HALL'S Vegetable Sicilian HAIR RENEWER

was the first preparation perfectly adapted to cure diseases of the scalp, and the first successful restorer of faded or gray hair to its natural color, growth, and youthful beauty. It has had many imitators, but none have so fully met all the requirements needful for the proper treatment of the hair and scalp. HALL'S HAIR RENEWER has steadily grown in favor, and spread its fame and usefulness to every quarter of the globe. Its unparalleled success can be attributed to but one cause: the entire fulfillment of its promises.

The proprietors have often been surprised at the receipt of orders from remote countries, where they had never made an effort for its introduction.

The use for a short time of HALL'S HAIR RENEWER wonderfully improves the personal appearance. It cleanses the scalp from all impurities, cures all humors, fever, and dryness, and thus prevents baldness. It stimulates the weakened glands, and enables them to push forward a new and vigorous growth. The effects of this article are not transient, like those of alcoholic preparations, but remain a long time, which makes its use a matter of economy.

BUCKINGHAM'S DYE FOR THE WHISKERS

Will change the beard to a natural brown, or black, as desired. It produces a permanent color that will not wash away. Consisting of a single preparation, it is applied without trouble.

H. M. WYETH'S PATENT.

He who furnishes the Public with a Labor Saving Machine should be highly esteemed for his works' sake.

PATENTED JAN. 1st, 1884.

THE GREAT OBJECT REACHED AT LAST.

THE PUBLIC HAVE LONG NEEDED A pump simple in its construction, durable, cheap and not liable to get out of order. This desideratum H. M. Wyeth of Salt Lake City, Utah, has (after many years of experience) attained by inventing and patenting a Double Acting Anti-Freezing Force Pump. So simple in its construction that any person of ordinary mechanical genius can make it. Every farm or dwelling should be supplied with one or more for house use or for watering stock, gardens, yards or protecting buildings from fire, and it is warranted not to freeze in the coldest weather.

There is a general and increasing demand for pumps, and it is believed that this pump will ultimately take the place of all others in the market. Its manufacture and sale offer the best inducements to industrious persons for a continued and lucrative business and the broadest margin for safe investments and profitable speculation of any invention extant.

Any parties wishing to travel with a good pleasant and paying business in any part of the United States are invited to call on or address
H. M. WYETH,
Salt Lake City, City.
