ANOTHER TUBE SECURED

"American" Plumbing Inspector to Have An Assistant.

At a meeting of the finance committee of the city council held last evening, it was decided to recommend the appointment of an assistant plumbing inspector at \$2,000 per annum. The appointment had been requested by Plumbing Inspector Farrell, who stated that during the next three months there will be so much work that he cannot possibly take care of it alone. The finance committee also virtually decided to disapprove the award to Davis & House of the contract for sewer extension No. 120 for the reason that the city's portion of the expense would be \$800, and the city hasn't got the money. The district is on West Canyon street, and the total expense of the work is figured at \$2,000.

BULLETS IN GARFIELD

Mike Bobich With Four Bad Gun-shot Wounds Is Fatally Hurt.

FEUD BETWEEN FACTIONS

Roman Catholics and Greek Church Adherents Clash—Three Men Arrested—Assaults Escapes.

Still living, but with no chances of recovery, was the report early today from St. Mark's hospital relative to Mike Bobich, an Austrian shot at Garfield yesterday afternoon by Mike Perlich, a fellow countryman. The man has four bullets in his body, any one of which it is believed would prove fatal.

The shooting was the outgrowth of a long standing feud between two factions of the Austrian colonies of the smelting towns. Religious differences are said to be at the bottom of the trouble, part of the men being Roman Catholics, while others are Greek Catholics. To the latter church belongs Bobich. He is employed at the Garfield smelter, and was unkind as he was proceeding homeward from work late in the afternoon. It is alleged that Perlich, who is a Murray boarding-house keeper, suddenly appeared in Bobich's pathway and emptied the contents of a revolver into his body.

Perlich fled, closely followed by friends of the wounded man. Many shots were fired on both sides, and among those who are known to have been wounded is Sam Petrovich, a friend of Bobich.

Perlich finally escaped into the hills and has not been apprehended. He was aided in his flight by his two brothers and a number of friends. The sheriff's force, headed by Deputies Sharp and Sperry, went to the scene of the shooting and was unkind as he was proceeding homeward from work late in the afternoon. It is alleged that Perlich, who is a Murray boarding-house keeper, suddenly appeared in Bobich's pathway and emptied the contents of a revolver into his body.

WATER RIGHTS ANSWER CITY

Right of Claimants on Parley's Canyon Stream Set Forth—Position in Matter.

ASK DAMAGES ON AGREEMENT

Exchange of Water Covered Seasons Between April and October—Flow of Stream Not Increased.

About 200 holders of water rights in the Parley's canyon stream yesterday filed answer in the Third district court to the complaint lodged against them by Salt Lake City, in which it is sought to have the rights of the stream adjudicated. It is admitted that 82 percent of the water of the stream was exchanged with the city, but the claim is made that the exchange was for the season between April and October of each year only, and this on the agreement that the flow of the stream was to be increased 50 percent which they deny has been the case. It is also claimed that the springs at the mouth of Parley's canyon were not included in the exchange. It is asserted that the waters of the stream have been used by these claimants for irrigation and other purposes since 1848. Under the agreement for exchange of water with Salt Lake, it is claimed the city agreed to hold them free from all damages, and they now asked to be reimbursed in the sum of \$5,000, loss to them on account of the city's bringing this action. The defendants in the action are represented by Daniel H. Harrington. There are 1,700 defendants in all.

OVER THIRTY-FIVE YEARS.
In 1872 there was a great deal of diarrhea, dysentery and cholera infantum in this city. Chamberlain's Colic, Cholera and Diarrhoea Remedy was first brought into use. It proved more successful than any other remedy for treatment and has for thirty-five years maintained that record. From a small beginning its sale and use has extended to every part of the United States and to many foreign countries. Nine druggists out of ten will recommend it. When a child is asked, although they have other medicines that pay them a greater profit, it can always be depended upon, even in the most severe and dangerous cases. For sale by all druggists.

DROWNING OF FRED RICHMOND
Further Details of the Lamentable Accident Near Bangor, Maine.

Further details of the drowning of Fred Richmond, Jr., whose tragic death was announced yesterday have been received in this city. Richmond was bathing in the west branch of the Penobscot river, 30 miles north of Bangor, Maine, when he disappeared. A search beyond his depth and a mile long, splendid athlete the young man was not an excellent swimmer. He sank after struggling a while, and his body was unable to render help. The body will arrive here Tuesday, accompanied by Wayne Gible, a classmate of young Richmond, who at Andover college, Richmond was one of the best known athletes. He was captain of the high school track team and of the high school football team in 1907 and 1908. He held the state high school championship for the 220-yard dash and the 100-yard freestyle, and for the high jump. At Andover he was captain of the track team in 1907, and also held the record for the high and broad jumps in the college that year.

He was expected home August 1 to take a position with a firm in Bangor. It was written that he was about to resign his position in the government forestry service. Further arrangements will be announced later.

CRYING FOR WATER.
Residents of Capitol Hill Petition City Council.

Residents of Capitol Hill have filed a petition with the city recorder for presentation to the city council, in which they represent that they are suffering from a water famine, and asking the council to take steps to remedy the situation. The petition states that during the greater portion of the summer they do not obtain water for drinking purposes, and that from 6 to 8 o'clock in the evening there is absolutely no water in the mains.

Supt. Hobday of the waterworks department claims that this condition is brought about by the mains in the district not being large enough to carry the water, and that the mains are not in the best condition. He says there is plenty of water available for the district, as soon as the mains are enlarged to sufficient size to carry it.
