

BOERS COMING TO WYOMING.

Holland Bankers to Promote Large Colonization Scheme.

BIG IRRIGATION PROJECT.

Five Thousand Dutchmen Will be Established on 300,000 Acres of Land—Canal to be Built.

A gigantic colonization scheme for northern Wyoming has been undertaken and if plans already formulated are carried out this state will add to its population during the next year over 5,000 people. Wealthy bankers and financiers of Holland, men who a few years ago secured a controlling interest in the Union Pacific road, are back of the project and if plenty of capital will aid in carrying out the plans, the colony is already assured.

F. L. Grubb of the Union Pacific, has charge of the arrangements and he will shortly visit the state to transact business connected with the segregation of a tract of land for the colony. This land is situated in the Sweetwater country, in the valley of Green river, and comprises over 300,000 acres.

It is proposed to colonize this large tract of land with Holland farmers and Dutchmen. Transportation to the colony is to be furnished by the Union Pacific railroad, which passes through the center of the land to be colonized, and the Holland bankers are to purchase the land and allow it to settlers in blocks of eighty acres to the family.

A huge canal will be taken from Green river, which carries more than enough water, and this will carry water to the colony. The canal will be built and a monster sugar factory will be built in the colony to handle the beets raised.

The promoters of the project have been selecting the prospective colonists in South Africa and in Holland and as soon as title to the land has been secured, surveys will be made and Dutch farmers made and right to the water obtained, a large number of the Dutch will be brought to Wyoming and put to work constructing the canal and irrigation works.

The Holland bankers, who will furnish the money necessary to reclaim this large tract and establish farms, are perfectly familiar with Wyoming, for their representatives recently visited this section and investigated the feasibility of the scheme.

It is asserted that during the next few years there will be heavy influx of Boers and Dutch to this section. Agents of the Boers have been in correspondence with the promoters of several colonies in Wyoming and it is expected that there will be a large movement of Dutch farmers to the valleys of this state in the spring. The sections that will receive the new settlers are Wheatland, the Big Horn basin and Utah and Sweetwater counties—Laramie Booming.

JORDAN STAKE CONFERENCE.

Interesting and Instructive Meetings Held at Riverton.

The Jordan Stake conference was held at Riverton, Salt Lake county, Saturday and Sunday, November 2 and 3, commencing Saturday at 10 a. m. Elder Orrin P. Miller presiding.

There were present of the First Presidency, John R. Winder, The Patriarch of the Church, John Smith. Of the Twelve Apostles Abraham O. Woodruff and the presidency of the stake.

Opening hymn, "Hail to the Prophet." Prayer by Elder Robert Ellwood. The business of the general Priesthood meeting of the Stake was transacted at this meeting. Apostle Abraham O. Woodruff was the first speaker and dwelt upon the manner and order of choosing and sustaining officers of the Church. The names of Hyrum Goff as president of the Jordan Stake with James Jensen as first and J. W. W. Fitzgerald as second counselors, were presented by Apostle Woodruff and sustained unanimously.

This change is due to the fact that Elder Orrin P. Miller who has presided over this stake since its organization, has been chosen as second counselor to Bishop William B. Preston in the presiding bishopric of the Church.

Elder Orrin P. Miller spoke next and urged upon the people to sustain the new president, Elder Goff, as they had sustained the speaker.

Elder Hyrum Goff said he desired to emulate the excellent examples of the former president and testified to the truth of the Gospel and the mission of the Prophet Joseph and his successors and accepted every principle and doctrine of the Church.

Elder J. W. W. Fitzgerald believed all that had been revealed, and that which is now revealed. He desired to be humble and serve the people in his new capacity.

Patriarch John Smith said that all Patriarchs are equal and may bless their own kindred anywhere, otherwise they should labor locally in their stakes under invitation of the people. There is only one Patriarch to the Church.

President John R. Winder spoke of his varied experience in receiving different appointments and missions under the mantle of the Priesthood and added an exhortation to uphold God's authority.

SATURDAY AT 2 P. M.
The time was occupied by the following Bishops: Gordon S. Bills, of Riverton; Alva Butler, of Butler; William B. Ennis, of Draper; William B. Kahn, of Sandy, who reported their visits and bore their testimony, also expressing a desire to sustain the new stake presidency.

Apostle Woodruff spoke of the order of the Priesthood and bore testimony that the new Church officials lately installed were chosen in accordance with the mind and will of God.

