EDITOR AND PUBLISHER.

Wednesday, August 4, 1909.

HEALTH AND FOOD.

The remark has been frequently and truthfully made, that if there was as great mortality among lambs, or the young of other animals, as there is among children, there would be great excitement among the people who wear wool and who buy and sell mutton and wool. The evil would soon be discovered and cured, for such an examination into physiological laws would be made by those interested in the preservation of the animals that every defect in breeding and training would be speedily brought to light. There is bad management, and a terrible amount of it, in the breeding, (to use an expressive phrase) of men. There is no really good reason why so large a percentage of our race should die in childhood. It is true that the present generation has to endure the penalty of the follies and sins of past generations, but this penalty may be greatly mitigated, and, eventually, be altogether repealed by the proper observance of those laws which pertain to man's earthly existence.

The conditions which surround the inhabitants of this Territory are eminently favorable to the development of a remarkably healthy, long-lived race of men and women. We ought soon to have a lower rate of mortality among children than that of any other country. If our people will observe the laws of life themselves, and strictly enforce them upon their children, there is no good reason why this should not be so. But no redemption from sickness and death can be obtained, if these laws are habitually violated. A great reform has been attempted by making the use of alcoholic drinks, tobacco in its various forms, tea, coffee and pork unpopular among us. This is the first important step, and it should be followed up by others equally necessary.

To preserve health it is of the highest importance that care should be taken with the diet. Many of the diseases to which our race is subject, are caused by eating improper food. The early settlers in this valley can recollect how rare it was to hear of a case of sickness in those days of scarcity, when but few, if any, could eat all their appetites craved, and food was of the simplest character. At that time we did not have a bolting cloth in the valley, and fine flour was almost unknown, the majority of the settlers having brought wheat and not flour with them. We honestly think that the introduction of bolting cloths has been attended with injurious effects, and that had we continued to eat the most of our flour ground in the primitive style of early days, we should be a more healthy people than we are, and deaths in childhood would have been comparatively uncommon.

Many of our readers may differ from us in these views. The ladies especially take pride in having white flour, and would almost revolt if confined to unbolted flour bread. But, however objectionable this latter may be to the eye, or to the taste, it nevertheless contains more of the elements necessary to build up and keep healthy the human system than the fine white flour which so many persons doat upon. Bran is part of the natural grain fit and necessary for the support of the human system. It contains lime and other elements necessary for the bones and teeth, and children fed on substances which do not contain these elements must have bad teeth and weak bones, on the same principle that hens which cannot get lime lay eggs with very thin shells or no shells at all. If any one needs proof of the correctness of these views, let him visit countries where the people cannot get fine flour, but where, if they eat flour at all, it is coarse, and oatmeal, barley meal, peas and beans are their diet, and instead of warm drinks, such as tea and coffee, they have buttermilk, and as a rule their teeth are sound and white, and they are robust in body and are capable of enduring immense fatigue. Depend upon it, poor as the circumstances of such races are, necessity compels them to live more correctly and in more strict conformity with true dietetic laws than we do. We should, by the exercise of our volition, do for ourselves and our children what they have to do under the compulsion of hard necessity.

There is much true philosophy in the French Doctor's statement, which we published some months since in our columns, respecting the virtues of buttermilk and its effect in prolonging life. Many people feed their hogs with their buttermilk, and carefully save the butter for their own eating, without the knowledge that the former contains the elements in abundance which are necessary to build up the human system, while the latter does not. The habit of eating, in addition to a very injurious one and a fruitful cause of many of the diseases which afflict the race. This should be checked. For children sunlight, exercise and fresh air are important. Then, add to these suitable food, regular habits, cleanliness and well-ventilated sleeping apartments, and the probabilities are that children will be healthy and grow up to maturity. This is a subject that should be more thoroughly understood and reflected upon than at present.

(SPECIAL TO THE DESERET NEWS.)

By Telegraph.

GENERAL.

