AMERICAN.

WIRED FROM WASHINGTON.

WASHINGTON, 17.—Justice Harlan, of the United States Supreme Court, in his dissenting opinion in the civil rights cases says: The opinion in those cases proceeds upon grounds entirely too narrow and artificial. The substance and spirit of the recent amendments to the Constitution have been sacrificed by subtle and ingenious verbal criticism. Constitutional provisions adopted in the interest of liberty and for the purpose of securing through national legislation, if need be, the rights inhering in the state of freedom, and belonging to American citizens, have been so construed as to defeat the ends the people desired to accomplish, which they attempted to accomplish, and which they supposed they had accomplished by changes in their fundamental law. The court has departed from the familiar rule requiring in the interpretation of the constitutional provisions, that the full extent be given to the intent with which they were adopted. The power conferred by the Thirteenth Amendment does not rest upon implication or difference, and power to enforce it by appropriate legislation was expressly granted. Congress, therefore, may enact laws to protect the colored people against deprivation on account of their race of any civil rights enjoyed by other free men in a State, and such legislation may be of a direct and primary character, operating upon the States, their officers and agents, and upon those wielding power under the States. The national legislature may, without transcending the limits of the Constitution, do for human liberty and the fundamental rights of American citizenship what it did with the sanction of the Supreme Court for the protection of slavery and the rights of masters of fugitive slaves. In every material sense applicable to the practical enforcement of the Fourteenth Amendment, railroad corporations, keepers of inns and managers of places of amusement are agents of the State, because amenable to public legislation; and the denial by these instrumentalities of the State to a citizen because of his race, of that equality of civil rights secured him by law is a denial by the States; and the supreme law of the land has decreed that no authority shall be exercised in this country upon the basis of discrimination in respect to civil rights against freemen and citizens because of their race, color or previous condition of servitude. The assumption that the general government cannot, in advance of hostile State laws or hostile State proceedings, actively interfere for the protection of any rights, privileges and immunities secured by the 14th amendment is unauthorized by its language.

Judge Cox sets aside the verdict of $20,000 in the case of Kilbourne, and grants a new trial. He considers the verdict excessive.

Major Neckerson's resignation is accepted by the President, to take effect Nov. 15th.

The Railroads.

CHICAGO, 17.—The Milwaukee & St. Paul Railroad Company this afternoon paid over to the Iowa pool the $38,000 disputed surplus earnings, and $80,000 additional, which squares the pool account to date. The officials of the company, however, still adhere to their purpose to leave the pool, and under the circumstances, a war of rates after the lapse of thirty days is deemed inevitable.

Topeka, 17.—The Atchison, Topeka & Santa Fe commence to-morrow to operate their road by the Central time as far west as Dodge City Kansas; beyond that point by Mountain time.

St. Paul, 17.—The new time makes us twelve minutes and thirty-six seconds faster than at present. The Minneapolis & St. Louis is the only road that adopts the new time to morrow. The other roads adopt it a week from to-morrow. The Northern Pacific has not decided.

Depravity and Disaster.

MEXICO, via GALVESTON, 17.—The San Fernando Cotton Factory, in Thaxplam, near here, is destroyed by fire. Five operatives were burned. Loss $600,000.

Halifax, 17.—A telegram from Low Points, C. B., reports the sealing steamer *Commodore* broken up by the heavy gale. The storm was accompanied by a blinding snowfall.

A special from Wolfville, N. S., states that the damage to the dykes of that county by storms and high tides this week is greater than at first reported. The Port William dyke broke in a dozen places. The Grand Pre dyke, between Long and Little, is almost levelled, and upwards of twenty acres of land flooded. Two hundred acres of land enclosed by the Avoupont dyke are completely flooded, and the dyke is in such an exposed position that it is thought it cannot be again repaired. The Crane dyke on Gasperaux River is broken in several places, and the land flooded. The tides during the past week have been the highest known since the great storm of 1869, when the whole of the Grand Pre dyke was washed away.