President John R. Winder treated the brethren and sisters to a new Presidency of the Church and of this stake. "Young men should prepare themselves for missionary work and for positions of trust and while we preach to the world and administer the ordinances of the Gospel to those who believe do not let us forget the great labor of redeeming the dead."

SUNDAY MORNING.
Elder James Blake began previously released as State superintendent of Sunday schools, the names of Joseph J. Williams, Jr., as superintendent with Clifford L. Goff as first and Joseph M. Holt as second assistants were presented by Apostle Woodruff and sustained unanimously. The members of the new superintendency each spoke briefly, expressing a desire to accept and labor diligently in their new calling.

Elder George Reynolds addressed the conference on Sunday school work.

BAKING POWDER

Makes delicious hot biscuit, griddle cakes, rolls and muffins.

An absolutely pure, cream of tartar powder.

ROYAL BAKING POWDER CO., 100 WILLIAM ST., NEW YORK.

Apostle Woodruff said that the changes that had been made in this Stake had been directed by the Lord and no mistake had been made. Those who honor the law of God will be honored by Him. Bishops should carefully ascertain the worthiness of those who seek admittance to the House of the Lord. There has been no useless thing revealed and those who fight against these revealed principles will apostatize; they do not repent. Young men are expected to have and express their opinions in the councils of the Priesthood but no man has any right to maintain a minority position against his brethren.

Elder James Blake bore a strong testimony to the truth of the Gospel and the mission of the Prophet Joseph Smith.

SUNDAY AFTERNOON.
The sacrament was administered under the direction of the Bishopric of Riverton ward and Elder Seth Pitsoy.

Patriarch John Smith directed attention to the necessity of the people in the Church becoming acquainted with the Gospel and learning to do their duties. The time is coming when great responsibilities will rest upon the young men of Zion.

Bishop Orrin P. Miller exhorted those who preside in the Priesthood to labor in righteousness and in the spirit of the Lord; spoke also upon temporal matters, things especially being dwelt upon. The people were advised to live within their means and be honest with the Lord and their fellow men, paying their tithes and honest obligations in preference to obtaining luxuries and that oftentimes on credit.

George Reynolds alluded to the United Order and spoke upon financial matters.

Apostle Woodruff believed that where things were all right with parents and children, conditions would not be entirely wrong with the children and spoke of the influence that parents have over their children for good, saying that parents who have daily devotional life in their homes will not become parents of children who will disgrace them.

The conference closed by singing, "The Spirit of God like a fire is burning." The Spirit of God like a fire is burning. The Spirit of God like a fire is burning.

LONDON SHOE FAIR.

British Shoe Trade Largely Dependent on American Machinery.

New York, Nov. 5.—Visitors to the shoe and leather fair at London are impressed by the fact that the British shoe and shoe trade is largely dependent upon American machinery, says the Tribune's London correspondent. One British exhibitor said:

"Americans are twenty years ahead of us in machinery. Fortunately, we in England can buy the same machinery as the Americans are using, so there is still hope for our trade."

ANCIENT BRONZE GUNS.

A Hundred and Seventy-five Arrive in Germany from China.

New York, Nov. 5.—Regarding the disposition of the 175 ancient bronze guns brought from China to Germany by the steamer Krefeld, guns which formerly stood on the walls of Peking, the Berlin correspondent of the London Times and the New York Times says: "The most ornamental of the guns will be placed in the naval museum at Berlin. The others will be melted for the sake of the bronze in them."

The Krefeld also brought a number of Chinese gun carriages with ammunition and wagens.

WAR IN SOUTH AFRICA.

It Still Drags on and Its Cost is Enormous.

London, Nov. 4.—What is regarded as an important announcement, preparing the people of Great Britain for new taxes and fresh loans, was made to-night by the chancellor of the exchequer, Sir Michael Hicks Beach, in a speech at Bristol. After alluding to the

"Pleasant Dreams"

Cries the young maid to her mother, as she retires to rest. The mother smiles, but sighs. She knows that the pains that rack her will not stop for darkness, and that if she sleeps her dreams will only be echoes of the sufferings of the day.

Why not sleep soundly and rise refreshed at morning, with strength and courage for the day's duties? Weak, nervous women, sufferers from backache, bearing-down pains, and other womanly ailments, have found a perfect cure by Dr. Pierce's Favorite Prescription. It heals the womanly diseases which cause the pains and nervousness. It makes weak women strong and sick women well.

