EVENING NEWS.

Correspondence.

WORM CREEK, Idaho, August 5th, 1880.

Editors Descret News. In answer to many questions about this place I will give a brief descrip-tion of this country, hoping it will prove interesting and instructive to the many readers of your valuable This place is eight miles north-

field if it were wise to do so, and there is water enough to water the whole country, but it will take about \$15,000 of good labor to bring the water on the land, but we are going right after it, and those having claims to land here had better hurry and work out their water claim, for we are forming clubs now, and those clubs will hold the water, and those who do not perform their part will have to purchase of those clubs.

This is a very desirable location.

The U. & N. R. R. runs through the centre of the land and the whole country is covered with blue grass

not of Kentucky, but of Southern Idaho. Of course we expect the good and far-seeing legislators of Idaho to give us a handsome appropriation at their first sitting. They can see very easily that in one year's tax after the water is out will pay them back, not speaking of the amount of tax annually. We have at this date 65 families, and have Brother N. Porter as our

worthy Bishop. We have some good times, being visited by Brother Card, superintendent of the Logan Temple and counselor to the presidency of the Stake. He was accom-panied by Brothers Hatch, Herse and another brother from Clarkston. All gave us good advice and counsel which we received with gratitude and pleasure. We have an occasional visit from

Respectfully, WM. GEDDES.

Ben Tasker,-Marshal vs. Sheriff. BEAVER, Aug. 5th, 1880. Editors Descret News:

I seat you a telegram on Saturday at the earliest possible moment af ter Tasker's conviction, in the hope that it would not be too late for your evening's lasue. After conviction he was torned over by Sheriff GEORGE A. CLARK, Coombs to Deputy Marshal Fract of his prisoner and remained one day and night. The marshal had one and night. The marshal had front of the Court House, and one in the loft, where he could look down into the hall, where a lighted lamp was hanging, through crevices between loose plank, and also guard the back er south outside door. The convict was placed in the sheriff's office, which was the northwest corner room of the Court House, without being ironed or the door into the hall even locked. The sheriff had prisoners in two cells adjoining each other, and one of them adjoining the office referred to. The doors of these cells were locked and strongly door leading from the sheriff's north cell was the bed of the sheriff's guards, who had nothing to do with without awakening them they were forfeited. allowed to lie down and sleep.

> so he examined the back door and or use the water for purposes other the upper end of the catch into ments ferfeited, unless such person which the latch entered, and the prisoner gone. It seems he had nothing to do but walk stealthily out of the sheriff's office, step over his guards barefooted and on reaching the south end of the hall remains without first obtaining a like water coming through the water mains without first obtaining a

self. This the sheriff resented, tak- six months, or both fine and iming such prisoners as he was, or prisonment, should be, the lawful custodian of, SEC. 16—S

important ones to go back on the presecution, but sufficient was proven to satisfy every juror that the case was murder; but I under-stand it took them about six hours to determine the degree. The final result of murder in the first degree was doubtless the only proper one under the statutes. After the going back of witnesses, Judge Van Zile warmed up to the subject, and made, I think, the bast plea on evidence ever made in this district.

(To be continued.)

CACHE VALLEY STAKE CON

at Logan, on Saturday, July 31st, There were present Of the Twelve Apostles, President John Taylor, Wilford Woodruff, L. Snow, Erastus Snow, F. D. Richards, Geo. Q. Cannon, Brigham Young and Moses Thatcher, also the Presidency of the State, and several visiting Elders.

After the opening services, the Clerk read the statistical report, and presented the report of the Temple donations from May, 1877, to July 1st, 1880, inclusive. Following which Bishop E. Hunter occupied the time, with remarks replete with interest and instruction. He was listened to with attention by the congregation.

President John Taylor referred to

President John Taylor referred to the presence of Bishop E. Hunter, and expressed his pleasure at that fact; in consideration of his great fact; in consideration of his great age he felt that the congregation were desirous of hearing the Bishop talk. Bresident Taylor was glad that Bro. Hunter was sufficiently strong to undertake his present visit. The speaker continued his remarks, referring to the paying of tithing and the building of Temples, and administration the same to live aright, that we may be emittled to the blessings of Heaven.

ter of Isalah, and discoursed elabo rately spon the many grand and in-teresting topics, couched in sothat

chapter des la main est but lie de Elder B. Young spoke upon the favorable circumstances in which the Saints were si, uated in this val-ley, and alluded to the great results which we see around us, which have sprung from small beginnings, and touched upon the benefits of union and concert of action.

