

North Cañon Ward was then divided into three wards as follows—All that part of the Ward, from the north boundary line south to the mountains lying east of the street running north and south, between Brother Daniel Wood's corner and Brother John Wood's corner, will be known as East Bountiful Ward; all that part of North Cañon Ward, lying west of said street, and north of the street running east and west by Brother Daniel Woods, will be known as West Bountiful Ward; while all that part, lying west of the aforesaid north and south street, and south of the east and west street running by Brother Daniel Wood's, will be known as South Bountiful Ward.

The above division into wards was unanimously accepted. The following persons were then accepted—

For South Bountiful—William Brown, bishop; Edwin Pace, first counsellor; Joseph Hougén, second counsellor.

For West Bountiful—William T. Muir, Jun., bishop. He asked for time to choose counsellors.

For East Bountiful—Chester Call, bishop. He asked for time to choose counsellors.

The following ordinations to their several offices were then attended to—

Wm. Brown, by Elder Snow; Edwin Pace, by Elder Richards; Joseph Hougén, by Elder Snow; Chester Call, by Elder Richards; Wm. T. Muir, by Elder Snow.

FROM FRIDAY'S DAILY, JUNE 22.

Dusty.—Plenty of dust blowing around this morning.

Body Found.—The following came to hand this morning, per Deseret Telegraph—

LOGAN, June 22d, 1877. The body of Brigham Woodruff, which had floated seventy miles, was found in a good state of preservation, opposite the Indian farm in Malad Valley. Funeral at ten a.m. to-day.

Twelfth Ward.—At the meeting held last evening in the Twelfth Ward A. C. Pyper was chosen and sustained as Bishop of the Ward, with John Druce and Leonard G. Hardy as his counsellors. Joseph C. Kingsbury was appointed clerk of the Ward. The reason of the change was the connection with other quorums of the former incumbents of the offices.

Excommunicated.

MENDON, Cache Co., June 18th, 1877.

Editor Deseret News:

Please publish the following—

To all whom it may concern. On Sunday, June 17th, 1877, Lars Larsen and Soren Mortensen were cut off the Church of Jesus Christ of Latter-day Saints for apostasy.

HENRY HUGHES, Bishop.
JOHN DONALDSON, Clerk.

The Big Fire.—The fearful fire at St. John's, New Brunswick, with the immense loss of property and consequent suffering it has entailed has aroused the public heart to sympathy and assistance. Subscriptions are being taken up at different places throughout the country and help will be promptly forwarded. Has Salt Lake anything to spare for the unfortunate New Brunswickers? Read the further particulars in this evening's NEWS. This paper gives the fullest account of the catastrophe.

Alderman's Court.—To-day, Jas. Watson charged with vagrancy and intoxication, was engaged to work on the streets for the space of twenty-five days.

Mike Klune, for drunkenness and profanity, was assessed \$10. He was further charged with obtaining meals under false pretences. He treated himself and a friend to oysters, &c., to the value of \$2.50 in Clabby & Hogle's restaurant, and when humbly interviewed for the amount while endeavoring to slip out the back way, he declined payment and informed the astonished waiter that he had nothing else to do but serve hungry gentlemen with cooked provisions. For this he was assessed and fined an additional \$10. He paid the cash and departed.

Two square inebrates contributed \$5 each to the city coffers.

Sea Foam Swindle.—The old time wooden nutmeg swindle has obtained world-wide notoriety. Yankee ingenuity creeps out every-

where, and, considering the perversity of human nature, it is not at all surprising that among the many beneficial inventions of the down-easters, there should be some designed for the benefit of the seller and the "selling" of the buyer.

The latest of the latter kind that we have seen is the "Family Grindstone." It is represented as composed of "sea foam from South Africa," and each grindstone bears a label with the warning, "Use no Water." It is a small affair, and is sold, with the purchaser, for seventy-five cents.

Examination of the "family grindstone" exposes the fact that it is a wooden circular combination, with a thin coating of some composition, which, like a drunkard's mouth, cannot endure water. Peddlers are offering this article in town and country, and we refer to this swindle as a caution to those who are too ready to invest in anything that is new. The coating of "sea foam" on the wooden grindstone is a great deal "too thin."

