposed positions, be cut by the Japanese, and Japan be left completely isolated from the world.

At Guam the projected cable, of course, would be connected with the existing American cable east and west.

Careful examination has been made into the question as to whether or not assent on the part of the United States to this request would involve a breach of neutrality. The decision reached was in the negative, on the ground that a cable is a commercial instrument, like a mail ship.

## COMMANDER MARSHALL.

Called on to Explain Reports About His Conduct.

Washington, Feb. 24.—The navy department has called on Commander Marshall, commanding the gunboat Vicksburg at Chefoo, Korea, for a full report regarding the attack of the Japanese fleet on that port on Feb. 8, and of the subsequent incidents. Both here and at St. Petersburg the report that Commander Marshall refused to rescue Russian sailors from the sinking ship Variaz is discredited, but an official version of the affair is desired by the government.

## DOVER SUCCEEDS HEATH.

Appointed Secretary of the Republican National Committee.

Washington, Feb. 24.—Postmaster-General Payne, acting chairman of the Republican national committee, today formally appointed James D. Overton, of Dover, Delaware, as secretary.

He will serve until the meeting of the committee preceding the Republican convention.

William F. Stone, collector of customs, will continue to serve as secretary-at-large of the Republican national committee, at the request of Postmaster-General Payne.

## "Accept This Letter From a Grateful Friend."

## PAINE'S CELERY COMPOUND.

Lifted Awful Fear of Sudden Death from Her Mind—Cured Her Heart Weakness, Sinking Spells—Neuralgia—Troubles Common to a Million Women.

You will realize, as you read Mrs. Arnold's letter that the worst of all her sufferings was the grim foreboding of sudden death.

Every tired, worried, overstrained woman knows these morbid fancies and fears, which are the direct result of run-down nerve system and lack of nerve vitality—neither more nor less.

Paine's Celery Compound restored her nerves to strength, and, in turn, the nerves at once restored to her mind the brighter outlook, and to her heart the healthy action that Mrs. Arnold acknowledges with so much gratitude.

## MRS. ARNOLD SUFFERED FROM

Heart Disease, Palpitation, Sinking

Feelings, Neuralgia, Morbid

Brooding.

## HER LETTER:

186 Crown Street, New Haven.

December 2, 1903.

"Please accept this letter from a grateful girl. Paine's Celery Compound has lifted from my mind the fear that haunted me for years—the foreboding of sudden death by heart disease. Several members of the family on my mother's side have been taken off without a minute's warning.

"I had palpitation of the heart every time I tried to do active work, and I could not go upstairs without the awful sinking feeling—as if in another second I would be dead.

"Doctors bled me several times, and another doctor told me that my trouble was neuralgia of the nerves of the heart, which were breaking down. I did not have the courage to abandon doctors, but without saying anything I took the advice of a friend, who sent me a book about Paine's Celery Compound in which there was a letter from a lady whose case was almost exactly like mine.

"I took the Celery Compound regularly, and it is two months now since my husband and I agreed that it was a complete cure.

"I did not dare to try for years I have no more sinking spells or palpitations, and my heart beats as sound and regular as any other woman's.

"I took the Celery Compound regularly, and it is two months now since my husband and I agreed that it was a complete cure.

"I did not dare to try for years I have no more sinking spells or palpitations, and my heart beats as sound and regular as any other woman's.

"I took the Celery Compound regularly, and it is two months now since my husband and I agreed that it was a complete cure.

"I did not dare to try for years I have no more sinking spells or palpitations, and my heart beats as sound and regular as any other woman's.

## EVERY ONE OF MRS. ARNOLD'S SYMPTOMS

had, as its real cause—Weakness of the Inner Nerves, and the resultant weakness of the various organs of the body, all of which depend directly on Nerve Force.

PAINE'S CELERY COMPOUND CURED THE REAL CAUSE.

DISCOURAGED WOMEN FIND BLESSED HEALTH AND STRENGTH IN PAINE'S CELERY COMPOUND.

The strains that fall to woman's lot can be met only by strong and healthy nerves. Her nerves are more delicate than man's—they feel the strain of life's affairs more keenly.