Pittsburg, Pa.—Rev. J. P. Lion, who has been on trial the past week before the Ohio Presbytery of this city, charged with unministerial and immoral conduct, was acquitted last night on all the charges; the trial caused great excitement, and the verdict great satisfaction, as public sympathy was decidedly in his favor.

Hartford.—The funeral of the Hon. Isaac Lacey, was attended in this city this afternoon; the remains were taken to Cedar Hill Cemetery for burial; The Hartford County Bar attended in a body. Among those present were Governor Jewett and Ex-Governor Englebar.

Chicago.—A Washington special says that the District Attorney in Mississippi, who was removed on Saturday by order of the President, was a leading man in the Dent movement. It is rumored that other Federal officers who have neglected their business and are remaining in Washington in Dent's interest will also be removed.

The representatives of an English house interested in the Memphis and El Paso Railroad have subscribed seven million of stock to the Norfolk and Great Western Road, with the view of controlling the line between Norfolk and Bristol, making the last link in the chain from Norfolk to San Diego.

New York.—Specials say there is some anxiety about the yacht *Dauntless*, which left Queens town for Havre two weeks ago, and has not since been heard from. Bennett left her at Queens town.

A lively competition has begun between the New Jersey and Central Railroads and the new line between Newark and New York; the fares are greatly reduced.

Philadelphia.—The money stolen from the arsenal has been found concealed in the ground.

San Francisco, 3.—The Democratic city and county convention nominated Frank McCoppin, the present incumbent, for Mayor. It is stated that \$12,000,000 in gold coin are locked up in the United States Assistant Treasury in this city; to the great injury of the commercial interests of the community.

The report of the Coroner of San Francisco, for the past twelve months, shows a total of four hundred and forty deaths, requiring investigation, thirty-nine of which were suicides, eleven murders, and eighty-two accidents.

Legal tenders, 74. Nashville.—Specials say that not a single Republican clerk or judge of election has been appointed at Memphis. No separate polling places will be provided for the colored men, as the law requires, the intention being to prevent them from voting. The Sumter Republican candidates for the Legislature at Nashville have withdrawn from the field, and the Stokes candidate will be sustained by all the Republicans.

Chicago.—The commercial party which reached Omaha yesterday, had an interview with Col. Hammond, Superintendent of the U. P. R. R., who has again assured them that every endeavor would be made to consult the best interests and convenience of the public.

Lawrence.—Specials announce an Indian raid upon Sheridan, at the western terminus of the Kansas Pacific railroad; a number of stock has been run off. The trains have quit running during the night.

Chicago.—Jennie Leonard committed suicide yesterday, while on a visit in Tauburn street; the cause is the old story, love, betrayal, desertion. Both parties to the sad affair belonged to highly respectable families.

A few days ago a meeting of the parties interested in the purchase of real estate near the Visitation Land Company, near San Francisco, was held in this city, and formed a joint stock company, with a capital of two millions, for the purchase of 3,775 acres of land, just south of San Francisco. A committee was appointed to visit San Francisco and examine and report on the land proposed to be purchased. The committee left today. The owner of the tract is Philip Pack, long a resident of Chicago, who went to San Francisco last fall, dead broke, but by good luck became the virtual owner of this land. The company propose to improve the land in the best possible manner.

Oscar Halldren was severely and probably fatally burned yesterday by the explosion of a can of kerosene.

A boy fell through the skylight of the Sherman House, sixty feet, to-day, and was killed; there have been several other accidents.

New York.—Resolutions were passed at the Tammany meeting last night to hold the question of the British rejection of the claims of Irish-American citizens, at present one of the international questions between this country and Britain, superior to those arising out of the conflict between the two countries on the belligerent rights question between the North and the South; and that the sympathies of the Democratic party are with the Cubans, and that so far as we can, without rendering ourselves amenable to the neutrality laws, we will endeavor to succor and comfort the struggling people of Cuba; and that if the Administration, on subjects involving the sovereignty of American citizenship, would only exercise the authority which has been observed towards hunting up Cuban refugees and detaining them at Fort Lafayette and they took an oath to violate the neutrality laws no more, our national honor would have been better vindicated, and a just demand for sympathy would have been widely gratified; that the recent outrages by the Spanish Government in Cuba in the execution of American citizens without a form of trial, should have received the most instant attention at the hands of Grant's Administration, such as would have been given in behalf of outraged American people, had the Democrats been at the head of the Government; the acquisition of the Island of Cuba by purchase, so as to make the Cuban citizens of the United States is the duty of every patriot; they demand that the Government awake from its recent inactivity and endeavor, at once, to right the American nation upon these questions of outrage by the British and Spanish officials on the sovereignty of American citizenship.

