THE ANARCHISTS.

One to be Imprisoned for 15 Years, The Others to be Hanged December 2d.

CHICAGO, 9.—In the Anarchists' cases to-day, Captain Black entered a motion in arrest of judgment and the court proceeded to execute the solemn duty devolving upon him. The Judge exhibited considerable emotion and when he reached the word "hanged" he faltered and with difficulty uttered "until you are dead." The prisoners who had turned to listen to the sentences with added pallor exhibited no other emotions on hearing the fatal words. As they arose, Mrs. Parsons came up and kissed her husband. The relatives of the other defendants wrung their hands but none of the women shed tears. Judge Gary's words in imposing the sentence will not soon be forgotten. They were as follows: "I am quite well aware that what you have said, although addressed to me, was

SAID TO THE WORLD.

Yet nothing has been said which weakens the force of the proof or the conclusions therefrom, upon which the verdict is based. You are all men of intelligence and know that if the verdict stands it must be executed. I am sorry beyond any power of expression for your unhappy condition and the terrible events which have brought it about. I shall address to you neither reproach nor exhortation. What I shall say shall be in the faint hope that a few words from the place where the people of the State of Illinois have delegated authority to declare the penalty of a violation of their laws, and spoken upon an occasion so solemn and awful as this, may come to the knowledge and be heeded by the ignorant, deluded and misguided men who have listened to your counsel and followed your advice. It is not least among the hardships of the peaceable, frugal and laborious poor to endure the tyranny of mobs who with lawless force dictate to them under the penalties of peril to limb and life, where, when and upon what terms they may earn a livelihood for themselves and their families. Any government that is worthy of the name will strenuously endeavor to, secure to all within its jurisdiction freedom to follow vocations and

SAFETY FOR THEIR PROPERTY

and their persons while obeying the law, and the law is common sense. It holds each man responsible for the natural and probable consequences of his own acts. It holds whoever advises murder, that is committed pursuant to his advice, and if men band together for forcible resistance to the execution of law, and advise murder as a means of making such resistance effectual, whether such advice be to one man to murder another, or to a numerous class to murder the men of another class, all who are so banded together are guilty of any murder that is committed in pursuance of such advice. The people of this country love their institutions, they love their homes, they love their property. They will never consent that by violence and murder those institutions shall be broken down, their homes despoiled and their property destroyed. And the people are strong enough to protect and to sustain their institutions and to punish all the offenders against their laws. And those who threaten danger to civil society, if the law is enforced are leading to destruction whoever attempts to execute such threats. The existing order of society can be changed only by the will of the majority. Each man has the full right to entertain and advocate, by speech and print, such opinions as suit themselves, and the great body of people will usually care little what he says. But if he proposes murder as a means of enforcing his opinions, he puts

OWN LIFE AT STAKE,

and no clamor about free speech, or evils to be cured or wrongs to be redressed, will shield him from the consequences of his crime. His liberty is not license to destroy. The toleration that he enjoys he must extend to others, and he must not arrogantly assume that the great majority are wrong and may rightfully be coerced by terror or removed by dynamite. It only remains that for the crime you have committed and of which you have been convicted, after a trial unexampled in patience, in which an outraged people extended to you every protection and privilege of the law which you derided and defied, that the sentence of that law be now given. In form and detail that sentence will appear upon the record of the court. In substance and effect it is that the defendant Neebe be imprisoned in the State Penitentiary at Joliet, at hard labor for a term of fifteen years, and that each of the other defendants, between the hours of 10 o'clock in the forenoon and 2 o'clock in the afternoon of the third day of December next, in the manner provided by the statutes of this State, shall be hung by the neck until he is dead. Remove the prisoners."

Vigilantes' Work.

