## Georgia Bill.

The Georgia bill was taken up. Stewart moved to strike out Bingham's amendment. Wilson offered an amendment authorizing the continuation of the present legislature for two years from its reorganization in January last, provided that the clause in the State constitution on the subject shall never be exercised to extend any official term beyond the regular Constitutional period and the legislature to consent to this condition before the act shall take effect.

## NEW JERSEY.

British Indian cable completed successfully—Channel cable defective—Five years penal servitude for writing a threatening letter.

NEWARK.—The British Indian cable is completed throughout; the signals are excellent. Scudamore, Director General of the postal telegraph service, has entreated the public to avoid sending any more messages than are necessary to Ireland, as the cross channel cable from Wexford was broken, and until the fault could be rectified none but messages of urgent business or matters of life and death would be transmitted.

A man has been sentenced to the galleys and five years penal servitude for writing a threatening letter to a landlord at the instance of one of his tenants, for the consideration of fifteen shillings.

## VIRGINIA.

Ellison still in possession—Ellison in danger—Celebration.

RICHMOND.—Ellison still holds the City Hall; and General Canby has not yet sent the military to aid the marshal in ejecting him; the U.S. Marshal now summoning a large civil posse to demand his surrender. If the posse should fail to obtain possession, it is understood that the General commanding will furnish troops. The colored people to-day celebrated emancipation day.

## ILLINOIS.

## Dangerous Building.

CHICAGO.—One of the architects appointed by the board of Supervisors to examine the condition of the new court house, reports that an examination was made yesterday, which resulted in the discovery of alarming indications of an impending fall of the entire east wing, and that, unless prompt preventive measures are taken, it probably will not stand a week longer. There is much excitement relative to the matter.

## NEW YORK.

Improbable Story—Mass Meeting on the Cuban Question—Boyd's Funeral—Modification of City Charter—Colored Voters—Cashier Absconded—Extensive Fire—Defuncter Philpotts Nabbed—Disobedient Steamer—Application refused—Will Probably be Executed—Want the City Charter Passed—McFarland Trial.

NEW YORK.—The Tribune says it is impossible that there can be any truth in the story telegraphed that Phillip D. Sewbom, just captured in Ireland, and Mr. Paul E. Forbes, our negotiator at Madrid, are one and the same person. Forbes is far too well known to make the story other than ridiculous.

A mass meeting in behalf of Cuban independence is to be held to-night at the Cooper Institute, under the auspices of the Cuban league of the United States. It promises to be an imposing demonstration. Mayor Hall will preside. Speeches are promised from Gen. Banks and Hon. L. Woodard, T. Fitch, John Mitchell, Horace Greeley, Richard O'Gorman, Cassius M. Clay, James S. Thayer and others.

Yesterday afternoon the funeral of the late Seth Boyden, the celebrated inventor and horticulturist, took place from the Fair street Universalist church. It was attended by manufacturers, mechanics and other prominent citizens. The Union League Club held a meeting last night and adopted resolutions that a committee would be sent to Albany to urge the necessity of a modification of the present city charter. They demand the abolition of the board of Supervisors and in limitation of the powers of the Mayor and Comptroller. Two colored men voted at Perth, Amboy, N. J., on the adoption of the new charter, last Thursday, the date of the proclamation of the first vote under the amendment in the United States.

The cashier of an extensive woolen importing house, on Broadway is reported to have absconded with a large amount of money, which he obtained by an alteration on a check. The names are not given.

The extensive work of the Wood Distilling Company at Black Rock, Conn. was burned on Friday night; loss \$100,000, no insurance.

The steamer *Adria* reports that on April 1, at eight a. m., she spoke to the Italian steamer *City of Brussels*, from New York for Liverpool. Capt. Kennedy reported that she had lost her propeller. They had her full sails set and needed no assistance. She proceeded under full sail, close hauled, heading South-East.

Judge Ingraham has denied the motion for a stay in the proceedings under a writ of error in the case of Jack Reynolds, the murderer. The execution will undoubtedly take place on Friday.

The Citizens' Association last night adopted a memorial, calling upon the legislature to pass the new charter

which came from the Assembly, specifying many of its features as vast improvements, which its members had for years recommended as necessary to the municipal government.

The Republican city executive committee, at a special meeting this afternoon, unanimously adopted a resolution recommending the adoption of a new charter. The idea, which is now influencing the Republicans of this city, is that, if they oppose the charter, a bargain will be forced between the young and old Democracy by which the more satisfactory (and desirable) clauses will be struck out. Pending the charter, the objectionable board of aldermen will be retained in office.

An immense crowd assembled at the Court of General Sessions, where the trial of McFarland opened this morning.

