

## NOTICE.

All Advertisements for the EVENING NEWS must be handed in to this Office not later than One o'clock on the day on which advertisers wish them inserted.

## LOCAL AND OTHER MATTERS.

**GRAND BALL.**—Not the least attractive among the sources of amusement to be provided on the Fourth is the grand ball at the Theatre in the evening. It will doubtless be a splendid affair and largely attended. We would advise all who want a good evening's enjoyment to secure tickets and attend.

**IN TOWN.**—J. Corning, Esq., General Assistant Superintendent of the Central Pacific Railroad, from Sacramento, and D. R. Patton, of the Cosmopolitan Hotel, and Dr. McNulty, of San Francisco, with their wives, on a visit to our city, arrived this morning, in a special car of their own. They were accompanied by Brothers Lorin and Aaron Farr, of Ogden. They will probably stay over Sunday, and visit the places of interest in and about our city.

**SIXTEENTH WARD SCHOOL.**—We have received a communication from Bro. G. C. Riser, of the 16th Ward, who speaks in glowing terms of the manner in which the day-school is conducted in that Ward, under the direction of Miss Harriet Ann Taylor. He considers that great praise is due to her as teacher. The quarter terminated yesterday, in consequence of which a party was gotten up for the children, last evening, in the school house of the Ward, which passed off very agreeably. We are pleased to hear of this improvement and think the same is noticeable in most of the Ward Schools throughout the city, as well as in many of the country settlements.

**POLICE.**—James Dillon, arrested on Thursday for drunkenness, profanity and disturbing the peace, was fined fifteen dollars.

William Gilbert, yesterday, for being drunk and assaulting a Dalmatian, was assessed ten dollars, by the Doctor.

**WORTHY ENTERPRISE.**—We learn from a gentleman, just up from the South, that Bishop Fairbanks and the good folks of Payson are going right ahead in establishing a co-operative dairy and cheese factory. This is a step in the right direction, and we hope that other settlements will soon follow suit.

**CHURCH AGENT AT NEW YORK.**—Many inquiries are made about the address of the Agent of Emigration at New York—Elder Wm. C. Stahmer. It is Box 3867 Post Office, New York city.

**MEETING OF LANDOWNERS.**—Those interested in what is known as the 7th Ward Pasture, are requested to attend the meeting at the 14th Ward Schoolhouse, this evening, at half past seven o'clock.

**P. O. CLOSED ON THE FOURTH.**—We are informed by Mr. J. M. Hammar that the Post Office will be open for delivery, on Monday next, only from nine to ten a.m., and from two to three p.m.

**THE ACCOMMODATION TRAIN.**—We take it, the country people, in the settlements north of here, are not neglecting to take advantage of the accommodation train. Judging from the crowds we saw this morning, coming up South Temple St. from the Depot, we think that on Saturdays, at least, is being pretty well patronized. This, as a means of transit, is somewhat of an improvement on that in vogue a few years ago, when the farmers came to town to do their marketing in ox, or at best, in horse teams. Those living in the settlements south of here, doubtless look forward with pleasure to the time when the same privileges will be extended to them.

**ANONYMOUS, TOKERVILLE.**—Our friend Dr. Melk has received a letter from Tokerville, Kane Co., from some person desiring medical relief; the writer has evidently forgotten to add his signature and, of course, under the circumstances, he is unable to help him. It will be necessary for him to write again, taking care to sign his name to the letter.

## THE JUTE PLANT.—An exchange says:

Gen. Capron, the Commissioner of Agriculture, has imported, through the American Consul at Calcutta, a small quantity of the seed of the jute plant, with a view to introducing its culture into the extreme section of the Union south of the front line. It is being distributed to planters in Texas and Florida, who will give it a fair trial. It is a fibrous plant, resembling coarse flax; of easy culture and rapid growth, with a comparatively large product. The crop when ripe is cut down to the roots, and after being steeped in water for a week or so, the bark slips easily, and the silky fibre is detached, cleaned, assorted, and packed in bales of three hundred pounds each. Its annual product in India is estimated at more than 300,000 tons. It is the material of which gunny bags and cloth, and bagging for cotton, as well as cheap cordage, mats and carpets, are made. Its great use, however, is for baling cotton. As it takes about six yards to wrap a bale of cotton, a crop of three million bales would require, of course, eighteen million yards of bagging. After being used up as bagging, it finds its way to the paper mills for the manufacture of coarse papers.