Interesting from Scandinavia.—Elder O. N. Liljenquist, now in charge of the Scandinavian portion of the European mission, writes to President Brigham Young under date of May 29th.

During the past six months 536 souls have been added to the Church in that country by baptism. Public meetings are well attended and the Elders enjoy a good spirit. Elder Tulgreen was laboring in Finland, where nine persons had been baptized. He and Brother Sundstrom had held eighty meetings, but were opposed by the police because they were not natives. On the 3d of January they issued the first number of Nordstjernan (the North Star) in the Swedish language. It is a semi-monthly. It has now over 800 regular subscribers, and its circulation has been increased to 1,200. Brother J. S. Sandberg, of Salt Lake City, is doing most of the editorial work.

Bro. Liljenquist was making arrangements for the publication of the Book of Mormon in the Swedish language. He expected that the emigration this year would be larger than last, 400 or 500 being ready for the first company, the date of sailing not fixed. It was likely that eight of the valley Elders would return this season.

Surprise Party and Testimonial.—Last evening a very pleasant genuine surprise party was given to Bro. Henry Emery at the 16th Ward School-house. Bro. Emery has been leader of the choir for fourteen years, and Superintendent of the Sunday School for eight years. He has been punctual in his attendance and indefatigable in his exertions for the public good, and is greatly beloved and respected, as he deserves to be.

As a token of their appreciation of his labors the choir Sunday school teachers and others arranged this party, which was really a complete surprise to Bro. Emery. He went to the School-house for the usual choir practice and found the tables spread and about one hundred persons present, each with their picnic to greet him.

After a splendid supper Bro. John Vincent, in a very neat speech presented to Bro. Emery an Elgin watch with an appropriate inscription. Bro. Emery responded. Then followed music, toasts, recitations, songs and speeches and a general good time.

The supper was arranged by the ladies of the Relief Society and Bishop Kesler presided. Such manifestations of respect and esteem are calculated to stimulate to further exertion those who spend so much time gratuitously in the public service.

Condor Mill Burned.—The following came in this afternoon—

Pioche, Nev., 22. News was brought to Pioche this a.m. that Condor Mill, situated ten miles south of here, at the head of Condor Cañon, was entirely destroyed by fire last night. The fire was first discovered in a woodpile alongside the boiler furnace, at about 5.30 p.m. An alarm was immediately given, and the steam pump set to work, which, after a few strokes, refused to act, and was abandoned, leaving no means of throwing water on the burning wood. The flames easily communicated to the mill, destroying it in a short time. The rapidity with which everything was burned and the time lost in endeavoring to work the pump, prevented the saving of any amalgam, quicksilver, and other articles of

value. No one was allowed to leave the mill for town till this morning, as it was necessary to endeavor to lease another mill before circulating the report of the burning. It is supposed the fire was caused by a spark from the furnace fire falling among the wood. The mill and blacksmith shop was the property destroyed. I am unable to learn whether the property was insured or not. The Alps Company have an unexpired lease on the mill, which was to have run until the first of August, therefore that company will be put to serious inconvenience until they get started at some other mill. The engine, boiler, and flywheel can be used again. The Alps Company's loss on supplies for the mill is \$6,000. The entire loss is estimated at \$36,000.

That Investigation.—The full report of the investigation into the suspender buckle ass-assination published in last evening's NEWS, has been copied into other papers and has caused some comment. The general impression among all classes of the community is that it was a very poor attempt at manufacturing a sensation.

The publication of the proceedings has been delayed somewhat, in order to have everything fully attested, so as to leave no room for challenge of the correctness of the report. Each person's testimony has been submitted to the witness, and affidavits taken by a notary. The folly of attempting to throw any doubt on the accuracy of the report is thus demonstrated. Some people are never satisfied. But the following certificate from the Notary should be sufficient to assure every reasonable person that the utmost care and caution have been exercised to guard against any error in the reporter's transcript—

Territory of Utah,
County of Salt Lake.

I, Chas. W. Stayner, a notary public in and for Salt Lake County, Territory of Utah, do hereby certify that the foregoing testimony, after having been transcribed from the reporter's notes, was duly read to the respective parties giving the same, and was by them severally subscribed in my presence, excepting that of Daniel Davidson, whose signature I could not obtain, as he was out of the city.