"I deem it my duty to express my heartfelt gratitude for having been the means, under Providence, of restoring me to health," writes Mrs. S. H. Mann, of Springfield, Mass. "For nearly two years I suffered from female weakness so I could not stand on my feet any length of time, could scarcely walk at all. Appetite was much impaired; I had bearing-down sensations; can't express how badly I did feel. Had tried several kinds of medicine which did me little or no good. At last decided to try Dr. Pierce's Favorite Prescription. I had not taken all of two bottles before I saw it was benefiting me, so I continued to take it until I had taken seven bottles, when I felt entirely cured. Did not feel a touch of my old complaint. It has been over a year since I took your medicine and I can truthfully say that my health has been better for the last year than it had been for four years previously."

"You may publish this as a testimonial." Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

ARGUMENT IN SCHLEY CASE.

The following testimony given before the Schley court of inquiry Monday was received too late for publication in our issue of yesterday:

Mr. Hanna called attention to Admiral Schley's statement as made in his letter to the Senate that he did not know of the presence of the insurgents in the vicinity until the arrival of Capt. McCalla, May 24, but he called attention to the fact that it was admitted that the McCalla memorandum giving his information had been received on the 23rd. He contended that Admiral Schley should himself have taken the initiative in ascertaining the presence or absence of insurgents without waiting for signals from anyone.

BLOCKADE AT CIENFUEGOS.

Mr. Hanna then took up the question of the blockade at Cienfuegos. He said that Admiral Schley had testified that the vessels in the daytime tried a ruse to induce the enemy to come out. He called attention to the fact that this was not communicated to the captains of any of the vessels. He then read from the official documents to show that coaling was a practicability and or was one of the orders of that day. He reported that he would not leave until reports regarding its impracticability were made.

OPERATIONS OF SQUADRON.

He then proceeded to follow the operations of the flying squadron and quoted a number of Admiral Schley's dispatches. He said at the time of leaving Cienfuegos Schley was under order No. 8, telling him if it was "satisfied that the Spanish fleet was not at Cienfuegos to proceed with all dispatch, but cautiously to Santiago." "How it was possible," said the speaker, "in view of the order to report to the secretary of the navy as Admiral Schley did that he would not move until next day is inexplicable." He then stated that while Admiral Schley had reported that he would not leave until the 25th, he did actually start on the evening of the 24th.

INSURGENT SUSPECT ARRESTED.

Governor of Panama Finds Letters Implicating Del Rio.

New York, Nov. 5.—A dispatch to the Herald from Panama says:

Gen. Alban, governor of Panama, has arrested Caesar Portillo, Del Rio, a native of Cuba and acting agent for the Pacific Mail Steamship company.

Gen. Alban had learned, it is said, that compromising letters had been sent from Portillo in Central America addressed to Von Lindemann, cashier of the company. He went to the office of the company and made a demand for the letters. It was found that they had not been delivered, but in a drawer in Del Rio's desk, according to the government, two envelopes were discovered which, opened, were found to contain letters to Del Rio from a noted insurgent mentioning former correspondence and another from Domingo Diaz, chief of the insurgents in the department of Panama.

Del Rio was arrested by Gen. Alban personally and placed with common criminals in an underground cell. He applied, through United States Consul Gudgeon, for release under guard until the steamship company could get a man here.

Gen. Alban said he would consent, if a deposit of \$4,000 in cash was made, the sum to be paid to Del Rio, to communicate with the liberals. Del Rio was later allowed to go to his office with a policeman. The deposit, however, was not made.

Alleged that he invited Consul Gudgeon to be present at the company's office after the arrival of the next steamer to see other mail from the same addresses opened. Gen. Alban says he has no doubt that the important letters on the way. He gave the consul a copy of all proceedings in the case including the testimony.

LABOR'S NEW SCHEME.

It is to Fight Against the Injunctions of Courts.

Chicago, Nov. 5.—Labor's scheme for an organization to fight the injunctions of judges and courts against strikers has been realized by the founding of the Chicago anti-injunction league at a special meeting of the officials of the Chicago Federation of Labor last night.

Provision for starting a vast sinking fund to wage legal battle in court against the imprisonment of any strikers or pickets under the injunction processes is a notable feature of the new body.

Alleged abuses which are to be fought with special vigor and persistency are the practices by which the attorneys of industrial combinations are declared to have "railroaded" strikers and strike sympathizers to jail on injunction proceedings. Legal fights by the best legal talent obtainable will be made for the liberty of each striker or picket as often as any are cited before a judge for alleged violation or "contempt" of an injunctive order.