Governor Hoffman sent a letter saying that our Government has been disgraced by its failure to protect American citizens against injustice, cruelty and oppression, whether in Great Britain or Cuba, and it is the mission of the

Democratic party to wipe out that disgrace, and they will do it during the next Administration.

New York.—A party of white rowdies assaulted a negro picnic, near Newark, yesterday, and a desperate fight ensued in which two were fatally stabbed and several others wounded. Several arrests were made and one captured.

The fillibusters who refused to sign an agreement not to violate the neutrality laws have been sent to Blackwell's Island as vagrants.

Washington.—The Internal Revenue Department, to-day, issued additional regulations relative to claims for refunding taxes: No claims or application hereafter made for refunding taxes will be entitled to consideration by the Commissioner of Internal Revenue unless the same be filed with the Commissioner within two years from the date of the payment of the tax; or in case the claims have already accrued within two years from this date.

The Louisville Courier and Journal has advised from Nashville, purporting to be from a reliable source, making some startling disclosures concerning the Stokes party in Tennessee. The advice assert that it is the intention of Stokes to assemble a legislature of his own at Nashville, and organize a separate State government; he calls upon Col. Cooper, of the militia for assistance. Col. Cooper is said to be committed to the conspiracy. The office holders and Republican municipal authorities of Nashville have also a part in the scheme, which is attributed to the same Mr. Stokes, who is said to have the approval of Boutwell and other Republican leaders at Washington. In lieu of the military, which are disbanded, Cooper is expected to be backed up by the Grand Army of the Republic. The object of this movement is to create a conflict calling for the interposition of Congress, which will be memorialized in regard to the subject. It is expected that the Administration will protect Stokes and party till Congress meets.

A serious accident occurred at the Ohio Falls bridge this morning, by the capsizing of a yawl belonging to the steamer *Mollie Ribert*, which resulted in the drowning of a man named Murray, and the narrow escape of Captain Pink Varble, and four others.

The Evening Express contains the following: "We have ugly reports from Casey Co. in that region the regulators," according to this rumor, have been at their work of blood again. We are told that a gang of some thirty men made an attack on the house of one of Rowe party in which Casey shot and killed three men and one woman. This is the same gang that has been operating in Mercer, Anderson and the adjoining counties. An official order has been received from the Adjutant General at Frankfort, addressed to the Maj. Allen of this city, to lead a battalion of the militia in readiness for service. It is contemplated by the State authorities to send this militia to Boyle and Mercer counties to destroy the bands of roving regulators preying in that portion of the State."

Chicago.—Judge Jamison, of the Superior Court has refused to dissolve the injunction against the Ecclesiastical Court, trying the Rev. Cheney; his opinion is quite severe upon Bishop Whitehouse and the members of the Court for their illegal proceedings.

Cincinnati.—A great exposition of textile fabrics was opened to-day. Two of the adjacent store rooms and three storeys of Sinton's new blocks were filled with goods. Business men confess that they have hitherto been ignorant of the extent and perfection of the woollen manufactures in the West. The formal opening took place this afternoon. Speeches were made by Gov. Hayes, Mayor Burroughs, McAllister, President of the North Western Association and others.

FOREIGN.

Lisbon.—The mail steamer from Rio Janeiro to July 9th, has arrived. The latest news from the seat of war in Paraguay is interesting but the operations were uneventful. The rear guard of Gen. Barroeta's column were out some time ago, while making an abortive attempt to cross the Terebinto to March on Villa Rica. It was supposed they were all taken prisoners by the Paraguayans but most of them have since returned.

