

WRIGHTS NEVER FLY TOGETHER

During Aviators' Long Course of Experiments They Have Not Once Attempted It.

MIGHT MEAN DEATH OF BOTH.

Scientific Discoveries Too Precious to Take Any Risks—Fully Realize Danger of Work.

Chicago, July 23.—A Washington special to the Inter-Ocean says: It is a very interesting fact that the Wright brothers never fly together. The reason is simple. An accident which occurred last summer, when Orville Wright and Lieut. Selfridge were precipitated to the earth, might kill both the brothers. This is a tragedy they are guarding against.

Orville Wright has declared that during their long course of experiments in the development of an airplane he and his brother never attempted to fly together.

The Wright brothers are a close corporation and they have not communicated to anybody the scientific discoveries made during their long investigation of the problem of aerial navigation. If both were injured by an untimely accident, their secret would be lost.

Two simultaneous flights. Vichy, France, July 22.—Two aeroplanes made a simultaneous flight at the aerodrome here today, piloted by Tissandier and Paulhan. Tissandier's machine was in the air for 15 minutes and 35 seconds. When flying low Tissandier's machine suddenly became unmanageable and fell to the ground. It was badly damaged, but the occupants were not hurt.

No insurance for aviators. New York, July 23.—"Habitual aviators," by a letter of instruction issued last night to the agents of the Travelers' Insurance Co. of Hartford, Conn., must join the ranks of automobile racers and others whom the insurance companies decline to accept as risks.

Starved to death. A what could truthfully be said of many children who die. They have been starved to death. It is a terrible thing and you must realize it. If your child is cross, fretful, pasty complexioned, and does not thrive, it is a sign of starvation. Give it White's Cream Emulsion, you will be surprised at the results and how quickly it picks up. Sold by Z. C. M. I. Drug Dept., 112 and 114 N. Main St., Salt Lake City.

Utah's natal day. Celebrate at Vandamere. An ideal day for a day of rest and enjoyment, something doing all the time. Base all horse races. Paine's Fire Works Co. night.

Didn't pay damages, was sent to jail. Glenwood Springs, Colo., July 23.—A guilty verdict of a criminal charge growing out of the shooting of John Lawrence, but subsequently ruled in damages of \$2,000, as the result of a civil suit brought by Lawson, Perry Correll, wealthy coal operator of Newcastle, now finds himself under sentence of six months in the county jail for failing to pay the damages assessed against him. Following the sentencing yesterday by Dist. Judge Shumate, an order was made granting a stay of execution of 15 days to permit an application for a writ of supersedeas. Lawson was a leader of the striking coal miners at Newcastle, 1904, but left the state during the strike. He returned several months later and met Correll on the street in Newcastle. Hot words passed between them and Correll was charged with beating Lawson to the ground.

Girls to be trained as model housekeepers. Chicago, July 23.—Several hundred girl pupils at the Dante vacation school will be trained as model housekeepers before the summer is over. A model five-room flat, in miniature, has been installed in one of the classrooms. It really is a little flat, with walls and partitions, and all the furniture and fittings usually found in a flat apartment. The flat is in charge of a teacher of domestic science, and

Married women. Every woman covets a shapely figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided by the use of Mother's Friend before baby comes, as this liniment prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend makes the danger of child-birth less, and carries her safely through this critical period. Thousands gratefully tell of the benefit and relief derived from the use of this remedy.

Special Prices For 30 Days. Utah Dentists. 224 MAIN STREET. OVER LEYSON'S JEWELRY STORE. There is no economy in having dental work done at any price unless it is done first class. Here is an opportunity to have the very best work at the lowest prices by an old established office whose guarantee is good.

THE DR. WAS IN A CYCLONE

Dr. B. N. Alsworth, the physician of Puyallup, Wash., writes an interesting article about the cyclone that devastated that section. We quote: "I suppose you saw a notice in the papers that we had a cyclone on the 24th of May. It swept our little town about off the earth. Thank Providence, my family and self came out alive, but my drug store was swept to the winds. We are picking up slowly. I found four bottles Fulton's Renal Compound unbroken and gave them to a lady whom the other physicians had given up (kidney disease). She came to me as soon as she heard that I had returned to my practice again, and I put her on the Renal Compound and she is now nearly well. But I need more, and you will please send me another dozen of the Renal Compound from your nearest shipping point."

"In haste, 'B. N. ALSWORTH, M. D.' How can people who have any kind of kidney trouble expect to get well on the old faulty kidney patents when the census deaths show that ninety-two out of every hundred of them passed out from a form of the disease that was incurable up to the date that Fulton's Compound was introduced? It is the task of each class to take care of one room of the flat on a given day."

When each class has completed a one-half room course to the satisfaction of the teacher, it is assigned to another room of the flat, and so on until every class has learned the proper care of every room and has a good working knowledge of practical housekeeping."