Sunday morning, 10 a. m. Opening services Elder John Morgan gave a succinct account of his recent mission in the Southern States, and gave a description of the settlements in Colorado, to which the Southern Saints are being gathered.

Elder Wilford Woodruff spoke of Rocky Mountains, there being at least 20,000 acres that is all good land, and could all be fenced in one field if it were wise to do so and would be sold in the world in consequence of wickedness and the certainty of the promises of the Almighty. He urged the Saints to be faithful and prosecute their labors upon the Temple that we might perform therein the labor necessary for the living and the

Elder L. Snow discoursed from the 3rd chapter of Galatians, 15th and 16th verse, and spoke of the propriety and necessity of attaining to the possession of that supernatural power that cometh from God, which would enable us to accomplish our salvation. President W. B. Preston present

ed the general and Stake authorities of the Church, which were un-animously sustained with the following changes: Brother George L. Farrell, Bishop of Smithfield ward.

Brother John Parry, President of the High Priests Quorum of this Stake of Zion, with Francis Gunnel and George Barber counselors. Bro. John B. Thatcher President of the Y.M.M.I. A. and I.C. Thoreon and Frank Benson counselors. Fred. Turner first assistant Suniay School Superintendent.

Singing and prayer, after which the sacrament was administered. Elder George Q. Cannon referred to his recent labors at Washington, Professor Nash, of Franklin, which place is greatly blessed by having such a man, for he very near makes a choir himself.

and spoke of the many efforts that had been made by our enemies to abridge our rights and deprive us of our liberties. God had averted these many menacing attempts of which the priests of the nation were the main instigators. The speaker treated upon many interesting topics which were listened to with marked appreciation.

President Taylor referred to the

efficient services of Brother Cannon at the seat of government; spoke of the spirit of persecution that had been arrayed against us from the beginning deprecated the course of the evil doer, alluded to the building of the Logan Temple, made many instructive and interesting remarks, and predicted the glory and triumph of Zion. and triumph of Zion.

JAMES A. LEISHMAN, Clerk of Stake.

NOTICE.

Citizens using water from the City Creek Water Mains.

Your attention is called to the following sections of an Ordinance in relation to the Salt Lake City Wa-

SEC. 10-If any water consumer shall permit any person from other bolted. In the hall north of the premises, or any unauthorized person, to use or obtain water from said consumer's premises or water fixtures, whether inside or outside of Tasker, but with the view that bolted his building, the supply of water may be cut off and the amount paid

SEC. 12-If any consumer shall Lunderstand from the sheriff that the statement of the Marshal's guard who were placed in the loft is to the effect that about the time of the rising of the morning star he had occasion to go down, that on doing it through basins or other apparatus, are he are reprinted the back door and or use the water for nurrouses other found it all right, he then went | than stated in the application and around to the front guard (it being somewhat chilly at his post) and remained about 15 minutes, when on returning he found the door had been opened by taking a screw from off from such consumer, and all pay-

move a single screw, turn the cat h license therefor, or shall without anmove a single screw, turn the cat h down, and depart without saying good night, seeing no one to address. The sheriff's prisoners were all safe.

I may add here that there has been considerable sparring as I understand between the deputy marshal and sheriff about the control of the jail, the Marshal in the first instance having Marshal in the first instance having one hundred dollars for each offense, the commitments made out to him- or by imprisonment not exceeding

should be, the lawful custodian of, into court, and delivering them to the Marshal with the statement used only for the purposes expressed that they could not be returned to in the license; and no sprinkler shall the jail unless the commitments be used for sprinkling the street outwere made to him. The court diside the sidewalk, unless such privirected that the commitments be lege is included in the license and made to the sheriff. Bidewalks, nade to the sheriff.

It may not be amiss to state that windows and fronts shall not be after witnesses had made a state-ment to presecuting officers showing of 6 and 9 a. m. 1 and 2 and 6 and 8 a clear case of a put up job, on Eng-lestion or Dutchie, Ben, with his be larger than one-fourth inch in dibe larger than one-fourth inch in diample opportunities, as is said, got ameter, and no license for a sprinkler with the witnesses and caused some shall be issued except in connection with other water service.

Information has been filed at my office, wherein several parties are charged with violating one or more of the above sections, viz. by sprinkling their sidewalks, the streets, their lawns, washing vehicles and for irrigating, having no license for using the water for such purposes.

Your license distinctly states for what nurposes you may use the was what purposes you may use the water; using it in any other manner is in direct violation of the law.

Any further infringement of the Ordinance will be followed by an en-forcement of the law.

G. M. OTTINGER. Super'ntendent of the City Water Works. 4216 8