European papers give accounts of a new conspiracy in Poland, with a view to another revolution.

By the English cable. Dresden, 3.—A dreadful accident occurred yesterday in a coal mine, in the Mountain District near this city, in which over three hundred persons were killed outright. The accident is said to have been attributable to the stormy weather.

Berlin.—The preliminary surveys for a ship canal through Schleswig Holstein, to connect the Baltic and North Seas are completed; it is thought the Prussian government will undertake the work.

London.—A Madrid letter says the state of affairs in Spain is disquieting, and the prospect ahead full of gloom and confusion. The government has no fear of the success of the Carlists.

Halifax.—The gunboat *Estopos* has arrived from the Rio Grande; she had 18 deaths from yellow fever. The frigate *Barueta* has arrived with the fever aboard.

By French cable. Madrid, 2.—The Captain General of Madrid addressed a letter to Regent Serrano and Gen. Primo in which he says "I took part in the revolution, hoping to see morality, law and justice succeed former abuses; it was now months since the revolution was accomplished, but my hopes have been deceived. Greater abuses, wide spread immorality and deplorable anarchy, and disorders to which it is absolutely necessary to put an end now prevail. The constitution having proclaimed monarchy, and the immediate choice of a King indispensable, the Government does not shortly consider the question of the revolution and retire to private life." The letter was read in a council of Ministers and created a profound impression.

London, 3.—The coming international boat race is still a matter of great interest. The London press, generally, comment unfavorably on the style of the Harvard crew. The latter were out again last evening on the Thames, and used a boat of London make, the practice being much better than before. They attained a higher rate of speed than with their own boat.

The yacht *Dauntless* is in the harbor of Cowes.

CELEBRATION OF THE TWENTY-FOURTH IN THE SETTLEMENTS.

Owing to a press of matter and the length of the communications with which our correspondents have kindly favored us, giving accounts of the celebration of the entrance of the Pioneers into these valleys, we are under the necessity of abbreviating and producing them in a condensed form. We are gratified with the spirit of union, peace and joy that universally characterized their several demonstrations.

EPHRAIM CITY, SANPETE COUNTY. Ephraim City witnessed a glorious time on the Twenty-fourth. At daybreak "our cannon" awoke all hands by firing six shots in honor of the first six members of the church; at sunrise, it fired three more in honor of the First Presidency, which were followed by twelve volleys of musketry in honor of the quorum of the Twelve Apostles; at half past eight o'clock it again called the people together, to assemble in the bowerly, to form a procession which passed through the principal parts of the city. Following is the programme of the procession: Company of Cavalry, Pioneers, apparently just in from the plains, men and boys in tattered clothing; bundle of sage brush tied on behind, and grand old men in front of the wagon playing on a violin; the martial and string bands; Bishop Peterson and his counselors; the Mayor and other city authorities; committee of arrangements; twenty-four each of aged brethren, aged sisters, middle aged brethren, middle aged sisters, young men, and young ladies, the following among other trades, are all too numerous to mention, some in wagons, others on foot carrying with them banners with appropriate sentiments and the implements used in their respective vocations; viz., farmers, masons, carpenters, blacksmiths, machinists, hay cutters, machine, furniture makers, painters, tailors, shoemakers, &c., &c.; teachers and scholars of the first and fourth ward day schools; a company of infantry bringing up the rear.

On returning to the bowerly, after singing and prayer, an appropriate oration was delivered by Bishop Peterson. An original poem entitled *The Mormon Pioneers*, was read by Brother John Acton; a speech was made by our worthy mayor Bro. George Taylor; several toasts, prosaic and poetic, were read; Bro. Quinn, father and son, and Bro. Chas. Dorin, each sang a song; the choir sang and the band played various suitable pieces at intervals during the meeting.

At three o'clock the brethren and sisters assembled in the meeting house to enjoy the pleasures of the mazy dance; and with a slight intermission tripped the light fantastic toe until midnight.

C. P. ANDERSON, Marshal of the Day.

BOUNTIFUL.

