uth Columbus Con. Was the Fea-ture on 'Change This Morning.

South Columbus Con, Was the Fea-ture on 'Change This Morning.' The mining stock market showed some signs of improvement this morn-ing. A general stiftening up in the list is noticeable with few exceptions. South Columbus Con, was easily the star performer, sales being made from 9 up to 12 cents a share. No reason for such an advance is assigned by the management. The property is said to be looking about as usual, from whence it is inferred that the demand for the stock this morning is due to the desire of certain parties to get taken being about as usual, from whence it is inferred that the demand for the stock this morning is due to take place some time in February. New York was also in good trim to day, the first sale being at 15 ½, after which 1,200 shares changed hands at 16. Mason Valley was sold up to 2024 and Plutus was in good de-mand from 44 up to 5. Columbus sold at 1.62½ and Colorado opened up to stand advanced to 87. From Blosson was also stronger around 76. Soux Con, was quite active around 49 advance A sam fell away to 46. Century was a little stronger. Silver King Coulition was active at 3.85 and 200. Grand Central sold as low as 215. Joe Bowers came out from its 215. Joe Bowers came out from its 215. Paper Issued by Salt Lake City Rallroad to be Redeemed.

A notable financial transaction of lo cal interest is set for Jan. 1, viz., the payment of 728, \$1,000 first mortgage cal interest is set for Jan. 1, viz., the payment of 728, \$1,000 first mortgage bonds issued in 1893 by the old Salt Lake City Rallway company, of the 10-20 series, that is, payable on call on and after the expiration of 10 years from date of issuance and before the expiration of 20 years, bearing interest at 6 per cent. These bonds were sold mostly to D. H. Rollins & Son, the well known bond and security dealers of New York, Boston, and Denver; though quite a lot were sold to parties in this city for investment. Payment will be made in New York on the redeemed bonds, by the Harri-man interests of the \$725,000 with six months' Interest, the only transaction here being the matter of a little book-keeping by the auditor of the Utah Light & Raliway company. The oc-casion of the issuance of the bonds was the necessity of raising money to paying of Main street, also for the pur-chase of new street cars, and for lay-ing new track. There was no trouble in marketing the bonds, as the prop-crites of the company were ample se-curity, and since then the payment of the Interest has been promptly made, making investment in these bonds a profitable one. When the Harriman in-terests acquired the street railway sys-tem of this city, all the liens and obil-gatonic of the isorgany were of course assumed, and these are being cancelled, thus reducing quite an inter-

#### ILLINOIS BANK ROBBED AND FOUR MEN ARRESTED

Flora, Ills., Dec. 13.—Four men are under arrest, three here and one at Xenia, Ill., as the result of a safe-blowing at Iola, Ills., Saturday night and the subsequent pursuit of robbers by posses of citizens aided by blood-hounds. The Xenia prisoner resisted arrest and was shot and dangerously wounded. The town was aroused by a tele-phone operator who heard the ex-plosion which shattered the safe in a store and pursuit was immediate. The robbers left on a hand car but abandoned it two miles out and struck which had been sent from St. Elmo, Ill., led the posse to them serves and

The petition states in that the new building is to be il stories in height, and is to have a "terra cotta finish."

Trouble in His Kitchen. Uncle Sam has been called upon to the great powers have never been able to make him do. And it all came about the great powers have never been able to make him do. And it all came about because of a cook who was wanted at McNeil's Island, Wash, where is situ-ated the naval penitentiary. Notwith-standing that the venerable gentleman with the goatee and star-spangled ban-ner advertised that he wanted one for that point, through his good friend, Orawell Williams, head of the civil service commission of Utah, he has been obliged to take it back. The order has been cancelled and the boys at McNeil's Island who wear the stripes will be obliged to go hungry, presumably, because the department of justice has withdrawn its requisition for eligibles. This places Uncle Sam in a very bad position, which is echoed by Orawell Williams. The examination was to have taken place on Jan. 5 of the coming year.

It has been de-termined now that the ore is in the limestone, according to The News, which says: The find of the Boston Ely is the more important for the rea-son that there is such an abundance of limestone in the district, and for the further reason that it is but a comparatively few months ago that the limestone was deemed valueless. the further reason that it is but a comparatively few months ago that the limestone was deemed valueless. There was no reason for this conclu-sion save the fack of development A mining journal published in New York, just a month ago, made this declaration, in the face of the big purchases of Cole-Ryan in the lime-stone and regardless of the develop-ments that had been made by them. An assay of 11.45 per cent copper was not that of a picked sample go. It was the return on a piece of the ore picked up at random, and not by any-one in the company. It was taken by an outsider and given to E. W. Hulse & Co., who had the assay made. The average of the ore in which the shaft is now sinking is of a commercial quality, but is nearer to 2:45 than 11:45. The shaft is a primary ore, and has not yet reached the zone of sec-ondary enrichment; and this bears out the theory to which Superintend-ent Ralph has always clung that the rich ore will be found at the water level. The shaft dropped into a compact mass, showing unaltered pyrife, which is primary making, of course, a primary one. In all prob-ability the shaft will pass through this mass, and to a completely oxi-lized lached news, reaching a zone of secondard envichment at the water level. The water level and the enriched

ie water level and the enriched should be reached at about 1.148 for it was at this level that the is shaft got both the water and rich are the rich ore.

RESUME ON CHEROKEE LEASE. Work is to be resumed within a few days on the Cherokee lease on the Atlanta, which has been closed down for a couple of weeks, pending a re-arrangement of company affairs. Un-der the new order of things, the lease will be operated by a sub-leasing syn-dicate composed chiefly of the prin-cipal backers of the original lease, says the Goldfield Tribune. It is ex-pected that the veln that was cut by the shaft at a depth of 540 feet will soon be reached by the crosscut on the 540 feet and is believed to be close to the objective point. The shaft ex-posed about 2 feet of ore carrying Sis to \$20 per ton in gold, with a consid-crable percentage of copper, and it is thought that the increased depth will show much better values. # THREE HUNDRED THOUSAND DOLLAR JEWELRY ROBBERY

New York, Dec. 13.—A \$300,000 jewel robbery, the largest of its kind that has occurred here in many years was reported today. The jewelry was stolen on Saturday from the apartments of Mrs. John William Jenkins, formerly of Chicago, who since reaching New York has resided on the eighth floor of the Hotel Lorraine at Flith avenue and Forty-fifth street. Mrs. Jenkins told the police that she left the hotel shortly after 3 o'clock in the afternoon. When she returned at 5:30 she found the rooms in disorder. Her collection of dia-monds and other jewels which had been in a black leather case in her dressing table were gone. It is thought that the thieves gained entrance by means of a faise key. None of the hotel employes had seen any strangers in that part of the hotel. The police were at once notified and a large force of private detectives were put on the case. No announce-ment of the robbery was made to the public up to today.
