DESERET EVENING NEWS FRIDAY JULY 12 1907

frog Miner. Willard F. Snyder, who with a syn-dicate of eastern people recently ac-quired a controlling interest in the Amalgamated-Nevada mines in White Pine county. Nevada, is expected to arrive from the east this afternoon. He is accompanied by John W. Craw-ley, a well-known Boston broker, and a member of the syndicate. Messrs. Snyder and Crawley will make an in-spection of the Nevada proposition in a few days. **Opened Somewhat Higher But** in a few days. Manager J. F. Hedden, of the To-nopah and Goldfield railroad, yester-day received word from the Oregon Short Line that the embargo which has for so long been placed upon in-coming freight to Goldfield has at last been raised, and from now on all merchandise will be sent in on sced-ule time, if possible. Manager Hed-den has als notified the Clark road that the embargo has been raised, and that they are ready to once more receive freight and traffic from the south.—Goldfield Tribune. **Realizing Sales Soon Set** Them Back. THEN BUYING ORDERS CAME IN A Slow Rise Put Some Stocks Higher -Late in the Afternoon Part of THOUGHTS ON HOME INDUSTRY. Market Became Easter. Thomas Sumner Writes from Great Indiana Manufacturing Center. New York, July 12 -- Prices of stocks opened higher than last night, the ad-Special Correspondence. vances ranging to a large fraction or more for the most prominent stocks. Reading and Great Northern preferred La Porte, Ind., July 10 .--- Perhaps : few words in relation to an article treating on the subject of home inrose 1, and St. Paul, Union Pacific, Northdustry might be interesting. At pres-ent it seems to me that Utah is one ern Pacific and Amalgamated Copper 5 to %. Great Northern Ore Certificates fell %. The volume of trading was very of the very best states in the Union small for the establishment of manufactur-The tone became heavy shortly after the opening under the influence of realizing You now have the mineral lands sales which carried the market back to and agricultural, cattle and sheep a parity with yesterday's final prices ranges, etc. Utah is a great producer, Buying orders were met at this level and Buying orders were her at this forevalually put the more important stocks higher than they had been at the outset. Although the volume of business dimin-ished generally, the market retained its strength and got a little higher in spots. Canadian Pacific hardened 1½ and Pacific Mail dropped 1. The tone of the market became easier late in the affernoon, a result of profit-taking upon the earlier rise. Consolidated Gas gained 1½ and St. Paul preferred fell 1. The market was almost idle but prices were weil held at midday. B. & O., and Southern Pacific advanced 1 and New York Air Brake 3. American Suff sold at a decline of 12½ and Illinois Central Re-public States Realty 1. American Tobacco bonds were weak; other irregular. while the eastern states have only the there was a slow rise which eventually opportunity of manufacturing, and this one great and substantial factor of any community is almost entirely neglected in the state of Utah, be-cause, the people there seem to turn their attention to either mining. farming, sheep or cattle raising. When it is considered the amount of machinery, clothing and other ar-ticles that are manufactured in Utah they are very few, they are shipped in from the cast, and Utah money is sent east in return; and by sending the money east, Utah people are help-ing to keep the eastern factories and people working over time, while many Utah men work six months out of the year and rest the other six. When it is considered the number of young men and women who leave the school room every year who must get work, and the number is in-creasing every year, it is very plain to see that Utah needs something more than mining, farming and cattle rais-ing. neglected in the state of Utah, be-LIVESTOCK. Manufacturing is something that would be a big help to Utah. Where manufacturing is found a good steady and permanent growing community is also found. For instance I will ouote: La Porte, Ind., where I am engaged, as head dyer at the Wallace & Smith Woollen Mills, up to a few years ago made no particular growth. All that lived here were farmers. Today La Porte is growing fast; during the last six years it has doubled in population. Why? Because so many different kinds of manufactories have been es-tablished here. La Porte today is a busy place. One OMAHA. Omana, July 12.—Cattle-Receipts, 800; market steady. Native steers, 4.75(65.90; cows and heifers, 2.50(5.55; western steers, 2.75(5.40; Texas steers, 3.25(4.50; cows and heifers, 2.50(4.65; canners, 2.35(3.25; stock-ers and feeders, 2.00(5.85; calves, 3.56) (5.50; bulls and stags, 3.00(6.50; Hogs-Receipts, 9.000; market 5 cents higher. Heavy, 5.60(65.80; mixed, 5.70(65.75; light, 5.80(65.82); pigs, 5.25(65.75; bulk, 5.75) (5.89). La Porte today is a busy place. One can hardly rent a house, and help at the different factories is something can hardly rent a house, and help at the different factories is something they are always short of. In this city we have threshing ma-chine, carriage, shoe string, piano, bleycle, picture frame and skirt fac-tories; two woollen mills and several small factories. Each one of the above plants is continually adding machinery, etc., to their plants. Every time they make an addition they need more help. This means an increase in the pay rolls. It is true that every kind of busi-ness would not do better in the west than in the east, but if any would it surely is the woollen mills industry. For they ship wool from Utah and Wyoming and make blankets out of some of it. After the wool shrinking 60 per cent, that is, there is hauled 60 pounds of dirt on every 100 from Utah here, thay send 20 pounds of blanket back to Utah houses, which send east the Utah cash. Some people in the west will say, "Oh, they can manufacture better in the east than can be done in the west." I want to say in answer to this, that it is not all sunshine in the east to manufacturers, and that they do not have the water powers here. 30.30. Sheep-Receipts, none; market steady. an Trust company, has been devoting great deal of his time and energy to the end that all of the Sullivan proper-ties receive the attention they justly deserve, and is financially adding his support to the rebuilding of the com-

