

LOCAL AND OTHER MATTERS.

Blanks Ready.—We are requested to state that the blanks for the new Ladies' Association are now ready and can be obtained at this office.

Opened to-day.—To-day the new branch street car line, from the Cliff House corner to the Denver & Rio Grande R. R. depot, was opened for traffic. The line is well constructed and has been put through in quick time, in Supt. Arnold's energetic style.

Third District Court Opens on Monday.—We are enabled to state, on the authority of Hon. Arthur L. Thomas, that a proclamation of Governor Murray will be published authorizing a special session of the Third District Court, to open next Monday morning. The proclamation is already in the hands of Secretary Thomas.

Gun Accident.—Yesterday a young man named Andersberg, a resident of the Fifteenth Ward, sat down to rest at the Denver and Rio Grande Railroad depot. A shotgun which he carried fell and the contents of both barrels were discharged. The left hand was shot and so badly injured that it was found necessary to resort to amputation. Dr. Bennett performed the operation.

Got Off in the Springtime of Life.—The funeral services over the remains of a most estimable young man were conducted at the Fourth Ward Meeting House, Ogden, on Sunday, Sept. 6th. We refer to the late Bertha Matilda Ballantyne, daughter of Richard and Caroline Ballantyne. The speakers on the occasion were Presidents D. H. Peery, P. Middleton and L. J. Herndon and Bishop N. C. Flynn.

Deceased was born at Ogden, Dec. 30, 1863. The disease which terminated her life in the bloom of life was typhoid fever. She was highly respected, being possessed of an amiable disposition and many estimable qualities of head and heart.

Arrested for Robbery.—The night before last a fifty-dollar check, drawn on McCormick's bank, and about seven dollars in silver were stolen from Mr. Scott Cohn, at his place in the Washach building. Payment of the check was stopped.

When Wong Ling was arrested he was found yesterday offering it for sale. As a consequence the man from the Flower Kingdom is languishing in prison, awaiting examination a charge of committing theft.

When Wong Ling was arrested he was found yesterday offering it for sale. As a consequence the man from the Flower Kingdom is languishing in prison, awaiting examination a charge of committing theft.

Pain City.—This place is truly a garden spot of Utah, and no other settlement in our flourishing territory compares with it in raising potatoes, tomatoes, strawberries, and many kinds of vegetables. The potato crop is supposed to average about 100 bushels to the acre this year, the soil being expressly adapted for that root. It is not at all uncommon to raise potatoes that weigh three to five pounds each. The potato is better there this year than almost anywhere else in Utah, and is not much infected by worms.

Being so handy to market the people of Plain City find ready sale for all they can produce and are generally able to dispose of it at a good price. As a natural consequence of this the financial condition of the inhabitants is uncommonly good.

Wilk Raising in Brigham City.—Mr. Christine Forsgren is the happy owner of a genuine silk dress, which she, assisted by other members of the family, raised the silk, and wove the cloth on a hand loom, which Brother Peter S. Forsgren, who, by the way, is an experienced weaver from Sweden, made twenty-nine years ago with a drawing knife, a loom and a pocket knife. It is said to be the first silk dress ever manufactured in Brigham City.

The Forsgren family have been engaged in silk raising for about seven years and think the business, through a union of efforts, could be made a very profitable branch of industry. About twenty-five yards of raised silk was raised in Brigham City last year and about the same amount this season, very nearly all of which has been reeled by that family.

Other useful and some ornamental articles of silk, manufactured by the same persons are possessed by Sister Forsgren.

Sugar Manufacture.—Yesterday we had the pleasure of meeting Mr. Williamson, of Pittsburgh, Pa., a practical and experienced sugar maker from one of the eastern factories. He has come to Utah under engagement with Mr. Arthur Stanger, to practically conduct his sugar manufacturing operations at Farmington, of which we have several times made previous mention.

The fact that sorghum sugar can be made here is a demonstrated fact, it only remains to be proved whether or not its manufacture will be a paying industry in this Territory. In conversation with Mr. Williamson he expressed much confidence in the success of the enterprise. He expected to make a number of tests in a short time, which would place the matter beyond a doubt, one way or the other.

The Territory offers a premium of \$10,000 for the first seven thousand pounds of good merchantable sugar produced, and the U. S. Government has a bounty of \$1,200. We are sure that Mr. Stanger's enterprise will be rewarded with success, and that sugar production will become one of the industries of Utah.

A FLOOD IN KANAB.