The steamer *Boston City* from Boston for London, put in here to-night with her cattle pens started and the men in charge of the live stock; exhausted, the vessel having experienced continuous heavy gales. She has a cargo of general merchandise, 238 head of cattle and 275 sheep.

Philadelphia, 17.—The American Line Steamship Company's wharves were destroyed by fire this evening. The pier was enclosed by large frame buildings, the lower floors used for storage of freight, the upper stories the temporary home of immigrants. A watchman was lighting the gas with a safety lamp attached to a pole; the lamp fell and rolled between the bales of cotton. The cotton ignited and in a short time the structure was in flames. The fire spread rapidly. Thousands of dollars' worth of goods awaiting shipment on the steamer *Lord Clive* were swept away. Three alarms were sounded, bringing to the scene three-fourths of the fire department of the city. Tugs on the river also lent assistance in finding places of safety for vessels lying close to the fire. The steamship *India* narrowly escaped. The fire burned over three hours. The buildings are almost entirely destroyed. Loss $100,000; partially insured.

Pittsburg, 17.—Workmen in our iron mills are filled with the gloomiest forebodings and apprehensions for the future by the announcement to-night that a number of mills had closed down owing to the lack of orders and the unsatisfactory condition of the iron trade. The mills referred to were three owned by Oliver Bros. & Phillips; the Superior rail mills, operated by the Kloman heirs, and Moorehead & McLean's puddling department; while Shoenberger & Co. notify their employees that after Monday their mill will run single instead of double, turn by turn. By these suspensions over 8,000 men are thrown out of employment just at the beginning of winter, and fears are entertained that if trade does not improve very soon others will be obliged to close down also. The reason assigned is lack of orders and prevailing low prices. Oliver Brothers & Phillips say that they may resume in a few days, but cannot tell. The others say they will not start up until trade shows considerable improvement.

Philadelphia, 17.—James Dobson is held to bail for issuing fraudulent tax receipts on election day, and George Holland, (colored), is held for voting on a tax receipt on which the name of another person had been erased and Holland's substituted. The prosecutions are brought by the Committee of One Hundred. A member of that body said investigation had convinced the committee that a well defined plot had been made at the recent election to defeat the candidates endorsed by the committee, and numbers of bogus tax receipts had been distributed over the city. The committee had information that the tax receipts were made in New York. They expected to secure the plates upon which the fraudulent documents were printed. It is hinted that other arrests will follow.

Chicago, 17.—Frederick M. Kerr, cashier for Preston, Keane & Co., bankers, who fled in February, 1883, short $40,000 in his accounts and was captured after a long chase in Peru, South America, was convicted and sentenced to ten years in the penitentiary here to-day.

New York, 17.—The police authorities are notified by the Jamaica (Long Island) police that two women named May Bee have been murdered in a barn in Brookville, Queens county, and that the murderers escaped and are supposed to have come to this city.

Cairo, Ill., 17.—The (south-bound passenger train on the Illinois Central collided with No. 4, bound north, near Bradford station, Tenn., at 2 p. m., killing the colored porter, telegraph repairer Coburn, and the express messenger. Both engineers were badly hurt. Five cars were burned. The engineer of train No. 8 left the station while the conductor was getting orders. A number of passengers were hurt.

New Burnside, Ill., has quarantined against Stone Fort and the surrounding country. Smallpox has been prevalent at Stone Fort for several days, and to-day three new cases are reported in the country.

City of Mexico, via Galveston, 17.—Congress found a true bill against Governor Costello in Vera Cruz, for abuse of power while prefect at Cordova four years ago.

Havana, 17.—Eighteen deaths from yellow fever the past week. There has been a larger proportion of cases among shipping than usual at this season, probably owing to the continuance of hot, damp weather.

SUNDAY NIGHT'S DISPATCHES

Tempora Mutantur.

NEW YORK, 18.—The W. U. time ball dropped to day exactly five hours slow by Greenwich time, or at noon of the seventy-fifth meridian.