In witness whereof I have hereunto set my hand and affixed my notarial seal this 20th day of June, A. D. 1877, at my office at Salt Lake City, U. T.

CHAS. W. STAYNER,
[SEAL] Notary Public, Salt Lake Co., U. T.

We think the world-famous "commissioner of the N.Y. Herald" sensation factory has received already too much notice from the press, and that he and his stupid case should now glide into its appropriate oblivion.

Upset.—The New York Herald "commissioner," after a prolonged "investigation" at Wagner's Brewery until the small hours of Thursday a.m., was unable to manage his horses. He was thrown from his buggy, and the team put for home, damaging the vehicle. The "commissioner" is still unhurt, except a "slight abrasion." Wonder if the animals were frightened by a "tall, dark man with a black goatee," or scared by the spirit of a keg of lager?

Water Prig.—A complaint was made to-day before Alderman Pyper against Samuel Stewart of the First Ward for stealing water. It appears that the defendant had been in the habit of taking water for irrigation without any regard for the rights of his neighbors, and now they are determined to "put him through." Right. What is the use of laws unless they are enforced?

FROM SATURDAY'S DAILY, JUNE 23.

Cooler.—A cool north wind last night and this morning.

Juvenile Pleasure Seekers.—The 20th Ward Sunday School children spent a happy day at Lindsey's Gardens, yesterday. Nothing disagreeable occurred to mar the peace and pleasure of the occasion.

Much Mutton.—A flock of about 3,000 sheep and lambs passed through the city this afternoon, from West Jordan, on the way to the foot hills by the banks of the flowing Weber. They belong principally to George Wright.

Moderate Crops.—The fruit crop of Salt Lake City will only be moderate this season. The trees are far from being heavily loaded as usual.

Arrived.—The S. S. Montana, of the Guilen Line, on which Elder A. F. McDonald and other missionaries sailed, arrived at Queenstown at noon on Thursday, making the passage in 8 days 12 hours. The company probably reached Liverpool early yesterday morning.

A Fretful Captive.—About midnight last night Mr. B. Y. Hampton encountered a very large porcupine, near his residence, in the 20th Ward. The animal showed fight, but was captured and securely imprisoned in Mr. Hampton's barn.

If anybody is badly off for a porcupine we know where he can get one cheap.

Just So.—When you hear a man talk about having retained his faith, although he has ceased his works, in the cause, and notice that his breath gives greater evidence of the spirit than his walk and conversation afford of gospel graces, you are apt to conclude that a faith that has been preserved for a dozen years in whisky does not retain many vigorously vital points. Eh?

A Veteran.—Yesterday, June 22d, was the anniversary of the birthday of Bishop Edward Hunter, "a man, take him for all in all." He is now in his eighty-fifth year, ripe with age and respected and beloved by his brethren. We, with the friends of Bishop Hunter generally, who are numbered by thousands, wish him the compliments of the season. "Many happy returns of the day."

Entertaining.—Yesterday the pupils of the Fourteenth Ward Seminary gave an excellent entertainment, in the Assembly Rooms, consisting of songs, recitations, instrumental music, tableaux, &c. The occasion was the closing of the quarter preceding vacation. Suitable prizes of merit were distributed.

Mr. G. J. Taylor is Principal of the Seminary, and is ably aided by his assistant, Miss Jennie Taylor, daughter of Bishop Thomas Taylor.

Arizona Prospects.—Elder Lot Smith, writing from Sunset Crossing, Little Colorado River, on the 10th inst., says:

"I have just returned from the camps of Brothers Lake and Allen. They are all well. There is a good prospect for a crop on the Little Colorado this season. We have had more rain and there is much more water in the river than there was last year at this time."

Lithotomy.—We are informed, by Brother George Higby, of Hooperville, that his little son, six years of age, who underwent the operation for lithotomy, nearly two weeks since, has now entirely recovered, and is able to run around as usual. The stone extracted from the bladder was about an inch in length, and half an inch or more in thickness. The operation lasted but a few minutes, the little fellow being under the influence of chloroform, and was performed by Dr. W. F. Anderson, assisted by Drs. Douglass and Joseph S. Richards, of this city.

Gone North.—President John W. Young has gone to the beautiful city of Logan to spend a few days.

From South.—We were pleased to receive a visit to-day from our old friend Brother Levi Stewart, just up from Kanab.

