

CON. MERCUR IN GOOD DEMAND.

Over 4,000 Shares Changed Hands on the Exchange Today.

LOWER MAMMOTH STRONGER.

Ajax and Star Con. Were Much Weaker—Valeo Advancing—Buckeye Was Active.

The market on the Mining Exchange was rather slumpy today, notwithstanding the advance in Lower Mammoth which was traded in today as high as \$3.02 after selling down to \$2.62½ yesterday. The stock closed firm around \$3.00. Ajax opened at 79 and declined with every sale until 79 was reached when it reacted to 74½ on the closing sale. Con. Mercur showed a very unusual activity around \$3.20 per share. Upward of 4,000 shares changed hands today around the above figure. Northern Light closed up some 2,000 shares today at price ranging between 3½ and 4 cents per share. The closing sale was made at 3½. Ontario of Park City let go 100 shares at \$7.25, while Rocco Homestake was in evidence at \$1.02. Silver Shield weakened to 22½. Star Con. was also much weaker today. At the outset the stock was traded in at 75½, but before the call closed it was traded in as low as 75½. Tesora weakened to 44 today while Valeo advanced to 39. Something like 17,000 shares of Ben Butler were sold today at prices ranging from 9 to 9½ per share. Boston and De Lamar sold for ½, while Buckeye was released at 1½ and Little Chief at 1½. Manhattan sold for ½. Martha Washington closed 6½. The closing quotations were as follows:

CHURCH NEWS.

GRANITE STAKE CONFERENCE.
The quarterly conference of the Granite Stake of Zion will convene in the Farmers ward meeting house on Saturday the 16th day of February, 1901, at 10 o'clock a. m. and 2 o'clock p. m., and Sunday the 17th inst., at 10 o'clock a. m. and 2 o'clock p. m. A good attendance at all meetings is desired.
FRANK Y. TAYLOR,
JAMES R. MILLER,
EDWARD BENNION,
Presidents of Stake.

The High Council of the Salt Lake Stake of Zion will meet on Wednesday, February 12th, 1901, at 7:30 p. m.
JAMES D. STIRLING,
Clerk of Council.

A Public Apology.
Jan. 8th, last, I published a statement in the Deseret News regarding the Great System of Shortland. I have since found that I was mistaken and have apologized to the author. So far as I know, this system of shortland has not been a failure anywhere.
JAMES D. STIRLING,
Certified Teacher of Shortland.

GOOD STRIKE IN DUGWAY DISTRICT

Lundeen Bros. Report Several Feet of Ore in the Pennant.

MAMMOTH ORE CONTRACT

Being Considered This Afternoon—New Mill for the Cocoonino—Sacramento Roaster.

Lundeen Bros. came to town yesterday from Dugway district, Tooele county, with samples of fine looking carbonate ore from a new strike. They were in excellent spirits over the find which was made on the Pennant group in which Mr. G. Lavagnino of this city owns a half interest. A well defined vein is said to pass through the group of eight claims for a distance of from 2,000 to 3,000 feet. At the place where the present find was made the brothers sunk several feet through a wash and exposed the vein. After sinking about 15 feet a body of carbonate ore several feet wide was exposed. The ore carries an excess of iron and while no assays had been made at press time today the ore is expected to run 60 ounces in silver per ton. About 100 sacks are now filled and as soon as the Lundeen secure supplies they will start out with 400 more sacks, with which to get a shipment to market.

In addition to the lead ore a fine streak of high grade copper ore has been exposed in another part of the property. Samples sent in a few days ago, show the ore to run as high as 25 per cent in the red metal.

MAMMOTH ORE.

May Go to the Bingham Copper and Gold Company's Smelter.

President McIntyre of the Mammoth Mining company was figuring this afternoon on the ore contract for the ensuing year. Heretofore the ore has been smelted at the American Smelting company's plant, but there is a possibility that the Mammoth may make terms with the Bingham Copper and Gold company through its manager, Mr. O. P. Posey. At any rate, Mr. Posey was closeted with Mr. McIntyre this afternoon considering the proposition. It may be several days before the contract is closed, but it would seem that the Mammoth is in the field for the share of the Mammoth must gain something. It is also stated that a third party is also figuring on the output or a portion of it. The Bingham company has just made a contract with the Grand Central for its ores and it is not improbable therefore that the Mammoth may find the Bingham company's terms advantageous. The company has no use for the lead ore, but it is willing to pay good prices for other grades of Mammoth ore.

COCONINO PLANT.

Leaching Plant to be Erected to Treat the Big Copper Deposit.

