

CONSTANTINOPLE, 26. — Grand Duke Nicholas, accompanied by 12 Russian generals, proceeded, today, in the imperial yacht Livadia to the Dolmabahçe Palace where he was received by the Sultan, surrounded by his ministers and Osman Pasha and other generals. The Grand Duke conversed with the Sultan 20 minutes. He then went to Beylerbey Palace, where he was visited by the Sultan 45 minutes later. The Grand Duke and his suite next proceeded to the former Russian embassy, in front of which the Russian eagles were displayed.

ROME, 26. — Minister Cairoli, in the Chambers to-day, set forth the programme of the new ministry. He said among other things that it was their intention to maintain Italy's neutrality in the present foreign complications and to reduce some taxes pressing heaviest on the poor. The speech was much cheered.

PARIS, 26. — The budget committee of the Chamber of Deputies has unanimously rejected the Senate's amendments to the budget.

The Temps believes the congress has failed, in consequence of England's refusal to participate. France stipulated from the outset that she would only take part if all the signatory powers were represented.

The Soir states that the council of ministers has renewed this resolution.

BERLIN, 27. — The test vote at a meeting of political parties shows that Bismarck's railway bill will be rejected.

LONDON, 27. — A Vienna correspondent telegraphs: "Whether Gen. Ignatieff comes here to interpret the treaty or negotiate an understanding, the opinion here is not in favor of his success."

The Times' correspondent at Vienna says Gen. Ignatieff's purposes are unknown, but probably as a person most familiar with the treaty of San Stefano he comes to explain its scope and show how it can be modified in the interest of Austria, but the Austrian government is perfectly capable of judging these matters for itself. Gen. Ignatieff is not more likely to succeed on this than on the two former missions.

Russia's answer to England's question merely says that government adheres to its former view. This does not sound very promising, but it is still thought here that the reply will not close all interchange of opinion.

The Times' Berlin dispatch says: The Pope's conciliatory letter to the emperor has been answered in the same spirit. There is a prospect of the ultramontane difficulties being overcome.

The London correspondent of the Manchester Guardian says: The situation, so far as regards the meeting of congress, is much improved by assurances that Lord Derby has received from Count Schouvaloff during the past few hours.

Schouvaloff kept Russia's negative in his pocket until he received authority to give these assurances. There is some fear, however, that the smooth word may be intended to quiet England until Ignatieff can negotiate an understanding with Austria.

The Tages Presse regards Ignatieff's mission as a striking tribute to the correctness of Count Andraszy's policy of always consulting Austro-Hungarian interests.

The Frem Den Blatt hopes that Ignatieff will succeed in effecting an arrangement with the government. It says: "The time has now arrived when Austria should think of protecting her interests by precautionary measures beyond her own frontiers." This remark of the Frem Den Blatt means annexation of Bosnia, Herzegovina, Northern Albania, and a portion of Macedonia. The semi-official papers are silent.

A Berlin dispatch says: The Powers have declined a suggestion made by Russia that the congress be held without England. Prince Gortschakoff is endeavoring to bring about a meeting of the three Emperors and three chancellors.

Russia is understood to have indicated her willingness to make further concessions to Austria, and some concessions also to Roumania, being prompted, it is thought, by growing apprehensions of difference with England. Germany has, under the circumstances, abandoned for the present, all idea of issuing invitations for the congress.

India Council bills were allotted, to-day, at 1d. per rupee advance.

VIENNA, 27. — To-day's newspapers consider that the congress has failed, and that Austria must now look to the protection of her own interest.

The New Free Press, liberal anti-Russian and Bismarckian, says: "General Ignatieff's purpose is to isolate England."

The Deutsch Zeitung, strong German and anti-Hungarian, thinks Austria will gain by an Anglo-Russian war, because Russia must pay a high price for Austria's neutrality.

What Travellers Say.

Persons who travel for business or for pleasure, and who keep their eyes and ears open, agree in the opinion that HALE'S HONEY OF HOREHOUND AND TAR is the most popular medicine ever advertised in America. It is recommended as a specific for coughs, colds and difficulty of breathing, not merely by the druggist, who might be supposed to have an interest in so doing, but by a large proportion of the residents of every section of the United States.

Pike's Toothache Drops cure in one minute.

To Physicians.

We desire to call the attention of medical men to Dr. Price's Floral Riches, as being the finest cologne water made. In the sick room it is refreshing to the invalid, and a disinfectant. Physicians know that all pleasant odors are healthful, while disagreeable smells invite disease. Dr. Price's Perfumes richly deserve to be called the best.

The Centaur Liniments

are of two kinds. The White is for the human family; the Yellow is for horses, sheep, and other animals. Testimonials of the effects produced by these remarkable Preparations are wrapped around every bottle, and may be procured of any druggist, or by mail from the Office of THE CENTAUR COMPANY, 46 Dey Street, New York City.

HALE'S VEGETABLE

Stilian Hair Renewer is a scientific combination of some of the most powerful restorative agents in the vegetable kingdom. It restores gray hair to its original color. It makes the scalp white and clean. It cures dandruff and humors, and falling out of the hair. It furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft and glossy, and is unsurpassed as a hair-dressing. It is the most economical preparation ever offered to the public, as its effects remain a long time, making only an occasional application necessary. —It is recommended and used by eminent medical men and officially endorsed by the State Assayer of Massachusetts. —The popularity of Hall's Hair Renewer has increased with the test of many years, both in this country and foreign lands, and it is now known and used in all the civilized countries of the world. GANG & SULKY PLOWS.

IMPROVEMENTS are constantly being made in all kinds of labor saving machines, and more especially in farm implements, and farmers are learning that the saving of time and labor can best be accomplished by using the best implements manufactured. In this connection we wish to speak more particularly of the

GANG & SULKY PLOW

made by Avery & Sons of Louisville, Ky., which we have recently examined at the sales-rooms of

J. W. LOWELL & CO.

of this city. About 60 of these plows have been sold by them in the last few weeks, probably a larger number than has ever before been sold in this Territory since its first settlement. Farmers are getting tired of being jerked and twitched around all day by following the old style of plows, and find that by using the

AVERY GANG OR SULKY PLOW,

which is a beauty to look at, as neatly built as a carriage and about as comfortable to ride on, they can do their plowing with comfort, and even a child can handle it and do a man's work. We do not wonder that scarcely any other style of GANG OR SULKY PLOWS are sold in this market, for the Avery is unquestionably the BEST manufactured, as hundreds of the leading farmers of Utah will testify.

We give below a letter from Mr. John Rouse, of Goshen, known as one of the Oldest settlers and leading farmers of this Territory, who has tested the AVERY PLOW and knows its merits.

GOSHEN, Utah, Feb. 19, 1878.

J. W. Lowell & Co., Gentlemen. — A twelve year old son of mine plowed 60 acres last fall with the Avery Gang and Sulky Plow, eight acres of which were plowed 12 inches deep and laid leveler and better than any other plowing I have seen since I left England; and I consider myself a judge of such work. My boy can handle the plow with ease. As for the draft, three horses can handle it readily in breaking with the sulky plow, and the same team is sufficient for the 12 inch gang plow in old land. I am well pleased with the plow, and do not know where it can be improved. Yours respectfully, JOHN ROUSE.
