## LOGAN DEPARTMENT.

The "News" is delivered by carrier in Logan every night (Sundays excepted) at 7 cents per month. All payments for the daily and complaints regarding delivery should be made to Joe Bicks, Circular.

The Semi-Weekly News in Logan is in charge of C. B. Robbins, 100 North Main.

### INDEPENDENT TELEPHONE.

Up-to-date Service Installed - Council Session - Democratic Ticket.

Special Correspondence.

Logan, Cache Co., Oct. 13.—The Independent Telephone company formally opened its lines for business last night. The building was thrown open to the public and hundreds of citizens called to inspect the plant. The company has certainly put in a splendidly up-to-date plant in this city. The switch board alone cost nearly \$10,000, and is of sufficient capacity to accommodate the service here for years to come.

The line in the city has been built on the most improved methods. The poles are of Oregon cedar and every wire in the city is enclosed in lead tubing so that patrons of the plant can rest assured that all the trouble which has worried their lives by cross wires, etc., will now be eliminated. The plant in Logan has cost \$30,000, and the company begins business with 350 subscribers in Logan alone, which expects to increase to 500 by the end of the year. The first franchise to Salt Lake and Ogden was so far completed yesterday that the company began business this morning with five lines to those points. Lines are also being extended in this valley as rapidly as possible. That on the north has reached Smithfield and will be built to Preston as soon as possible. Exchanges on this line will be opened at Preston and Richmond. The line on the south is being constructed, Wellsville, Hyrum and Paradise. All of these lines will be connected within a month, and the whole valley will be ready upon the Logan exchange.

Elder H. Jones, the general manager, and wife, C. O. Harris, manager at Salt Lake, Fred B. Jones, superintendent of construction, and A. L. Dennis, superintendent of equipment, came up from Salt Lake to be present at the opening last night.

The E. M. Electric company is not sitting idle while all of this construction is being done by its competitor, but is actively engaged in practically rebuilding its lines in this valley and will soon have a thoroughly up-to-date line.

### CITY COUNCIL SESSION.

Logan city council met in regular session last night. President Linn presiding.

Lorenz Hansen was present and asked that the city issue water suits to the amount of the half the cost of putting down the new main from the South River to the Cedar-Milk Milk factory.

Mr. E. Haslam and others petitioned for the laying of water mains from Center street one half block south on Third West. Referred.

Wesley Jacques and others asked that a street be opened from Third West street east to a point one-half of a block west of First West street. Referred.

A petition from W. O. Anderson and others asking for the building of a bridge over the canal on Second East was referred to committee on roads.

A special committee consisting of Gaye, McNeil and Hansen was ap-

## SEASON OPENS FOR LOGAN "AGGIES."

The Soldiers First Opponents At Temple City Tomorrow Afternoon.

### BOTH TEAMS ARE HEAVY,

And for Nearly a Month Have Been Preparing for the First Gridiron Battle—Soldiers' Lineup.

Tomorrow at Logan the season will open for the Aggies and for the Fort Douglas soldiers. In a game which promises to be interesting. Both teams are heavy and have been preparing for the game for about a month. Logan is said to have most of her last year's stars back again in addition to several recruits, and to have a new head for her coaching department. Her boys are said to be working with such that promises well for the football season.

At Fort Douglas there is a squad of men cut out working every morning and afternoon. In charge of Lieut. Frank of the 1st. What attracted the Aggies to leave for Logan in order to have a night's rest before the exciting game of tomorrow. The lineup will be:

Soldiers—Left end: Eddie, Left tackle: Eddie, Left guard: Rice, Right tackle: Eddie, Right end: Olsen, Quarterback: Paul, Left halfback: Workman, Right halfback: Atkins, Fullback.

**CLASS FOOTBALL.**

Students of the High School Will Compete in Series.

Democratic primaries were held in all of the wards of the city and the results announced for tomorrow between the seniors and juniors. The teams are but slightly prepared for the battle, but the seniors are expected to do the best for that reason. The seniors are the ones that are in the motion of coming out for the team next year, and keeping the main squad full.

### MISSOURIANS WON.

Defeated the Railroads in League Bowls in Contest Last Night.

