Fundamental Ones as Declared by Jefferson Are Set Forth in The Platform.

FCONOMY OF ADMINISTRATION.

Colonial Exploitation Opposed-Revision of Tariff Favored-Ship Subsidy Bill Denounced.

St. Louis, July 8 .- At a meeting of the New York state delegation, held just prior to the convention, Bourke Cockran offered a resolution as follows: "Resolved that the delegation offer as an amendment on the report of the

committee on resolutions and platform the financial plank offered by Senator Hill in committee." This was voted down to 50 noes to

28 ayes. St. Louis, Mo., July 8 .- The Demoeratic national convention this evening adopted the following platform. Senator Daniel, who presented it, moved the revious question after it was read, and was adopted without debate.

THE PLATFORM.

The Democratic party of the United States, in national convention assem-bled, declares its devotion to the es-sential principles of the Democratic failt which bring us together in party

Under them local selfgovernment and national unity and prosperity were alke established. They underlaid our independence, the structure of our free independence, the entering bernocratic ex-republic, and every Dernocratic ex-tension from Louisiana to California and from Texas to Oregon, which pre-served faithfully in all the states the de between taxation and representation. they yet inspire the masses of our peo-pie guarding jealously their rights and iberties and cherishing their fraterand nerv, peace and orderly development. They remind us of our duties and re-sponsibilities as citizens and impress ipon us, particularly at this time, the ecessity of reform.

FUNDAMENTAL PRINCIPLES.

The application of these fundamental The application of these functamental principles to the living issues of the day is the first step toward the as-cured peace, safety and progress of our nation. Freedom of the press, of conclence and of speech; equality before he law of all citizens; right of trial y jury; freedom of the person defendthe law ed by the writ of habeas corpus; lib-erty of personal contract untrammelled by sumptuary laws; supremacy of the dvil over the military authority; a well-disciplined militla; the separation f church and state; economy in ex-enditures; low taxes, that labor may e lightly burdened; prompt and sawe gatty billiment of public and private edigations; fidelity to treaties, peace and friendship with all nations, entan-ing alliances with none; absolute ac-wessence in the will of the majority, the vital principle of republics—these are doctrines which Democracy has es-ablished as proverbs of the nation, ad they should be constantly enforced.

CAPITAL AND LABOR.

We favor the enactment and adminisation of laws giving labor and cap-al impartially their just rights. Capi-a and labor ought not to be enemies. ich is necessary to the other. Each is its rights. But the rights of labor as well as other departments suspected of harboring corruption and punish-ment of ascertained corruptionists with. out fear or favor or regard to persons. The persistent and deliberate refusal of both the senate and house of representatives to permit such investigation to be made demonstrates that only by a change in the executive and in the legislative departments can complete ex-posure, punishment and conviction be obtained.

GOVERNMENT CONTRACTS WITH TRUSTS.

We condemn the action of the Repub-lican party in Congress in refusing to prohibit its executive departments from entering into contracts with con-victed trusts or unlawful combinations in restraint of interstate trade. We have one of the best methods of pro-curng economy and honesty in the public service, and that is to have pub-lic officials, from the occupant of the White House down to the lowest of them, return as nearly as may be to Jeffersonian simplicity of living. We favor the nomination and elec-tion of a president imbued with the principles of the Constitution, who will suppation of legislative and judicial functions, whether that usurpation be velled under the guise of executive con-struction of existing laws, or whether it takes refuge in the tyrant's pleas of necessity or superior wisdom. COLONIAL EXPLOITATION. We condemn the action of the Repub-

COLONIAL EXPLOITATION.

COLONIAL EXPLOITATION. We favor the preservation, so far as we can, of an open door for the world's commerce in the orient without an un-necessary entanglement in oriental and European affairs, and without arbi-trary, unlimited, irresponusible and ab-solute government anywhere within our jurisdiction. We oppose, fervently, as did George Washington himself, an indefinite, irresponsible, discretionary and vague absolutism and a policy of colonial exploitation, no matter where or by whom exercised; we believe, with Thomas Jefferson and John Adams, that no government has ⁴a right to make one set of laws for those "at bome" and another and a different set of laws, absolute in their character, for those "in the colonies."