DENVER, 9.—A Montrose special to the *News* says: This morning the body of John F. McLees was found dangling in mid-air from the gate beam of the stock yards, having been dead several hours. The cause of the hanging is as follows: Several weeks ago Billy McLees, his son, a worthless tin horn gambler, was ordered to leave Montrose. Refusing to go the city marshal put him in the caloboose until midnight, when he was put on the train and forced to leave. His father, mining at Cow Creek, learning of the fact declared vengeance on the marshal, mayor and several members of the vigilance committee, and came to town armed with two revolvers, a bowie knife and a shot gun. He became intoxicated and then started out to do his killing. The officers learning of his intent, were on the alert and succeeded in capturing him and lodging him in jail, from whence he was taken at two o'clock morning by the vigilantes and hung. The deceased was well known over the west for the past twenty years as a "killer." He was implicated in several killing affairs in Kansas towns where he acted as marshal in 1881. He killed Cal Hayes in Gunnison, Colorado, for which he barely escaped hanging. His people live in Coffeeville, Kansas.

Cattlemen to Meet.

CHICAGO, 9.—Formal calls have been issued for the annual meeting of the National Cattle Growers' Association of America to be held in this city Monday, November 15th. The meeting, it is declared, will ratify the articles of consolidation agreed upon last fall between the committees representing the Chicago & St. Louis Association, and the 16th a joint meeting of the two organizations will be held for the purpose of effecting a permanent organization, to be known as the Consolidated Cattle Growers' Association of America. A call has also been issued by order of the joint executive boards of the two existing associations for a delegate convention of cattlemen for all quarters of the United States, to be held November 16th and continuing until the important business to come before the meeting is dispatched. These delegates are to be appointed by the various Cattle Growers' Associations, the Governors of States and Territories, State and National Departments of the Boards of Agriculture, Agricultural Colleges, Live Stock Exchanges and the live stock and the agricultural press. The meetings are to be held while the American Fat Stock Show is at its height. All the railroads centering in Chicago will grant reduced rates of fare during that exhibition.

A Big Contribution.

LINCOLN, Neb., 9.—The following explains itself:

"*Rev. and Dear Sir:*

"In response to the appeal addressed to me by Mr. Parnell, requesting aid for the evicted tenantry of Ireland, I have issued an address to the officers and members of the League and other friends of the oppressed, in which I requested that an Anti-Eviction Fund be started in every branch. We must to the rescue of our people, and save them from the systematic attempt that is now being made for their extirpation. Enclosed please find a draft for $3,000, as my personal subscription to those who are making such a gallant fight for life and liberty in Ireland.

[Signed] JOHN FITZGERALD.
To Charles O'Reilly.

Furious Fires.

PITTSBURG, 9. — Punxsutawney, a mining town in the northern part of the State, was visited by a disastrous conflagration this morning; 35 buildings in the business part of town are in ashes. Among the buildings destroyed were the St. Elmo Hotel, Washington House, First National Bank, Rosenberg's dry goods establishment, Campbell's grocery and Knorr & Co.'s hardware store. The loss will reach $165,000; insurance about $100,000.

Grand Rapids, Dakota, 9.—A great forest fire is raging two mile south of here. A strong wind is blowing the flames rapidly in the direction of the city. It is just reported that the flames have reached Taylor's Station. The fire department has been telegraphed for to fight the flames. The loss to timber is incalculable.

Savannah, Ga., 9.—While men were loading cotton in the forward hold of the British steamer *Lancaster* this afternoon, flames suddenly burst from the hold. The men were forced to leave their tools in their fight for life. The steamer had 5,400 bales of cotton aboard. The entire fire department and a tug were engaged seven hours in pumping water into her. No estimate of the damage can yet be made. The vessel was loading for Liverpool.

The War Over.

DENVER, Colo., 9.—An Albuquerque, New Mexico, special says: General Miles this afternoon issued a congratulatory order generally announcing the close of the most famous Indian campaign on record, and congratulating the troops on the result. With the except on of one small thieving party now in Chihuahua, Mexico, all the hostile Indians have been removed to a place of safety. The document will doubtless correct the false impression tried to be created at Washington that the Apache war is not yet over.

Lawyer Indicted.