#### HOW THEY STAND.

	Won	Lost	P.C.
Business Men	2	1	.67
Senators	2	1	.67
Missourians	2	1	.67
Tuxedos	1	2	.33
Crescents	1	2	.33
Brilliants	1	2	.33
Total	6	6	1.00

The Railroads failed to "show" the Missourians in last night's league bowling contest. The latter carried off the honors by taking two out of the three games played. The scores follow:

### MISSOURIANS WON.

Defeated the Railroads in League Bowls in Contest Last Night.

#### HOW THEY STAND.

	Won	Lost	P.C.
St. Louis R.R.	1	1	.50
Stevenson	1	1	.50
Crabbie	1	1	.50
Ames	1	1	.50
Deakind	1	1	.50
Todd	1	1	.50
Total	5	5	1.00

Average—Stevenson, .662.3; Crabbie, .662.3; Ames, .662.3; Deakind, .662.3; Todd, .662.

### RAILROADS.

Nelson 175 171 151 131 9 1 7

Martin 169 162 143 145 11 3 3

Dunn 142 143 145 142 6 6 4

A. Zimmerman 175 171 151 131 9 1 7

Total 886 764 765 731 65 14 23

Average—Nelson, 181.1; Martin, 167.1; Dunn, 142.1; Zimmerman, 142.1; Williams, 161.1.

### TO ADOPT "SOCCER" GAME.

B. Y. C. of Logan decides to take up that style of football.

### PROSPEROUS SEASON.

Good Yield of Grain and Beets—Rumors of Another Sugar Factory.

### Special Correspondence.

Raymond, Alberta, Canada, Oct. 9.—

The inauguration of winter occurred yesterday with a light fall of snow, but it laid just long enough to give early risers a view of it, and then it stole silently away. It carried our regrets with it because the fall was so light, we got possibly an inch when we needed a foot. This year, while not so dry as last, was much drier than usual with us, and drier than we care to have it. Despite the drought, however, the unirrigated grain, where properly put in, did well, an average yield of something like 15 bushels of acre, in some instances and dry years the yield was much greater or less. Most of this grain is of excellent quality, and is eagerly sought after by millers because of the superior quality of flour it makes. Some flour finds its way to the orient.

The area of irrigable land is being increased, and to that end the Alberta Railway & Irrigation company is widening its canal, the present capacity being totally inadequate.

Father Inter is a flourishing, affable man, who has gone from here two train loads for the English market with more being gathered from the range for shipment later.

There are other industries and other crops of which the people are proud, and which will one day make this country known as a profitable abiding place. But the piece de resistance, the source of stability and upon which absolute reliance can be placed, is the beet crop. The first sack of sugar was turned out last night, the value of the amount of sugar what is expected this year. The crop is a good one, the beet is healthy and yields a heavy per cent of saccharine. The yield of the unirrigated land has been about half that of the irrigated land. It is estimated that the yield will be quite double that of last year.

There are persistent rumors afloat to the effect that there is to be another factory in the district, financed by Canadian capital. Sugar production is already quite a country famous, and if there are no more to be gathered there capital gravitates and so among the probabilities due to rumor is another factory.

It would seem like boasting to speak of our vegetable producing capacity, but potatoes of five and six pounds weight and turnips weighing 25 pounds, are among the things not at all out of the ordinary.

This is one of the best ventilated countries on earth. It is estimated that one who has to go a mile to breathe the same air when he goes outside the house, will find it hard to catch his breath when he goes into the house. Also, when he goes outside he will find it hard to catch his breath when he goes into the house.

The town is growing rapidly, there being at present in course of construction several handsome cement block residences, and a two story brick and cement block building to keep pace with its growing necessities.

The health of the community is excellent on the whole though during the summer there has been a small mortality among infants, due to cholera infantum. Mr. and Mrs. J. Alfred N. Alfred have lost their year-old baby from that disease.

### KAUFMAN'S FAVORITE.

Delaney's New Headstock to Beat Philadelphia Jack O'Brien.

Although their contest is two weeks off, the odds are in favor of a favorable outcome to the Al Kaufman-Jack O'Brien meeting, and everyone who is interested more or less is hoping the men will view a picture of a bet when gambling begins in the various poker rooms. A great many who favor the knockout boxer believe he will win by the knockout in the few short rounds, while others think Al will win by his points. He is a生力军, and is confident of scoring a knockout. They will enter the ring at 15 pounds, and are said to be evenly matched.

### HALLIDAY DRUG CO.

For Infants and Children.

The Kind You Have Always Bought.

Bears the Signature of Dr. H. Fletcher.

Phone Independent and Bell Nos. 888.
