

# DEATH OF MRS. CAROLINE MAIBEN.

On Friday evening last Caroline Penn, the wife of Mr. Henry Maiben, of this city, departed this life, after a severe illness of 13 days, aged 47 years and 7 months.

A virtuous, loving, faithful wife, She spent a most industrious life. Of mothers too, one of the best. So neat, so clean, so kind, so blest; On earth, her mission, well she fill'd And when, to call her hence, God will'd In perfect happiness she sped, To mingle with the righteous dead; And now, her trials being o'er, She'll live in bliss for evermore. We miss the dear departed one, Yet feel to say, "God's will be done,"—Com.

—[Mil. Star please copy.

President Brigham Young was present at the funeral ceremonies, and delivered a very impressive and consoling address to the numerous friends of the deceased.

Mr. John T. Caine has furnished us the following for publication, which shows the high esteem Sister Maiben was held in by those who knew her:

At an informal meeting of the Deseret Dramatic Association, held on the Stage of the Theatre after the performance on Saturday evening, Oct. 15th, inst., Mr. Clawson being called to the Chair and Mr. Clayton appointed Secretary, Mr. Caine presented the following expressive resolutions, which were unanimously adopted:

WHEREAS, It has pleased the Supreme Ruler, in His infinite wisdom, to remove from our midst, by death, our beloved sister, Mrs. Caroline Maiben:

The Deseret Dramatic Association, whilst humbly bowing to this visitation of an all-wise Providence, deeply regret the loss of one of its most worthy and useful members, a lady whose virtue, modesty and amiability won for her the affection and esteem of all who had the pleasure of her acquaintance. Therefore,

RESOLVED, That the Members of the Association, sincerely sympathizing with the bereaved husband and family, tender them their heartfelt condolence in the loss of so excellent a wife and mother.

RESOLVED, That as a mark of respect to the deceased, the Members of the Association attend her funeral to-morrow. Further,

RESOLVED, That a copy of these Resolutions be transmitted to the bereaved family, and that the Editors of the DESERET NEWS and Daily Telegraph be requested to publish the same.

H. B. CLAWSON, Chairman.

WM. CLAYTON, Secretary.

**THEATRICAL.**—The theatre-loving portion of the inhabitants of our city, and a vast number of our friends from the various settlements gathered to conference, were gratified with the opening of the Theatre on Saturday even'g 8th inst. The management informs us it is only for a few nights, as considerable preparations require to be made before opening effectively for the winter season. The piece selected for Saturday evening was, "Jessie Brown, or the Siege of Lucknow," preceded by the "Two Polts." An immense audience besieged the doors and box office, and filled the street opposite the front of the building, for some time previous to opening, and, literally, hundreds were compelled to forgo the gratification of being inside. On Monday evening the same piece was repeated, preceded by "Slasher and Crasher." The house was not so "warm" as on the previous occasion. The country folks had mostly gone, and the city folks were, many of them, tired with showing them round. We were sorry for it, because the playing on Saturday night bore evidences of hasty preparation, while that on Monday night was highly creditable to the members of the Association. We have not time now to critically particularize, but would recommend to the members all the care in study which in the midst of their other duties they are able to spare.

The foregoing was crowded out last week, though in type, as well as several other items.

Saturday night last was the closing one of the series. "The Jacobite" and "The Toodles," with negro songs by Dunbar, drew a large house. The playing was very good throughout. Phil's John Duck and Toodles created immense laughter. "Kingdom's Coming" drew the usual encore for Dunbar.

**GODBE'S NEW STORE**, is progressing, the plasterers are busily engaged plying the trowel, and soon the ground story will be ready to do business in.

**POLICE REPORT.**—Featherstone, a notable from the northern gold regions, and who claims to hold an important civil office in Idaho, was arrested for assault and battery on the person of one O'Harry, to which he pleaded guilty and was fined \$25.

Jerry O'Harry was then charged with profanity, and informed that a profane oath cost \$5 in Utah.

J. Hogan and Featherstone were subsequently fined \$15 each for breaking the peace.

Twelve gamblers were notified the other day that they were wanted at Alderman Clinton's, and preferring a private adjustment of the matters and things complained of, at their request judgment was entered, upon confession, against, four in the sum of \$75 each, and eight \$50 each.

