Local and Other Matters.

FROM TUESDAY'S DAILY, SEPT. 10.

Frost.—A heavy frost was experienced last night throughout the whole of this city. Tomato vines were ruined, and potatoes were slightly nipped.

Accident.—Last night, about 8 o'clock, Mr. Joseph Pitt, of the 17th Ward, while wrestling with one of a party of companions on the sidewalk of Main Street, had the misfortune to break one of the small bones of his left leg, on the outside near the ankle. Dr. Benedict dressed the injury, and the patient is progressing favorably.

Badly Scalded.—This morning a little son of Brother James Coult, of the 11th Ward, was seriously scalded on the left side of his head and body, by the overturning of a vessel containing soup. Though everything possible has been done for the alleviation of his pain, the little fellow is suffering intensely. The child is but a year and a half old, and, therefore, the severity of the accident is very great.

Change of Address.—By letter from Elder W. Bramall we learn that the address of the Nottingham Conference, England, has been changed from 81 Great Freeman Street, Nottingham, to 49 Sabina St., off Great Alfred Street, Nottingham, England. Persons desiring to communicate with their friends, or with Elders in the Nottingham Conference should address their letters to the latter place.

The Azalea Entertainment.—The ye low fever benefit given by the Azalea Literary Association, in the Social Hall last evening, was a success. The programme was well arranged and nicely rendered, a goodly number of its features in first-class style. The audience was a large and appreciative one, and the proceeds, netted for the relief of the distressed people of the south will reach the neighborhood of a hundred dollars.

For Arizona.—To-morrow, Elder Erastus Snow and party organize at Johnson's settlement, Kane County, and start to visit the settlements of the Saints in Arizona and New Mexico. The party consists of Elders Erastus Snow, Ira N. Hinckley and John Starley, of Fillmore, Jesse N. Smith, of Parowan, L. John Nuttall, Edward A. Noble, and Charles Oliphant, of Kanab, and Bateman Williams, of Orderville.

Ogden Items.—From the Junction of last evening we learn that a number of fine animals, which are en route for Japan, are at the stable of Carroll & Dee in Ogden. They were bought in Kentucky for racing and breeding purposes, by the Japanese government.

The firm of Rother & Richards, proprietors of the Utah Vinegar Works, has been dissolved by mutual consent. The business will hereafter be conducted by Mr. L. M. Richards, who is a young man of promising ability. The vinegars manufactured by the old firm found a ready sale throughout the surrounding territories; and we trust that this branch of home manufac-

ture may continue successful under the direction of Mr. Richards.

The Tooele Case.—A new phase of the Tooele election case has been developed. The undertaking in appeal for the sum of \$1,000, which has previously been mentioned, was filed by the defendants; but the plaintiff, within the time prescribed by law, entered an objection to the sureties thereon. The defendants were then allowed five days, in which to either have their first sureties justified by the court, or to obtain new bondsmen. The space of time mentioned expired last night, and the defendants had failed to take the necessary action in the premises. It now remains to be seen whether the Court will decide that a new appeal may be taken, or adjudge that the provisions of the peremptory writ of mandamus be complied with.

"Enquirer" Items—Accidents.—On Saturday, August 31st, between 8 and 9 o'clock in the evening, Mr. William Wright, of Charleston, was returning to his home with a load of grain, from Provo, when, on a dugway, at the head of Provo Cañon, his horses became frightened, ran off the road and upset the wagon. Mr. Wright was thrown out, two of his ribs broken, and he was otherwise badly bruised. With much difficulty, he unharnessed one of the horses and rode to a sheep herd in the vicinity, where he obtained help and reached home three miles distant, about midnight.

Last Friday morning a little son of Mr. Alonzo Ferre, resident of the First Ward, Provo, while climbing on his grandfather's barn, accidentally fell and broke his right thigh bone. Dr. Pike set the injured limb, and the little patient is progressing favorably.

Arizona News—Flood, etc.—From a communication dated August 24th, at Sunset, Arizona, on the Little Colorado River, we learn that for a week previous the rain had been pouring down almost incessantly, and in consequence, the river was much swollen. The whole bottom had been covered with water, some of the farms submerged, and considerable grain in stacks had floated away. At one time the farm of our correspondent was entirely surrounded by water.

The grain at Woodruff would be almost entirely destroyed. The grist mill at Brigham City had been surrounded and their stacks standing in eighteen inches of water. Boats and rafts were called into requisition in moving from the houses to the corrals.

The Moquis Indians were bewailing the loss of their crops, and had been fearful of their condition.

At date of writing, however, the flood had subsided, and all was high and dry once more.

The Deseret Museum.—Professor Barfoot, curator of the Deseret Museum, communicates the following:

Several curiosities have been presented to the Museum by Bishop O. F. Whitney. Among other things two leaves from a palmetto tree at Mount Vernon, planted by George Washington in 1799, the year in which he died. There is also a fragment of wood from the belfry of the Temple at Kirtland, which will be placed in the cabinet devoted to relics connected with our early history as a people.