Frequent use of the writ of habeas corpus is threatened and in case that the alleged arbitrariness of the judges is not voluntarily restricted or compelled by agitation, the Anti-Injunction league will not hesitate to ask for the impeachment of members of the judiciary on charges of oppression of the citizen and malfeasance in office.

Whalers Have Light Catches.

San Francisco, Cal., Nov. 5.—Three steamers of the Arctic whaling fleet have reached port, all with light catches. The Karluk has only 250 pounds of bone. The William Baylies brought 3,600 pounds of bone and 125 barrels of oil, besides 1,200 pounds of trading bone. The Alexander brought 4,000 pounds of bone, 150 pounds of ivory and a number of fur skins. Captain Tilton of the Alexander was very ill during the voyage.

DENSE LONDON FOGS.

Cause People to Demand Construction of Electric Underground Lines.

New York, Nov. 5.—According to the Tribune's London correspondent the return of November fogs in their blackest and most impenetrable form helps to increase public impatience over the delays in working out a system of electric transit underground. While the two-penny tube, the Waterloo and City and South London lines are liberally patronized, the suburban lines are more or less clogged, and a large section of the central belt of the metropolis has no other resource than the district and metropolitan smoke tunnels. Meanwhile the wrangle over the best method of electric transit, on the underground circuit drags along interminably.

LONDON BANK HELD UP.

Cashier Shot Dead, Assassin Finally Committed Suicide.

London, Nov. 5.—Yesterday afternoon a man named Lanscombe entered the Kensington branch of the London and Southwestern bank and shot the cashier dead. He then called upon the clerks to working out a system of electric transit underground. While the two-penny tube, the Waterloo and City and South London lines are liberally patronized, the suburban lines are more or less clogged, and a large section of the central belt of the metropolis has no other resource than the district and metropolitan smoke tunnels. Meanwhile the wrangle over the best method of electric transit, on the underground circuit drags along interminably.

For Nervousness

Horsford's Acid Phosphate

Quiets and strengthens the nerves and brain, restores the appetite and gives refreshing sleep.

Puts new life, new ambition and new courage into a debilitated system.

A Tonic and Nerve Food.

The genuine bears the name "Horsford's" on label.

SARAH BERNHARDT, Known Throughout the World, Pays Tribute to Duffy's Pure Malt Whiskey.

I take great pleasure in assuring you that I find that your Pure Malt Whiskey is a most admirable recuperative when the least bit fatigued. I know of nothing so perfect nor so pure. (Signed,) SARAH BERNHARDT. Thousands of prominent men and women who are under a constant strain mentally and physically like Duffy's Pure Malt Whiskey, which keeps the old young and vigorous.

DUFFY'S PURE MALT WHISKY has carried the blessing of health to more homes during the past fifty years than all other medicines combined. It cures consumption, nervousness and indigestion; stimulates the blood, tones up the heart, and is a boon to women during their periods; it relieves all pain and cures the disease commonly known among women as female weakness. It has saved many young girls' lives at the critical period changing from girlhood to womanhood.

Duffy's Pure Malt Whiskey is absolutely pure. It contains no fuel oil. All druggists and grocers. Beware of cheap substitutes put up by unreliable dealers in bottles that look like "Duffy's." Whenever you see a dealer's name on logos goods beware of that dealer; he would not hesitate to sell you impure drugs, as he would dishonestly. Medical booklet sent free to any one who writes, Duffy Malt Whiskey Co., Rochester, N. Y.

NELDEN-JUDSON DRUG CO., Salt Lake City, Wholesale Agents.

cept that on the latter Admiral Schley had said he was asleep.

THE BROOKLYN VISITS.

It was at this point that the scout boats St. Paul, Minneapolis and Yale were encountered, and Mr. Hanna referred to this incident, narrating Capt. Sigbee's visit to Commodore Schley on board the Brooklyn, and the contradictory testimony concerning the purport of the captain's communication for himself and Capt. Jewell and Wise. He quoted Capt. Sigbee's testimony to the effect that he had not told the commodore that the Spanish fleet was not in Santiago, and also gave Admiral Schley's version of the interview, claiming that Sigbee did say that the Spaniards were not there. Capt. Sigbee was officer of experience and knew very well that the fact that he had not seen the fleet was not evidence that the fleet was not there. If Capt. Sigbee had said positively the fleet was not on the island, Commodore Schley would have refused to accept it as utterly illogical. Continuing, Mr. Hanna said: "I should think that if Commodore Schley had received information that the people are unable to procure food because of the blockade, that is maintained along the strait of San Juanico. Gen. Smith replied that the strictest kind of a blockade would be maintained until the people of the towns were unavailing."