GAY AT 105 YEARS. New York, July 23.—The fact that Mrs. Honora Tully is 105 years old has prevented her from enjoying a birthday celebration. In fact, when she attended the wedding celebration at the home of her grandson in Brooklyn, she remained up until after midnight, bidding the last guest goodbye, and throughout the evening enjoyed all the games and gaieties as much as anyone.

SHARP SENT TO PRISON. Kansas City, July 23.—Adam God who was recently sentenced to 25 years in the penitentiary for the murder of Patrolman Michael Sullivan here last December, was taken to the penitentiary in Jefferson City today.

A HUGE GIRDER. Chicago, July 23.—An 87,000-pound steel girder drawn by 20 horses blocked a city street in Chicago. It was being hauled to its destination. The load was the largest girder which will be used in the new city hall. It is 44 feet long, 22 inches deep, and weighs 87,000 pounds. At the time it was being hauled, it was being pulled by 20 horses. The load was the largest girder which will be used in the new city hall. It is 44 feet long, 22 inches deep, and weighs 87,000 pounds. At the time it was being hauled, it was being pulled by 20 horses.

PORT FULTON, IND., SEEKS MAN FOR OFFICE. Louisville, Ky., July 23.—The little town of Port Fulton, Ind., across the Ohio river from Louisville, is searching for a patriot and cannot find him. His only qualifications need be a willingness to run for the office of town treasurer so that Port Fulton may get its money out of the bank at Jeffersonville, Ind., and pay its bills.

Excursion to Canada. Via Oregon Short Line. Round trip from Salt Lake to Lethbridge, \$33.85; to Stirling, \$32.80; to Raymond, \$32.30; to York, \$32.85; to Cardston, \$32.25; to Spring Coulee, \$34.40. Proportionately low rates from other stations. Tickets good until September 15th. Excursion trains will leave Salt Lake at 2:25 p. m., August 4th.

CONBOY DISCHARGED FROM SAN FRANCISCO POLICE. San Francisco, July 23.—Police Capt. Michael Joseph Conboy, who shot and seriously wounded Bernard Lagan several weeks ago, was discharged from the police force today. The police commissioners were in session from yesterday until an early hour today considering a charge of intoxication brought against Conboy by Chief of Police Cook and after finding him guilty of it a charge they immediately discharged him from the department.

COAST ARTILLERYMEN SCORE HITS EVERY TIME. Port Townsend, Wash., July 23.—Artillery target shooting with 10-inch rifles and 12-inch mortars of a brilliancy that army officers here declare will never be beaten with present coast defense equipment and methods of serving, was performed yesterday by the Thirtieth company, Capt. Wesley W. K. Hamilton commanding, and the One Hundred and Twenty-sixth company, Capt. Harry W. Newton, Coast Artillery corps, at Port Worden. The Thirtieth company with a 10-inch rifle battery secured a score of 90 per cent by placing two or three shots in the record shots in an area one-fourth the regulation target size and by handling the firing of six shots in four minutes was given an efficiency scoring of 100 per cent. The barbettes rifle, admittedly slower in handling than the modern disappearing gun, was used. Five record shots of eight feet were served perfectly with the mortar battery.

SPANISH PRISONER SWINDLING SCHEME. Chicago, July 23.—Revival of the "Spanish prisoner" swindling scheme of several years ago has resulted in the postoffice department making special efforts to warn possible victims. A case that has resulted in dozens of complaints is one in which a Russian banker is represented to be in prison in Madrid, Spain, a victim of a plot to rob him and his daughter of their fortune. Hundreds of letters, purporting to be written with a pen, but which the authorities say are printed, have passed through the mails in Chicago and many have been turned over to the postoffice inspectors. They are reported to be from A. Bellavsky, the imprisoned banker.

OLD MAN STEALS IN ORDER TO GO TO JAIL. New York, July 23.—Francis Graham, in his seventy-fifth year, accused of grand larceny, told Judge O'Sullivan yesterday that he stole in order to get a place where he might lie down and sleep and may be die. He is crippled with rheumatism, homeless and unable to work. He said he would not beg and did not want to go to Blackwells Island, because he would have to break rocks there.

CHINAMAN WILL VOTE. San Francisco, July 23.—Despite the fact that the federal statute and the constitution of California forbid the natives of China the privileges of voting, Kwong Lee, a native of that country, will be permitted to vote at the November election here. Before the federal statute was enacted, yesterday he appeared with a member of the Chinese community and after producing his naturalization papers was permitted to register.

VULTURE CREDITORS. Sell Burial Vault With Its Dead to Satisfy Judgment. Greensburg, Pa., July 23.—The spectacle of a vault wherein lay the owner's dead, being disposed of at a forced public sale, was witnessed yesterday at the old Unity cemetery. The sale was necessitated by the insistence of creditors of the owner, once a wealthy and prominent business man, and after producing his naturalization papers was permitted to register.

