

INVESTIGATION OF PEONAGE CASES

Testimony of First Witness, a Hungarian from New York, Does Not Show Any.

UNDERSTOOD WAS NO STRIKE

Was Given Chance to Make Overtime Money but Refused to Work in the Kitchen.

Pittsburg, Aug. 26.—The first testimony offered in the government investigation into the charges of peonage against the officials of the Pressed Steel Car company, in Schoenville, where 3,500 employees are on strike, in which it is alleged force was used to compel imported laborers to work, developed late today.

Alexander Friedman, a Hungarian from New York, said he was brought here 15 days ago, with 100 other men, from New York, under false impressions. He said the workmen were given to understand there was no strike at the works of the Pressed Steel Car company. Friedman said he had been at work in the plant a few days when he was asked if he did not want to make some overtime money, and when he replied in the affirmative, he was taken to the kitchen of the commissary of the car plant and told to work there. Friedman said he refused. After so doing he said he was roughly handled by the workmen guards, who took him to the box car jail. Constabulary officers refused to lock him up, he testified.

The strike zone at McKees Rocks today presented a scene of desolation. In a drizzling rain families of strikers on whom eviction notices had been served, were compelled to vacate the company's houses. Pathetic incidents were numerous, and sympathetic team owners assisted the strikers.

YOUNG LOVERS CARRY OUT SUICIDE COMPACT

New York, Aug. 27.—Long after Frank E. Williamson, 19 years old, had shot his sweetheart, Florence Lillian Wood, on the doorstep of her Brooklyn home,

A HARD CASE

Imagine a man so low with kidney disease that he had to sit up night and day. He even had to sleep sitting up, being unable to lay in his bed or stand on his feet. Yet such was the final condition of W. R. Marquis, the well-known business man of Bartow, Fla.

He went to a sanitarium in Memphis, where he was attended by three physicians. They gave up the case and advised that he go home. On his return he heard of and sent for the new emollient treatment. The fourth week the heart and dropsy began to mend and the fourth month he was walking all over the town without crutches, and he permits this reference.

No matter what kidney disease is called—whether kidney trouble, Neuritis or Bright's Disease—it is inflammation of the kidneys, and as the old-time futile kidney medicines are kidney excitants, you can see why they failed in his case as they have in yours.

Fuller's Renal Compound is the first successful Renal emollient thus reducing Renal inflammation, and kidney disease is now curable for the first time. Even serious supposed incurable forms yield as above.

F. J. Hill Drug Co. are our sole local agents. Ask for 61-monthly Bulletin of late recoveries.

It was learned today that the young couple had entered into a suicide pact because of Williamson's lack of employment which prevented their immediate marriage.

Williamson and the girl are unconscious in a hospital where it is not believed they will recover.

The fact that there was a suicide pact was shown in a letter left by Miss Wood to her mother, in which she wrote that she had wanted to kill herself, but that Williamson had refused to permit her to take her own life. The letter, which was written on Aug. 21, explained the details of the tragedy as it occurred last night, and in it the girl requested that she be buried in a white dress and asked that her mother refrain from wearing black for more than six months.

GEN. J. H. GILMAN DEAD.

Was Said to Have Ordered First Rifle Shot Fired in Civil War.

New York, Aug. 27.—Gen. J. H. Gilman, U. S. A., retired, who was credited with having ordered the first rifle shot fired in the Civil war, is dead at the Oriental hotel, Manhattan Beach, after an illness of two months. He was 79 years old.

Gen. Gilman was graduated from West Point in 1858. On the outbreak of the Civil war, Lieut. Gilman, with Lieut. Lemmar and 70 soldiers belonging to company G of the First United States artillery, held Fort Pickens, which was located on an island and commanded the entrance to the harbor of Pensacola, Fla. It is asserted that the first rifle shot in the war was fired when seven confederate soldiers tried to pass the pickets at night and failed.

Later Fort Sumter fell but Fort Pickens held out, although it was stormed by 5,000 confederates, until reinforcements arrived by the fleet from New York. The Union admiral and navy yard at Pensacola surrendered to Gen. Bragg, but it was of no use to the confederate army because Fort Pickens commanded the entrance to the harbor and was the only fortification south of Mason and Dixon's line that did not surrender.

President Lincoln appointed Capt. Gilman chief of the United States artillery of the army of the Cumberland, with which he took part in most of the leading battles of the war. At the battle of Pittsburg Landing, he was wounded in the leg and breveted major and afterwards colonel.

Upon the war's close, Col. Gilman was appointed assistant commissary general at Washington and served for many years, until he was retired, under the age limit Nov. 11, 1895.

TELEPHONE OPERATOR KILLS ELEVATOR BOY

New York, Aug. 27.—Tenants of the exclusive Ardsley Hall apartments in Central Park West had little sleep last night because of an encounter between George H. Blinn, the telephone operator, and Joseph Harding, the colored elevator boy, in which Blinn wounded Harding so severely by a bullet from a pistol that the elevator boy died shortly after in a hospital.

Women and men living in the Ardsley Hall building were attracted through the great marble lobby by the loud quarrel between the two employees and also by the wild shouting which was the result of the long standing quarrel. Doctors were called to attend several of the more hysterical women whose nerves had been unstrung by the shouting.