BOSTON, 9.—Lawyer James A. L. Whittier was indicted by the grand jury of the Superior Criminal Court today on ten counts, for the embezzlement of some hundreds of thousands of dollars from Harriet D. Reed, a client. The case was continued until Tuesday next, and the prisoner was remanded to jail.

The Big Failure.

CHICAGO, 9.—No particulars at all are yet obtainable concerning the failure. Ferguson is locked up in his private office, and refuses to make any statement as to the extent of the failure that has overtaken the firm. The firm is an old one and stood high. They owned the warehouse, and this was made "regular." A short time ago it was stated that Neeld issued a number of fraudulent warehouse receipts, and that the Chicago and New York banks loaned money on them to the extent above stated. Neeld was one of the directors of the Chicago Board of Trade.

The firm was composed of J. C. Ferguson, his son Ed. Ferguson, Goodbody, of Liverpool, Neeld, a son-in-law, and Howard, also a son-in-law. The latter has his headquarters at New York, and from that place managed shipments. For that reason some banking was done there. The New York Corn Exchange Bank is the heaviest loser. Their loss is placed at $100,000, without any security. The heaviest losers are the banks, in this order: First National, Metropolitan, Illinois National, and a number of others. The Continental is the smallest loser among the banks. Neeld is stated to be the author or cause of the failure of his father-in-law. Some years ago, Mrs. J. C. Ferguson, however, was very wealthy, and loaned money to start the house up. She now holds a mortgage on it. The defalcation, great as it is, is believed to have been carried through a year, and it is presumed it started with really no dishonest motive. But the buyer's receipts were soon beyond his control, and before he left he sunk everything out of sight. The house of J. C. Ferguson & Co. is one that has been extensive for 25 years. It was in existence in Indianapolis before Chicago was a packing centre. Neelds married the daughter of J. C. Ferguson, whom he has now ruined through his alleged crookedness.

Another Seizure.

SAN FRANCISCO, 9.—The steamer *Alexander II*, which arrived to-day from the Arctic, brings news of the seizure and confiscation of the American schooner *Henrietta* and her cargo by the Russian steam cruiser *Parrotte*. The particulars of the seizure are meagre, but are to the effect that the Russian commander claimed that the *Henrietta* had, contrary to the Russian laws, been trading in Russian ports. The commander further claims that these facts can be substantiated by the *Henrietta's* log. The cargo is valued at $15,000. The *Henrietta* was placed in charge of a prize crew and was sent to Pepopanlarski.

Archbishop Purcell's Affairs.

CINCINNATTI, 9.—Archbishop Elder has addressed a long letter to the Catholic clergy and laity of the diocese of Cincinnati, on the subject of the debts of the late Archbishop Purcell, who failed for about $4,000,000, some years ago, owing most of that amount to poor people who had entrusted their savings to him. The Archbishop, after reproving certain journalists for giving circulation to the report that the Pope had ordered him to pay off the claims, says: "If it were right that the churches and other religious institutions in the diocese should be sold for those claims, I wouldn't wait for any suit at law to sell them at all, but would begin again in rented halls. But these churches, schools and asylums do not belong to me. They were built or bought with money to serve the best and highest possible interests themselves and to educate the children and future generations for all time to come. But the truth is, that the debt is not of the diocese or church, because the money intrusted to the Very Rev. Edward was not loaned to him for religious purposes. The owner brought it to him to take care of it, when they were afraid to trust it with the banks and merchants." After explaining that Archbishop Purcell was accustomed to loan money on 6 per cent. interest without any security, and that he lost an enormous sum in this manner, the address refers to the steps taken to relieve the most destitute and concludes: "After a good deal of study and consideration I believe we have devised a way by which to overcome the obstacle which has caused ourgdelay. It is not yet sufficiently matured for me to say more about it now. In our diocesan synod which is to be held this month, I hope to complete arrangements for carrying it into effect. I would not excite the vain hope of obtaining an amount even approaching the sum of the claims, but some little we can do, and we shall earnestly endeavor to make that little as great as possible."

