In Mongolia, 150 miles from Peking—No Pursuit Intended—Japan—See Seize Silver.

New York, Sept. 15.—A dispatch to the Herald from Peking says the emperor dower and the emperor, with eight thousand troops as a guard, are now staying with a Mongol prince, in Mongolia, 150 miles northwest of Peking, watching events there. No pursuit of them is intended by the foreign troops.

If Peking is to be held, immediate steps must be taken to meet the problem of a food supply for half a million population or else there will be certain starvation next winter.

The yearly contribution of the southern provinces of a hundred thousand tons of rice for the Peking Manchus is stopped by the military operations and part of it has been confiscated at Tien Tsin.

The Russians are keenly pushing their interests. There are 8,000 of them here now.

In Manchuria they report fighting everywhere with Chinese troops, pointing to a permanent occupation down to the great wall at Shanghai-Kwan.

The Japanese have ten thousand men here. They occupy the whole north part of the city, the largest and richest share of all. They are engaged in a million tons of silver in the board of revenue.

London, Sept. 15.—A special dispatch from Shanghai dated Friday, September 14, says that prior to the departure of Li Hung Chang for the north the new German minister, Dr. Mumm von Schwarzenstein, exchanged views with the Chinese statesman. The dispatch adds that it is reported at Shanghai that the suggestion that a Russian cruiser escort Li Hung Chang to Taku was dropped, owing to the objection of Admiral Seymour.

The statement is reiterated that Hsu Tung, the emperor's tutor, recently hanged himself.

PREST, LOUBET DECIDES.

Passes on the Boundary Line Between Costa Rica and Colombia.

Paris, Sept. 15.—President Loubet, acting as arbitrator in the boundary dispute between Colombia and Costa Rica, decides that the frontier between the two republics is formed by the cordillera of the mountains setting out from Punta Mona, on the Atlantic, and crossing northwards the valley from Rio Tarina to Rio Sixola, then by a line drawn at about the ninth degree of latitude between the Atlantic and the Pacific. Afterward the boundary follows a line between Chiriqui Viejo and the tributaries of the Gulf of Dulce, ending at Punta Bureya, on the Pacific.

The islands east and southwest of Punta Mona, near the coast, belong to Colombia, and those lying away from the continent lying between the Mosquito coast and the isthmus of Panama are also Colombian territory, as well as the islands situated east of the Bureya islands and including them. The islands west of this point are assigned to Costa Rica.

The Boys Shout McKinley.

East St. Louis, Sept. 1.—At Greenville, Mr. Bryan took cognizance of the frequent cries of small boys in the crowd for McKinley. Addressing himself to the parents of such boys he told them that if the Republican policy should prevail they could count upon raising boys to send to the army to be sent away to distant lands to fight and give up their lives in exchange for original trade. The McKinley boys listened intently to the lecture and when it was concluded, set up another shout for the President. This brought out a counter demonstration and as the train pulled out only cheers for Bryan could be heard.

TWO VESSELS SUNK.

EVANS-ROGERS CASE IS DECIDED

Supreme Court Orders That They Pay Widow Nelson \$1,793.33.

CHIEF JUSTICE DISSENTS,

And Says the Attorneys Should Receive Some Punishment—Opinion by Justice Miner.

The Supreme court delivered an opinion today in the Evans-Rogers disbarment case, ordering that the accused attorneys pay into court the sum of \$1,793.33, with 8 per cent interest from December 25, 1898, for the use and benefit of the widow and children of Charles A. Nelson, within sixty days, and failing to make the payment that their names be stricken from the roll of attorneys in the State of Utah.