Brother Levi W. Richards has also given a copy of the St. Louis *Luminary*, printed in 1855, containing items of information relating to the doings of our missionaries in that city, with a notice of a very important discovery made by Brother Orson Pratt in November, 1854. This was no less than that law by which the rotation of planets is governed, probably one of the most important discoveries ever made in relation to the heavenly bodies.

That law is there expressed in terms of the masses and of the diameters of bodies moving in space as follows:

"The squares of the cube roots of the masses of the planets, divided by the squares of their diameters are as their periods of rotation."

The correctness of this law is shown in the copy now referred to, preserved among our "Church relics" in the Museum.

BEAVER NEWS.

Boreman on Polygamy—Tasker Captured, etc.

The following special to the News came by Deseret Telegraph:

BEAVER, Utah, 10.

Editors Deseret News:

The District Court is in full blast. Judge Boreman felt a foot lighter after delivering himself of his charge to the grand jury, especially against polygamy, which his honor says must and will be put down. The people of the Christian world will not stand it. He instructed the jury to grind out indictments. The coterie of ten larcenists and shootists under the surveillance of Sheriff Farnsworth, now await the action of said body. The sheriff's gang is adorned with the countenance of the celebrated Ben. Tasker, who yesterday called into Beaver on legitimate business, and while in the co-op. store fitting a hat on his illustrious head, the U. S. Marshal quietly took him under his protection. Verily Beaver is growing.

W. T.

NOTICE.

The Bishops and Presidents of Quorums of the Salt Lake Stake of Zion are requested to notify me, at their earliest convenience, of any changes in the presidency of any of the quorums of the Priesthood over which they preside, and when and by whom any persons newly-appointed were ordained and set apart, that I may prepare the names of the authorities of this Stake for presentation at the next Quarterly Conference.

W. W. TAYLOR,
Clerk of the Stake.

FROM THURSDAY'S DAILY, SEPT. 12

Appointment.—Elder W. J. Beattie is appointed to preside over the Leeds Conference, in place of Elder C. D. Evans returning home. —*M. L. Star*, August 26.

Information Wanted.—Of Robert Greene, who emigrated to Utah about 18 years ago. Address John Sadler, 25 South John Street, Liverpool, England. —*Mill Star*, August 26.

Sanpete Exploring Expedition.—We learn by special telegram, per Deseret Telegraph, that the Sanpete Exploring Expedition, with John L. Ivie, captain, and Johnson B. McDonald, aid and guide, started this morning to explore the south-eastern part of Utah and the San Juan country. The party numbers 8 men with 16 horses and mules, well armed and equipped, and will probably be gone over two months.

The Base Ball Game.—The game of yesterday was very well attended, about seven or eight hundred people being present. The net receipts will not be less than \$400, while they may exceed that sum. Great credit is due to the committee for their earnest efforts, to the players for their generosity, and to the public for their extensive patronage.

The game, itself, was quite interesting. At the close the score stood 8 to 3 in favor of the Deserets.

Welsh Emigration.—Brothers Morris & Evans desire all the agents who have funds on hand for the emigration of the Welsh Saints, to forward the same, with what they can collect, by the 20th of September, at the latest, so that the money may be sent to Liverpool in time for the last vessel, to sail in October. The labor can continue and what is not gathered in time for this year, will be useful for next season's emigration.

A Lady Correspondent.—Mrs. Emily Hardacre, of Louisville, Ky., correspondent to *Scribner's Monthly* and the *New York Herald*, who has been in Salt Lake for a few days, went yesterday afternoon. She designs returning ere long, and will remain in this city for a short time, for the purpose of obtaining correct information concerning "Mormon" women and

their religion, a subject to which she intends giving the benefit of her ability as a writer. Welcome.

Lake Point.—The DESERET NEWS employees are under obligations to W. W. Ritter, Esq., manager of the Utah Western Railroad for the pleasant trip to Lake Point and return, which they enjoyed, yesterday, through his courtesy.

The southern shore of the Lake forms, undoubtedly, the best points for bathing in that invigorating body of water, and during the day time the luxury can still be safely indulged in without ill effects from the cold air-wave which has come down from the north, but which is gradually departing.

The evening train will be discontinued on and after Friday, the 13th inst., and instead thereof a train will leave this city, daily for Lake Point at 8.50 a. m., returning here at 5.40 p. m., thus giving plenty of time for a day's excursion, with ample opportunity to bathe in the saline water and the pleasant sunshine, without the inconvenience of an early start or a late return. Tickets for the round trip 50 cents.

"Enquirer" Items.—Last Saturday, Mrs. Anna Briggs, of American Fork, while going from that place to Provo, had the misfortune to fall from the wagon and break her left arm, just above the wrist. Dr. Pike attended. The towns of Utha County are making preparations to be well represented at the County Fair, to be held in Provo City, on the 26th, 27th and 28th insts.

The regular session of the September term of the First District Court will commence on Monday next, with the Goshen-Mona water case.