Wonder if it could be grown in Southern Utah? The experiment is worth trying. If a small portion of the seed could be procured. It would not be much trouble, and might be very profitable.

## ARRIVALS AT TOWNSEND HOUSE

**JULY 1st.**  
D. Hutchinson, Camp Douglas  
G. Mellick, St. Louis  
John Smith, San Francisco  
Mr and Mrs W. Miller, Carlisle Pa

## EARTH CLOSETS!

ARE the modern improvements which take the place of and supersede the Water Closets in houses, and dispense with cesspools and other repulsive features of the out-door Privy.

## EARTH CLOSETS!

ENTIRELY dispense with the use of Water. Employing Dry Earth in its stead. They enable nature's wants to be attended to in comfort, instead of with the usual disgusting surroundings. Are especially adapted to the use of invalids and of the sick room.

## EARTH CLOSETS!

Wonder if it could be grown in Southern Utah? The experiment is worth trying. If a small portion of the seed could be procured. It would not be much trouble, and might be very profitable.

## ELGIN WATCHES!

MANUFACTURED BY

The National Watch Company

All the grades of the Elgin Watches

INCLUDING THE

## "LADY ELGIN"

READY FOR

## SPRING TRADE.

The company also call the attention of Watch buyers to the fact that the Elgin Watches now offered have an added improvement over all others, in a new

PATENT DUST EXCLUDER

So constructed as to enclose the works, and form a protection against dust, enabling the movement to remain in order without cleaning double the time that a watch will ordinarily run without this protection.

The company feel confident, after having had their Watches three years in market, and selling many thousands of them in all parts of the country, that the Elgin Watches are the best time keepers now offered to the American public.

OVER FIVE HUNDRED DEALERS

In various parts of the land have unreservedly endorsed them. They are in use upon numerous lines of Railway, including the Western Pacific and the Pennsylvania Central, and officers of these roads, with other prominent R.R. officials, endorse them as the best watches for the use of R.R. employees and travelers yet introduced.

The following are presented as specimens of these testimonials:

TESTIMONIAL.

UNION PACIFIC R.R., OFFICE OF GEN'L SUPT. OMAHA, Dec. 18, 1890.

Hon. T. M. AVERY, President National Watch Co., Chicago, Ill.

Dear Sir:—During the month that I have carried one of your "E. W. Raymond" Watches it has not failed to keep the time with so much accuracy as to give nothing to desire in this regard. For accuracy in time keeping, beauty of movement and finish, your Watches Challenge my admiration, and arouse my pride as an American, and I am confident that in all respects they will compete successfully in the markets of the world, with similar manufactures of other nations. They need only to be known to be appreciated.

Yours most respectfully,

C. G. HAMMOND, Gen'l Supt.

OFFICE OF THE HUDSON RIVER RAIL ROAD, Gen'l Supt., New York, Jan. 17, 1891.

T. M. AVERY, Esq., President National Watch Co.,

Chicago, Ill.

Dear Sir:—The Watch made by your company which I have carried the past two months, has kept excellent time. I have carried it frequently on engines, and have been very much pleased with it almost daily. During this time it has run uniformly with our standard clock.

Truly yours

J. M. TOUCHY, Gen'l Supt.

The following dealers also, in various parts of the country, have certified that they consider the Elgin Watches to be all that the company have advertised them, as better finished, more correct and durable, than any in market of similar price, and that they have great confidence in recommending them to the public, on account of their general merit.