DIAMOND NECKLACE RECOVERED, WHO PAWNED IT. New York, July 23.—A diamond necklace consisting of 54 stones of three-eighths of a carat each and of remarkable beauty has been recovered from a pawnshop in New York city and while the police have determined that its owner is Mrs. Mary L. Van Buren, who is spending the summer at Sound Beach, the pawnshop owner has given ground to the rumor that a woman of considerable prominence knows something about the affair.

PROGRESSIVE REPUBLICANS

Senator Cummins Issues Statement Setting Forth Views On Tariff Situation.

ENDORSE PRESIDENT'S STAND

Ready to Surrender Part of Their Demands to Obtain Reductions on Important Articles.

Washington, July 22.—Emphasizing the importance of insisting upon reduction in the duties upon manufactures, as well as upon raw materials, Senator Cummins of Iowa late today made public a statement which is accepted as representing the views of at least a majority of the "progressive" Republican senators relative to the tariff situation.

Previously Mr. Cummins had consulted two hours with the president, and an exchange of views had passed between Mr. Cummins and others of the 10 who voted against the tariff bill in the senate.

"I endorse every word of the statement recently made by the president," said Mr. Cummins. "While it is of the utmost importance that iron ore, oil, hides and coal be dealt with as proposed by the president, it is of still greater importance that the duties on manufactured products shall be brought down somewhere near the protective point."

Mr. Cummins said: "Those who have been contending for lower duties can afford to surrender a part of the just demands if they can, in the main, obtain the reductions which insure the people against undue prices in the chief commodities of commerce."

He outlined his principal objections to the bill as it left the senate as follows: "Structural iron and steel, the use of which is so rapidly increasing, is rated from the Dingley rate of 10 per cent and the house rates of 35 per cent to 45 per cent ad valorem, which at the present price of this commodity means a duty of \$16 per ton, an increase over the present law of \$6 per ton, and over the house provision of \$10 a ton."

When it is considered that the duty on steel rails is \$3.50 per ton, and their market price is \$23 per ton, the proposed duty upon a form of steel which sells for \$35 per ton is wholly indefensible. Free iron ore is a very desirable thing, but when the welfare of the consumer is taken into account it would be vastly better if a fair rate could be secured on but one of these items, than when the duty on iron ore is to go to 25 per cent a ton and out the duty on structural steel to 35 or 45 per cent, where it would furnish protection for home producers.

"In the lumber schedule, if both rough and dressed lumber are not free as they ought to be, the house rate of 11 on rough lumber should be preserved, and the differential upon dressed lumber should begin at 25 cents per 1,000, and not go beyond 60 cents per 1,000."

In the paper schedule, the house rate of 12 per cent on paper and the differential upon dressed lumber should be increased to 15 by a countervailing duty and free wood pulp, also protected against a countervailing duty, should be insisted upon.

"In the cotton schedule the senate increases from beginning to end should be rejected, and I believe the people might be willing to stand for the house rate, barring, of course, the hosiery increase."

"The woolen schedule is manifestly wrong, and the artificial and arbitrary way of estimating the relation between unwashed and scoured wool is grossly absurd. The wool grower is sacrificed in order to give undue protection to the worsted wool manufacturer. The whole schedule is so indefensible that a readjustment seems imperative, even though to accomplish it the conference report be voted down and the bill brought before the senate again for amendment."

DRAWBACK ON MAPLE SYRUP. Washington, July 23.—The treasury department regulations, providing for the allowance of a drawback on maple syrup manufactured entirely from imported maple sugar and granulated sugar produced from imported raw sugar, have been amended by Asst. Secy. Reynolds, so as to include maple syrup manufactured in part from those materials.

BRITISH NAVAL PAGEANTS. London, July 22.—The summer of 1909 will be remembered as a season of naval pageantry. Last month the greatest assemblage of war crafts in the history of the British navy took place off Portsmouth. This week the same ships entered the Thames.

On Saturday the ships will gather at Portsmouth, where on July 13th and 14th, and September 10th and 11th, Ask agents' rates and on further particulars. City Ticket Office 201 Main Street.

DR. ELIOT PROPHECIES ADVENT OF NEW RELIGION. Cambridge, Mass., July 22.—Charles W. Eliot, president emeritus of Harvard, and an address before the Harvard summer school of theology today, prophesied the advent of a new religion.

"It will not be bound by dogma or creed," he said. "Its workings will be simple, but its field of action limitless. Its discipline will be the training in the development of co-operative good will. It will attack all forms of evil. There will be no supernatural elements; it will place no reliance on any but the laws of nature. Prevention will be the watchword and a skilled surgeon one of its members. The new religion will not teach that character can be changed quickly. It will not deal with sorrow and death, but with joy and life."

