

SAN JOSE SCALE SERIOUS MENACE

Many Weber Orchards Affected
And Fruit Industry of Entire
State Threatened.

AFFAIRS OF WEBER COUNTY.

City Council Will Not Make Special
Assessments for Parking Sidewalks
—Death's Record—News Notes.

Ogden, Oct. 14.—The extent to which the San Jose scale is spreading and damaging the fruit crop, especially the apples, cannot be fully estimated at the present time. C. A. Hickman, owner of the state school of horticulture yesterday afternoon appeared before the board of county commissioners for the purpose of bringing to their attention the fact that the pest is so extensive among the apple crop that the work of attempting to exterminate it by cutting fruit trees Inspector Rasmussen is entirely too much for him alone, and asked the board to grant the appointment of a deputy for at least 30 days to assist in the work. The request was granted and Mr. Rasmussen will make the appointment, the compensation to be \$3 per day. Mr. Hickman reported that a large percent of the apple crop of the county is infected with the scale to a greater or less extent and the pest is by no means limited to Weber county. There are over 25 orchards in Ogden who have infected apples for sale at their place of business, also some other kinds of fruit. He says they are innocent in the sale of the fruit as they do not know of the existence of the scale and when the matter has been brought to their attention they have shown a willingness to destroy the infected fruit and to do all they can to assist in exterminating the scale. It is, as a rule, the farmers who raise apples and sell them as a secondary business, that have the infected fruit, as the orchardists who make it a business to grow fruit keep their pest under control. He made the further statement that unless some radical measures are used to destroy the scale, he would not be surprised if the entire state was quarantined against apples.

The first step to be taken by Mr. Rasmussen and his deputy will be to visit all the merchants and fruit dealers, both retail and wholesale, and inspect their fruit and where any of the scale is found they will insist on the apples being taken to the crematory and destroyed. If these same measures are carried out in other parts of the state and great precaution is used then the scale can be exterminated.

Overseer of poor Joseph Stanford submitted his report showing an expenditure of \$165.45 for the quarter ending Sept. 30, 1907.

J. P. Anderson, of Salt Lake, against whom Bishop Taylor made a complaint of his failure to support his aged mother appeared before the board, and was very indignant because of the complaint against him, claiming that it was not true, but Commissioner McKay questioned him as to whether he had contributed one cent during the past six months to her support and he admitted he had not, but instead the county has been allowing his sister \$5.00 per month to assist in their maintenance. Anderson was permitted for his apparent neglect and promised the board that he will see that his mother is properly supported in the future.

Some improvements in sanitation at the county jail were ordered made. Commissioner Madsen assured the

Ogden, Oct. 14.—At the meeting last night of the city council it was decided to relieve the citizens in parking districts Nos. 1 and 2 of special taxation. This means an abandonment of a plan of the improvement league to beautify the city by parking between the sidewalks and curbing.

The Ogden Improvement league sent in a communication bearing upon the stray dog nuisance and submitted an ordinance which it asked be passed. The matter was referred to the law committee.

Miss Tillie Hancock was appointed assistant city recorder to succeed Miss Louise Wilcox, who is soon to be married.

On recommendation of the police committee a resolution cancelling a contract between the city and C. E. Jayne of the police department was adopted.

Claims amounting to \$4,638 were allowed.

SUIT FOR DIVORCE.

Mrs. Anna Olson has filed suit for divorce in the district court against Gustaf A. Olson. The parties were married January 24, 1905, at Salt Lake City, and the complaint alleges that the defendant has an uncontrollable temper and has often since their marriage called plaintiff wife names. That on the 11th of this month in a fit of anger he burned their marriage certificate, insurance receipts and other papers of value belonging to plaintiff. That he is employed by the Wasatch Orchard company at a good salary. A restraining order was issued to restrain defendant from disposing of \$2,000 he has in the different banks of the city and \$1,000 worth of real estate at Logan pending the hearing of the case.

MISSED CHILD'S DEAD.

A telegram was received yesterday by John Dandison from his sister, Mrs. Edna Childs Brady, conveying the sad intelligence that his niece, Miss Electa Childs, died yesterday morning at Bluff, Mont., and that the body would be brought to Ogden for burial. Miss Childs was 15 years of age and was well known in Ogden, where she lived up to about two years ago, when she moved to Bluff with her mother. She has many relatives and friends throughout Weber county and Ogden who will be shocked and grieved by her untimely demise. It is expected the body will arrive here about Wednesday or Thursday when arrangements for the funeral will be made.

The electrical illuminations were the most elaborate ever seen in Ogden. On Wednesday and Friday evening the delegates will be entertained at dancing parties. MOUNT PLEASANT.

SUGAR FACTORY PLANS. Committee Meets With Jesse Knight And Utah-Idaho People.

Special Correspondence.

Mt. Pleasant, Banquete Co., Oct. 14.—The following members of the committee on sugar factory plans met in the Commercial club room yesterday afternoon: Chairman, T. D.

HAS RELIEVED MANY HERE.

Prepare It at Home By Shaking Ingredients Well in a Bottle.

What will appear very interesting to many people here is the article, taken from a prominent health journal, giving a simple prescription, as formulated by a noted authority, who claims that he has found a positive remedy to cure almost any case of backache or kidney or bladder derangement. In the following simple prescription, if taken before the stage of Bright's disease:

Fluid Extract Dandelion, one-half ounce, Compound Kargon, one ounce, Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime.

A well-known local druggist, when asked regarding this prescription, stated that the ingredients are all harmless and can be obtained at a small cost from any good prescription pharmacy. He further stated that while this prescription is often prescribed in rheumatism, it has a peculiar action upon the entire kidney structure cleansing these most important organs and helping them to act and filter from the blood the food acids and waste matter which cause pain and suffering. Those who suffer can make no mistake in giving it a trial.

Peter Sundwall of Fairview, S. T. Hill of Spring City and J. M. Bader, C. W. Sorenson, M. C. Jensen of Mt. Pleasant. The committee reported its visit to the Utah Idaho Sugar company people at Salt Lake City and the visit held with Jesse Knight, who has been looked forward to as being the man to give some substantial assistance in the erection of the factory here. In fact, something was promised in this regard but has not yet been made. However, at this interview it was found that he is too much tied up with other enterprises to give any financial backing at the present time.

In visiting with the representatives of the Utah Idaho Sugar company it was learned that there had been some kind of a misunderstanding existing, but this was soon cleared up and the sugar people were friendly and in a mood to talk business.

They expressed themselves as thinking the postponement of the erection of the factory was being a very wise move, but felt that the next factory to be built will be erected here. They asked the committee to make them a proposition which they would be glad to consider.

One of the chief points disposed of at this committee meeting was the appointment of the following to formulate a proposition to present to the Utah-Idaho Sugar company, viz: T. D. Rees of Wales, F. C. Jensen of Mt. Pleasant, Andrew Anderson of Moroni, C. W. Sorenson of Mt. Pleasant and Peter Sundwall of Fairview. When this proposition is framed and referred to the general committee, another committee will be appointed to present the proposition to the sugar company representatives.

Much discussion concerning the particular points of erection of the factory and other technical matters was had. The committee feels that things are rather encouraging than otherwise.

The condition of John Jones remains practically the same as for many months past, having been confined to his home for over a year with rheumatism.