## WASHINGTON.

Curious case—Legal intricacies—Military Meeting in House of Representatives—Nominations—Tariff Bill modified—Secretary of Navy's Report on the "Onedra" disaster—No appropriations—Army reduction Bill.

WASHINGTON.—A case is under argument in the Court of Claims involving the question whether the President's proclamation of commercial intercourse removing commercial restrictions in certain portions of the South, took effect on the date of its signature or on the date of its publication, three days later. The ownership of a considerable amount of cotton is involved in the case, which is likely to go before the Supreme Court.

The expected meeting of officers and soldiers who served under General Thomas, will be held in the hall of the House of Representatives, on Tuesday evening, under a joint resolution adopted by the two Houses of Congress. The President, Judges of the Supreme Court and members of the Cabinet are invited.

Nominations were sent to-day of a J. Lowry Postmaster, Placerville, Cal., Moses Hallett, Chief Justice, Colorado.

The committee on Ways and Means agreed to modify the tariff bill, so as to have the duty on nearly all classes of iron castings, including and irons and iron stoves, store plates, gas, steam and water pipes, as now, which is considerably less than that proposed in the bill.

The Secretary of the navy sent to the House all the information in his possession relative to the *Onedra* disaster. The report says the disaster occurred through the bad navigation of the *Bombay*, and a reckless disregard of human life and the common obligations of humanity.

The committee on appropriations have agreed unanimously to report against making any appropriations whatever for buildings, not now in course of construction.

The Senate military committee, this morning, considered Wilson's bill for the reduction of the army. They will probably report on it as a substitute to the House bill. Wilson's bill provides for the saving of five millions a year, while Logan's would increase the expenses for army purposes three millions.

## KENTUCKY.

Fire in a State prison—Prisoners burned to death.

LOUISVILLE.—There was a disastrous fire at Audin State Prison this afternoon. The cells were entirely destroyed. One of the convicts, a colored boy, was suffocated in his cell. The shops and factory in connection with the prison, were not injured. The fire raged from three to eight and a half p.m. The loss is not yet known.

## FRANCE.

Crisis imminent—Emperor and Cabinet disagree—Will probably be deferred—Strike continues—wish to elect him.

PARIS.—A parliamentary crisis is imminent. The Emperor desires to submit a new order of things to a vote of the people and the ministers are not willing to permit the discussion of the *Senatus Consultum* by the corps legislatif. Nothing definite on these points is known now; but declarations from the Cabinet are expected at the opening of the chambers to-morrow. It is reported that Ollivier will ask a vote of confidence, and if this is not reached he will resign.

It is now tolerably certain that the solution of the question for the submission of a new order of things to a vote of the people will be deferred for a time in consequence of the misunderstanding between the ministers and the chambers on this subject.

The strike at Lacroix continues, no collision has yet occurred between the rioters and the troops.

The radical party are working hard to insure the success of Ulric, formerly a candidate for deputy to the corps legislatif, from the city of Lyons.

## WEST INDIES.

Consul held as a hostage—Fleet sent to liberate him.

Port au Prince letters say that Winer, the American consul, recently arrested by Jacquet, chief of the Haytian insurgents, is still held as a hostage at Des Arapetis. The English, French and American consuls at Port au Prince have taken the matter in hand and a fleet, consisting of one English and two Haytian men-of-war, have been sent to liberate Winer.

## GREAT BRITAIN.

Irish Bill passed—Queen not signed it—Expedition to the Red River—Boating—Urges increased cultivation of cotton in India—"Times" on legal tender decision—Large screw steamer launched—Prince of Wales president of a meeting—The infallibility of the Pope.

LONDON.—The Irish force bill has passed both houses of Parliament. The Lords met on Saturday to receive the expected message from the Queen approving the bill; but it was not sent in. According to the *Broad Arrow* newspaper, the expedition to the Red River district will be composed of 300 regulars and a force of Canadian militia which will be under the command of Col. Walsely.

The betting on the University boat race is six to four in favor of the Oxford crew. Despatches from Calcutta state that Earl Mayo, Governor General of India, is making a tour through the cotton growing districts of that country and urging the necessity of an increased cultivation of cotton, in order to compete successfully with the United States.

The *Times*, on the proposed reconsideration of the decision of the Supreme Court, in the matter of the constitutionality of legal tenders, is strongly in hope that the views of the Chief Justice will be sustained.

The Prince of Wales presided at a meeting of the Society of Arts, held to organize an educational department to make arrangements for several exhibitions next year. The Prince spoke in favor of the objects proposed to the society. He was followed by Sir J. Pakington.

A despatch from Rome reports that the Pope wishes to promulgate his first scheme at Easter, so that the second scheme, that of infallibility, may be discussed immediately after the holidays.

GLASGOW.—The new steamer *Italy*, of the national line, was launched to-day. She is said to be the largest screw vessel afloat, except the *Great Eastern*.