Support to the rebuilding of the com-pany along conservative lines. Mr. Rickey has been quietly at work for some time past, and it is under-stood with very good results, endeavor-ing to effect a merger of the Manhattan companies, which will take in nearly all of the famous Gold Hill, and include such properties as the Union No. 9, Big Four, Manhattan Verde, Manhattan Whale, and possibly others. These, with the Stray Dog, Jumping Jack, Indian Camp and As-You-Like-It, would become at once one of the strongest mining enterprises in the state, and it is to be hoped that such a consolidation will be brought about. Mergers of the Sullivan properties with others in the Goldfield and Fairview districts are also talked of.

COPPER AT HARTVILLE.

Government Geologist Visits a District Of Promise Near Cheyenne.

North and east of North Platte river

Of Fromise Near Cheyenac. North and east of North Platte river in east-central Wyoming is a broad, low, domal mountain mass, with a maximum heigh of about 6,000 feet above sea level, which is known as the Hartville uplift and which is simi-lar in many respects to the Black Hills of South Dakota. Throughout this entire area copper is so widely distrib-uted that, although no large deposit has yet been discovered, valuable beds of ore may at any time be found. During the field season of 1905, Syd-ney H. Ball of the Unitde States geo-logical survey, while investigating the iron ares of this region, visited the copper mines and prospects. An account of this work is published by the Sur-vey in its annual volume on economic geology (Bulletin No. 315), copies of which may be obtained on application. Mr. Ball gives an account of the his-tory and production of the region and describes the ore deposits, which occur in the form of fissure veins, lenticular or globular masses of ore that outcrop at the surface and pinch out at slight depths, and blanket or bedded deposits. The fissure veins have not been suffi-ciently developed to establish their The fissure veins have not been suffi-ciently developed to establish their character beyond doubt.

UTAH COPPER OFFICIALS.

President MacNeill and Others Due to Reach City Today.

Reach City Today. A party of Utah Copper officials is scheduled to arrive in the city this eve-ning to make an inspection of the mines and mills of that corporation in this state. The personnel of the party will include President Charles M. Mac-Neill; Secy. and Treas. Spancer Pen-rose; General Counsel K. R. Babbit; C. C. Hamlin and Sherwood Aldrich, shareholders. The visitors will be the guests of General Manager D. C. Jackling tomorrow when they will take a trip out to Garfleid to witness the operation of the company's new mill there.

