HARRIS LEASE DEAL.

Work to Be Pushed on This Seven Troughs Enterprise.

A deal was consummated during the week, says the Seven Thoughs Miner, by the officers of the Seven Thoughs Miner, by the officers of the Seven Thoughs Florence Mining and Leasing company, with a syndicate of eastern capitalists wherefy ample funds have ben secured for the thorough and extensive development of the Harris lease, being operated by that company, on the famous property of the Seven Troughs Mining company. The Harris Lease lles four hundred feet north of the Seven Troughs Mining company workings and the fabulously rich ore body which has attracted such great attention to the property has been drifted upon for more than half the distance toward the lease. A shaft has already been sunk to a depth of 75 feet on the lease, and the most encouraging conditions prevail. To hasten sinking, a whim, has been installed during the week, but it will be replaced with an up-to-date holsting plant in a short time, an order for such an outift having already been placed. It is the intendion of the officials of the company to sink to a depth of two or three hundred feet before doing much cross-cutting or drifting. A deal was consummated during the eek, says the Seven Thoughs Miner,