At daylight a gun was fired by the artillery for every county in the Territory and one for the State of Deseret, as a signal for hoisting the Stars and Stripes upon the tower of the Tabernacle, also for the bands to serenade through the principal streets.

At 8.30 a.m. the procession was formed on the Public Square in the following order: Brass band; battalion of cavalry; Silver Greys; twenty-four young ladies in white; choir; Bishop; Counselors; Pioneers; Dramatic Association; Female Relief Society; string band; Sunday schools and teachers; martial band; battalion of infantry.

This vast concourse of people paraded through the principal streets and returned to the Tabernacle. The congregation was called to order by the Marshal, after which the Chaplain offered prayer; hymn by the choir; Gen. G. D. Grant, Orator of the day, made some very soul-stirring remarks, contrasting the present with the time when President Young entered this valley and the work he had entered concerning Ensign Peak, as a place of safety. Quite a number of the boys and girls connected with the Sunday school gave dialogues, recitations, songs, etc. Speeches were made by Bishop John Stoker and Hon. John Telford, which were to the point. The various mottoes and flags were very creditable. The music was excellent. Through the whole of the proceedings peace, good order and good feelings prevailed and we enjoyed ourselves amazingly well. Three cheers were proposed and given by the congregation for the "State of Deseret." The afternoon was spent in dancing by the youngsters; the evening by the adults in the same way.

E. MANTLE, Reporter.

SPRINGVILLE.

The citizens of Springville were early aroused by discharges of ordinance, and music from the martial band. At nine a.m. the procession, in charge of Marshal Geo. A. Johnson, marched to the residence of Bishop A. Johnson, thence to the Tabernacle, where singing, toast recitations, sermon by the Orator, W. H. Kelsey, and speeches from Bishop A. Johnson and others, completed the forenoon ceremonies. The evening was devoted to dancing until a late hour.

CHAS. D. EVANS, Reporter.

LEVAN.

The celebration commenced at daybreak, with a salute of artillery. The flag was raised at sunrise, and was saluted by the firing of 22 guns. The teachers and Sunday School scholars assembled in the bowerly at eight o'clock a.m., with banners bearing appropriate mottoes, and there formed a procession and marched through the principal streets, thence repaired to the residence of Bro. Elmer Taylor, where they were joined by President Fifteenth and party, when they returned to the bowerly precisely at 11 o'clock a.m.; when the following programme was presented:

House called to order by the Marshal. Singing by the choir; prayer by the Chaplain, singing by the choir. Oration by Bro. Geo. Gardner, Orator of the day; singing; Benediction by the President Samuel Pitchforth; singing; Benediction by the Chaplain.

At 2 o'clock p.m., the tables were set, and all partook of a sumptuous dinner provided by the sisters.

At 3 o'clock p.m., the juveniles enjoyed themselves dancing, the evening was devoted to the same amusement by the adults. All appeared to enjoy themselves; and everything went off agreeably.

Yours truly, HENRY HARTLEY.

Special Notices.

Those who suffer from Liver Complaints may rely upon the *Red Jacket Bitters*, because they derive from its anti-bilious properties immediate and certain relief, when all the usually prescribed remedies have proved useless.

CASH paid for Clean COTTON RAGS at this Office, or at the Paper Mill, Sugar House Ward.

Burnett's Cologne has received strong certificates of its virtue as a hair preparation.

Burnett's Kallistone removes Tan and Freckles and imparts a velvety softness to the Skin.

Burnett's Flavoring Extracts are unlike any others, and they are called the best.

Ex-President Martin Van Buren and his Physicians testified to the wonderful efficacy of Jonas Whitcomb's Asthma Remedy in his own case.

DOOLEY'S BAKING POWDER—Stands unequalled for making light, healthy and nutritious rolls, biscuits, griddle cakes, &c. The ingredients used in the manufacture of this powder are not only chemically pure, but so proportioned that the results produced are the same each time. In this respect it possesses superiority over all others in the market. Only two teaspoonfuls are required for a quart of flour. For sale by grocers generally. Use Dooley's Baking Powder only. d215.8