SUNDAY'S DISPATCHES.

Recent Rates Restored.

NEW ORLEANS, 10.—A special from Vicksburg to the *Picayune* says: The general freight agent of the Queen and Crescent Railroad system has orders to abandon all tariff freight rates fixed by the Mississippi Railroad commission, which have been in force for the last three months, and to resume the former rates as fixed by the company. It is supposed that this order is justified by the order of Judge Hill, of the United States Court of Mississippi, in the case of the Vicksburg and Meridian Railroad, which road is in the hands of a receiver.

Big Business.

BOSTON, 10.—A table compiled from special dispatches to the *Post* from managers of the leading clearing houses in the United States gives the total clearances for the week ending October 9th, $1,174,314,956; per cent. of increase, $2.53.

Murder.

CHICAGO, 10.—*Inter Ocean* South Bend special: John Hempenstall, a dissolute farm hand lately discharged from the employ of Mrs. O'Neill, returned to the farm to-day for his clothes. While he was in the house Ida O'Neill, a handsome girl aged 17, came home from church, and as she entered the house Hempenstall drew a revolver and fired three shots, each one of which took effect, and the girl will die. Hempenstall escaped and is now at large. It is supposed the motive for the act is that Miss Ida refused to accept his attentions.

Pleuro-Pneumonia.

WASHINGTON, 10.—The Commissioner of Agriculture, in a letter to the Secretary of the Massachusetts Commission, says: Dr. Salmon, Chief of the Bureau of Animal Industry and Drs. Murry, Trumbull and Rolland, a veterinarian of long service in the Bureau of Animal Industry, unhesitatingly pronounce the disease among the cattle in certain distillery stables at Chicago to be pleuro-pneumonia and lung plague.

Dr. Hartment is doing all that is possible toward exterminating this disease. It still prevails in and around New York City, New Jersey, Pennsylvania, Delaware and in Baltimore, Virginia and Maryland. He advocates the passage of a law by Congress that will give the department authority to slaughter diseased and exposed animals and a limit suffered to at least partially indemnify the owners. He claims that such a law would confine the plague within its present limit, but it would not extirpate it.

Double Tragedy.

ST. LOUIS, 10.—Shortly before the performance was to begin this evening at the Alhambra theatre, a variety hall on St. Charles Street, a terrible double tragedy was enacted behind the scenes, Josie Martelle, a rather pretty "specialty" woman, being stabbed and instantly killed by Frank Handheyer, who saved the hangman a job by immediately ending his own existence The victims of the tragedy are said to have been husband and wife, or at least to have occupied that relation to each other. The cause of the murder and suicide is supposed to have been jealousy.

Fatal Accident.

CHICAGO, 10.—Meagre particulars have been received from South Chicago of an accident which occurred there this afternoon. The roof of the repair shops of the North Chicago Rolling Mills, is reported to have fallen and burying under it a number of laborers, one of whom was removed dead and nine more or less injured.

Mrs. Parsons Speaks.

CHICAGO, 10.—Mrs. Parsons, wife of the Anarchist under sentence of death in Chicago, addressed a meeting of 400 people in Druid Hall to night. She spoke in defence of the Anarchists and martyrs in Chicago. The proceeds of to-night's meeting are for her personal needs, while she will endeavor to raise money in other ways for the benefit of the condemned Anarchists.

An Editor Gone.

WASHINGTON, 10.—George W. Adams, president of the *Evening Star* Newspaper Company, died at his home in this city this morning. Adams was a well known and prominent newspaper correspondent for many years and was always popular and much liked by a large circle of acquaintances.

The States' Claims.

WASHINGTON, 10. — Third Auditor Williams, of the Treasury Department, has addressed a letter to the Governor of Indiana, in which he states that in view of the unsatisfactory condition of the records of his office concerning the claims of several States against the United States, filed under the provisions of the act of Congress approved July 27th, 1861, to indemnify the States for expenses incurred by them in defense of the United States and acts supplemental thereto, he had found it necessary to make a thorough examination of such claims in order to arrive at an intelligent understanding of the present condition. The examination of war claims of the State of Indiana, under the acts referred to, has just been completed and he encloses it for the Governor's information.

