HE OPENED HIS MOUTH WITH THE USUAL EFFECT.

The New York Mail and Express has published an endorsement by Eli H. Murray of the Edmunds bill which has passed the Senate. Of course our Utah contemporary supposed that the Governor of Utah was an authority on Utah affairs, and that his opinion was worth something, while the fact is that his opinion is worth nothing, and that his endorsement is a mere piece of flattery.

The first answer to questions put to him showed the whole drift of what little mind he has on this subject. He considered the bill, "legislation in the right direction because it is unfriendly towards the 'Mormon' power, and seeks to divert the Church's temporal power." Thus, in his view, anything that is unfriendly to the "Mormon" Church is "in the right direction." The right or wrong of it, the constitutionality or legality of it, the justice or injustice of it, are not to be considered. So long as it is hostile to the "Mormon" religion and its temporal power, it is to be commended. That is about as much as might be expected of the ex-Marshall of Kentucky and echo of the Utah conspirators.

His next remark was, that "He had never thought that the territorial statute giving the right of suffrage to women was very good law." Very proper indeed. Why didn't the President give this great judicial authority the position of Chief Justice, and remove one of the Utah officials who is obnoxious to his Mathematical Excellency? He has tried with his associate conspirators, by numerous hints and turns of law, to make the courts of his opinion on this matter, but in vain. The law remains so valid and impregnable that it is recognized as such not only by the courts but by the people.

The value of his opinions is still further exhibited by another remark. He told the Mail and Express reporter that "The annulment of the territorial law which now permits prosecution for adultery only on the complaint of the husband or wife, is a good provision also." Very good indeed. Seeing that there is no such provision in the territorial law, the astonishing goodness of the provision to annul it is apparent. And his wonderful acquaintance with the laws of a Territory of which he has been nominally the Governor for over four years, is prominently exhibited in this profound opinion. But hear him further:

"I think, however, that the clause prohibiting the General Assembly of Utah from changing the laws respecting the corporation [of the Church] without the approval of Congress is proper." A very "proper" clause indeed, and of powerful utility! But as there is a provision in the Organic Act that no law of the Assembly shall be valid without the approval of Congress, and that has been in force for thirty-four years, the propriety of this clause in the Edmunds bill does not appear in a very striking light to those who know anything about Utah affairs. Senator Hoar and his associates may claim some excuse for not understanding more than they do about Utah, because of the distance and their multifarious duties in regard to greater matters nearer home. But the Executive of the Territory, re-appointed after serving more than a full term, ought to have some little acquaintance with things that are familiar to schoolboys.

This brilliant genius thinks also the attempt to rob the Perpetual Emigrating Fund under cover of law, is "a wise and proper step, for the reason that no church or corporation should be allowed to control the emigration of the country as has been the case in Utah for a long time." We can hardly bring our mind to believe that on this point it was ignorance that produced such unmitigated nonsense. It is more likely that Eli H. was resorting to one of his well known tricks of misrepresentation. He certainly must know that the P. E. Fund company does not "control the emigration of the country," nor even of this Territory. It simply regulates the emigration of the members of the Church of Jesus Christ of Latter-day Saints, and is allowed to do so by the United States. With the pretended object of hindering emigration of "Mormons" to this country, is one of the most nonsensical measures ever proposed, and at the same time a high-handed outrage that cannot be tolerated by any fair-minded man. Of course Eli H. Murray endorses it, because it seems to be "unfriendly towards the Mormon power," and we are well aware that any scheme of raciality and political injury which looks in that direction suits him to a dot.

He complained to the reporter that "maining interests in Utah had not been advanced as they would have been under a different condition of affairs," and blamed this to "the policy of Brigham Young" and the "indifference of the church." He did not count over to the reporter the number of widows to whom he had lent his official name and influence, nor show what effect such things have on the mining interests of Utah. Neither did he touch on the influence produced upon capital seeking investment, of an Executive who jolts with adventures in stirring up strife and in preventing the country against this Territory, creating the impression that its people are lawless and that it is an unsafe place for the establishment of an enterprise. But it is a fact that the falsehoods and misrepresentations of ignorant and malicious persons like Eli H. Murray have frightened away capital, and prevented investment, and hindered the development of mining and other interests in Utah more than anything else that has worked in that direction. President Young has been away from the sphere of mining interests for many years. And we fail to see why the "indifference of the Church" should be a bar in the way of mining or other such interests. But these stupid and stale remarks of Mr. Murray's were on a par with the rest of the "interview." The reporter who manages to get into print anything either wise or reliable as coming from our absent Governor, will have to draw strongly on his own language; he will find in that head little but empty sound.

Cor. Dodson is to remain manager of the D. & R. G. Western Railway. At least so says the District Court.

A TARDY TILDEN BOOM.

WITHIN the last few hours, some new ideas have begun to dawn upon Democrats, and some issues which were considered almost sure of maintaining a stumbling condition are all at once found to be assuming a decided different one. Two days ago no one would have thought of Ex-Governor Samuel J. Tilden, of New York, as a possible candidate in the presidential contest; yet the wire now brings the startling news that he is by no means quoted as saying he is sure of the nomination. For the first time since the publication of his many letters some weeks ago in which he declined to be a candidate and gave good reasons for his action, there is prominent and influential mention, of the name of Gramercy Park as the standard bearer of the Democratic party in the polls in November. Mr. Tilden has in truth made no public announcement of his change of mind, but there is good reason for believing that some Democratic managers who have within the past few days given utterance to their opinions, are in possession of his true feelings, and know what they are talking about. It is now stated that he would not decline the nomination if it were offered him by acclamation, and this indeed has been feeling from the first. As it was scarcely to be expected, however, that his popularity as a candidate would be so overwhelming as to secure this, it was deemed the proper and patriotic course in him to put himself on record in positive terms, so as to remove any possibility of a panic in the convention which an unexpected announcement of his determination would have been sure to cause. Hence his letter, which, subjected to a careful re-perusal in connection with the rumors now afloat, is found really to contain no emphatic or determined assertion whatever that he would under no circumstances consent to lead the party in the election. If it can be represented to the aged statesman that the use of his name at the head of the ticket is the one necessary to defeat Blaine and the Republican party, his patriotism, to say nothing of his ambition, would, we think, scarcely be able to resist the temptation to come out and enter the lists for a second time. As to his mental and physical qualifications, there is no further doubt. His mind and memory are unimpaired, while his vitality and bodily vigor, though not so perfect perhaps as eight years ago, are nevertheless all sufficient, his friends declare, to weather the blasts and troubles of a campaign and hold the helm of state.

The smaller news of the day are of no great importance. It is found that the "Mormon" religion and its temporal power, it is to be commended. That is about as much as might be expected of the ex-Marshall of Kentucky and echo of the Utah conspirators.

His next remark was, that "He had never thought that the territorial statute giving the right of suffrage to women was very good law." Very proper indeed. Why didn't the President give this great judicial authority the position of Chief Justice, and remove one of the Utah officials who is obnoxious to his Mathematical Excellency?
