

# MINING, BUSINESS AND STOCKS.

## QUIET DAY ON THE EXCHANGE

Star Consolidated Was Traded In Up to 39 Today.

VALEO WAS MUCH WEAKER.

Shoers Con. Active—Yankee Con. a Little Softer—Mammoth Declines—May Day Traded In.

## TODAY'S METALS:

SILVER 60¢  
LEAD, \$3.06 1/2  
CASTING COPPER 15

Several of the smaller stocks were traded in today but as the individual sales were not large the aggregate does not quite reach \$2,000. Mammoth was active at \$2.20, from which price it sold down to \$2.15, before the close of call. Star Consolidated was active at from \$5 to \$6 owing to news that the control of the stock was secured under option, and also the fact that a four-car shipment is being loaded.

Valeo was off today being sold down to 23 owing to rumors that an assessment is probable.

Shoers Consolidated was handed out at 10, while Yankee Consolidated sold from 10 to 9 1/2. Joe Bowers made a sale at 5 1/2; May Day was bought at 5 1/2 and Northern Light was traded in at 5.

Patro was brought out on a bid of 20 while 190 Swans was released at 3.90 per share.

Lower Mammoth was a little stronger while Dexter was sought to be coaxed out on a bid of 80.

## Free of Charge.

Any adult suffering from a cold, set-off on the breast, bronchitis, throat or lung troubles of any nature, who will call at A. C. Smith's Drug Store, will be presented with a sample bottle of Bosche's German Syrup, free of charge. Only one bottle given to one person, and none to children without order from parents.

No throat or lung remedy ever had such a sale as Bosche's German Syrup in all parts of the civilized world. Twenty years ago millions of bottles were given away, and your druggists will tell you its success was marvelous. It is really the only Throat and Lung Remedy generally endorsed by physicians. One 75 cent bottle will cure or prove the value. Sold by dealers in all civilized countries.

## RICH ORE FROM THE MAMMOTH

Shipment of 130 Tons Will Bring About \$5,000.

## SHIPMENT FROM STAR CON

Is Now Being Loaded—Stockton Items—Jowa Group—At the Honorine—Zinc Mines of Leadville.

Perhaps nothing shows the staying qualities of the Mammoth mine better than the record which the mine has made for itself in the past year. Some time ago shipments were a little quiet but the old Tintic bonanza is again astonishing its stockholders with some excellent ore. The last shipment of five cars of ore is considerably above the average value, assaying 1.52 ounces in gold with 14.5 ounces in silver per ton. The ore is said to come from the 300 level. Secretary Wilkinson says the five cars will run \$5,000 or more into the company's treasury.

## AT THE STAR CON.

Four Cars of Ore Being Loaded—Large Body of Milling Ore Exposed.

Milan Packard was in town today and confirmed the news of the option on his stock in the Star Con. at 75 cents a share, but expressed his belief that nothing will come of the deal. Four cars of ore are being loaded at the mine and will be marketed within the next few days, when the public will be able to learn how the rich gold ore assays by the carload. The strike of lead ore in upraise from the 275 level, as mentioned in the "News," was pronounced erroneous by Mr. Packard today. Another large body of excellent milling ore was encountered in the mine a few days ago. The 200 level is said to be looking very well.

## COLORADO ZINC ORES.

Movement Said to be on Foot to Have a Zinc Smelter Built.

The zinc industry of the Leadville, Colo., camp is now established on a substantial basis, says the Denver Herald, and if the present shipments are continued throughout the year the result will be a contribution to the world's stock of zinc valued at over \$1,000,000. The concentrating mills are in operation making this product, while the Maud and Henrietta mine is shipping large quantities of the crude ore, which will average nearly fifty per cent. This zinc which goes to Europe is not so heavily penalized by the smelters there as in the case with the Missouri or Kansas zinc ores.

There are probably 100,000 tons of zinc ore in sight in the Maud and Henrietta mine alone, and local mining men are already discussing the question of a zinc smelter here. The chief objection has been the expense of coal, large quantities of fuel being necessary to volatilize the zinc. It is understood that local metallurgists are already working on the problem, and the old Harrison reduction works have been given up as a possible site for the new plant. It is believed that even at Leadville does not obtain this plant a zinc smelter will not be long in coming to Colorado. No one has as yet advanced a valid reason why the zinc ores of the State cannot be treated in the State just as easily as other ores that are much more refractory.

## Supt. White Returns.

Superintendent Robert T. White of the Highland Boy smelter returned today from Montana, where he has been visiting some of the smelters of that State during the past few days. Mr. White was in the company of Mr. G. K. Fisher, who will superintend the enlargement of the Highland Boy, and together they visited Butte and Anaconda to take note of any smelter improvements in use in those places. Mr. Fisher is still in Butte.

## The Iowa Group.

After visiting the metropolises and identifying himself with the Benedictis Superintendent Wright of the Iowa group in the Park Valley district is preparing to return and resume his labors at that property. Mr. Wright will take out an assayer and report a force of 65 men employed at the mine. Preparations for the new mill are going on apace. The excavations have been made and work has been started on the foundation.

## Stockton Items.

J. C. Reynolds was in from Stockton today on matters connected with the Bunker Hill property on which the directors are figuring on starting up work in the near future. Mr. Reynolds is firm in his belief that the property can be made a producer.