The Strikers' Situation.

CHICAGO, 10.—In the vicinity of the great packing houses significant preparations are noticed. Pinkerton's force at the yards has been increased to 400 men and each one of them is armed with a repeating rifle and a revolver. The packing establishment of Washington, Britcher & Sons was converted into a barracks and will be the headquarters of the detective force. These headquarters have been connected by wires to a number of stations in different quarters of the yards. To-night a number of patrol wagons are standing about the barracks. Pinkerton's force gets its rations at the transit house, but to-morrow will go elsewhere, as the waiters have decided to serve no meals to them. The Anglo-American Packing Company has made preparations to withstand a siege. There is a high brick wall about the building and precautions have been taken to prevent the admittance of turbulent individuals. Yesterday the company killed 1,200 hogs which were left on the hook and must be packed to-morrow to prevent heavy losses. Armour's packing houses are in the same fix; he has a large number of cots placed in one of his buildings, and the inference is that men are to be imported to do the work. There were no formal meetings of the strikers to-day.

Big Railroad Scheme.

ST. LOUIS, 10.—A special from Topeka, Kansas, says: The Chicago, Kansas and Western railway, and the Atchison, Topeka and Santa Fe R. R. last evening filed an amended charter with the secretary of State, by which they are to build and operate 52 lines in the State of Kansas, and have fixed their capital stock at $104,000,000, thus making their capital stock larger than any other railroad company. The headquarters of the company are at Topeka, Kansas. The directors of this new company are Joab Mulrane, P. J. Medbrake, J. P. Griswold, John R. Mulrane and J. F. Parmlee, of Topeka; D. M. Finney, Neosho Falls; J. A. Burdette, H. L. Dallup, E. W. Kinsley, A. W. Luke, J. F. McKien and E. J. Thomas, of Boston. The combined length of the proposed lines is 724 miles.

Express Robbery.

LITTLE ROCK, Ark., 10.—Advices from Fordyce report a $2,000 express robbery at that place.

Jesse Pomeroy's Rival.

PANAMA, 10.—A horrible tragedy has occurred at Chinquinquira, in the State of Cudinamora, where a child thirteen years of age murdered three children by stabbing them with a rusty table knife and subsequently beating their brains out with a stone. The child murderer is very small for her age, and it is believed that she committed the horrible deed while suffering from an attack of the brain, produced by having been bitten some weeks previously by a mad dog.

The "Anchoria."

ST. JOHNS, N. F., 10.—The *Anchoria's* life-boat, which arrived here this afternoon, was under command of her first officer. The *Anchoria's* main shaft is broken, and she lies under canvas about seventy miles off Cape Spear, bearing east of southeast. The passengers and crew were all well.

Fatal Fire.

CINCINNATI, 10.—This morning, at 3 o'clock, August Becker's residence was discovered to be on fire, and by the time of the arrival of the fire department the place was thoroughly cleaned out. In searching among the ruins, two dead bodies were found. They were those of Margaret Link, aged 60, and her daughter, aged 18.

Murderer Captured.

SAN FRANCISCO, 10.—Albert Koschneiska, who shot and killed Rev. Geo. Haddock, a Methodist minister, at Sioux City August 23rd last, was captured in this city this morning Chief of police Neelon, of Sioux City, left for that place this afternoon with Koschneiski.

Alaskan Explorations.

