

# MINING, BUSINESS AND STOCKS

## STOCKS SHOW FEW CENTS GAIN TODAY

Daily Judge at \$9.50 is Notable Instance—Utahs Are Favorites.

### DEALERS ARE STILL TIMID.

Recent Affairs of the Pit Have Put Brakes to Wild Speculation—Inflation Punctured Also.

One Nevada stock—Seven Troughs—came in for some attention on the local stock exchange this morning but outside of this one exception trading showed some tendency to brace up, although trading as a whole is not as lively or strong as is customary in the Salt Lake pit. The "affishness" being displayed by the local market cannot be attributed to any particular cause; it is due to the unsatisfactory condition of markets in general. The dealers talk vaguely about "Wall street furies," "Lawson's maneuvers," "Goldfield strike," etc., but further than generalizing widely can furnish no reason for the present lethargy. Evidently few buying orders are being placed and less speculation is being performed than is usual. This fact is a lining to the cloud and is believed to be about the solid condition of things. The next Nevada stock, Goldfield, is considered beneficial in some sense to the market and when affairs at Goldfield are finally straightened out stocks will be nearer their real value than they have been for some time.

#### DAILY JUDGE STRONGER.

Daily Judge opened the regular call this morning a half dollar higher than it was yesterday morning. One sale constituted this stock's activity, 150 shares going at \$9.50. Star Consolidated sold during the regular call at \$10 yesterday's open board call figure. After 130 shares had been transferred for the price the stock bowed out to make room for Utah which went at \$2.00. Ten cents more was asked for this stock yesterday morning but none came into play. A block of 400 shares sold during this morning's regular call, and 200 at \$1.50 also during the open board run. New York was taken up this morning at 20 cents; 500 being bought at the price during each call. The forenoon sales and closing quotations follow:

Forenoon total ..... 17,150 34,370.00

#### AFTERNOON QUOTATIONS.

What is Being Bid and Asked for Stocks on Exchange.

#### Goes AFTER CAPITAL.

George Weston, the well known mining man of Ophir, is determined to put up the property owned by the Blue Point Mining company, and in this end left last evening for the east, where he will close up a deal which will finance the company and place it in position to carry on active development, and the new management. Several countrymen have shown beyond a doubt that many properties exist in that district. The Blue Points holdings are in the Bradshaw district, about nine miles east of Millford. Gold and copper values have been found in the ore of the properties by the way, and has been directed towards opening up ground at any depth. A tunnel driven in recent days shows ore on its face. With capital, surprising results will follow.

#### HAVE YOU THE CHURCH WORKS?

No longer-day Saint's home should be without the standard Church publications on the conceivable or in the library. Send for the new free catalogue. Deseret News Book Store, Salt Lake City.

CHILD, COLE & CO., BROKERS,

COPPER, Cathodes ..... 25 1/2  
LEAD ..... 6.00

#### NEW YORK QUOTATIONS.

LEAD, Quiet ..... 6.00 @ 6.30  
COPPER, Quiet ..... 25% @ 25%

## LEAVES TO BEGIN WORK IN ROSEBUD

Mose Davis and George Tinsman Have Gang of Men With Them.

#### HO! FOR THE FLEUR DE LIS.

Development is to be Carried Ahead On Six Claims With Two 3,000-Foot Veins.

A company that means business and is starting to perform at the ink on its incorporation papers is still wet. It is the Fleur de Lis Mining company, organized here yesterday. This is the company of which Judge S. R. Thurman was elected president; E. A. Wedgewood, vice president; J. M. Johnson, secretary and treasurer and Dr. W. R. Calderwood and Judge W. M. McCarthy, directors. Mose Davis, formerly a leading legal light of this city and now a mining man, whom success still favors, leaves this afternoon for the new company's group of six claims in the Rosebud district and only 3½ miles from the town of Rosebud itself. With Mr. Davis George S. Tinsman, one of the best known mining men in the west, Mr. Tinsman has been selected as superintendent of the entire workings of the company and has with him a gang of 10 men. These men are the nucleus of a big working force which will be established gradually and as developments at the property warrant.

#### TO ESTABLISH CAMP.

A blacksmith outfit, assaying outfit, lumber, tents, provisions and other material needed in a camp just starting are on the ground now, having been sent out from this city some few days ago. As soon as the men get on the ground a camp will be established and when the men are comfortably quartered development will be started. Two men have been engaged "driving in" on two distinct veins running northeast and southwest through the six claims. These veins carry fair values and are considered by the present owners as most promising surface indications. Assays show an average value of \$26 although a few picked samples from pockets have gone much higher than this. While the men are working, the property will be surveyed and boundaries determined. The property is not yet staked out, but a start will be made.