Got Worms.—We learn from Bishop L. M. Stewart, of Draper, that field crops in that vicinity look splendid. The people there have but one cause of complaint; they have got the worms in their fruit.

Narrow Escape.—Yesterday afternoon an infant of Mr. C. C. Assmussen fell into the water sect, opposite his store, and floated down with the rapid current, nearly to the Kimball & Lawrence corner. Luckily Mr. James Dwyer saw the little one, bounded out of his store and caught the child as it was going under a foot bridge, where its clothes caught upon a nail. When seized by Mr. Dwyer the child was head down in the water. It soon revived after being rescued.

The Jubilee.—The bishops and superintendents of Sunday schools are respectfully invited to use their influence with their respective schools to put themselves under immediate training for the forthcoming Jubilee, on the 24th of

July, by meeting Professor C. J. Thomas, on Monday afternoon, in the Tabernacle, at half past four, for practice.

The committee on music for the Jubilee are also requested to use their ability in those schools where they lack a competent leader, that all the children may be thoroughly drilled and fully prepared for that interesting occasion.

GEO. Q. CANNON,
Gen'l Supt. S. S. Union.

Outrageous Conduct.—Notwithstanding the anti-military proclamation of the late Gov. Shaffer, the pupils of the Fourteenth Ward Seminary have gone to Lindsey's Gardens to-day. The male portion of the students are uniformed and equipped as an armed host of Skidmore Guards. In connection with this formidable military movement is an instrumental band, consisting of some drums and whistles. They have gone to "uprising" ground, on the bench, near the cemetery, and are accompanied by the coroner of the county.

Such a movement must mean something, and, according to the recent tactics of the "ring," is of sufficient importance to cause another demand upon the administration for more troops for Utah. Let the Governor see to it that the demand is made, if he values his official cranium.

Missionary News.—To-day we had the pleasure of meeting with Elder John P. Wimmer, of Payson, who arrived home on the 8th of June, from a mission to the Southern States.

He left here on November 18th, and proceeded to Arkansas, where he labored, under the direction of Elder Henry G. Boyle.

Last February he was appointed president of a company of Saints, fitted out in Des Arc, Prairie County, Arkansas, with twenty-seven wagons, the party numbering 137 souls. Elders Nelson P. Beebe, of Provo, and Thomas C. West, of Arkansas, were appointed his counselors. The destiny of the company was the new settlements of Arizona or New Mexico.

The company progressed finely, and all went well, until Elder Wimmer was taken ill of typhoid and pneumonia. When on Verdigris River, Indian Territory, the brethren conveyed him to the railroad, on which he started for home, arriving, as before stated, on the 8th inst. He left the party in charge of his two counselors.

Elder Wimmer states that the Cherokee Nation of Lamanites are very anxious to hear the gospel, some of them traveled ten miles before breakfast to attend some of the meetings held in the company's camp. Many of them are exceedingly desirous to obtain the Book of Mormon.

By letter, dated June 12th, from Elder Beebe, Elder Wimmer learns that the company were near Coffeyville, close to the division line between Kansas and Indian Territory, having been able to make but little progress, on account of high waters. They only traveled about thirty miles from May 26th to June 12th. The people were in good health and spirits at the latter date.

DIED.

At Fair View Farm, near Logan, June 16, 1877, CLARA, sixth daughter of George L. and Amanda A. Farrell, of scarlet fever and diphtheria, aged one year, ten months, and sixteen days.

Millennial Star, please copy.

Thousands of Affidavits.

Many having used "patent" and prepared medicines and failed in finding the relief promised, are thereby prejudiced against all medicines. Is this right? Would you condemn all physicians because one failed in giving the relief promised? Some go to California in search of gold, and after working hard for months and finding none, return home and say there is no gold there. Does that prove it? Many suffering with Catarrh and pulmonary affections have used the worthless preparations that crowd the market, and in their disappointment say there is no cure for Catarrh. Does that prove it? Does it not rather prove that they have failed to employ the proper remedy? There are thousands of people in the United States who can make an affidavit that Dr. Sage's Catarrh Remedy and Dr. Pierce's Golden Medical Discovery have effected their entire cure. Many had lost all sense of smell for months, and pieces of bone had repeatedly been removed from the nasal cavities.