REBELS KILLED.

Lieut. Canjot, with Scouts, Kills Twenty-five, and Burns Houses.

Manila, Nov. 5.—Advices from Tacloban, capital of the island of Leyte, report that the presidents of various towns in the island have waited upon Brig. Gen. Smith and complained to him that the people are unable to procure food because of the blockade, that is maintained along the strait of San Juanico. Gen. Smith replied that the strictest kind of a blockade would be maintained until the people of the towns were unavailing."

Gen. Smith has ordered the deportation of the wife of Gen. Lukban, leader of the Samar revolutionists. Four native police officers were killed and their horses captured yesterday at Bay Bay, island of Leyte.

Lieut. Julien E. Canjot with a detachment of scouts, encountered a body of insurgents southeast of Cabalagan, Samar island, and in the fight which followed 25 rebels were killed. One hundred and seventy-five houses were burned and five thousand pounds of rice and two thousand of palay were captured.

RETROGRADE MOVEMENT.

At this point Mr. Hanna took up specification four, referring to the retrograde movement. He said that in making this move Commodore Schley had not only taken away from Santiago the fighting ships of the flying squadron, but also the scout boats, and he urged the government to watch the mouth of the harbor. "During this time," he said, "the gates of the harbor were left entirely unguarded, and it was not until his mind at rest sufficient to warrant his turning his squadron back toward Key West, convinced him conclusively that the Spanish fleet was not there, he next telegram to the department."

Mgr. Conaty's New Dignity.

Washington, Nov. 5.—Right Rev. Mgr. Conaty announces that it has been found necessary to transfer to the cathedral at Baltimore the ceremony of his consecration as titular bishop of Samoa. The number of prelates, clergymen and lay people who have already signified their intention to be present is so great that any church at the university would be taxed far beyond its capacity.

Mrs. Gardner's Botticelli Exhibited.

New York, Nov. 5.—The exhibition of Prince Chigi's Botticelli, which is now

owned by Mrs. John L. Gardner of Boston, has opened in London for the benefit of Prince of Wales hospital fund, in the Colnaigh gallery, says the Tribune's London representative. The pictures unite in pronouncing it one of Botticelli's most charming works, the background of hills and river being considered as beautiful as the madonna herself and the attendant angel, but the process of judicious renovation is regarded with signs of suspicion.

Ocean Race Between Schooners.

New York, Oct. 5.—A 3,600 mile ocean race has just been started from Providence to the Cape Verde islands between the schooner Unico, formerly a Grand Banks fisherman, and the brigantine D. A. Small, says a Providence, R. I., special to the World. Each carried 35 passengers and a cargo of general merchandise. Both are fast sailers, and as they belong to rival packet lines and considerable cash has been wagered on the result a great race is expected. The Unico has made the trip out in 23 days and the Small has covered the distance in a few hours under that time.

New Liquid Air Company.

Albany, N. Y., Nov. 4.—The Consolidated Liquid Air company, with principal offices in New York city, was incorporated today with a capital of \$1,000,000, divided into shares of the par value of \$5 each. The company proposes to manufacture for refrigeration, power, navigation, medical application, the manufacture of steel and other mechanical and scientific purposes. The company will also manufacture ships, locomotives, automobiles, stationary engines, elevators and other moving vehicles and plants to which liquid air may be applied. The company will operate in America and Europe. The directors are: Former United States Senators R. E. Pettigrew of South Dakota and Marion Butler of North Carolina; Charles E. Tripler, George Ballou, St. Shares, R. Gwynne and A. M. Miller of New York city; J. Brainer Patterson of Philadelphia and H. William Moeller of Newark, N. J.

Powder Magazine Blows Up.

Albuquerque, N. M., Nov. 4.—The powder magazine of the Santa Fe Pacific at Williams, containing 2,000 pounds of powder, exploded, the shock breaking windows and glassware and tearing off doors of houses. The magazine is supposed to have caught fire from sparks from an engine which was switching near by. The engineer and switching crew escaped injury, but the cars they were switching were torn into shreds. The damage is not known, but will amount to many thousands of dollars.

HERBINE KILLED.

Manila, Nov. 5.—Advices from Tacloban, capital of the island of Leyte, report that the presidents of various towns in the island have waited upon Brig. Gen. Smith and complained to him that the people are unable to procure food because of the blockade, that is maintained along the strait of San Juanico. Gen. Smith replied that the strictest kind of a blockade would be maintained until the people of the towns were unavailing."