## At the Honorine.

Word came from Stockton today that pumping has been resumed at the Honorine. The use of heaters near the pumps saves about half cost of power in the long transmission of air from the compressor to the pumps. As soon as possible Manager Scheu will begin upraising towards the old First National shaft. The distance from the tunnel to the bottom of the shaft is

about 140 feet. This will give good ventilation and a better working level will be located at the entrance to the shaft instead of away out at the mouth of the tunnel, 3,000 feet away.

## Mr. McVie's Future.

Various rumors are current regarding Mr. Donald McVie's future. At present that gentleman is superintendent of the Golden Gate at Mercur, but newspaper talk that he would have charge of the United States property has been indulged in. Now it is said he will take charge of all the Bingham Copper & Gold company's interests. If all this is true Mr. McVie will be a very busy man. It may not be generally known that Mr. A. F. Holden has already stated that Mr. McVie will go with the United States company, probably as consulting engineer. Even now Mr. McVie is directing some work on the United States company's property with a view of later using the consulting engineer system. It is said to be probable that he will be consulting engineer for the Bingham Copper & Gold company, where the caving system, which Mr. McVie understands so well, will be put into effect. The dip of the vein, Col. Holden says, presents an ideal caving proposition. In view of the above it is likely that Mr. McVie will be succeeded at Mercur by Mr. George Z. Edwards.

## MINING NOTES.

Manager J. E. Ramberger of the Daly West was in Bingham today.

Eleven cars of ore were on the market today from the Mammoth of Tintic.

A car of high grade ore was on the market today from the Utah at Fish Springs.

M. W. Taylor, the well known broker, has gone on a five weeks' tour to Mexico and Arizona.

The Conklin sampler reported eleven cars of ore from Tintic and one from Fish Springs today.

Reports today from the May Day state that the physical condition of the mine is much improved.

Manager H. G. Heffron of the Tesoro expected to leave for that Tintic property tonight on a tour of inspection.

General Manager H. A. Cohen to Captain De Lamar's mines came in from San Francisco yesterday afternoon.

Grant Snyder reached town today from Eureka, Nevada, and reports a great deal of activity among the mines of the surrounding districts.

A quarterly dividend of 1 1/2 per cent has been declared by the American Smelting and Refining Co. on its preferred stock, payable July 10th.

W. J. Snyder and Thomas Roscamp are putting in the mill at the California group, Park City, which was used by Flint and Rockledge at the Apex mine.

The Geyser-Marion has reached the sampling rooms with a batch of cyanides weighing about 200 pounds. The Star of Pine county also reported with a small consignment.

Although Glen R. Bothwell has not yet sold his zinc property in Missouri it is said to be probable that a sale will be effected at something like \$30,000. The property cost about \$14,000 ten months ago.

## WHEAT MAKES A HIGH RECORD

Chicago Market Reaches 84 1/2 Cents Today.

## FEELING IS VERY NERVOUS

Wall Street Market is Confused—Live Stock is Slow—Produce Strong.

Chicago, June 21.—July wheat soared to 84 1/2 during the forenoon session of the board of trade. The opening was 1 1/2 to 2 1/2 over yesterday for July at 83 to 83 1/2. Buying orders were in the pit in apparently boundless numbers and despite heavy profit taking the market shot up to 84 1/2. A drop to 83 1/2 on realizing followed, but a rapid recovery ensued, July reacting to 84 1/2. Feeling was very nervous. Liverpool closed 4 1/2 higher.  
Cash—Wheat—No. 2 red, 84 1/2; No. 3 red, 80 1/2; No. 2 hard winter, 79 1/2; No. 3 do., 77 1/2; No. 1 northern spring, 82 1/2; No. 2 do., 81 1/2; No. 3 spring, 77 1/2.  
Under heavy profit taking the market later broke steady and closed nervous, 1 1/2 over yesterday, at 83 1/2.  
Close—Wheat—June 81 1/2; July, 82 1/2; Aug., 83 1/2.  
Corn—June and July, 40 1/2.  
Oats—June and July, 24 1/2.

## NEW YORK STOCKS.

New York, June 21.—The stock market was confused at the opening between the depressing influences reflected from London in some of the international stocks and the strength manifested on the local demand.  
A demand from the shorts lifted the New York public utilities, including the American ice stocks, from 1 to 2 points, and sugar rose 1 1/2. The market hardened in sympathy with some of the railroad stocks, getting back to the best but gains did not hold, and prices fell back to last night's level before noon. Northern Pacific broke below 90 on realizing sales.

## REVIEW OF WOOL MARKET.

Boston, June 20.—The American Wool and Cotton Reporter will say tomorrow: "The wool market has been a very dull and unsatisfactory one in the wool market. At no time this year, in fact, has the dullness been more intensified than it has been since our last review. Reports from manufacturing centers are not of an altogether encouraging nature, and in some sections some mills are reported as running at reduced time. Consumers will purchase only very sparingly of wool, as they feel uncertain as to the opening of the light-weight season and the London wool sales, the two events that are anxiously awaited. In the meantime, wools continue very firm in the Territories and growers and buyers are apart."

## DAIRY AND POULTRY.

Chicago, June 20.—On the produce exchange today the butter market was firm; creamery, 14 1/2 to 15 1/2; dairy, 13 1/2 to 14 1/2; steady, 15 1/2 to 16 1/2; eggs, slow, fresh, 10c.