THE PEOPLE OF THAT STAGNANT TOWNMENT EXPERIENCE A STORMY TIME.

By courtesy of Elder John L. Nuttall, President of Kanab Stake, we are enabled to present the following extracts from a letter to him, dated August 30th, from Bishop W. D. Johnson, of Kanab settlement:

"About 12 noon it began to rain; after dinner we noticed it thundered and looked very black in the canyon northeast of town. In a few moments after we heard the rushing and rushing of the water, when upon looking at the cliffs north and east of town we saw the water rolling and tumbling off the cliffs with a great noise. The flood came down through town with a tremendous force through Farnsworth's, Oilman's, young, Bunting's, Elder's, Brown's and the Tithing Office lots and so on. Nearly every street was full of water. We had a hard time keeping the Tithing Office cellar from filling, as it was in fact in about a foot deep. The Tithing Office filled up two feet deep, when I had to tear down the gates and fence to let it out. It took five of us banking up as fast as we could to save the office. A great deal of hay has been spoiled by the flood, also grain standing in the cellars were filled with many things damaged, but no one hurt."

"This makes the third flood we have had this summer from the same direction, but none so large as this. In the canyon it has washed away our city ditch dam and out the flood of water some ten or fifteen feet. Two weeks ago the flood filled our city ditch. Just got it cleaned out three days ago and now it is full again."

"The storm two weeks ago was accompanied with hail which destroyed much fruit. We had some hay laid to the summer from the same direction, but none so large as this. In the canyon it has washed away our city ditch dam and out the flood of water some ten or fifteen feet. Two weeks ago the flood filled our city ditch. Just got it cleaned out three days ago and now it is full again."

A Singular Incident.—The Ogden Herald gives an account of a singular accident to Alfred E. Manning, of Hooper. On Tuesday night he was on his way home from Ogden with a load of flour, among which was a quantity of powder, a large number of cartridges and other ammunition. While alone on the road, about eleven o'clock, by some means, which Mr. Manning says is a profound mystery to him, a terrific explosion occurred. The powder had become ignited and in an instant the wagon was in one sheet of flame, and Manning himself was all ablaze. He was prostrated on the ground, but he says he does not know whether he was blown from the wagon or whether he jumped out.

He was stunned and for some time almost completely blind. He succeeded by hard fighting in extinguishing the fire in his clothes and escaped without much serious injury to his person. His beard, hair and eyebrows were burned, as also was his face a little.

The flour and everything else the wagon contained was entirely consumed. The wagon box was burned up; also nearly all the running gear. The horses became alarmed at the bursting out of the sudden blaze, and started off at a furious rate towards home. They dashed along until they reached the canal about two and a half miles from Hooper. Here they stopped for a short time and the water extinguished the fire in the hind part of the running gear, which, however, was ruined and fell to pieces and was scattered along the road.

As soon as Manning had sufficiently recovered from his stupor, he started in search of his team; it being dark and he not knowing which road in his fright it had taken, he wandered about all night, and in endeavoring to find the team he lost his way.

At daylight this morning, Mr. Curtis Stoddard and Mr. H. B. Gwilliam found the team and fragment of the wagon standing near Manning's store at Hooper. Not seeing the teamster about and fearing he had met with a fatal accident, a party went in search of him. A few miles out they found him weary and faded, wending his way slowly towards his home, to which they conducted him.

The horses are badly injured, and it is feared that one of them is so seriously hurt that it will not recover. Manning's own escape with so little injury to himself is almost miraculous. His loss is something over \$300.

Searching by Scent.—A Kanab, Millard County, correspondent, sends us the following:

For some time past our worthy Bishop has had nasal evidence of an intruder upon his premises, and occasional glimpses were had of the erect caudal appendage of the furrier general. Orders were given not to disturb or molest his menacing highness in any form for fear of a fresh outbreak. For several days an armed posse reigned until the odorous forger made nightly incursions upon the Bishop's henroost. The neutral line had now been crossed, patience and diplomacy exhausted. Strychnine was laid out the line of the enemy's march, and the Bishop retired to his tent to sleep.