Chicago, 18.—The new standard time of the central division, or 90 degree meridian, went into general effect here at noon to-day. All the roads running out of the city except the Chicago & Northwestern, Milwaukee & St. Paul, Illinois Central and Michigan Central began running trains in accordance therewith to day. The others will begin next Sunday. The leading jewelers set their chronometers back nine minutes and thirty-three seconds to correspond with the new basis. The Board of Trade will be opened and closed by it to morrow, but the city has taken no official action in regard to it.

A Mississippi Steamer and Valuable Cargo Destroyed by Fire—Several Lives Lost.

NEW ORLEANS, 18.—The steamer *S. H. Pariset* was destroyed by fire this morning at Bullei's Bayou, eight miles above Natchez, no lives lost. The *Pariset* left Vicksburg yesterday for New Orleans with 3,100 bales of cotton, 1,300 sacks of oil cake and 500 barrels of oil. Loss $200,000.

As soon as the fire was discovered the steamer was headed for the Louisiana shore and when the boat struck the bank lines were put out and the vessel made fast to the shore. Nearly all the passengers rushed to the bank in their night clothes carrying their other clothes and abandoning all their baggage, jewels and money. Before the crew got safely off, the lines were burned and the vessel drifted into the stream. Yall Boring, second engineer, stood to his post until surrounded by fire. Finding he could do no more, he jumped into the river and swam ashore. A portion of the crew were taken off in a yawl. There was great excitement among them, two jumped into the river and one, Phil Burdsarg, was drowned. When the news of the disaster reached Natchez, the steam tug *O Brien* started for the scene and shoved the steamer onto a sand bar. Soon after the powder in the *Pariset's* magazine exploded. The steamer *City of Yazoo*, of the same line, *en route* to Vicksburg, took the *Pariset's* passengers out of the cane brake, where they landed, and brought them to Natchez. The origin of the fire is unknown. The boat had 58 deck passengers, many of whom insisted on smoking. It is believed that the fire was the result of their carelessness. It is feared that two or three deck passengers perished in the flames. The boat's papers were lost.

Striking Miners Parade the Streets With Band and Banners—The Police Powerless.

NORWAY, Mich., 18.—The strike at Chapin mine, Iron Mountain, assumed an alarming aspect this afternoon. The men at the Ludington, another large mine adjoining the Chapin, turned out and joined the strikers. A meeting was held subsequently, and it was decided to wait on the mine Superintendents in a body, and ask them to accede to the demand of the men. A procession was formed with a brass band playing and flags flying. Eight hundred to a 1000 men paraded the streets until forced to disperse by the extreme cold, the band instruments having become frozen up. Four hundred of the malcontents then approached Supt. Stockbridge, of the Ludington, and requested an answer to their demands. He refused to yield, whereupon he was thrown down, kicked and knocked around generally, during which cries of "Kill him!" "hang him!" etc., were freely uttered. As soon as he recovered himself he told the men that they could have anything they wanted, that they might all go back to work and consider their day's work done at any reasonable hour. He was then allowed to depart. The mob then started in search of Supt. Cady of the Chapin mine, but he had been informed of threats made against him, and had taken a hasty departure. The saloon keepers of Iron Mountain all closed their places and consequently there is no drunkenness, but the local police force is powerless to do anything towards preserving order or quelling any disturbances that may arise, and it is altogether probable that one or more company's of the State militia will be ordered out to preserve the peace and protect property. The county sheriff has been sent for and will arrive to-morrow morning.

Another Counterfeiter Caught.

CHICAGO, 18.—*Times* St. Louis special: Anton Rickert, a molder, has recently been engaged in manufacturing silver dollars in plaster molds. He sent a small boy out with some samples, and the police held the lad until his parents came for him, when they were arrested. A package of counterfeits was found curled in the cellar.

The Northern Pacific.

Times New York: The Northern Pacific Railroad Company will hold its annual meeting to-morrow, to take action upon the issue of the $20,000,000 mortgage bonds. A leading lawyer of New York has offered to bet $1000 that Henry Villard does not at present own a single share of Oregon trans-continental stock.

Bloody and Brutal Murder.

OYSTER BAY, L. I., 18.—Following are the particulars of the tragedy on Saturday afternoon.

