## MONEY TOO DEAR.

A DETROIT correspondent of the Mercantile Journal says that in the nied eastward by Elder Abel Garr, A petition, signed by a number of United States money is too dear; who goes on a mission to the State that the average price paid by safe of Ohio. and good business men for the use of money exceeds ten per cent. per annum, and that this high price of money is a great obstacle in the way of all effort to revive industries and business generally, consequently he concludes that more and cheaper money is the thing that is needed to set the wheels of trade tion and coolly walked off with it, and general prosperity in motion again and enable the country to recover from the disastrous influence of the panic thirteen menths ago. cheaper money would be welcomed rope, and will probably soon start at the rear of his premises. Women and children living in the vicinity, who had been awakened by the sounds of the quarreling and who had heard the shot and the groans, had arisenand were huddled together in terror. Whoever it was that was shot, he was probably not dangerously, but perhaps seriously wounded, and must have managed to get away soon after the occurience. It is surmised that it might have been one of the two thieves who at tempted to carry away Mr. Bartlett's trunk, who may have quarrelied over what little plunder they got away with. The shot was fired in the locality in the direction of which the thieves ran when they got away. Twentieth Ward United Order.-There was a meeting of the shareholders of the Twentieth Ward United Order, at the School-house, last night, when it was unanimously resolved that the organization incorporate under the laws of Utah with a capital of \$80,000, and that, as soon as practicable, the manufacture of boots and shoes, on an pair wrapped up by the obliging ex ensive scale, be commenced. With this end in view it was resolved that a suitable piece of ground be obtained upon which to build a suitable factory. The books for subscription to stock will remain open exclusively for the residents of the Ward, for two weeks from last night, and after that Latterday Saints living in other parts of the city will have an opportunity of taking stock, up till the 1st of \$20,000, or 20 per cent of the capital stock, must be paid up by shareholders, and then the organization will incorporate. It was considered that it would not be advisable to make a start in the branch of business contemplated the object being to curtail the im-

The plan of a United Order organization taking hold of one partiing that a speciality and a success appears to be much better than "having too many irons in the fire" It is much easier to commence in a single line of manufacture and make that one thing successful by a grand concentration of capital and practical ability, and after that particular branch is in good and satisfactory working order to make that the initial point, and then take up another, and another, as far as necessary. Business, like everything in nature, to be healthy and sound, must have a gradual and natural growth.

PFOPLE AND PRESIDENT.-The people of the United States rule. That is the lesson of last Tuesday. When they bear with gross abuses such as have disgraced the administration of General Grant, with the appointment of scandalously unfit persons to high office, with capital, with the spectacle of a President consorting with jobbers and attempting to reappoint them to the places they had misused; with atrocious mis-government in the Southern States, supported by the President's friends and relacular branch of business and mak- tions, and by the federal armywhen they bear with these accumulated offences against good government, it is not because they are weak or tatally careless or unpatriotic, but because they are conscious of their power to punish, and because with this they have one of the most important characteristics of a free people, a great love for stability -New York Herald, Nov. 7.
