

HOW IT STOOD TWO YEARS AGO.

In this City as in Many Others
The Republicans Scored a De-
cided Victory.

MORRIS THE ONLY ONE SAVED.

Figures Showing the Vote for Mayor,
Councilmen and Other Officers
In 1901.

The municipal election two years ago was perhaps one of the most interesting contests in the history of local politics. Then it was a battle royal between the Republicans and Democrats, the former scoring a decided victory. The election next Tuesday, however, promises to surpass them all in point of interest, for the issue is not altogether a political one, but one which involves the settlement of factional differences and disposes of the question whether or not a few well-organized politicians can dictate to the whole people who they shall or shall not have for city officers.

With interest at its height, as it is at the present time, a few figures bearing on the election of two years ago can not be without interest. As no doubt remembered by all who took part at that time, the Democrats went down to defeat while the Republicans, not only in this city but in many parts of the state, achieved a most glorious victory, honestly and fairly won. In this city the only man to escape the avalanche of Republican votes was Hon. R. P. Morris, the present Democratic nominee for mayor, who was elected treasurer by a plurality of 110 over the Republican candidate, Mr. Whittemore, the vote being Morris, 7,537; Whittemore, 7,487. In the Third precinct the Democratic councilmen were elected, while in the Fourth, W. J. Tuddenham, Democrat, won by a small majority over Mr. Hutchinson, Republican. With these exceptions the Republican ticket was elected.

For mayor the comparative vote by districts was as follows:

HOW TO VOTE.

For Those Not Acquainted With
Australian Ballot System.

As a great many electors are not fully acquainted with the Australian ballot system now in vogue in this state, the following instructions are given:

To vote the entire ticket of either party put a cross in the circle under the party emblem.

In voting a scratched ticket, place your cross in the circle under the emblem of the ticket you are going to vote, and run your pen through the names of the persons therein whom you do not wish to vote for; then place a cross in the square on the right of the names that are your preference.

In scratching the name of a long-term candidate for the city council, be sure to put your cross in the square opposite the name of the long-term candidate you wish to vote for, and not before that of a short-term candidate.

PHONES FOR SCHOOLS.

Matter Brought Up at Meeting of Principals—New President.

A new organization was effected at a meeting of principals Thursday afternoon at the city and county building, W. S. Wallace retires as president of the association and will be succeeded by H. S. Halleck of the Franklin. Mr. Barton of the Hamilton will serve for the ensuing year as vice president, and Mr. Nelson of the Jackson as secretary.

The matter of installing telephones in the respective school buildings was liberally discussed. The matter of expenditure will be more thoroughly investigated, after which the board will be asked to accede to the wish of the principals in this regard.

It is held that a great loss of time results from the great absence of telephones, and that affairs can be executed much more expeditiously by the principals, with the aid of this method of communication.

The meeting held by Supt. Christensen in the Bryant school for fifth and sixth grades teachers was well attended. The four elementary principals, together with the management of the respective schools, were present.

The teacher body of the city expresses itself as highly delighted with the courtesies shown the corps at Park City by the management of the several mines visited.

All enjoyed the scenic ride, the pleasant reception at the Central school by the Park City teachers, the sumptuous spread at the mines, and the willingness of mine employees to conduct the visitors through the mines. Everything was carried out with dispatch.

Among the many little parties formed by the visiting teachers at Park City, there was one chartered by the principal of the Jackson, whose experiences were more lasting than all others. These 10 were so lost in the mangle of the mine that they failed to make connections with the last car and only train for home. The alternative, to "allee a pied," was not embraced.

As a result, they continued their sojourn until picked up by the Sunday evening train.

The initial meeting of the Salt Lake City Teachers' association was to have been held at the West Side high school building yesterday and a reorganization effected, but there was no quorum present and the meeting adjourned until Nov. 13.

Meetings for the coming week are: Tuesday, Mr. Wetzel at Fremont school for eighth grade teachers, 4:15 p. m.; and Mr. Parratt at city and county building, sixth grade teachers, at 4:15 p. m. Wednesday, Miss Pollock at city and county building, for second grade teachers, at 4 p. m. Thursday, Miss Pollock at city and county building, for third grade teachers, at 4:15 p. m.

Supt. Christensen meets the seventh and eighth grade teachers at Bryant

school next Wednesday afternoon, subject, "English Grammar."

A parents' meeting will be held at the Fremont next Friday. Mrs. Young will preside.

Eureka teachers were visitors of the city school this week. Prof. Carlson had the corps in charge.

The high school has for the first time in its history a school song of its own. It is sung to the tune of "Die Wacht am Rhein."
