

for Canada, most of whom are bound for Manitoba. It is estimated that they will take away capital to the amount of \$500,000.

DELHI, India, 20.—An extensive conflagration in this city destroyed 2,000 houses. A great number of families are destitute and homeless.

The men arrested for connection with the dynamite conspiracy were again brought up this morning for a further hearing. The courtroom was crowded. Among those present was Herbert Gladstone, a boy who was employed by Whitehead, in Birmingham, and who was yesterday identified by Lynch. He was placed in the witness box. He recognized Thomas Gallagher, Dr. Gallagher, as the man who had visited Whitehead. The boy testified that Gallagher, when he visited Whitehead gave the name of Fletcher.

When he called to see Whitehead, he sent him (Boy) on an errand, and told him that he need not hurry back.

When he returned, Whitehead and Gallagher were still engaged in conversation, and Whitehead gave him a holiday.

Wilson, another of the prisoners arrived in a cab. He said he had come for "ale" that Fletcher had ordered.

Wilson was conducted by Whitehead to an inner room. Next Lynch came to Whitehead's place, bringing with him a large box. The boy was unable to swear as to the identity of Wilson; he was, however, positive as to Gallagher who, he said, called several times to see Whitehead.

Dublin, 20.—The trial of Timothy Kelly for complicity in the murder of Cavendish and Burke was resumed this morning. After calling a few more witnesses the counsel for the Crown announced their case closed.

Eugene Kingston, arrested at Liverpool on Wednesday, on the charge of being connected with the Phoenix Park murders, was arraigned to-day, and, after a hearing, remanded to prison to answer the charge of conspiracy to murder.

LONDON, 20.—It is ascertained that the box found near the Times office last night did not contain any explosive material.

Mr John Rose writes to the Times urging that England invite all civilized nations to unite in securing the enactment of laws for the extradition of any person who shall commit atrocities under the veil of a political motive.

The Standard says it believes that the day will come when miscreants like O'Donovan Rossa will be hunted out of both continents.

The Pall Mall Gazette says the evidence that the dynamite plots now under investigation were hatched in New York is as clear as the proof that foreign police possessed twenty-five years ago that Mazzini's plots against Italy were hatched in England; and it says the extradition of Rossa from the United States is about as likely as Mazzini's was from England.

A detective belonging to Birmingham was sworn and corroborated the testimony given by other witnesses as to the time of Wilson's arrival at the house of Whitehead.

Coleman and other witnesses confirmed the account given by Lynch of his movements while he was in Birmingham. The coat worn by Whitehead at the time of his arrest bore the tailor's mark, "Brooks Bros., Broadway, New York." The Crown also produced a letter signed by Whitehead, which was proved. The rubber maker, whose place of business is near Charing Cross Hotel was sworn, and testified to Gallagher being a customer. He said Gallagher purchased of him a bag capable of holding 298 pounds of nitro-glycerine. Gallagher asked the prices of other bags.

The maker of rubber bags in Cheapside swore the rubber bag was purchased of him. Later a bag was ordered by Wilson, but found by the police in Gallagher's room at Charing Cross Hotel.

A policeman testified that he found a legal work in Gallagher's possession, in which the paragraph relative to treason and felony was marked.

The prisoners were remanded for further hearing.

St. Petersburg, 20.—The International Polar Commission announces that, owing to the decision of the American and other governments not to prolong the observations at different stations, all expeditions, excepting where they are ice-bound, will return next September.

Belgrade, 20.—The report that Cien Marcovitch, the woman who

tried to shoot King Milan in the cathedral here, has taken her own life in prison, is not true. She attempted to commit suicide, but failed.

LONDON, 22.—An explosion occurred to-day at the government manufactory of small arms at Enfield. A quantity of burning tow and pieces of a tin box were afterwards found among the debris.

A passer by saw two men decamping with a box just before the explosion. Little damage was done.

Madrid, 22.—An explosion occurred in the dynamite factory at Lopenueca, Leon to-day. The bodies of seven victims were recovered. It is feared that more were killed.

St. Petersburg, 22.—The Nihilist Bogdanovitch was hanged, the other, Bontzevitch, was shot.

LOCAL AND OTHER MATTERS.

FROM MONDAY'S DAILY, APRIL 23.

Hatching Out.—Dr. Crookwell writes from Clear Lake Fish Farm, Millard County, that the rainbow trout eggs, previously mentioned in the News, are hatching out nicely and perhaps not more than 20 per cent. of the whole will fail.

An Operation.—Brother B. W. Driggs, of Pleasant Grove, came up this morning with a little five-year-old daughter of his, named Maude, who had the misfortune, a few days ago, to have a portion of a sewing needle accidentally run into her knee-cap. Drs. Anderson and Pratt performed an operation to-day, being successful in straightening the limb, but did not find the needle. The little one is quite comfortable considering.