It will be recalled that early last May Attorney P. L. Williams filed in the Supreme court an information verified by the oath of Thomas Nelson, charging David Evans and Lindsay with having violated their duties as attorneys by making a champertous contract with Thomas Nelson of Ogden. Mr. Williams, in a petition filed at the same time, asked that the accused attorneys be disbarred for their alleged unprofessional conduct. The attorneys interposed a demurrer, which was overruled, and also filed an answer. The matter went to Judge D. H. Twomey to take testimony and report, which he did. Judge Twomey found that the contract between Evans & Rogers and Thomas Nelson was champertous, and concluded, adding that the disbarment proceedings had been instituted by Nelson in the hope that he would force the payment of the money, which he claimed was due him, and which the court now orders a refund of. The referee made no recommendations and the matter has been under consideration by the Supreme court since June 20th last.

The opinion of the court was delivered by Justice Baskin, who finds from the facts disclosed by the record that the accused attorneys made a champertous contract and thus violated their oath of office. The fact that they have for a long time maintained good standing before the courts and are men of good morals caused the court to refrain from recommending their absolute disbarment. Justice Miner concurs with Justice Baskin, but Chief Justice Bartch, while concurring in the judgment of the court, holds that there should be the infliction of some punishment, "other than the mere payment of money." "When," says the chief justice, "an attorney is guilty of deliberately violating the confidence reposed in him by the court, and his duty to his clients, the punishment ought to be commensurate with his wrong-doing. The dignity of the court, the purity of the profession, the peace of individuals, the protection of clients, and the public good alike demand this."

The opinion is a lengthy one, covering twenty-six pages of typewritten matter.

Judgment Is Confessed.

In the case of Dr. Fernand Henroth vs. Gill S. Peyton, the defendant today confessed judgment in the third district court for \$5,000 and interest, the amount sued for on a promissory note.

JUDGE TIMMONY'S COURT.

Ed Sauer, a man about 60 years of age, pleaded guilty from a fruit stand on First South. The court took mercy on him and allowed him to go on the promise that he would never do anything like that again. Sauer appeared to be very grateful to the court.

Mike Boyle and Pat Manahan each got thirty days. The former for drunkenness and the latter for petit larceny.

Mike Clay, who stole a pair of pipe

tongs from the Mountain Ice company, entered a plea of guilty to petit larceny and was given twenty days in the county jail.

The case against James F. Kelly, accused of embezzling \$150 from a First South street eating house, was dismissed. The prosecution failing to make out a case.

ARITHMETIC AND FOOD.

School Children Must Be Better Fed.

A young girl in Newport, Ind., Miss Ethel Thornton, says no one has a better right to speak of Grape-Nuts food than she. "I was in school, but in poor health, until Mamma began to give me Grape-Nuts food. I began to improve at once, both mentally and physically, and I improved so in my work, that I was able to do arithmetic, and during that time gained 3 or 4 pounds in weight and am still gaining."

"There is no one has a right to recommend the food more highly than I. Mamma suggested to supply it for about three weeks, and I began to fall in health again, so I commenced the use of the food over, and now I don't intend to do without Grape-Nuts on the table."

It is well for parents to know that Grape-Nuts food contains selected elements from the grains, prepared and cooked in such a way as to present these food elements so that they can be quickly digested and assimilated; the phosphate of potash obtained from the field grains, and contained in Grape-Nuts unites with the albumen of food to quickly rebuild the gray matter in the nerve centres and brain.

It is of the greatest importance that growing children and students be given food that sustains both brain and nerves.

and people gathered around the meeting house would conclude that the people had taken a vacation from business. The gathering, however, was a sad one, being the funeral of another victim of the unwise course of careless young men and an "I didn't know it was loaded" gun.

On Sunday, the 9th inst., Daniel Williams, a young man sixteen years of age, was out with some other young men, and after firing off a pistol several times and snapping it several times, he sent a bullet right through his head. The ball entered a little above the left eye and came out at the back of the head, rendering him instantly unconscious and producing death in a very short time. The young man who thus unintentionally did the deed, is almost frantic with grief.

Deceased was the son of Jeremiah H. and Ruth Williams, and was born Nov. 14, 1884. He was a bright, active young man, with thoughtfulness unusual for one of his years; hence his loss is all the more keenly felt by the bereaved parents and grief-stricken relatives.