BRITISH CRUISERS TO BE LOANED TO CANADA

Ottawa, Ont., Aug. 27.—A London dispatch says it is learned on high authority that two third class cruisers are to be loaned to Canada by Admiral Lyon for the Pacific, and says the three ships will require fitting and other alterations which will be done at Canada's expense.

UNION VETERANS INVITE CONFEDERATE VETERANS

Washington, Iowa, Aug. 27.—Veterans of the confederate army who fought in any battle against the Eighty-ninth and Twenty-fifth Iowa regiments of infantry have been invited to be present at the reunion of these troops, which is to be held here Sept. 29 and 30. The Union veterans will tell their experiences of the war and hope to have many members of the confederate army to match their stories with reminiscences from the "other side."

LABOR LEADERS AND CONTEMPT CASE

Article in Federationist Commenting on Judge Wright's Decision Arouses Interest.

MEN STILL HAVE SOME RIGHTS

Among Them That of Expressing Their Views on Decision of a Supreme Court Judge.

Washington, Aug. 27.—Interest was aroused here by the advanced copies received yesterday of the September number of the American Federationist, containing an article entitled "Labor's Duty of the Hour." There was discussion as to whether the article, which contains expressions of opinion by men prominent in labor circles, constitutes contempt of court. The views were upon the decision of Justice Wright, holding in contempt Samuel Gompers, John Mitchell and Frank Morrison.

When the article was shown to Justice Gould, he said: "I see nothing in the articles that could be termed contempt of court. A man has a right to make comment upon the decision of a supreme court judge, providing he does not impute any improper motive to other judges, or make any charge of dishonesty against any one. A man has a right to say what he thinks of a decision. Contempt of court will lie where one deliberately violates an injunction."

"The liberty of a citizen is reasonably safe," declared John Mitchell, "in the keeping of 12 fellow citizens. It should not be entrusted to any one man; it matters not who he be. He is a judge in law, but he is a man in fact. The power to convict and imprison citizens of the United States should neither be forced upon the judges of our courts nor abrogated by them."

Frank Duffy, general secretary of the United Brotherhood of Carpenters and Joiners, says:

"If judges can legally defame and orally abuse in expressing opinion of established facts, are they above position, bias and prejudice, or readiness to grant appeal in behalf of dominant powers?"

LOST HIS EYE BUT RAN HIS LOCOMOTIVE

New York, Aug. 27.—With his right eye severed by a piece of glass from a broken oil cup, Engineer Andrew Bern of Jersey City, who runs the fast Bern locomotive express from Hoboken to Summit, N. Y., stood at his post and ran the train with undiminished speed into the Summit station, whence he was hurried to the Overlook hospital for treatment. The doctor words, "Fear he may lose the sight of both eyes."

HAPPY ENDING OF TRIPLE ROMANCE

Chicago, Aug. 27.—A triple romance in which three sisters fell in love simultaneously, is to have a happy ending tomorrow when the three daughters of Mrs. Louise Lamson, 686 West Jackson boulevard, are to become brides. Perhaps the most unique feature of the strange romance is that each sister set the date of her wedding without the knowledge of the sisters, confiding the secret of her betrothal only to her mother.

JERSEY COWS TREATED LIKE PAMPERED CHILDREN

Cincinnati, Aug. 27.—W. Kehey Shoop, who is heavily interested in the Metropolitan street railway of New York and who owns a 150-acre farm in Glendale, a suburb in this city, has purchased 24 cows for his \$75,000 herd of Jersey cows.

The two attendants, whose sole duties are to look after the cattle, place these coverings on them every morning to protect them from flies.

The teeth of each blooded Jersey are brushed three times daily. These dairy men in dairy farming is said to result in better health and better milk. In exchange for the tooth treatment and coats each cow has daily produced over two gallons of milk, with a large amount of cream.

MARIAN GREY RELEASED.

Chicago, Aug. 27.—Marian Grey, the young woman convicted of conducting the "Elgin Searchlight club," a matrimonial bureau, and whose sentence of one year to the Bridewell was reduced to 30 days to the House of Good Shepherd by President Taft, was released from custody yesterday.

The woman returned with her mother to her home at Benton Harbor and prepared to assume the duties of stenographer in a biscuit factory.

MULTIMILLIONAIRE HURT IN AUTOMOBILE ACCIDENT

Pittsburg, Aug. 27.—William H. Singer, a director in the Carnegie Steel company, was seriously and perhaps fatally injured Wednesday night in an automobile accident at his summer home near Providence, R. I. Relatives hurried to his bedside.

One year ago the wealth of Mr. Singer was estimated about \$30,000,000. He

was approaching the age of three score and ten and apparently he got a sudden premonition that he might meet with a fatal accident or die suddenly, thereby embarrassing his estate, perhaps for his heirs. He decided to provide against this contingency by disposing of the greater part of his wealth to his children, four in number. Accordingly he sent out invitations for the largest family dinner party ever given in Pittsburg. The one favor found by the plate of each of the four

children was a paper giving absolute transfer of \$4,000,000. Mr. Singer all his life has been one of the close friends of Andrew Carnegie.