There are all kinds of summer appetizers but none are needed when the food is made of

HUSLER'S FLOUR

ed to be from A. Bellavsky, the imprisoned banker. The law appeal for help in obtaining \$420,000, which Bellavsky claims to be due him and his daughter, promising \$100,000 of the money to the person who the letter is sent to as a reward for helping get the \$420,000. In each letter is a clipping purporting to be from a London newspaper, telling of Bellavsky's imprisonment.

OLD MAN STEALS IN ORDER TO GO TO JAIL

New York, July 23.—Francis Graham, in his seventy-fifth year, accused of grand larceny, told Judge O'Sullivan yesterday that he stole in order to get a place where he might lie down and sleep and may be die. He is crippled with rheumatism, homeless and unable to work. He said he would not beg and did not want to go to Blackwells Island, because he would have to break rocks there.

"I am too feeble for that," he said. "I fell in with a Sing Sing man and said it was much easier there. So send me to Sing Sing, judge."

Graham offered to plead guilty, but the court rejected the plea and turned him over to the bureau of outdoor poor.

CHINAMAN WILL VOTE

San Francisco, July 23.—Despite the fact that the federal statute and the constitution of California forbid the natives of China the privileges of voting, Kwong Lee, a native of that country, will be permitted to vote at the November election here. Before the federal statute was enacted, yesterday he appeared with a member of the Chinese community and after producing his naturalization papers was permitted to register.

The proposition is to hypnotize Bernard, said to be a chronic bad boy, into a state where his thieving characteristics will be solely of the good variety. Dr. Bloch thinks he can make Bernard fit for a certificate of good behavior in a few months.

MILLIONAIRE ARRESTED FOR HAVING TOO MUCH MONEY

New York, July 23.—Thomas Davis, a son of the late Thomas Davies, who amassed a fortune as an ink manufacturer, ran short of pocket change recently, and to prevent such a recurrence, he cashed several shares of mining stock into \$500 in silver coin. Placing the coin in two bags in the subway office, he started to his home in Brooklyn with them, but finding them too heavy, he left one, containing \$400, in a Nassau street shoe store where he was not acquainted, merely asking the clerk to keep it for him. When the clerk discovered the contents, he became suspicious and called the police, and when Davis returned he was compelled to show the officers just how he came by the money. When he has not placed in his pockets he says he has stored at home.

TO POPULARIZE CUBAN NATIONAL LOTTERY

Washington, July 22.—Popularizing the proposed new national lottery has been the effort of the Cuban government in the legislation creating it. A copy of the law has reached the state department from the American minister at Havana.

Tickets are to range in value from \$1 to 25 cents and are to be sold in a board of seven members, while children from the foundlings home and the national orphan asylum will read off the lucky numbers. At the same time private lotteries, raffles and bazaars are prohibited unless expressly authorized.

called "Friends of the Country" is to be on the supervisory drawing board. Importation of foreign lottery tickets is prohibited.

The Cuban government believes the lottery will be a lucrative source of revenue, and computes the net profits at \$2,000,000 a year.

LICENSED CHAUFFEURS' PROTECTIVE ASSOCIATION

New York, July 23.—Justice Bischoff yesterday signed a certificate of organization of "The Licensed Chauffeurs' Protective Association of the City of New York," and thus came into existence a society of nearly 5,000 persons whose object is to send to prison reckless millionaire owners of automobiles whose custom has been to shift to their drivers responsibility for death-dealing "joy riding."

Inquiry brought out the fact that within less than two years more than 122 persons have been crushed to death by automobiles in Greater New York and vicinity, but only twice were the owners held responsible.

Every other time the blame was placed upon the chauffeurs who, they contend, operate their machines in nearly 90 per cent of the cases under orders from their employers.

WILL USE HYPNOTISM TO REFORM CRIMINAL

New York, July 23.—An experiment, unique in the annals of criminology, is to be tried by Dr. Sheffield Bloch, an alienist, on Bernard Chaff, 18 years old.

The proposition is to hypnotize Bernard, said to be a chronic bad boy, into a state where his thieving characteristics will be solely of the good variety.

Dr. Bloch thinks he can make Bernard fit for a certificate of good behavior in a few months.

Magistrate Furlong, who yesterday was about to send the lad away for a long term for highway robbery, told the alienist to go ahead with the experiment.

Negro Paradise—Washington, D. C.

Do you know why? Do you know why the white men of the District of Columbia gave up their right to vote? Do you know that the negro was responsible?

Do you know why the negro is practically shouldered out of his vote in the South to-day?

Judge Harris Dickson has written a brilliant statement of the negro in politics. He answers the questions: Is the negro in the United States a failure? Industrially? Politically? Socially? He traces the negro's record through forty years of freedom, from carpet-bagger days to the plantation and city life of to-day.

A masterful contribution to the negro question in