Practically all of the troubles peculiar to women are due in the beginning to overstrained and weakened nerves. Paine's Celery Compound nourishes and restores the nerves and makes them strong enough to stand the strains. And, through the nerves (the only scientific

employing classes the security of their property.

Mr. Beck said he represented the Building Trades League of Chicago, the American Anti-Boycott association and the National Association of Marble Dealers.

Mr. Beck declared that if enacted into law the bill would effectually repeal the Sherman anti-trust law. Under it it would be possible to form the Northern Securities company on the ground that such a combination would be in furtherance of settlement of trade disputes.

## POISON IN BREAD.

Used for Baking Powder and Five Are Dead.

Cayuga, I. T., Feb. 24.—Five members of the family of P. S. Crawford are dead as the result of eating bread in which arsenic poison had been mixed by mistake for baking powder.

Crawford bought the arsenic to be used in medicine for hogs and placed it in an empty baking powder can. His wife thought it was baking powder and used it in making bread.

## Postoffice Robbed.

Pendleton, Or., Feb. 24.—Four masked and desperate robbers entered the postoffice at Cayuga, 12 miles east of here, last night, bound and gagged John McNemey, the clerk, and looted the establishment, carrying off with stamps, cash and merchandise to the amount of \$150. The safe was blown open and with the violent explosion a portion of the building was torn away.

Sheriff Taylor, with a posse, is pursuing the outlaws.

## HANNA'S SUCCESSOR.

Uncertain Who Will be Chairman of Republican Committee.

Washington, Feb. 24.—There has been considerable discussion about the senate and house about the probable successor to Senator Hanna as chairman of the Republican national committee, and the names of Senator Scott of West Virginia, Senator Penrose of Pennsylvania and Representative Dick, who is slated to be Senator Hanna's successor in the senate from Ohio, are most frequently mentioned.

A suggestion also is made that Senator Aldrich not doubt will be connected with the committee in some capacity, probably as chairman of the finance committee.

It is said of both Senator Scott and Representative Dick that they were closer politically to Senator Hanna than any other men, and having been through two national campaigns with him, know more about his methods and his connection with national politics than any other men.

Col. Swords, who for a long time was sergeant-at-arms of the national committee, recently wrote a letter to Senator Scott concerning Senator Hanna, in which he said: "In the last conversation I had with Senator Hanna just before he went to Ohio previous to his election, and the last time he was in New York, I congratulated him upon appointing you as chairman of the subcommittee on arranging for the convention in Chicago, and he said: 'Scottie, why he knows more about running a national convention than any man in the country, and he is closer to me than any friend I have. He is a great, big-hearted fellow, as good as gold and as true as steel, and I cherish him as one of my best friends.'"

## WEBSTER'S UNABRIDGED DICTIONARY.

MRS. E. CHURCHILL ARNOLD, 186 Crown St., New Haven, Conn. From her heart she sends her acknowledgment for Perfect Health and Happy Confidence—Restored by Paine's Celery Compound.

## Des Moines, Ia., Sept. 2, 1902.—Paine's Celery Compound is a blessing to suffering women I have been a constant sufferer from various ailments until I was induced to try Paine's Celery Compound. I am glad to say that it has done more for me than any other medicine I ever used.

MRS. H. A. CARTER, 1217 Maple St.

## "Trace every disease or pain to the TRUE CAUSE. Pain is only the symptom. It is idle to treat the pain itself. The only true cure for suffering is the cure that CURES THE TRUE CAUSE—Weakness of the INNER NERVES."

—Professor Edward E. Phelps, M. D., L.L.D., of Dartmouth College. Famous Discoverer of Paine's Celery Compound.

MISS CLARA FOWLER, 136 N. 11th St.

## WOMEN SUFFER NO MORE.

Philadelphia, Pa., Sept. 2, 1902.—I had sick headaches and was so run down that I often said that life was not worth living. I had awful pains in my head and could not sleep any length of time. A friend told me about Paine's Celery Compound. I thought I would try it, and I had not taken half of the first bottle before I obtained relief, and I began to get well. I continued to take your invaluable remedy, and it was not long before I was cured. I feel that I would not be alive today but for Paine's Celery Compound.

MISS CLARA FOWLER, 136 N. 11th St.