J. W. Whitlash was found selling liquor on the Public Square last Sunday, contrary to the provisions of the city ordinances, for which he was ordered to pay a fine of \$50.

C. M. White, of alleged abduction notoriety, and his partner Heely, were fined \$50 for selling liquor on Sundays.

On the 14th inst. W. L. Sholes was fined \$50 for breaking the Sabbath and violating the city ordinance by selling liquor on Sunday.

Mike Millroy was found drunk on Friday, and fined \$5.

John Carlos and one Mc. Karney got into a regular fight the other day, and for this violation of the city ordinance they were each taxed \$10.

Last Sunday afternoon a man from the land of Gaul, was caught vending ardent spirits, and having no license to sell on any day, the police took possession of all the wine, whisky and alcohol found on the premises, and the Frenchman gave security for his appearance before the Doctor.

Alderman Clinton heard the testimony in the case of John Avondet, the Frenchman, who was required to give security on Sunday for his appearance on Monday morning, and gave him the full benefit of the city ordinance by fining him \$100. That's good: a few such judgments will teach men to procure licenses as provided by law.

**AN ADDITION TO THE MEAT MARKET.**—The municipal authorities are making a large addition to the meat market, for the accommodation of our rapidly increasing population, and the consequent increase of business for cattle dealers and butchers. We have heard some of the present lessees of stalls in the market say that addition ought to have been at the west end instead of the east, the argument used being that when they bid for their present stands, they did not bargain to be "put in the shade by another building." We took the liberty of suggesting that human nature was such that self interest prompted us in the formation of many of our opinions. No matter how much the market house may be extended east or west, those who keep on hand the best meats, have about them the best proofs of neatness and cleanliness, and who are the most obliging to customers, will be sure to secure the greatest share of the public patronage.

**THE PLACE TO SELL HAY, WOOD AND COAL.**—By order of the City Council forty rods in length on each side of East Temple Street, measuring from the Council House to Kimball and Lawrence's store on the west, and from President Wells' residence to Captain Hooper's corner on the east, have been set off and appropriated to the use of those bringing wood, hay and coal to market. Our country friends who are in the habit of bringing the above named articles to town for sale, will do well to observe this regulation. They can in this manner aid the proper civil authorities in carrying out the object of

the ordinance passed upon this subject, viz. to keep open a thoroughfare wide enough to admit of teams passing up and down the street dividing the two more business blocks below, and accommodating buyers through their knowing where such articles can be found for sale.

**A GOOD EXAMPLE.**—On Saturday afternoon we observed Surveyor-General Fox industriously engaged surveying the side walk from Jennings' corner southward, and on enquiry were pleased to learn that a few of the merchants had agreed to put down a cobble-stone water course in front of their stores, supported on each side by good hammer-dressed curbing. The set is to be semi-circular in shape, 3 feet 6 inches wide by 1 foot deep in the centre.

We understand that this improvement will probably extend about 18 rods down the street, i.e. if the owners of buildings all comply, but some of the merchants have not yet consented to bear their proportion of the cost, contending that the corporation are receiving a large revenue and that it is their business and duty to make the required improvements on the streets and side walks. These gentlemen might possibly get some light upon this subject by reading the poll tax law, which may be found among the acts of the 11th session.

**THAT CONCERT.**—After going to press on Tuesday week we concluded to strive and forget our fatigue by the enjoyment of a musical treat, but we were disappointed and came away more weary than we went; perhaps that might be occasioned by our lack of appreciation. From the reading of the bills announcing the concert we were led to expect some difficulty in obtaining a good seat, but in that we were disappointed also, for the house was not a quarter full, in fact we doubt whether "greenbacks" enough were taken to pay the expenses of the hall. The 14th Ward meeting house is a very suitable place for such an entertainment, and we regret that Mr. Tullidge did not meet with better encouragement in his "first annual benefit concert."

Of the execution of the pieces promised on the programme, we have but little to say. The overture, from the opera of "Tancredi" was well performed by the orchestra, as also several other pieces. The best vocal performance of the evening was, in our opinion, the well known Scotch ballad, "Welcome my Bonnie Lad," by Miss Lindsay.

