

MINING, BUSINESS AND STOCKS

CHLORINE LOOKS
GOOD TO JOSEPH

Salt Laker Returns From Making
Inspection of a New Ne-
vada Camp.

LEDGES ARE LARGE, HE SAYS

And Show Presence of Free Gold—
Much Development Work in
Progress.

The new district of Chlorine, Nevada, north of Elko, which has attracted considerable attention during the past month looks good to Harry S. Joseph, who returned home today from making an inspection of that region.

"Yes, I am quite favorably impressed with the Chlorine district," said Mr. Joseph to a "News" representative, "and I feel confident that the next few months will bring several new producers to the front. Of course, there is not much work done towards development as yet, for I don't believe there is a hole in the camp down to exceed 100 feet. But the ledges are large and some of them pay well."

"I brought in with me a sack of samples which I turned over to an assayer this morning and until I hear from them there is not much for me to say."

"There are a good many in the camp now and a lot of prospecting is being done. It is a good camp to operate in in the summer as the heat is not so intense as it is in the camps in southern Nevada. Many of the prospectors out in the hills around Chlorine operated around Goldfield, Bullfrog and Manhattan during the early days of those camps and they have drifted north to continue their search for new bonanzas."

Mr. Joseph is interested as a stockholder in the Peet-Russell Engineering company and he went out to consult with Mr. Peet over some work that the firm had been called on to do at Chlorine.

The ores at Chlorine, Mr. Joseph states, occur in a porphyry belt lying between andesite and lime.

ON MINING EXCHANGE.

Daily Judge Closed Walker—Sales of
Columbus Con.

The forenoon sales of the Mining exchange amounted to the transfer of 19,415 shares for which was paid the sum of \$17,252.59. Daily Judge opened strong, but the demand for it was early supplied and it closed on a decline of 25 cents a share. May Day participated at 10 1/2; Uncle Sam at 45 cents, while New York Bonanza held firm at yesterday's figures.

The feature of the open board was supplied by Columbus Consolidated, which softened to \$7.75. Ohio Copper did business at \$1.40.

The closing quotations and sales were:

HEADS THE SOUTHPORT.

Joseph R. Rand Comes From East to See Stockton Property.

Joseph R. Rand, president of the Southport Mining company at Stockton an inventor of the machine drill bearing his name, arrived from the east yesterday and expects to remain for possibly a month.

While Mr. Rand is here it is likely that the Southport will be equipped with such machinery as will insure the speedy development of that property into a producer that will rank among the best of the camp. A compressor plant will be installed.

TEN DOLLAR DIVIDEND.

An error in yesterday's News made it appear that the Utah Mining Machinery & Supply company had posted a dividend of 10 cents a share. The item should have read 30 per cent, or \$10 a share.

MINNIE HEALY STRIKE.

A message received over the Pollock wires today brought the announcement of an important strike in the Minnie Healy mine at Butte. The Minnie Healy is a Butte condition property. Particulars are lacking.

MEAD IS LOYAL
TO NEVADA CAMPS

Salt Laker Comes Home With
Good News From Ramsey
And Other Districts.

ROUND MOUNTAIN MOVING.

Camp Will Have Water Supply in
August—Satisfactory Develop-
ments at Manhattan.

Ed. H. Mead is always boosting for Nevada. It comes natural for him to do so for in his youth he lived on the Comstock lode and took lessons from some of the men who made their fortunes at Virginia City. During the past year, Mr. Mead has been a conspicuous figure around Goldfield and other Nevada camps. Everybody knows Mead, for he is the most popular mining man in Nevada.

He came in from the west yesterday to renew acquaintances with members of his family; but in about a week from now he expects to don his digging clothes and strike out again for the hills.

During the past year Mr. Mead has represented various Salt Lake capitalists in the field, but more recently he has not allowed himself to be tied up to anyone. He has been going it alone, so to speak, although he has served some of his friends in a professional capacity since becoming a member of the Louis D. Gordon company of Round Mountain.

