LOVELY COMPLEXIONS

POSSIBLE TO ALL.

What Nature denies to many Art secures to all. Hagan's Magnolia Balm discloses every blemish, overcomes Redness, Freckles, Sallowness, Roughness, Tan, Eruptions and Blotches, and removes all evidences of heat and excitement. The Magnolia Balm imparts the most delicate and natural complexional tints—no detection being possible to the closest observation.

Under these circumstances a faulty complexion is little short of a crime. Magnolia Balm sold everywhere. Costs only 75 cents, with full directions.

GENERAL ELECTION, 1879.

THE Registered Voters of Salt Lake County will take notice that the General Election for the current year will be held in the several precincts of Salt Lake County on Monday, the 4th day of August, A.D., 1879, for the purpose of electing the following officers:

Three Commissioners to Locate University Lands
Four Councilors to the Legislative Assembly for Salt Lake, Summit and Tooele Counties
A Territorial Superintendent of District Schools.

For Salt Lake County.

One Selectman, to fill the vacancy caused by the expired term of R. M. Weller.
A County Superintendent of District Schools.
Also, Justices of the Peace and Constables in several of the precincts.

Said Election to commence at the several places of holding elections one hour after sunrise, and continue until sunset on the day aforesaid.

D. BOCKHOLT,
Clerk of the County Court, Salt Lake County, U.T.

Salt Lake City, June 30, 1879. d183

EASTERN.

Another Canal Project.

NEW YORK, 26.—Francis A. Keiffer, of Paris, French engineer and accredited representative of the syndicate of Parisian bankers and speculators who propose to build a ship railway across the Isthmus of Panama, arrived on Wednesday. He said to a *Tribune* reporter last night that the object of his visit at this time was to interest some American engineers and capitalists in the proposed undertaking. Keiffer said that the American approval of the Sebillot project was all that was needed to induce French capitalists to subscribe sufficient money to build the road. Sebillot proposes either to build his ship railway from Aspinwall to Panama or a ship canal thirty kilometres to the mountains, then a railway thirty-three kilometres to Panama. The rails are to be laid about twelve metres apart, and are to weigh 600 kilograms to the metre. The highest point on the line will be eighty-five metres above tide water. Vessels up to steamships of 7,000 tons will be transported over this railroad in immense docks supported by wheels twelve inches thick. It is proposed these docks shall be run under water to receive the vessel, which will then be securely held in an upright position in them by a system of arms or clamps. The driving power will be placed in the docks themselves, under the bulge of the vessel, and will be applied directly to the wheels under the dock. Kieffer claims that these docks will be capable of a speed of 15 to 18 kilometres per hour, and that the whole distance from ocean to ocean can be traversed in five hours. The whole cost of construction he estimates at 25,000,000 francs, while the ship canal favored by Lesseps will demand a capital of 1,500,000,000 francs. He also says that the tariff on vessels passing over this railway need not be over $1.50 per ton, against $3 per ton by canal, to yield a fair per centage on the capital, and that while seven years must elapse before the canal can be completed, the railway can be in operation at the end of three. Kieffer said that permission was granted by the Columbian Government to Sebillot in 1873 to construct such a ship railway across the isthmus.

Advantageous to our Trade.

The *Times* thinks the method the German Parliament has adopted for enforcing its new tariff, which prohibits the passage on railway trains through the empire of goods in bond, can hardly fail to prove highly advantageous to the expert trade of this country. Nearly 70 per cent. of the entire foreign trade of Austria and Hungary passes through Germany, and the currents of trade will be greatly disturbed. Austria must depend largely upon the wearisome navigation of the Danube, and on Trieste and Fiume on the Adriatic Sea, to act as doorways for her export and import trade, while Russia's only openings will be the various ports on the Baltic and Black Seas, already attention has been turned this way. The use of these various water routes will, however, necessitate higher charges for transportation than are now paid by Austrian and Russian importers and exporters, and as these two countries are our chief rivals in the work of supplying the world with breadstuffs, each increase in the cost of landing a bushel of grain in the markets of England and France will form inducements for purchasers to buy wheat which comes from America rather than that grown in Eastern Europe. Even with admirable facilities for reaching the market, wheat growers in Austria and Russia have been gradually losing ground in competition with our own farmers and the present movement on the part of Germany threatens to deprive them of a large part of trade which they still retain.

The Anglo-American Food Supply Company recently organized in London, advertise in their prospectus to supply California fish and fruit among the popular American supplies to be imported to England. The average sale in London of American beef is now computed at about 5,000 quarters a week and there are not half a dozen butchers who do not sell it. Of this only about 300 quarters are retailed as American beef, being sold at extortionate prices as English beef. It is stated that but for the greed and unfairness of English butchers, the people could purchase meat at greatly reduced prices.

Chili Patronizing the United States.

