CHARLES W. PENROSE, EDITOR.

A COMMENDABLE MOVE. BISHOP WHITNEY, has taken steps to adopt a measure in the Eighteenth Ward that is in unison with the ideas we have advanced for the purpose of intensifying the interest of the Saints in their religious duties. He proposes to establish, during the winter months, a system of week-night meetings in the several districts of the Ward. These are to be held in the houses of the members and to presided over by brethren appointed for the purpose, and those residing in the divisions of the ward where they are held will be invited to attend. This plan already exists in some of the other wards, and has been earried into effect with good results. Any means that will reach the people where they live, so to speak, calculated to awaken a deeper interest in the work of God, must be beneficial. Aside from the general benefits to be derived the holding of religious meetings in private dwellings can scarcely fall to leave in those habi-

tations a benign influence. If errors of a more or less public character, such as Sabbath-breaking and kindred wrongs are to be abolished, we do not believe it will be so much by general correctives as by going to the root of matters and reaching those who indulge in them by close contact. If such meetings as those under consideration will have an effect in that direction they will serve a most excellent purpose, and we believe their general adoption would be advisable.

Through the agency of similar gatherings abroad, under the direction of the Elders, many converts to the Gospel have been made. If this result is attainable in the missionary field, it seems reasonable that they would tend to inspire a greater interest in the Church at home. They will be an auxillary in enabling local officers of the wards the more effectively to carry the Gospel to the firesides of the Saints.

Comparing the Church to a tree, if it is to be nourished and fed, the process cannot be operated through the leaves, limbs and branckes. The sap is first absorbed by the roots, from which it is carried to every other part. So must those labors that appear to be the lesser be faithfully performed, for on them depend the production of the the entire superstructure.

A SHORT time ago the Queen Regent of Spain signed a decree conferring freedom upon all slaves remaining in Cuba. A gradual process of emancipation has been in progress in that island for seventcen years, a law having been es-

tablished in 1869 looking to that end. Ten years later this law was superseded by another statute whose pro-, visions were calculated to bring about the result aimed at more speedily. But the genius of the age could not await the slow operation of even the second law, and the negro and the "Mormon" Church. Mr. who have worked night and day, without a penny, know under what disadvantages this struggle has been and the "Mormon" Church. Mr. was a penny of the second law, and the negro and the "Mormon" Church. Mr. was a penny of the second law, and the negro and the "Mormon" Church. Mr. was a penny of the second law, and the negro and the "Mormon" Church. Mr. was a penny of the second law, and the negro and the "Mormon" Church. Mr. was a penny of the second law, and the negro and the "Mormon" Church. Mr. was a penny of the negro and the negro But the genius of the age could race on the chief of the Antilles has, at a single stroke, been made free. Undergoing an unparalleled oppres-

sion; having their rights daily invaded; being made the victims of the most in-.famous political schemes; threatened with political serfdom or even a worse fate; with a prison staring thousands of their best men in the face; and with hundreds of their families being torn asunder and disrupted, so far as such a work can be accomplished, by ferocious religious persecutors, it may not seem true to many that the tendency of the age is in the direction of liberty. But it is true nevertheless; and at more and more frequent intervals events occur that indicate the fact, when they are rightly viewed. An able writer in an eastern journal says that the progress of liberty during the present century will not compare with the advancement that has been made tin other departments of civilization, as industry, invention, etc. While this may be true, it may a'so be said of the inhabitants of all the leading nations that the spirit of liberty never burned among them, in any previous age, with the fervor manifested during the last few years. haly has thrown off the temporal control of the l'ope; the German States as bad as Allen, and there are some of have become united under a pelitical system that gives them a higher and broader liberty than they ever knew before; France is realizing her long dream of a republican form of government, under which she is thriving, in a pecuniary sense at are the rnlings of its Judges and Comleast, as she has not thrived for ages; a boiling, seething element in Russia is making tremendous efforts to break the bands of power which hold that nation; Austria yearns for a Pan-Sclavoulc union that shall do for the Sclavic races what the German states have done for themselves; while old England is being convulsed as she has tion of human liberty for Ireland.

not been for ages, over a simple ques-· Unfortunately the spirit of liberty, or perhaps more properly speaking, that instinct or passion which impels men to attempt to throw off a rule they feel to be unjust, is not being controled in a manner consistent with justice or the permanent welfare of the race, in many of the nations in which it is seeking to assert itself. Its methods are as wrongful are those of the powers contends against, or even more so. In far too many instances it becomes

known and comprehends only in small part, but which it vaguely calls liberty

This is the antipodes of the natural growth of everything. It is therefore Indiant. These are the murderous, bound to produce anarchical conditions | blackmailing vampires who are abroad before the haven of freedom and peace is reached. The goal will only be attained after the flercest, because the most gigantic, struggle the world has ever witnessed. Social and political storms are fomenting everywhere, and tornadoes, cyclones and whirlwinds of human passion will earry devastation in their path. There is now in progress and will continue a struggle for the establishment of the principles that form what might be correctly termed the constitution of corroborated the previous witnesses the moral universe of the Almighty.
The contest is immense, both in point of intensity and scope. It will involve the throwing down of Empires, the fall of nations and the breaking up of social fabrics. The storm is approaching, and after its fury is spent and the clouds are dispersed, out of the former gloom will shine a newer and better condition; in which justice and freedom—the latter bounded only by law content in 1872, and gave the opinion that such an injury would have a permanent effect through life.