Hawaiian Meetings.—We are requested by Presidents George Q. Cannon and Joseph F. Smith, to announce that meetings of the Hawaiians in this city will be held every alternate Sunday, at the residence of Brother Kaulanazoku, in the 19th Ward. The meetings will be held at 8 o'clock in the morning, beginning with Sunday, April 29th. All returned Sandwich Island missionaries are cordially invited to attend.

The cause for holding the meetings so early, is that they may be dismissed in time for Sunday school.

New View Book.—On or about May let a most excellent view book will be on the market. It is the production of Mr. C. R. Savage, and will consist of sixteen lithographic pictures, taken from photographs of leading scenes and objects in Utah, each of which is described by the facile pen of the proprietor of the art bazar. The lithographing was done in the East, the first book of the kind executed in America, all the litho's for other similar works having been done in Germany. The new view book is adapted for tourists and for sending abroad.

Escaped Prisoner Captured.—We learn from the Idaho Statesman that a man answering the description of Moroni Hicks, one of the four escaped convicts from Boise, was recently arrested at Canyon City, Oregon. The man excited the suspicion of the people by making inquiries concerning the relatives and friends of Wm. Overholtz, who, it will be remembered, was a fellow prisoner of Hicks, and who escaped with him on a former occasion. These inquiries, and the fact that the man answered so fully the published description of Hicks, leave very little doubt of his identity. This information reaching the prison authorities, Deputy Marshal White left Boise on the Umatilla stage Thursday evening to identify the prisoner and take him back.

A Remarkable Career.—On Saturday the News noticed the death, suddenly, while at breakfast, in Bountiful, Davis County, of Hannah F. Holbrook, daughter of Rufus Flint and Hannah Hawes. Deceased was born in Braintree, Orange County, Vermont, July 13, 1808. She was baptized by John P. Green, in the fall of 1837, and passed through the drivings and mobbings of the Saints, with the family of Anson Call, teaching school at almost every place where they stopped for a month. She was married to Joseph Holbrook, in Nauvoo, by Heber C. Kimball, Jan. 1, 1843, and was an affectionate and faithful wife, and a devoted mother to his orphan children, several of whom she had the responsibility of rearing. She perhaps had as much experience teaching school as any lady

that could be found, having commenced at the early age of 18 and followed the profession until she was 75. She taught in Braintree, Roxbury, Northfield, Randolph and Brookfield, Vt.; Madison, Thompson, Leroy and Brickville, Ohio; and a select school in the Kirtland Temple; also in Warsaw, Green Plains and Nauvoo, Illinois. She taught the first school in Davis Co., Utah, while living in a room built of canes, at the mouth of the Jordan River. She was also a leading active member of the Female Relief Society up to the time of her demise, having held a meeting of the officers of that society in her own house about two weeks before her death.

The funeral services were held in the East Bountiful Tabernacle at 2 p.m. on Sunday. President Anson Call, Elder Chester Loveland and others speaking to the large assembly, and a large concourse escorted the remains to their last resting place.

The deceased accompanied President Call and wife, the latter being her sister, about twelve years ago, on a visit to Ohio and Vermont, where she formerly taught school. It created a great deal of stir among the people to see two ladies who were both wives of polygamists, and they were treated with great cordiality, and every where hospitably entertained.

A BAD CASE.

A BAD MAN FROM TEXAS SAID TO FIGURE LARGELY IN

This afternoon Geo. Firkins, of South Cottonwood appeared at the Police Court and told a sorrowful tale. He had built a barber shop near the Horn Silver Smelter, but his wife soon transformed it into a boarding house. Of three boarders taken in, one Charles Mohart, who claims to be a bad man from Texas, and to have there killed two men, got into Mrs. Firkin's good graces. The matter was carried to such an extent that the woman and Mohart combinedly kicked poor Firkins out. The latter alleges that to intensify the outrage of taking his wife and property, Mohart threatened to kill him, and he desired to have him bound over to keep the peace towards him, as he was afraid of his life. Mr. Firkins appeared to be greatly exercised, although these bad men from Texas do not, as a rule, amount to much. Mr. Firkins stated in addition that his wife had entered suit for a decree of divorce from him.

Such great numbers of immigrants are en route to Oregon and Washington, via San Francisco, that they cannot nearly all be accommodated by the regular line of steamers. Mr. Villard gave orders for the first steamer from the north to be sent on a return trip at once, so as to accommodate delayed passengers.

A DRUGGIST'S STORY.

Mr. Isaac C. Chapman, Druggist, Newburg, N. Y., writes us: "I have for the past ten years sold several gross of Dr. William Hall's Balsam for the Lungs. I can say of it what I cannot say of any other medicine. I have never heard a customer speak of it but to praise its virtues in the highest manner. I have recommended it in a great many cases of whooping cough with the happiest effects. I have used it in my own family for many years; in fact, always have a bottle in the medicine closet ready for use.