After trying to smelt its ore the Cocoonino Mining company, operating in northern Arizona, decided on the test-mine of leaching. It is the opinion of the ore is an ideal one for leaching process. Hundreds of thousands of tons of ore are in sight which afford the best possible rock for that purpose and the company closed a contract last evening with the Grand Central for the use of the leaching process, which entitles the company to its use of the new process. The company will start to build the plant immediately, though its full capacity of 300 tons will be reached gradually. The plant is to be built on a hill at a cost of about \$35,000, and other units will be added as desired. Mr. Neil will receive a royalty on every pound of copper produced. The company expects to turn out the purest copper bullion in the world from the grade of the ore. Mr. Neil's royalty should be no inconsiderable sum when the plant is fully under way.

Promising in Park Valley.

The wonderful success of the Century mine in Park valley, Boxelder county, is proving a great stimulus to mining interests in that section of the State. John Hyams, who has recently returned from that part, reports a number of promising prospects in that county, and it would not be surprising if Boxelder takes high rank in the future among the mineral producing counties of the State. The success of the Century, producing as it does about \$5,000 monthly from a three-stamp mill, is phenomenal. But in Mr. Hyams's opinion, there are other properties which have just as good surface showing as the Century. Mr. Hyams went far north as the Washlake claims, owned by Salt Lake, where he reports a fine silver-lead vein as well as a big gold vein from which assays from \$3 to \$55 per ton have been obtained.

Last of Material Shipped Today.

The last of the material for the new Sacramento roaster was sent out to the finishing touch will be put on the plant. Mr. Bothwell expects to go out to the mine next Monday and unless something unforeseen occurs he will witness the starting up of the machinery which is believed will increase the dividends of the shareholders. The roaster has cost a great deal more than was expected at the outset, but the work has been done well and the plant will doubtless render effective service. Owing to the trouble with the electric power the company was forced to install a steam plant, which has also delayed things, but with the new Sacramento is now expected to soon re-enter the dividend column.

Mammoth Copper Company.

The Mammoth Copper Company has been organized at Rawlins, Wyoming, says the Carbon County Journal. The company has six claims in the range of hills between the Ferris-Hagarty and the Black Diamond mines, and the

Rouse the tor pid liver, and cure biliousness, sick headache, jaundice, nausea, indigestion, etc. They are invaluable to prevent a cold or break up a fever. Mild, gentle, certain, they are worthy your confidence. Purely vegetable, they can be taken by children or delicate women. Price, 25c at all medicine dealers or by mail of C. I. Hood & Co., Lowell, Mass.

Ask For It.

Hundreds of good housekeepers who have used Three Crown Baking Powder, Extracts and Spices will use no other kind as they know the brand "Three Crown" guarantees them a pure and good article at a lower price than the imported goods would cost. Ask your grocer for the "Three Crown" brand the next time you order goods in our line.

Hewlett Bros. Co.

SALT LAKE CITY, UTAH.

showing on these claims for the work done is considered very good. They have tunneled into the hill for a distance of 63 feet, and struck a 12 foot vein of copper ore which will average about seven per cent. The following officers have been elected: President, A. C. Epperson; Vice president, P. E. Rumph; secretary and treasurer, Robert Freedman; directors, A. C. Epperson, R. Z. McCoy, A. G. Epperson, Robert Freedman and F. E. Rumph.

MINING NOTES.

The Rough Wrester of Bingham marketed a car of ore today.

Grant Snyder was expected up from the Dixie Copper mine today.

Eight cars of ore from the Swansea of Tintic were on the market today.

The Centennial Eureka has another nine-car lot of ore on the market.

Dr. P. A. H. Franklin was around today after being ill for several days past.

The Taylor Brunton reported eight cars of ore from Tintic and one from Bingham today.

Percy Williams, the well known chemist, has returned from the Dalton mill at Marysville, which he reports doing good work.

Superintendent John C. Sullivan of the Raymond was a visitor to the city today. He reports the shaft nearly to the 800 level.

Supt. William McQueen of the Ben Butler came in from the mine last evening in a critical condition, caused it is thought by the excitement attending the recent find of ore.

P. L. Kimberly, who is heavily interested in the Anne Laurie and other Utah properties, expected to leave for the East today after a pleasant stay of several weeks.

In the case of the Silver City Gold and Silver Mining company vs. Mark K. Lowry et al., appellants, the judgment of the trial court has been affirmed and judgment for the respondent for \$551.40 costs entered upon mandate of the United States Supreme court.

NO STOCK MARKET TODAY.

CHICAGO MARKETS.

LIVE STOCK.