The government of Chili is buying extensively throughout the New England and the North generally, improved war material of all descriptions, and for all branches of service. A contract was recently closed for $720,000 worth of submarine torpedoes. The Providence Tool Company, which latterly furnished Turkey with so many stand of arms, is understood to have received orders including 30,000 rounds of ammuniton. It is also said that the Sharps Rifle Manufacturing Company, of Bridgeport, has an order for 1,000 stand of arms. There is cash in this country for all the war material purchases Chili sees fit to make, which is regarded as a wonderful thing in national affairs. The Chilian agents are at every important seaport of the country, examining American shipping with a view to buying whatever their government requires in the matter of transports, Chili having sent their men here in preference to all the world.

Twinkling of the Stars.

It is stated that the negotiations for Sarah Bernhardt's appearance in America, suspended by Harry Palmer's death, will be resumed by Jarrett who goes to Europe for the purpose. It is believed the contract had been drawn. One authority states the contract has been signed for 150 performances next season at $750 each.

Nielson will play Amy Robsart at the Fifth Avenue on her visit here in the fall. Negotiations for Gilbert S. Gretchen are broken off.

Marie Roze appeared in London in the Magic Flute, and was poorly supported, but the critics said her vocalization and method improved by American experience.

Florence Copleston, the pianist, whose successful debut in Leipsig has been noticed, is now in London giving concerts. She will probably visit America.

Emma Thursby comes here in October for three months.

Ketten, the celebrated pianist, Ernst De Munck, violoncellist, Ciampicelini, baritone, and Fortuna, accompanist, will attend Carlotta Patti on her visit in September. Patti goes to Russia next winter, and good authority states she will receive $3,000 nightly.

The London papers record the unequivocal success of Henry Burbank's humorous readings.

It is reported that Henry Vekes will have the management of Drury Lane during the pantomime season.

Linda Deltz is engaged as leading lady at the Haymarket.

Genevieve Ward undertakes the management of the London Lyceum.

The managers and agents of the theatrical combinations have formed an organization under the name of the United Amusement Managers and Agents Association, with the object of securing reduced rates from railroad companies, and protecting themselves from high charges of the proprietors of theatres or halls in small country towns.

There never was so dull a summer theatrical season here as the present. The only theatre open is the Lyceum with the colored Georgia Minstrels. Other theatres are actively preparing for the autumn campaign. Many, including Booths, Broadway, Wallacks, and Union Square, are in the hands of workmen with the promise of brilliant changes.

It is rumored that Reade's version of "Assomoir" will be tried next season at the Union Square.

A strong company has been engaged under Ben. F. Lowell to produce Nasby's "Widow Bedott."

Eva Mills, daughter of Clark Mills, intends adopting the profession of regular operatic singer.

The approaching marriage of Minnie Hauck to a London journalist, and of Carlotta Patti to Demurok, form topics of European gossip.

Divorces were granted on the 23d to Kate Girard from George Fawcett, and Kate Price from Edwin F. Price.

It is stated that McKee Rankin is judiciously adapting for the stage a play written for him by Joaquin Miller, to be entitled "Forty-nine," a California story.

Chicago Theatricals.

CHICAGO, 26.—The theatrical business has been fine this week, Hooley's Magatherian Minstrels, after five successful weeks here in the heat of the summer, leave on Monday for a trip in the principal western cities. They will open in Boston, August 25th.

J. H. Wallack's company begins a two weeks' season at Hooley's on Monday, in the "Ticket of Leave Man." The Chicago Pinafore Company also concludes its fifth week here to-night and plays a month in the provinces.

"Engaged," at McVicker's, enters on its fourth week on Monday.

The Union Square Company begins a summer season at Haverly's, beginning with the "Banker's Daughter."

"Victim of Faro," a play by a local author, has filled Hamlin's and is retained. It is said that Harry Sargent has engaged the Knights for two years, beginning in England.

Southern managers here report that the yellow fever scare has completely ruined this season's business, and has a depressing influence on the general outlook for next year.

Damaging Rainstorm.

PITTSBURG, 26.—A severe rainstorm passed over this section today, causing considerable damage to property in the surrounding country. At Irwin Station the flood was the highest ever known in that vicinity, houses being flooded and fences and outbuildings washed away. On the Sewickley branch road the damage to the track was heavy. At Petrolia the greatest loss occurred; 25 or 30 stores and dwellings being washed away. The Karns City and Parker Railroad was damaged to the extent of $10,000, and telegraph lines are down in all directions. The total loss of property is probably $100,000.

On the Baltimore and Ohio Railway, at Guffy station, a culvert was washed out and the track so damaged that trains could not pass. Reports of the same nature have been received from the Monongahela Valley. No damage was done in the city.

Wool Market.

BOSTON, 26. — Transactions in wool for the week indicate a fair business, comprising 1,382,000 lbs. of domestic. Fine wools are still neglected, and the demand runs on medium grades. Combings and delaine fleeces are quite steady and held firm, but they have been quiet. There is very little disposition to force sales, as principal holders feel that every pound of wool will be wanted before the year closes. Sales comprise Ohio, No. 1, at 36 @ 40; Michigan X and No. 1, at 35 @ 38; New Hampshire, 30 @ 34; delaine and combing, 40 @ 44; unwashed combing, 29 @ 33½; unwashed and unmerchantable fleeces, 24½ @ 33½; Territory, 23 @ 30; Colorado, 18 @ 25; Georgia, 31 @ 33; Missouri, 21 @ 30; Texas, 15 @ 20; Kentucky, 25 @ 32; Lake, 31; Eastern Oregon, 25 @ 60; scoured, 35 @ 42½; tub washed, 37½ @ 39; super and extra pulled, 34½ @ 45; California comparatively quiet, the sales comprising only 250,600 bales, mostly from 25 to 30 for Spring.