Regarding earthquakes, Felix L. Os-

wald says, in the November North American Review, that the Spanish Americans "have learned to diagnose the first symptoms of a dangerous quake. In nineteen out of twenty cases the degree of that danger is indicated by the scale of the vibrations, the increasing or decreasing violence of the successive shocks. In the former case the first concussion, or series of concussions, is a warning of worse things to come; in the latter a rule, The General Result Narrowing with few exceptions, encourages the hope that Seismos has done his worst for that day, and probably for that month. For the same rule holds good for a protracted series of tremors. If a period of earthquakes begins with day of destructive shocks, followed by a week of feeble reverberations, the omen gives promise of peace, and Wiggins' prediction of a very characteristic period of that sort being but the prelude of a far more ruinous upheaval would have made few dupes in any part of Spanish America. The progress of geology has encouraged the hope that its revelations will yet enable us to predict earthquakes with

MON" CALUMNIATORS WITH A SHARP STICK. .. CHICAGO, Oct. 27, 1886.

Editor Deseret News: Has it ever occurred to you to note that in the many versions of "Morhistory published by "zealous, truthful and moral Christians," the Prophet Joseph Smith is said to have met his death in twenty different ways. He is said to have been burned, drowned, hanged, and shot. The most dramatic account is given by a woman who wrote away back in 1850. The words used by this writer are: raised the gleaming toole of death, and the Prophet fell from his horse, thus proving he was mortal." Here is anaccount published about two weeks ago:

Mormonism originated with the most au dacious scoundrel and lecherous villain the world ever knew, who fathered a most hellsh association merely for worldly gain an ust. Joseph Smith perished by the hus and of one of his victims, shot down like a log, a fate that was too good for him. The article from which this clipping

is taken is not a column in length, and yet here is still another account taken from the same article: But the people of Illinois at last refused to longer allow them to remain, and the storm of the infurnated people gathered in such force that Joseph Smith was shot while m jail for counterfeiting, horse stealing, and

many other criminal acts in 1836. This article is signed W. L. Allen. Mr. Allen is a citizen of Chicago. He greater effects. Otherwise spiritual vigor will not be diffused throughout the entire superstructure. is not in a workhouse, nor in a lunatic asylum, nor is he an immate of a "Good Shepherd Home," but he is the "editor" of what is called an evening paper. You members of the scribbing guild, what think you of Brother Al-len? If your profession is prostitution, Mr. Allen is a worthy master

This old prostitute, W. L. Allen, is the ally of your anti-"Mormon" so-cieties in Chicago. He owns a little sheet named the Telegram, which drags out a miserable existence by blackmail and by catering to the inmates of bagnios. A few months ago he published an extra or supplement to his paper, purporting to be a full account of "Mormonism" and its horrors. The New West End Education Commission distributed some 10,000 copies of this trash. Dr. Noble and some of his colleagues also took an active interest in

The above extracts are taken from the introductory letter by the bagnio editor. It will be seen he accords to the Prophet Joseph Smith two kinds of death. In the first he is shot by the husband of one of his victims; in the second by a majority of from 5,000 to second by a mob in Carthage jail, ten years before the actual occurrence. Mr. Allen is once more before the publip. A few evenings ago he issued a special edition of his dish-rag and announced the "Sudden Death of Queen Victoria." Great excitement, of course, prevailed, and the rag in question sold rapidly. But this matter

was not allowed to rest, and the Chica "It was reported last night that W. Allen, the publisher of the sheet, had been arrested at the instance of Edwin Lee Brown, president of the Citizens' Association, not for last night's attempt to obtain money by false pretenses, but for a most obscene and filthy publication in the regular Sunday extra which it inflicts upon the public. No record of the arrest could be found last night, but the hope was generally expressed that Mr. Brown had taken up the matter. The publication is no unstion is in matter. The publication in question is in nowise a rival of any newspaper in the city:

it is simply parasitical, and has no news channels of its own." This shows sufficiently what kind of allies your Utah Christian Evangelists are identified with. Mr. Allen is one There are many others in Chicago just them in Salt Lake just as bad if not worse. And it is on the evidence of these strumpets that Utah is governed in such a manner as to be not alone a disgrace to America, but to modern civilization. So glaring are the wron's and tyrannies practiced in Utah, and so arbitrary and despotic missioners, that the following editorial

