A World correspondent has interviewed Senator Sumner and obtained his views on the recognition of Cuban belligerency. The Senator is strongly opposed to recognition as the case now stands. Hegave as one feasonfor his opposition that recognition would in-stantly involve the United States in a war with Spain, which, in consequence of the financial crisis, would shake the pillars of the Government to the very foundation; besides he is not sure as to which would come out first best in the event of a contest between the United States and Spain. Summer believes however, that both Ciba and Canada will be peaceably annexed to the Union within the next ten years, and that we shall also absorb Mexico, the West Indies and the whole of the North American continent. He says that we have the moral right not only to this continent but to the whole of this hemisphere.

as well as the wear and tear of clothing attendant upon so much washboard rubbing as is usually necessary to bring the clothes to a proper degree of cleanliness,

Some women are in the habit of using Turpentine, Alchol, Ammonia, Camphor Gum, &c. in their washing fluids; but none of them ought ever to be used for such purposes (one woman lost the use of her arm for six months by using a fluid containing Turpentine); The Turpentine and Alchol especially tend to open the pores of the skin and thus render the person more liable to take cold as also to weaken the arms. This Causes a great saving of SOAP and LABOR to take cold as also to weaken the arms. This Compound does not fade but brightens Calicos. It is well adapted for Washing Machines.