Next morning he awoke and wondered if the "war was over," yet he seemed to "scent the battle from afar," and taking up the line of the enemy's march, he soon arrived at the parlor door (which had been left open to admit the cool night air). Unseen assurance came of the presence of the enemy. He entered cautiously and sought vainly to discover the cause of this olfactory outrage. Furniture was removed, the chimney peeped up, but the sought was not seen. At last, the Bishop, in desperation, armed with the screwdriver, the Bishop made a dash at his (now more than ever) high-toned organ, and there sure enough, upon its internal mechanism, lay stretched its deathly state his fragrant stinkship. And now our worthy Bishop is in a quandary, as he cannot find a hole in his organ which would admit mouse, and like the "Fly in Amber," the wonder is "how the devil he got there."

A Phenomenon.—About 10 o'clock on the evening of August 22nd a family named Larson, of Willard City, witnessed a strange phenomenon for this part of the country. It appeared about 45 degrees above the horizon in a northwesterly direction over the Great Salt Lake. It consisted of a beautiful village with neat houses, tall trees, nice gardens and an old country windmill, having four arms. The doors and windows of the houses were plainly visible, and the sight lasted about one hour, remaining stationary all the time, until it gradually disappeared in a cloud. It was doubtless a mirage.

Resolutions of the Utah Commissions.

ADOPTED SEPT. 6TH, 1882.

The following was adopted by the Commission at its session on Wednesday:

C. C. Goodwin, registration officer for Cache County, having submitted the following question:

Will you please instruct me as to the voting qualifications of females who came to this country after they had arrived at the age of twenty-one years, and who have failed to comply with the naturalization laws, and who remain unmarried?

After due consideration ordered: That females who at the time of the naturalization of their parents are over the age of twenty-one years, and who have failed to comply with the naturalization laws, and who remain unmarried, cannot register or vote.

In answer to queries from registration officers, in substance as follows:

Can any person, male or female, who, at any time, lived in polygamous relations after July 1st, 1882 register or vote?

After due consideration the Commission answered, NO.

On motion of Mr. Pettigrew. Ordered. That the secretary of this Commission is hereby instructed to notify the various county registration officers to return to the secretary of this Commission after the registration lists have been prepared, the affidavits subscribed to by persons whose names are on said lists, and the provision of rule 5, requiring the affidavits to be filed in the office of the clerk of the county court is hereby rescinded.

Registration officers will take due notice of the above resolutions.

ARTHUR L. THOMAS, Secretary of Utah Territory and ex-Officio Secretary of the Commission.

The Brigham City Smallpox Case.—The reported case of smallpox at Brigham City caused quite a sensation in that town. Public meetings were, in consequence of it, suspended for a month. It is now rumored that the patient was merely suffering from an attack of black measles. But whether this supposition be true or not the precautions instituted to prevent the spread of a contagious disease were commendable. With the exception of a few cases of sickness among children the health of the people of the snug little town is good.

J. T. LITTLE, Deputy Registrar.

Registration Notice.—Notice is hereby given that I will be at my Residence on Third East street, between Fourth and Fifth South streets, west side of street, Monday, September 11th, 1882, and each succeeding day thereafter, from 9 a. m. until 4 p. m., and from 5:30 p. m. to 7 p. m., for the purpose of registering all persons entitled to vote in the Fifth Precinct of Salt Lake City, Utah.

Wm. SNOWELL, Deputy Registrar.

SPECIAL BUSINESS NOTICES.

NOTICE TO THOSE WHO ARE BUILDING.

We are now making up a large shipment of plate, fancy and window glass. Get your orders in within ten days.

G. F. CULMER & BROS.

SILE AND CLUTE DOLMANS.

Greatly Reduced at AUERBACH & BRO.

AGITATOR THREASHERS.

John W. Lowell has already booked orders for 20 of these World-renowned Threshers, manufactured by the J. I. Case & Co. These machines proved themselves last year to be the Best Threshers on earth, and parties who think of buying a threshing machine will find it to their interest to send their orders in at once.

CASE OF DIPHTHERIA.

GRANGER, Aug. 30th, 1882.

To Dr. M. Don:

Dear Sir:—It is with much pleasure that I write to you, knowing it is my duty to do so, after the kind service you have rendered to my wife and children, and I can say that there is not one in twenty who would have had the patience to watch over them night and day as you did, until you saw a change for the better. I do believe if I had called in time my other two children would have been here now, and if I can do you any good certainly shall do so in recommending you to my friends. If you feel disposed to make use of this you can do so. Accept of my best wishes.

Yours truly,

MELVIN D. COOK.

MRS. DR. BURR, HOMEOPATHIST and Electrician, treats the diseases of women and children. Pleasant accommodations for lady patients, 3rd South, 14 blocks West of Cliff House, 7th Ward.