MR. ABERCROMBE HERE.

E. E. Abercromble, managing direc-tor of the Majestic Copper company, and also of the New England Gold & Copper company, has arrived from Boston on one of his regular inspection trips. Superintendent J. A. Ingols of the majestic company came up from Milford this morning to confer with Mr. Abercromble.

smeiter. These units will be rapidly increased when the shafts are en-larged to admit the hoisting of a much larger tonnage. The Nevada Northern railroad will reach the Gi-roux property in about a month and this will greatly facilitate operations. President Joseph S. Giroux, who is now in New York, says that with this equipment, together with shipments to other smelters, he can earn \$2,000,000 net for the coming year on 14-cent

net for the coming year on 14-cent The Giroux company has a miner-alized tract two and one-fourth miles long and one and one-fourth miles wide in one body, and, under gov-ernment patent. It was the first prop-erty to be opened in the Robinson, or Ely, district.

RICH NEVADA ORE.

Result of Recent Development on Mazuma Hills Property.

Ore running up high as \$10 per pound has been opened up in a ledge on the Shaffer-Pero lease located on the fa-mous Mazuma hills property, says the Vernon, Nev., Review. The lease lies north of the Pryor block and is on the strike of the ledge that traverses the Reagan, Gallagher-Wedell and other leasers that are being worked on Mazu-ma hill. The owners state that the high val-The owners state that the high val-

The owners state that the high values only appear in a very small streak which runs through the main veln. It shows every indication, however, of widening out as development work progresses, and it is believed that with droper depth it will open into one of the bonanzas of the camp. The lease is to be opened up very extensively and to this end a shaft will be started and no time will be lost in rushing it to the 100-foot point, after which crosscutting and drifting will be carried out on a large scale. The attention of all of the prominent mining men of the district and many have predicted that when the proper depth is reached it will rank as on of the biggest shippers of high grade in the Seven Troughs district.

TROUBLE WITH PUMPS.

President Tony Jacobson of the Co-lumbus Consolidated Mining company went to Alta this morning to make an inspection of the properties in his charge there. A report was received from camp today to the effect that some trouble is being experienced with the electric pumps in the mine, and that the management has been required to do some tail bustling to keep the to do some tall hustling to keep the water out of the lower workings.

According to reports from the lead-ing book sellers of the country, the six books which have sold best in the or-der of demand during the month are:

3.

Beginning June 25 all mail to and from Greenwater will be dispatched via Zabriskie and the "Borax" Smith road, in conformily with an order re-ceived from Chief Clerk Moore of Los Angeles. According to the calcu-lations of the postal authorities, the mail matter to all points from Green-water will go faster by this route than it would travel by way of Amargosa, In addition to the above we have a large stock of other popular books of

DESERET NEWS BOOK STORE. 6 Main Street.

which was based upon favorable crop weather. Liverpool cables were also low-er. September wheat opened 's lower to 's higher at 93',95',5 sold down to 92's and then advanced to 92's. "The corn market opened easier on mod-erate liquidation, the causes of which were good weather for the crop and the decine in wheat. Trading was not heavy. September opened 's 6's' lower at 53', to 54. The oats market was fairly active and prices were easier. The depressing fac-tors were identical within that range. The oats market september opend 's to 's' lower at 53's for 53. sold at 35's 683's and then advanced to 53's 663's. "The oats market of a strongers." Provisions were quiet and firm. Septem-ber pork opened 5 cents higher at 16.5's ind was up to 35's 663's. "Corn-No. 2, 13's 63's. "Oats-No. 2, 43's 641', No. 3, 43's. "Cose-Wheat-July, 60's; Sept. 94. Corns-No. 2, 13's 653's.