Recently, Mr. Mead visited the Ramsey district, where he joined with Louis D. Gordon, A. H. Mayne, H. B. Cole, W. H. Child and others in the acquisition of the Clark property which has been incorporated as the East Comstock Mining company. This is the proper over which trouble recently arose and which A. H. Mayne and some of his associates were called upon to supply themselves with fire-

arms to protect it from a lot of claim jumpers who attempted to shift corner stakes to suit their purpose. But this difficulty has ended, the claims have been surveyed and Mr. Mead says there is a little doubt but that they will turn out big. Ore is now being taken out and sacked for shipment that will assay an average of \$100 per ton. A new townsite has been established and lots have sold up to several hundred dollars each.

The Mines of Manhattan, Mr. Mead says, are developing very satisfactorily made recently in the Pine Nut is particularly gratifying. At Round Mountain, developments have been rapid and the growth of the camp has kept pace with the times. New mills are to be established in the near future and within the next 30 days it is expected, the town will be supplied with good water. The pipes are being laid now. The water system is owned by the Round Mountain Real Estate Mining company.

On his return Mr. Mead was accompanied from Rhyolite by D. H. Peery.

BUTTE MILL DESTROYED.

Plant of Montana Zinc Company Reduced to Ashes Today.

Butte, Mont., July 20.—The mills of the Montana Zinc company, a New York corporation, were totally destroyed by fire, starting from a defective electric wire at 7 o'clock this morning. The plant is in the old silver mill of the Alta Mining company, the oldest mill of the sort standing in the state. The Montana Zinc company's plant, installed a year ago at a cost of \$135,000, was totally destroyed. The loss upon the building is estimated at \$60,000. The total loss is \$135,000, with insurance of \$80,000. G. B. Warner of New York is president of the Zinc company. The fire could not be fought owing to the lack of water.

CONCENTRATES.

W. N. McGill, a prominent Ely, Nev., operator, is in from camp again.

James Farrell has pulled out for the north, with Halley, Idaho, as his destination.

Manager Leland of the White Knob Copper company is down from the north on a brief business trip.

Thomas Weil and Henry Catrow of the Ohio Copper company, are expected to arrive from the east tomorrow.

Walter G. Filer and Samuel M. Levy have been added to the board of directors of the National Development company.

Ben D. Luce, who is now in the city

from Fairview, Nev., says he does not expect to return to that camp until about September 1.

The directors of the Boston & Montana Copper company yesterday declared a regular quarterly dividend of \$2 a share and an extra of \$10 a share.

W. E. Griffith, the Bullfrog, Nev., mining man and broker, departed for that southern camp again yesterday after an absence of about three weeks.

Yesterday's ore and bullion settlements were reported by McCormick & company as follows: Crude ore and concentrate, \$32,000; base bullion, \$55,000.

President George A. Baird of the Western Exploration company having closed up the business which called him from his Chicago home, departed for the east again this afternoon.

Arthur Murphy, who is superintending development work at the Pioneer property at Alta is down from camp again and reports good progress being made with the pushing of the adit in that property.

The directors of the Amalgamated Copper company met in New York yesterday afternoon declared a quarterly dividend of 1 1/2 per cent and one-quarter of 1 per cent as an extra dividend. This is the same as that declared for the last previous quarter.

An amendment of the articles of incorporation of the De Lamar Central Gold Mining company of this city was filed in the county clerk's office today by which its capital stock is increased from \$100,000 to \$150,000, divided into shares of the par value of \$1 each.

The directors of the Nevada Fairview company, owning a group of claims in the Fairview district, met yesterday afternoon for the purpose of organizing the board. Grant Snyder was elected president; William Dale, vice president; Gideon Snyder, secretary and treasurer. These gentlemen,

with W. E. Snyder and S. compose the board.