SAN FRANCISCO, 10.—The *Chronicle* will publish to-morrow, an interview with Asst. Engineer Lane, who was with Lt. Stoney on his exploring expedition of that portion of Alaska north of Zukon River and of Putnam River, which was discovered some two years ago by Stoney. Asst. Engineer Lane arrived here a few days ago in advance of the rest of the party, who are expected here on the United States steamer *Bear* next Friday. The exploring party left San Francisco May 3, 1885. About December 1st, Stoney and a party of sailors started for Noatoak river, about 120 miles north of the Putnam. Soundings of the river were made, as well as surveys of the region through which it flowed. Engineer Lane and several men then started to explore the country in the direction of St. Michaels. That point was reached after a journey of 28 days and a rough survey of the country by compass bearings was made. While Lane was away, Stoney went southwest, in the region of Selenik Lake and the river of the same name. He noted various small lakes, rivers and mountain ranges. Feby. 1st, Stoney went eastward to the headwaters of the Putnam and Noaloak Rivers, and was gone 45 days. About those headwaters he reached an immense lake on the banks of which the natives from the region of Point Barrow, the most northern point on the continent of North America, meet to trade with the Indians of Pugam Valley. It generally takes the natives two seasons to make this trip, the severity of the winter compelling them to remain in winter quarters near the lake. Stoney's intention was to make a trip to Point Barrow from this lake, but an immense arid plain would have to be traversed, which made it impassible on account of the scarcity of dog's food.

FOREIGN.

Rioting in India.

DELHI, 9.—The situation which has grown out of religious rioting between the Hindoos and Mohammedans is extremely critical. Reinforcements have been sent here from Meerat to help preserve order. The Mohammedans last evening attacked a small Hindoo tent. The Hindoos defended it, and a desperate fight ensued, in which the Mohammedans triumphed. The victors besmeared the temple with blood, smashed the idols and destroyed the building. Twenty Hindoos were so badly wounded they had to be removed to the hospitals, where they lie in a critical condition. The troops are sustaining order to-day; serious riots prevail throughout the districts of Jeypoor and Kattygar. The Bengal Government declined to intertere with the native religious customs by initiating reforms looking forward towards abolishing infant marriages and enforced widowhood. The Government insists that the question of reform in these matters must for the present be left with the Hindoos themselves.

SUNDAY'S DISPATCHES

Parliament's Plans.

LONDON, 10.—The *Daily News* says: It is the intention of the government, after promising the Home Rule bill, to take up the procedure measure as the first business of the session. The government have so arranged, he intimated to Lord Hartington and Mr. Chamberlain, but nothing definite has been arranged, although the government hope to carry the Home Rule measure. The majority will prefer to secure the right of cloture first. It is likely that the Parnellites will object to the government's programme and insist that Irish affairs will be the first business.

A Big Anarchist Plot.

VIENNA, 10.—The Vienna police have furnished the press with an account of a recently discovered Anarchist plot to burn Vienna. Although many details are obviously suppressed, the plot is shown to have surpassed in extent and diabolical ingenuity the dynamite plot hitherto concocted. Seventeen conspirators have been arrested. An examination of the prisoners shows that the plot was hatched in and directed from America and London, and was to be carried out by the Viennese Anarchists who recently returned from America. The plot was cleverly organized. The conspirators were divided into several groups, one of which was detailed to set fire to the town, another to take charge of the dynamite operations, and another to forge the necessary official documents and to coin money for expenses. Parties were detailed to set fire to Penzing, Untermeidling, Hetzendorff, Meidling and Favoriten. The police got wind of the plot and watched it until it was almost mature. An Anarchist of Prague gave the first information concerning the conspiracy to the authorities. The plotters were mostly Ezecs and Germans. They held secret meetings in a tavern at Penzing, where the operators were instructed in the use and manufacture of bombs. The seizures include numerous daggers and bombs, dynamite fire bottles for firing buildings, printing and forging implements, and a variety of disguises, all of the most ingenious character. Another plan to obtain money was by means of a forged document, to frighten old ladies at whose houses the plotters would make a domiciliary visit under the pretense of searching for counterfeit moneys, when they would seize all the good money upon which they could lay their hands. The recent fire in a private house was the result of an experiment with fire bottles.

Dr. Henery Rate, Columbia, Pa., considers St. Jacobs Oil the Paln-Killer.

ALL KINDS OF MEATS
