As stated some days since, Mr. M. Ayers, of the CAYUGA CHIEF MAN-UFACTURING Co., of Auburn, N.Y. has been spending the harvest season among the farmers, watching his machines and making improvements necessary to the wants of irrigated farms, so different from eastern farms. One of the results of his arduous labors has been the improvement in driving the "Self Rake," which is, with his new improvement, done without any hole or pin in the main shaft, thus preventing the possibility of breakage in this important part of the machine. It is a great improvement, entitling Mr. Ayers and all the manufacture of this favorite machine to great credit for indomitable energy and perseverance in following their machines so far from the works and giving to the people every possible advantage to be gained by hard, inventive work in the field. The new improvement can be put on all their Reapers now at work in Utah. Mr. Ayers mentions the well known agent, Mr. Mattison, of Salt Lake, and Mr. Johnson, of Ogden, as very valuable assistants, with good suggestions, and Mr. TUCKFIELD, of this City, as carrying out details and assisting generally in the final success. The Cayuga Chief Co. and D. M. Osborne & Co., both of Auburn, N. J., have consolidated, and these two immense factories now join hands in calling upon the farmers as D. M. OSBORNE & Co., the largest Mower and Reaper company in this country. Mr. Ayers, representing the new company, will stay per- the San Francisco Chro monently in the "Far West," with offices at Salt Lake and San Fran-

Another petition of the same import, from H. H. Harris and eleven others, residents and pro-perty owners in that neighborhood, was similarly disposed of, it being remarked in the Council that setlers themselves could decide regarding whom they should have for waermaster, and that the land in the locality alluded to was taken up with the express understanding that the settlers would have no definite water rights to Emigration
