

Commission John H. Maxon and Alex. Kinkead Maxon, who swore that Gov. Crittenden intimated to him that it was either his desire or he ought to let up on the gamblers since it would redound to the gratification of ex-Governor C. J. Johnson, who had procured the passage of the law making gambling a felony, and whom he regarded as an enemy. He further swore that Governor Crittenden had demanded blank registrations from some of his appointees.

NEW YORK, 16.—Jno. Irving and John Walsh, well known burglars, shot and killed each other in Shang Draper's saloon early this morning. They had a bitter quarrel, and it is said that six weeks ago they met in another saloon and drew pistols on each other, but were separated.

The police story is that John Irving and "Jack the Mick" were in Draper's saloon shortly before two o'clock this morning, both filled with liquor. They quarrelled about some rascality in which they were mutually interested. They became noisy and Billy Porter entered and tried to stop the row. This interference only roused the rioters to fury and both whipped out their revolvers and fired at close quarters. Every one in the saloon sought cover as the double report rang out. She shots were fired at the same instant and with like effect. Irving fell dead with "Johnny the Mick's" bullet in his brain, and "Johnny the Mick" fell shot through the heart. Neither lived long enough to breathe twice. After the shots, Billy Porter and his gang ran out to the street, but the reports of the pistols were heard by the police, and every person suspected of being in the saloon at the time of the shooting, was arrested.

The Secretary of the Treasury has decided that the ad valorem duty on cigars shall be placed upon the value of the cigars in the boxed condition.

Fred. Douglass says the moral effect of the Supreme Court decision in the civil rights case will be, he thinks, mischievous. Minister Langton, who says he drafted the civil rights bill at the request of Charles Sumner, says the only thing the colored people in the States can do when deprived of their civil rights is to bring an action under the common law in the State courts. The civil rights act, he says, did not confer any rights upon the colored people, but merely provided for the enforcement of laws conferring those

rights, and consequently the decision of the court did not take away from the colored people any rights conferred by the Fourteenth Amendment.

The President has appointed Emilio Mahlo United States consul at Manzanito.

The colored people of the District will meet Monday night to express their views in respect to the recent decision of the Supreme Court on the civil rights bill.

Ex-Senator Bruce (colored) Register of the Treasury, who has just returned from the Ohio campaign, was asked for his opinion on the decision of the Supreme Court. "It is a most unfortunate decision," was his reply; "and it grieves me and thousands of others very much. I think its effect will be to carry the country backwards 15 years, at least. It does not reflect the sentiments of the people, as a court decision ought to do. It is, in my opinion, reviving Calhoun's theory of State rights."

"What will be the effect upon the colored race?" asked the reporter.

"That I would not attempt to predict," was the reply; "but I do say that nothing has occurred since the war to embarrass the race like the decision of yesterday."

Governor Trille of Arizona Territory, in his report to the Secretary of the Interior, states that the population is now 75,000, and taxable property \$25,000,000, and the affairs of the Territory in general are in an exceedingly prosperous condition. Value of gold and silver products for the year ending December 31st, 1882, \$9,298,267, against \$3,193,766 in 1881. Yield of copper in 1882, 15,000,000 pounds. The combined value of the silver and copper product for 1883 will be between \$15,000,000 and \$16,000,000. Number of sheep in the Territory, 300,000, producing 2,400,000 pounds of wool yearly. The yield of cereals for 1883 was 14,000,000 pounds of wheat and 18,000,000 pounds of barley. In writing of the Indian question the Governor says: "The fact that the Apaches, who had been warlike and murderous, are living in comfort at San Carlos has a dangerous significance to peaceable Indians, who are living in want." The Governor says that the Chiricahuas, who still remain in the mountains, a menace to the peace and security of Southern Arizona, should be declared hostiles, and treated as such by the army and citizens. The present agreement between the Interior and War Departments looking to guarding the San Carlos reservation by the army under Gen. Crook, seems to be the greatest security possible under the circumstances. If that plan should fail, the government should provide by treaty stipulation with the Indians for their removal from the reservation to some other part of the United States, and the reservations should be opened to white settlers. The Governor recommends Congress to extend to the Territories the concession now made to the States of the 16th and 36th sections in every township of public lands to assist in defraying educational expenses. Congress is also asked to provide for boring artesian wells; for geological survey; for erection of a capitol and other necessary public buildings; for an increase of pay of Territorial legislators, and for a fourth United States judge.
