Ottawa, Ia., April 28.—President Roosevelt's train pulled out of the Union station in Omaha at 5 o'clock this morning, some time before any of the party were up.

The president and his party arrived at Shenandoah at 7 o'clock. Nearly 2,000 greeted the president there. Congressman Hepburn met the president at this, his first stop in Iowa. Mr. Cummings and his party did not arrive there as at first planned, but met the president at Clarinda, the second stopping place. The president mounted a large platform, erected for the purpose, and addressed the assembly. His address was brief and to the point, and was enthusiastically received. The train left at 7:10 o'clock.

The presidential train arrived at Clarinda on schedule time, and at 10 o'clock the president was met by a large crowd of people. The president delivered a short address, and then his train pulled out for Osceola. At Osceola the president received an enthusiastic greeting, and his short speech was warmly received. During his address he paid the following compliment to Congressman Hepburn and the other members of the Iowa delegation in Congress: "It is a great pleasure to see here today and then be introduced to Col. Hepburn, who has been traveling with me throughout the district. I wish to say to him and to all the Iowa delegation that they have given me the most cordial and hearty welcome I have ever received. It is a great pleasure to see here today and then be introduced to Col. Hepburn, who has been traveling with me throughout the district. I wish to say to him and to all the Iowa delegation that they have given me the most cordial and hearty welcome I have ever received."

At Des Moines the president kissed a number of babies. During the drive four mothers, each with a baby in her arms, approached his carriage, and handed him bouquets of flowers. They then held up the babies to be kissed, and the president did not appoint them.

One of the features of the trip was the large number of schoolchildren that greeted the president. Every place he stopped and at many places where the train did not stop little people were congregated, waving small American flags. This feature pleased the president very much and he referred to the children several times during the day.

His speech at Ottumwa is preceded by a short drive through the city, although his train was delayed and did not arrive until after dark. A spoke of the wheel of the good work of the president in the field of agriculture. The president is bearing the strain of the trip splendidly, and his fitness not the least of the things that he has acquired during his two weeks in Yellowstone park.

DENOUNCES MILES.

Maj. Glenn's Brother-in-Law Addresses Open Letter to Him.

St. Paul, Minn., April 28.—George C. Squires, a prominent attorney of this city and a brother-in-law of Maj. Edwin F. Glenn, has written an open letter addressed to Gen. Miles, in which he replies to the strictures upon Maj. Glenn in the general's report upon the alleged atrocities in the Philippines. The letter says: "If instead of listening to the unsupported statements of irresponsible natives, you had taken the trouble to read the sworn testimony in the last trial of Maj. Glenn, I think even you would have been convinced that the charges of atrocities which you so recklessly lay upon our officers are as nothing compared to the hideous cruelties committed by the Philippine army."

"In conclusion let me suggest that not even your prejudice against the administration or the well-founded impression that you went to the Philippines to find fault with existing conditions is a sufficient justification for the general of a great army, which has gone through untold privations and hardships, to announce to the world upon hearsay and unsworn testimony that his brother officer, a graduate of the finest of all military schools, is unworthy of the uniform which they wear."

St. Paul, Minn., April 28.—Gen. R. H. Hughes, who for two years commanded the department of the Visayas, Philippine islands, was in the city today, and being questioned as to the statements made in the recent report of Gen.