Cattle—Receipts 4,500. Generally steady; good to prime steers \$5.00 to \$5.25; poor to medium \$4.00 to \$5.00; stockers and feeders \$2.50 to \$4.50; calves \$3.50 to \$4.50; hogs \$3.50 to \$4.50; pigs \$3.50 to \$4.50; sheep \$3.50 to \$4.50; goats \$3.50 to \$4.50.

TO CURE THE GRIP IN TWO DAYS

Lavative Bromo-Quinine removes the cause

PEOPLE WHO ARE PASSING

John E. Dooly is in California on a business trip.

Rev. Clarence T. Brown left on a two weeks' visit to Chicago last evening.

Business Manager H. G. Whitney of the "News," and wife left for New York last evening.

Major Geo. H. Penrose arrived in San Francisco last morning on sick leave about a week ago and is expected home tomorrow.

President Wm. Kerr of the Agricultural college is in the city. That appropriation for the college has not yet been made.

Secretary C. F. Martin of the National Live Stock association, has gone to California to recover his health. Mrs. Martin accompanies him.

Ex-Governor Frank Steunenberg of Caldwell, Idaho, is in the city to attend a meeting of the directors of the Twin Falls Land and Water company to be held today. The company's offices are in this city and the property consists of 257,000 acres, extending over eleven townships in Cassia and Lincoln counties. Most of this land is susceptible of irrigation, and plans are now under way for the construction of canals, and a \$50,000 power plant on the property. The ex-governor would not speak of the political situation other than in a general way. With him at the Kenyon is J. H. Lowell.

Oscar E. Warburg of London and H. Heinheimer of New York, two large capitalists, were at the Knutsford today. Yesterday they visited General Manager Bancroft of the Short Line and were by him shown the city and the special organization of the Short Line stock, and when asked about this deal with the Southern Pacific said that it would not affect the management of the Short Line, but would make possible the more economic running of the several lines.

SYRUP OF FIGS

NEVER IMITATED QUALITY.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinal in form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the company printed on the front of every package.

\$1.50 Saved on a Pair of Shoes!

That's quite a saving, isn't it?
Well, it's just exactly what we mean.
Because these shoes are as good as any \$5.00 shoes on the market—better than most of them.
They were all made in our own shoe factory.
So we know they were made right.
You can come and get your choice for \$3.50.

ROBINSON BROS. CO.,
SHOE BUILDERS, 124 Main St.

VARIOUS COURT CASES.

Justice McMillen of Murray yesterday committed James and Lizzie Gillen, husband and wife, to the county jail for being drunk and fighting on the streets of the smelter town. The couple were arrested on Friday last, and yesterday afternoon Assistant County Attorney Loomis went down and prosecuted the disturbing parties with the result stated. The man was given sixty days and the woman twenty. It appears the couple came from Butte only a few days ago.

CANAL CASE.

The Farmers Interested Have Their Lining Today Before Judge Morse.

The big Jordan water case is still in progress of trial in Judge Morse's court. Last night the smelting companies that own part of the Galena canal water rights, tested their case, and today the farmers, Absolom W. Smith, James and Charles Blake, A. C. and A. D. Lunnen, W. R. Wellington, Henry Osborn, John T. Wilson, John Neff and Sarah Stewart, who own the balance of the water in this canal, were on the stand and testified as to their rights. There are some six or eight defendants yet to put in their side of the case, including the electric power plant people, which will probably take a week or ten days yet before the testimony will all be in and the case ready for argument.

APPEAL CASES.

These Will Be Argued Before Supreme Court During Feb'y Term.

Clerk Palmer of the Supreme Court has arranged the following appeal cases to be argued before that body at the February term of court which is now in session:

State of Utah, respondent, vs. Ernest Baker, appellant.
State of Utah, respondent, vs. A. P. Morrey, appellant.
State of Utah, respondent, vs. Cornelius R. Snowden, appellant.

FEBRUARY 12TH.

State of Utah, respondent, vs. Fred J. McNally, appellant.

State of Utah, respondent, vs. Jesse Reynolds, appellant.

State of Utah, respondent, vs. John C. Graham, appellant.

FEBRUARY 13TH.

State of Utah, respondent, vs. Brigham H. Roberts, appellant.

L. A. Scott Elliott, appellant, vs. Geo. C. Whitmore, respondent.

The Crown Point Mining company, appellant, vs. The Barrios Consolidated Mining company, respondent.

FEBRUARY 14TH.

Geo. C. Whitmore, respondent, vs. the R. G. W. Ry. company, appellant.

Kaysville City, respondent, vs. E. P. Ellison, appellant.

Postal Telegraph & Cable company of Utah, respondent, vs. Oregon Short Line Ry. company, appellant.

FEBRUARY 15TH.

Geo. W. Lambourn, respondent, vs. Jno. Hallin, appellant.