is called out in the Chicago Heraid of Oct. 26. € Here is the editorial: VALUABLE SUGGESTION. It is hardly worth while for the Government to maintain the Utah Commission at considerable expense to be told by that ex-traordinary body once a year that the only afe and sure way to root out the polygi. safe and sure way to root out the polygimists is to use the army against them. Everybody knows that an army, if it is big
enough, can root out anything. While the
Commission is always caleful to say
sthat the use of the mistary arm
against women and children is not to be
recommended, its persistent suggestions in
that line show that it is of the opinion that
the job cannot be done any other way with
so much neatness and dispatch. Its proposition that more laws be passed and that a
constitutional amendment be adopted are
not of great value. The laws already on constitutional amendment be adopted are not of great value, The laws already on the stalute books have deprived the people of Utah of the right of self-government, have everthrown the right of trial by jury, have suspended the Constitution of the United States, have subjected the people to a dragooning which is not to be seen even in Rassia, have made the Federal course mere drumhead tribunals, and have introduced a system of tyranny and miscovern. duced a system of tyranny and misgovern-ment which it will be in the power of any majority at any time to establish else-

In far too many instances it becomes debased and distorted into a theory of socialism and even anarchy.

But the fact remains that the race is struggling for that which it has never extreme measures will be adonted. extreme measures will be adopted.

This is quite correct. The article i not written to give justice to Utah; The efforts of the oppressed classes of the world to throw off the yoke of ourselves. Suppose "editors" Allan and Goodwin had full sway in Utah, how long would they content themreviling Utah under the cloak of Christianity.

NEW YORK, 3. - The Times says Returns from all the counties in this state give Rufus W. Peckham for Associate Judge of the Court of Appeals, a plurality of 10,252. These figures are, of course, subject to revision, but it is improbable that the official vote will materially change the result indicated.

The Times estimates that the Fiftleth Congress will stand-Democrats, 171 Republicans, 153; Labor, 1. In the present House the Democrats have a majority of 43.

Eighteen out of the 24 Aldermer elected are Democrats.

New York, 3.—When, late last night, it was made known at the headquarters of the Central Labor Union that George was defeated, the crowd there assembled gave voice to expressions of fisgust. The Tribune claims the State for the Republicans by a plurality of from 7,000 to 10,000 and a Republican majority on joint ballot in the Legislature of 50

INDIANAPOLIS, 3 .- Returns from this State indicate the election of the Republican State ticket. The Legislative licket is still in doubt, and owing to the diversity of the interests involved, to-morrow what the result is. The Congressional delegation probably stand six Republicans and seven Democrats, a Republican gain of three.
Indianapolis, 23.—At the Democratic headquarters at noon, it was stated that their private advices corroborated the figures indicating the Republicans had elected the State ticket. They will claim the Legislature by three majority on joint ballot. Senator Harrison says the Legislature is undoubtedly Republican. Congressman Steele. according to latest advices has carried the Eleventh District. This makes seven Congress men for the Republicans to six for the Democrats, a gain of three for the former. This (Marion) County has elected the full Democratic tick et with the possible exception of two judges of the Superior Court.

ILLINOIS. St. Louis, 3 .- Dispatches from the Eighteenth Illinois Congressional Disrict, printed this morning in the Globe-Democrat, indicate the election of Baker (Rep.) over Morrison (Dem.), but the returns are very incomplete and many Morrison precincts have not

been heard from at all. In the Thirteenth Illinois Congressional District the indications from very incomplete returns point to the election of Springer (Dem.) over Connelly! (Rep.) by a majority of about 600 votes. St. Louis, 3.—Latest returns from the 18th Illinois Congressional District indicates that Morrison (Democrat) has been defeated by Jehn Baker (Republican.) The returns are still instronghold but that Morrison' went for and it is generally thought that he will be the next Congressman from the 18th District. These will swell Ames' vote. The Legislature will probably stand, Senate 26 Republicans and 291 Dem-ocrats, a gain of five for the Democrats; House, Republicans 154, Democrats 84, with six districts to hear from-

DENVER, 3 .- From meagre returns received up to noon, the indications are that Adams (Dem.) has been elected Governor by a small majority and possibly Reid for Congressman. On account of the great amount of scratching, returns are coming in very slow. Full returns are received from only 26 prebincts in Arapanoe County out of 69. They give Reid (Dem.) majority over Symes (Rep.) of 487.

MINNESOTA. ST. PAUL, 3 .- Returns from the election are coming in slow. There is more scratching than in any gubernatorial election ever held in the State. Party lines were broken down, the labor and farmer elements combined and voted for a mixed ticket. The result is that Ames (Dem.) for Governor runs way ahead of his ticket in many places, especially in the Fifth Congressional District, where a great Republican majority has heretofore been given. In Minneapolis, McGill will probably have 1,000 majority, where the Democrats two weeks ago claimed 5,000 for Ames. This great changes attributed to the Democrats cutting Ames' name from the ticket and voting for the other Democratic candidates.

KENTUCKY. Cincinnati, 23.— Speaker Carlisle concedes his defeat.

Des Moines, 3 -Returns received up o this time by the State Register show the Republican majority on the State ticket at 11,000 and probably 12,000 also show election of Republican Congressmen in eight of eleven districts The Democrats concede the State by 10,000, and claim four Congressmen.