The victims were Mrs. Lydia Maybee, aged 71 years and her daughter, 37. Garret Maybee, the husband and father, was brutally assaulted and the house was robbed. He had been paralyzed fourteen years and blind eighteen months. At sunset the mother and daughter went to the barn to milk, leaving the invalid alone. Miss Weeks, living opposite, heard a cry of murder and summoned the neighbors. When they reached Maybee's house, the old man was suffering from wounds in the head and face, inflicted by a club in the hands of the thieves, who secured his valuables. Maybee said that he feared that his wife and daughter were murdered. The barn was searched and the bodies of both were found in the cow stall, covered with leaves. The body of the daughter was still warm. The women had been choked to death. No trace of the murderers has yet been obtained.

FOREIGN.

General Items.

LONDON, 17.—A shock of earthquake was felt yesterday on the Island of Chios. No damage.

Paris, 17.—Later inquiry into the antecedents of Curnen developed the fact that the prisoner is not a madman, but a fanatic, holding ideas of a violent nature. He is known to have frequented meetings of Anarchists at Lille and Roubaix.

Rome, 17.—The *Diretto* says: It is stated that the Vatican has consented to appoint a Nuncio to the United States in accordance with the wishes of the American bishops now in Rome. The *Diretto* expresses the opinion that the American Congress will approve such appointment.

Genoa, 17.—The strike of steamship engineers is spreading to all Italian ports, and causes the detention of many steamships and serious loss to ship-owners and merchants.

Cairo, 17.—The Egyptian government sent an official note to England, demanding to be heard on any proposal that may be made looking to the modification of the regulations governing the Suez Canal.

A syndicate of banks represented by the Anglo-Egyptian Banking Company, has offered to provide the capital necessary to construct the new canal across the Isthmus if the government will undertake to build it.

Shanghai, 17.—An aid-de-camp of Peng Yulin has arrived at Hankow to raise 20,000 volunteers for service in the event of a war with France. Foreigners in China are uneasy. The White Lily Society, a secret organization, is reported again active.

SUNDAY NIGHT'S DISPATCHES.

Eighteen Souls Sink into the Sea.

LONDON, 18.—The British steamer *Condor*, from Liverpool, sank off Menden, Holland to day, during a violent storm. Eighteen persons were lost, including the engineer who was killed by the bursting of the boilers. Only eight persons were saved.

The steamer *Hymethus* was also wrecked on the Coast of Holland, and but ten of the crew rescued.

In Five Years.

DeLesseps, speaking at Manchester last night, said he was in receipt, from the engineers of the Panama Canal, of the assurance that the canal will be open in five years.

Agrarian Outrages in Russia.

ST. PETERSBURG, 18.—A special number of the *Will of the People*, a Nihilist paper, states that agrarian outrages in Southern Russia are increasing, owing to the deplorable state of the rural people, and conflicts between the peasants and landlords, calling for military intervention, are frequent.

The Canal Question.

London, 18.—The *Observer* says the result of the interviews between De Lesseps and English shipowners on the Suez canal matter has been to leave the latter under the impression that the points of view from which they respectively regard the question differ too fundamentally to allow of any possibility of mutual agreement.

BRIEF TELEGRAMS.

Sullivan and Ryan to night signed articles for a four-round bout with soft gloves between January and February 1st, 1884, at San Francisco, the gate money to be divided equally.

Chicago, 17.—Annie Dickinson has decided to again go on the lecture platform, under the auspices of the Knights of Labor, and declares her purpose to make speeches in all the principal cities of the country, in the interest of that organization, until the close of the next Presidential election.

Kansas City, 17.—Elder Morgan of the Mormon church, passed through this city to-day, en route for Salt Lake, with 78 recruits from the Southern States, proselytes of the most ignorant class. They appear to have no idea of Mormonism, but say they have been promised homes with no restraint in choice of religion.