**DYPHTHERIA OR PUTRID SORE THROAT.**—This very prevalent disease has swept from the parental lap many a sweet babe; and to prevent its further ravages among the little innocents should be the earnest object of fathers and mothers. A friend has handed us the following recipe which we take pleasure giving to our readers:

A poultice made of the yolk of an egg and fine salt, of a paste like consistency, to be put on the throat, and kept on 30 minutes, unless sooner dry. If the child be very feverish the poultice should be repeated. A wash or gargle should also be prepared and used, consisting of equal parts of fine salt and alum, mixed with vinegar.

For a very severe case make a wash for the throat of blood root, golden seal and pulverized bayberry.

We are credibly informed that in every instance where these simple remedies have been applied, the sufferer has recovered.

**SICKNESS IN BRIGHAM CITY.**—Our friend J. C. Wright informs us:—

"There are dying in Brigham City, principally of measles, on an average about two persons daily; and disease is still raging fearfully. Accompanying the measles in almost every instance, are diarrhoea and canker, in many cases proving more fatal than the measles."

# THE HAWAIIAN KINGDOM.

We have just perused the new Constitution of the Hawaiian kingdom, recently given to the semi-enlightened people of the Sandwich Islands by their present sovereign—King Kamehameha V., and from our knowledge of constitutions and forms of government we pronounce it a very good and liberal one for a limited monarchy, combining as it does all the elements of republican, aristocratic and royal institutions, together with the symmetry of a very complete organization for a permanent system of government.

We should like to present this royal document to our readers, were it not for its extreme length, embracing as it does, in all its numerous provisions, no less than 80 different articles.

**OUR IMMIGRATION.**—Capt. Warren S. Snow's train was, on the 6th, 2 miles this side of Bridger's Pass, on the Bitter creek route, and expected to arrive on the 25th or 26th inst. We regret to announce the death of Elder John M. Kay, who was traveling in this company on his return from a 4 years' mission to the British Isles. He died Sept. 27, and was buried on Little Laramie creek.

Capt. Hyde's train was some two days ahead of Capt. Snow.

Since writing the foregoing we learn that Capt. Hyde's train was at Ham's Fork on the 16th, and that Capt. Snow would reach Green river that evening. They will come on the Chalk creek road.

**TAKE CARE OF YOUR HORSES.**—Our usually peaceful city is again infested by a gang of horse thieves, all of whom we hope will soon be put where they can be found. Last Friday night some half dozen of these guerrillas were seen prowling around Mr. John Vance's premises in the 7th Ward. They had doubtless learned that he kept good horses; he was, however, too much on the alert to suit the convenience of such vagabonds, hence they soon left, remarking that he was on the watch.

The same night a span of horses were taken from the stable of Mrs. Gregory of the 3d Ward, probably by the same gang. A horse was also stolen from Mr. Calkin's stable in the 13th Ward, on that night. We should be glad to hear of the perpetrators of these acts meeting with their just deserts.

**FRUIT IN FILLMORE.**—Br. John F. Cavanah informs us that apple, pear and other varieties of fruit trees flourish luxuriantly at Fillmore, and produce abundant and excellent crops. He saw in br. Stokes' orchard the Hubbardston Nonsuch measuring 13½ inches, the Jersey Sweeting 10 inches, and the Porter from 11 to 12. The Louise Bonne de Jersey pear measured 11 inches, and the peaches and plums were of large size of their several kinds, very productive, fair, and of excellent flavor. Br. Stokes is also very successful in raising gooseberries, strawberries, currants, etc., etc., gratifying news to us, both on br. Stokes' account, whom we deem a very worthy and useful citizen, and as demonstrating the capability of the soil and climate in Pauvan valley to produce fruit in great variety and abundance, and of excellent quality. Br. Cavanah has our thanks for the information furnished.

**A BEAUTIFUL BOQUET.**—Mr. Frank F. Fox, will please accept our thanks for a most beautiful boquet, which we found on our desk on Monday afternoon. At this advanced season of the year a boquet comprising a choice selection of dahlias, roses, verbenas, ice plant, snap-dragon, sweet alyssum, pansies, piccotees, etc., etc., is a rare treat.

**THE WEATHER**, is remarkably pleasant days, but nights and mornings are cool and frosty.