Good Pass Discovered.

HELENA, M. T., 26.—Prof. B. F. Marsh, civil engineer, yesterday laid before the Helena board of trade the survey of a new and wonderful pass over the main range of the Rocky Mountains, at an elevation of 5,500 feet above the sea, and 1,215 feet above the main street of Helena. The distance from Helena west of the summit of the main range is 15 miles, thence to the Columbia, Little Blackfoot, three miles. The board of trade is having the report of the route prepared, and Mr. Priest, the discoverer, puts on a force of men to make a new wagon road to Deer Lodge. The pass is about 700 feet lower than the famous Deer Lodge pass.

THIRTEEN MORE CASES.

The Fever in Tennessee.

MEMPHIS, 26.—Thirteen cases in all were reported to the board of health to-day. One additional death occurred this afternoon — Joe Adams, at 73 Clay Street. It was thought the board of health this afternoon would declare the fever epidemic, but after a careful revision of the reports from all the undertakers, the results showed that out of 71 deaths reported the week, but 34 had died of yellow fever. The city authorities have perfected all the arrangements, and will establish camps early next week. The executive committee have issued the following address to all citizens of Memphis, absent as well as present.

The undersigned beg leave to inform you that they have been appointed an executive committee from the general committee of safety, to co-operate with the authorities of the taxing district, in the maintenance of order, and the protection of life and property, during the prevalence of the yellow fever.

Warned by past experience of the evils developed in all communities by public excitement and suffering, we are resolved to concert such measures as may meet all emergencies and give all needed help to taxing the district government. In carrying out these purposes we call upon our fellow citizens for moral and material support. We propose that as far as possible all contributions be sent to President Porter, to the end that by unifying our efforts, the greatest good may be done to the greatest number with the least waste of means.

We call upon the Memphians to unite in shouldering the heavy burden once more laid upon us. We implore one and all to protect the good name of the city from the possible imputation of being a community of beggars in the world at large, sitting idly down and expecting others to take care of our interests and feed our poor.

St. Louis, 26.—Health Commissioner John H Rauch, of Illinois, and C. W. Francis, of St. Louis, have been in consultation here today, trying to arrange for the disposition of Memphis refugees, it being the feeling of both that it will not be safe to let any more of these people scatter through the city, or through Illinois towns in this vicinity. The proposition most favored since the Government has refused to provide tents and rations for a camp, is to charter steamboats and maintain a floating quarantine for Memphians, who may come up the river after this date. Health Commissioner Francis reports that of half a dozen sick at quarantine, only one case is regarded as suspicious, or likely to develop into yellow fever. The boats which brought up Memphis freight and passengers remain at quarantine, and the Mayor refuses positively to allow them to come up to the city.

An Income Without Care.

By the combination method of operating in stocks a handsome income can be secured without care. Capital in any amount, from $10 to $50,000, may be used with equal proportionate success. By this system, Messrs. Lawrence & Co., Bankers, N. Y., pool the orders of thousands of customers, of various sums, into one vast amount, and *co-operate* them, under the most skilful management, dividing profits monthly. Each shareholder thus obtains all the advantages of of the largest capital and experienced skill, and the percentage of profits is very great. $20 will pay $100 in 30 days; $250 will return $1,825 or 7½ per cent. on the stock, and so on, as the market varies. A prominent publisher of the Rock Island, (Ill.) *Daily Argus* made $104.15 on an investment of $20, in October. Hundreds of others are doing even better. Messrs. Lawrence & Co.'s new circular has "two unerring rules for success in stock operations," and full information, so that any one can deal in stocks. All kinds of bonds and stocks wanted. New Government bonds supplied. Deposits received. Apply to Lawrence & Co., Bankers, 57 Exchange Place, N. Y. City. 6

SPECIAL ELECTION.

IN pursuance of Section 2 of an Act of the Legislative Assembly of the Territory of Utah, entitled "An Act to provide for Special Elections to fill vacancies" Approved Feb 23d 1878, and the respective proclamations of His Excellency, George W. Emery, Governor of Utah Territory, dated July 12th and 16th, 1879, Notice is hereby given that a Special Election will be held in the several precincts of Salt Lake County, on Monday, August 4, 1879, for the purpose of electing an Auditor of Public Accounts, to fill the vacancy caused by the resignation of William Clayton.

Also one Representative from Salt Lake County to the Legislative Assembly to fill the vacancy caused by the resignation of Hon. John Taylor.

Said election to commence at the usual places of holding elections in the several precincts of Salt Lake County one hour after sunrise, and continue until sunset of the day aforesaid.