Louisville, 17.—The Louisiana, Memphis, Nashville, St. Louis, Lexington, Latoria, Washington Park and Chicago Driving Park Jockey Clubs, and leading breeders of the South and West, have accepted the call of the Louisville Jockey Club for a turf conference for the purpose of adopting a uniform scale of weights and rules, and to consult as to the adoption of the most stringent measures and laws to eradicate fraud and purify the turf.

Chicago, 17.—The Sullivan slugging combination gave another exhibition here to-night, witnessed by four or five thousand people, with the usual characteristics. With the regular programme, two little boys, aged respectively 7 and 8; were put in the ring, and pounded each other according to the rules of the prize ring.

IT DID THE WORK.

AN OLD SISTER IN THE 20th Ward, was for nine months unable to undress herself, owing to the effects of Rheumatism, but lately she took a few doses of the Brittannia remedy advertised in our columns, and was at once relieved of her infirmity. She is now perfectly free from pain and stiffness, and feels comparatively like a young woman. It is a marvelous remedy. All should try it who are afflicted with this painful malady. It is also a splendid tonic.

—FOR—

WILLIAM HUME.

—o—

The International Fisheries Exhibition, at London, has been one of the events of the year. A cablegram from Messrs. Earll & Cox, the United States Delegates, announces that the Fish Commission from this country received eighteen gold medals, one of which has been awarded to William Hume, the pioneer salmon canner on the Columbia River. This is the only cannery receiving a medal at the Exhibition at London.

The Iron Manufacturing Company of Utah.

FOR THE PURPOSE OF PROMOTING the manufacture of Iron, this Company has been incorporated according to law, and has purchased the plant of the late Great Western Iron Company at Iron City, Iron County, U. T., together with the immense beds iron-claims, for seven of which United States patents have been obtained. The Company also own an interest in some of the best coal claims in Iron County, for which Government title has also been obtained, the product of which is of excellent quality for the manufacture of iron and steel.

The intention is first to erect furnaces for the manufacture of pig iron. When success is attained in that, to gradually extend to other branches.

The time has come when the manufacture of iron and steel can be made profitable, and their manufacture will prepare the way for other industries. All who have the welfare of our Territory at heart are invited to subscribe for stock. The books are now open.

Capital stock, $250 000. Shares one dollar each, certificates of which can be had by paying in full to the Secretary, John C. Cutler, Old Constitution Building, Salt Lake City.

Rev. Father Wilds' EXPERIENCE.

The Rev. Z. P. Wilds, well-known city missionary in New York, and brother of the late eminent Judge Wilds, of the Massachusetts Supreme Court, writes as follows:

"78 E. 54th St., New York, May 16, 1882.

Messrs. J. C. AYER & Co., Gentlemen:

Last winter I was troubled with a most uncomfortable itching humor affecting more especially my limbs, which itched so intolerably at night, and burned so intensely, that I could scarcely bear any clothing over them. I was also a sufferer from a severe catarrh and catarrhal cough; my appetite was poor, and my system a good deal run down. Knowing the value of AYER'S SARSAPARILLA, by observation of many other cases, and from personal use in former years, I began taking it for the above-named disorders. My appetite improved almost from the first dose. After a short time the fever and itching were allayed, and all signs of irritation of the skin disappeared. My catarrh and cough were also eased by the same means, and my general health greatly improved, until it is now excellent. I feel a hundred per cent stronger, and I attribute these results to the use of the SARSAPARILLA, which I recommend with all confidence as the best blood medicine ever devised. I took it in small doses three times a day, and used, in all, less than two bottles. I place these facts at your service, hoping their publication may do good.

Yours respectfully, Z. P. WILDS."

The above instance is but one of the many constantly coming to our notice, which prove the perfect adaptability of AYER'S SARSAPARILLA to the cure of all diseases arising from impure or impoverished blood, and a weakened vitality.

Ayer's Sarsaparilla

cleanses, enriches, and strengthens the blood, stimulates the action of the stomach and bowels, and thereby enables the system to resist and overcome the attacks of all Scrofulous Diseases, Eruptions of the Skin, Rheumatism, Catarrh, General Debility, and all disorders resulting from poor or corrupted blood and a low state of the system.
