CONCENTRATES.

It is understood that Uncle Jess Knight will this spring send his expert Jenne to inspect the surface showings of the Old Empire. Mining company and that inter in the year he will begin an active campaign of development work there.

campaign of development work there. Frank J. Steckler, superintendent of the Great Falls Mining company, which is working a number of claims in the Star mining district in Beaver county, is in Sait Lake. He asserts that the company now has a shaft down 100 feet. A. E. Heveridge, who for the past two years has been the caller on the Sait Lake Stock and Mining exchange, will leave shortly to devote his time to private business. Mr. Beveridge has been very successful in his position, but it does not allow him the time he finds necessary to devote to his private business. Goorge F. Wasson formerly caller on the Goldfield exchange and also at Cripple Creek has been eu-gaged to fill the position on the local exchange. exchange.

Eagle Mining company in the Nebe mining district, has issued the follow-ing statement: "The Bald Eagle Min ing company has signed contracts with the U. S. smelter of Bingham Junction for the free smelting of its ore, and for all ore that goes over 20 per cent lead the company will receive from \$1 to

Reports from the Demijohn property are that the drift off the 200 foot level is now in a highly mineralized country, and that it is a matter of but a few days until the ore body encountered on the 100 foot level will be struck. The dip of the vein above would lead to the belief that an 85 foot drift would reach the ore. As the drift has been sent nearly that far some good reports are expected within a few days.

MACHINERY AT PIOCHE KING.

Lower Drift on Demiljohn is Going

Through Highly Mineralized Coun-

try Toward Fissure.

In a drift to the east on the 60 foot

level of the Pioche Metals property at

opened up that is of an excellent sil-

Ploche, an 18 inch face of ore has been

ver lead quality, says J. S. Free, who

has just returned from a trip to the

district. He declares that the drift

has been sent in about 40 feet and in

being sent through to catch the fis-

sure that has been opened up in the

lower workings. The ore struck is a

cross desure that it is believed will

lead to the blg fissure. The showing is such that the stockholders in the

company feel much gratified and are

expecting some more interesting de-

colopments shortly. It was expected

that ore would be struck in this drift, but it came a little sooner than was

planned. The strike was made in what is known as the Old Point shaft and from which considerable ore was tak-en at one lime. The ore was lost in the lower workings, but the new own-ers are now back in the famous ore bade create

ers are now back in the famous ore body again. This is not the only good thing that has been opened up on the property recently, but a fine grade of black manganes, ore is being opened up in the shaft on the Martha Wash-ington claim. It is a sliver lead ore of a high grade, showing in some places bromide of silver. This shaft is a new one on the pro-perte

HEAVY SNOW AT PIOCHE.

HEAVY SNOW AT PIOCHE. At the Pioche King property which adjoins the Prince Consolidated and in which it is expected that the Prince Consolidated voin will be encountered, all of the machinery, gallows frame and such other necessary supplies, with the exception of the frame for the holst, are on the ground and being installed. The holst frame weighs about 18 tons and on account of the deep snows and the muddy roads it is impossible to move it at present. The anow from the recent storm is the heaviest this win-

William M. Cowley and associates are inaking preparations to work their gypsum mining groperty which is sit-uated a mile east of Venice and two miles north of the town of Glenwood. The mine is known as the Alabiasine and consists of nearly a quarter sec-tion of bind on which there is a per-pendicular ledge of 100 feet. An assay of the gypsum by a local assaying shows 95.5 per cost pure gyp-sum or calcium sulphate. The com-pany has werked a good wagon road through what is known as the Kill-pack nacrows into King's Meadow can-yon running past this ledge. The company proposes to put-in a mill at Venice, where the water power to run the machinery can be accurated. William M. Cowley and associates are

mill at Venice, where the water power to run the machinety can be accured. Tipate is a sufficient fall in the strease there to propel the milling plant. It is also intended to rule a framway from the ledge to the lown for the conveying of the raw material. It is expected that before long a spor-of the sample & the lower for fired will run stong the Vermillion canal south-ward into Venice where is all mean-madate the intervence is and southundate the numerous loss growers a signed. Veries, then sood and th orthern fields of Hick emity. Thi will also be of great bought to the

ground company and afford a re-atlet to the market for its product. WILL BUY OIL CLAIMS. Prom a letter written by P. A. Tacks of Sice Francisco to Represent-

LOCAL MARKETS.

Today's local markets find flours and grain still on the rise. This is due to the continued scarcity in wheat, Millers say that the crope in Colorado and California were comparative failures, which resulted in prolonged demands on Utah for its wheat stocks. These did not has long, the state was left bare, and now the local millers are forced to ship in wheat from the middie states. Moreover, the demand all over the country during the past year, was unprecedented, owing to the enorincus increase of the country's population. This increase will remain a con-

stant quantity, and millers say pro-

staat quantity, and millers say pro-vision must be made for it. Exports to foreign countries cut also something of a figure in the matter. Eggs continue high. They are likely to remain so. The fish market is get-ting back into its normal state with the constitution of storms on the Pacific const, enabling fishermen to ply their calling, and allowing the fish to ap-proach the shores from South Ameri-ca: also, fresh finuan haddles from Boston. Reports continue that the cul-tivation of the Syrlan date has proven a success in the Imperial valley, which is likely by another season to material. a success in the Imperial valley, which is likely by another season to material ly reduce the imports to the west o the oriental fruit. "Blood Atonement and the Origin of Plural Marriage.

Plural Marriage. A paimphlet containing over a hun-dred pages, has just been issued. This brochure contains a discussion on the questions quoted, between Elder Jo-seph F. Smith, Jr., and Mr. Richard C. Evans, the latter gentleman begin second counselor to the present of the "Reorganites." The questions are en-tered into exhaustively by both sides, and a great deal of valuable informa-tion is given. Elder Joseph F. Smith, Jr., shows by historical data and in-controvertible deductions that the pa-sition of his oppenent is untenable. Post paid to any address, 200.