Charles Hayden is in this city from Boise. Mr. Hayden says Idaho has a whole bunch of great mining districts, which appear to be in the same stage of development as the Rosebud.

The largest deal of the day was in Ely City business lots. J. S. Lewis and J. A. Adams of Ogden, Utah, taking several lots valued at more than \$10,000.

The deal was closed by Fulmer & Lewis, through whom the negotiations were carried on. The buyers wanted to locate a large jewelry house in Ogden, heavily interested in real estate in that city. He has made a careful investigation of conditions in Ely, however, and has been fully satisfied as to the future of this section and will identify himself with the local reality and business interests.

It is the opinion of Ely will in a short time be the largest city in Nevada, and within a few years will be a second Butte.

The new owners of the property will erect modern business blocks of two stories on the land. Work is to be commenced on the buildings as soon as the needs of the town can be determined and the plans completed.

Mr. Johnson of Salt Lake purchased yesterday from Fulmer & Lewis lot 2 block 36 on Eleventh street, Ely City, for \$2,000.

A contract will be let at once for the construction of a modern two-story cement block building, which will be completed within 60 days. The upper floor of the building will be furnished in modern style for apartment and commercial purposes, and the lower floor, 27,000 sq. ft., will be rented for business purposes. The construction of the building will be supervised by Fulmer & Lewis.

#### INYOKA LOOKS PROMISING.

Judge Thurman visited the property some time ago and in his conservative convincing manner says, "We consider the Fleur de Lis promising, but are not trying to boom it nor even give any sensation. We think it is good enough for us and are spending our own money to carrying on the investigation we have been pursuing for some time. We have done practically no development work yet, but have found the best surface showings in the district. Little doubt is expressed by those who inspected the ground that the Fleur de Lis will prove a good paying mine and will reward amply those who are now inaugurating a campaign of careful development, unaccompanied by the noise and blare of "booming" trumpets.

#### GOOD FIND IN MAY DAY.

The good news spread yesterday afternoon that in driving a slope from the 60-foot to 300-foot level the miners working in the May Day had uncovered a 10-foot vein of silver-lead ore, and or something what may be the best payling yet found in the mine. J. E. Davis, general manager of the property, confirmed the ore finding but said he hardly considered it as a strike, because it is simply an improvement over former showings in the stops and not a specific find of ore. In a stop he has none had been seen. Mr. Davis said he considered 20 ounces in silver and 40 per cent lead a conservative estimate of the new ore's values.

#### MOMEL IS A NEW METAL.

The Golden Quarry Mining company of Mt. Pleasant, Sanpete county, filed a copy of its articles of incorporation with the state recorder yesterday. The capital stock of the company is \$100,000, divided into shares of the par value of 25 cents each. Amasa Aldrich is president; H. P. Erickson, vice president; Ferdinand Erickson, secretary and treasurer. The company owns the Golden Quarry claim in Mineral county.

#### CHANGES ITS LOCATION.

Eureka-Swansea Extension Also Increases Its Capital Stock.

(Special to the "News")

Provo, March 22.—The Eureka-Swansea Extension Mining company has filed amended articles of incorporation with the state recorder. The capital stock is increased from \$50,000 to \$100,000, and the general place of business from Salt Lake to Provo.

#### GOLDEN QUARRY.

The Golden Quarry Mining company of Mt. Pleasant, Sanpete county, filed a copy of its articles of incorporation with the state recorder yesterday. The capital stock of the company is \$100,000, divided into shares of the par value of 25 cents each. Amasa Aldrich is president; H. P. Erickson, vice president; Ferdinand Erickson, secretary and treasurer. The company owns the Golden Quarry claim in Mineral county.

#### CHANGES AT WONDER.

Special Correspondence.

Wonder, March 19.—The Spider-Wasp syndicate has recently acquired two groups of claims, one of which is the Ready Cash group, located just south of and almost adjoining its original holding in the Spider-Wasp group, from which several leases are already shipping ore. The Ready Cash group has the same location as the Spider-Wasp, and with an equal amount of work would be in the shipping class. The new owners are besieged with applications for leases, a number of which will be granted as soon as the organization of the company is completed. The holdings will be incorporated into the newly organized company.

#### INTERESTING BITS OF INFORMATION RECEIVED BY JAMES A. POLLOCK & CO.

James A. Pollock and company, bankers and brokers, just received the following interesting bits of copper news. The gleanings came over Pollock's private wire as follows:

The Boston News Bureau says that the Boston Stock Exchange and the New York Stock Exchange are to be merged.

The Boston News Bureau says that the Boston Stock Exchange and the New York Stock Exchange are to be merged.