On the 6th inst., Mr. P. A. Peterson, of Salem, while chopping wood in the cañon, accidentally cut his foot badly, severing an important blood vessel. The cut bled profusely for three hours before medical aid arrived. The patient will recover.

Last Sunday, Mr. J. D. Stark, of Payson, while on his way to Provo with a wagon containing, besides himself, two women and a small boy, met with a severe accident. On entering Springville, one of the traces became unhooked, frightening the horse and causing it to wheel around. At the same time Mr. Stark dropped one of the lines, when both animals commenced describing a circle. The wagon was capsized and its inmates all severely bruised.

City Council.—Meeting of the City Council, Tuesday evening, Sept. 10th, 1878, Mayor Little, presiding:

A report from the committee on improvements to the effect that a previous recommendation relating to a building belonging to Mr. Snelgrove be adopted, was accepted by the council.

The Mayor reported expenditures from contingent fund for the quarter ending August 31st, 1878, with certified vouchers, \$127.86. Accepted and expenditures approved.

The auditor of public accounts presented report of the financial condition of the corporation for the three months ending August 31st. Received and referred to the committee on finance.

The superintendent of waterworks presented report of his doings for the quarter ending August 31st. Twenty-one water services had been supplied, at an expense to the corporation of \$672.69. The total amount expended on waterworks account during the term was \$713.77. The service and everything pertaining to the works were reported as being in good working order and running satisfactorily. Report accepted and expenditure approved.

Five hundred dollars was appropriated as a contingent fund, to be drawn upon the orders of the superintendent.

Adjourned for one week.

The Lecture.—A large audience assembled at the Theatre, on Tuesday evening, to hear the "Wastes and Burdens of Society" dilated upon by the Rev. Henry Ward Beecher. Opinions as to the merits and demerits of the lecture are as

various as opinions generally are, some pronouncing it to be a crowning gem of oratory, others, equally vehement, berating it as a fraud upon the public. These are the extremes, however, equally unreliable. It is safe to say that the large majority of those who heard it were highly entertained by the ventilation of the subject, which, though by no means new, was presented in a very pleasant and attractive manner, while their curiosity, at the same time, was gratified at beholding the noted personage, whose name, Madame Rumor, for a number of years, has handled so freely and unmercifully.

We will not attempt to give a synopsis of the lecture, the burden of which went to describe the condition of society, which, while he deplored, the speaker was more inclined to satirize and condemn, than to benefit with a suggestion for its remedy. True, some of the minor phases were self suggestive, as is the case when a person's health is injured by the habit of tobacco chewing, common sense suggests as a remedy that the practice should be discontinued, but a master mind professing to understand the construction and state of society, its laws and abuses, could do more good by giving the unlearned the benefit of his superior wisdom in precepts calculated for utility and practice, than by ridiculing errors into which ignorance and thoughtlessness have plunged them. There was nothing new in the lecture, except the manner in which it was delivered, and the illustrations employed. Beecher was cut out for an actor. He is a great mimic and mingles the comic element with serious objects in a very entertaining style, but rather bordering on the irreverent. We have heard better public speakers in Europe and America, and therefore cannot endorse the claim set up for him by his manager, that he is the greatest of living orators.

NEW YORK TRADE.

IMPORTANT NOTICE!

Readers and Heads of Families

CUT out this notice and send it to the Graefenberg Company, 56 Reade St., N. Y., together with TWENTY-FIVE cents, and you will receive by return mail, postage paid, a copy of their valuable family medical book, entitled

The Graefenberg MANUAL OF HEALTH.

It contains 360 pages, handsomely printed on fine paper, and is written in language plainly understood by every one.

TRUSTEES' SALE.

ON APPLICATION OF Z. SNOW, Assignee and owner of the note set forth in the Trust deed hereinafter described, and pursuant to the provisions of a deed of trust, made October 26th, 1874, by Jeter Clinton to James M. Smith and Charles E. Pomeroy, as Trustees, and recorded in Book "8," page 311, and following, of the records of Tooele County, Territory of Utah, and because default has been made in the payment of the indebtedness secured thereby, we will sell at public auction, to the highest bidder, for cash, current funds of the United States, at the south door of the County Court House, in Salt Lake City, and County, Utah, on Wednesday, September 26th, 1878, between the hours of 12 o'clock noon, and 1 o'clock p. m. of that day, the following described property, situate in Tooele County, Utah, viz: The southeast quarter of the northeast quarter, and lots one (1) and two (2) in section thirty-five (35); and lot one (1) in section twenty-five (25); and lot three (3) in section twenty-five (25); all in township one (1) south of range four (4) west of the Salt Lake Meridian, according to the United States Public Survey.

JAMES M. SMITH, } Trustees.
CHAS. E. POMEROY, }
Dated at Salt Lake City, September 4th, 1878. w31

MRS. MUSSER

Will be pleased to see her friends at her Millinery and Notion STORE, South of the Old Constitution Building, East Temple Street.