PROTECTION OF THE FLAG.

All men under the American flag are All men under the American flag are entitled to the protection of the institu-tions whose emblem the flag is; if they are inheritantly unfit to be members of the American body politic. Wherever there may exist a people incapable of being governed upon American laws under the American Constitution, the territory or nearly acuts not to be a under the American Constitution, the territory or people ought not to be a part of the American domain. We in-sist that we ought to do for the Fili-pinos what we have done already for the Cubans, and it is our duty to make that promise now and, upon suitable guarantees of protection to citizens of our own and other countries resident there at the time of our withdrawal, set the Filipino people upon their fact free the Filipino people upon their feet, free and independent to work out their own destiny.

PROMOTERS IN THE PHILIPPINES.

The endeavor of the secretary of war, by pledging the government's indorse ment for "promoters" in the Philippine Islands to make the United States a partner in speculative legislation of the archipelage, which was only tempor-arily held by the opposition of the Democratic senators in the last session, will, if successful, lead to entangle-ments from which it will be difficult to escape.

TARIFF QUESTION.

The Democratic party has been and will continue to be the consistent op-ponent of that class of tariff legisla-tion by which certain interests have ponent of that chass of tariff legisla-tion by which certain interests have been permitted, through congressional favor, to draw a heavy tribute from the American people. This monstruces per-version of those equal opportunities which our political institutions were established to secure, has caused what may once have been infant industries to become the greatest combinations of capital that the world has ever known. These especial favorites of the govern-ment have, through trust methods, been converted into monopolies, thus bringing to an end domestic competi-tion, which was the only alleged check upoa the extravagant profits made pos-sible by the protective system. These industrial combinations, by the finan-cial assistance they can give, now con-trol the policy of the Republican party, PROTECTION DENOUNCED.

PANAMA CANAL. The Democracy, when entrusted with The Democracy, when entrusted with power, will construct the Panama canal speedily, honesily and economically, thereby giving to our people what Dem-ocrats have always contended for-a great interoceanic canal, furnishing shorter and cheaper lines of transporta-tion and broader and less transmeled trade relations with the other peoples of the world. AMERICAN CITIZENSHIP.

We pledge ourselves to insist upon the just and lawful protection of our citizens at home and abroad, and to use the just and lawful protection of our citizens at home and abroad, and to use all proper measures to secure for them, whether native born or naturalized, and without distinction of race or creed, the equal protection of laws and the enjoyment of all rights and privileges open to them under the covenants of our treatles of mendship and com-merce; and if under the existing trea-ties the right to travel and sojourn is denied to American citizens, or recog-nition is withheld from American pass-ports by any countries on the ground of race or creed, to favor the beginning of negotiations with the governments of such countries to secure by treaty the removal of these unjust discrimina-tions. We demand that all over the world a duly authenticated passport is-sued by the government of the United States to an American citizen shall be proof of the fact that he is an Ameri-can citizen and shall entitie him to the treatment due him to such

can citizen and shall entitie him to the treatment due him as such. ELECTION OF SENATORS BY PEO-

PLE

We favor the election of United States senators by the direct vote of the people STATEHOOD FOR TERRITORIES.

We favor the admission of the terri-tories of Oklahoma and the Indian ter-ritory. "" also favor the immediate admission of Arizona and New Mexico as separate states, and a territorial government for Alaska and Porto Rico. We hold that the states of the We hold that the officials appointed to administer the government of any territory, as well as with the district of Alaska, should be bona fide residents of the territory or the district in which the duties are to be performed at the time of their appointment.

POLYGAMY

We demand the extermination of po-ygamy within the jurisdiction of the United States and the complete separation of church and state in political af. fairs.

SHIP SUBSIDIES.

We denounce the ship subsidy bill re-cently passed by the United States senate as an iniquitous appropriation of cently a wasteful, illogical and useless attempt to overcome by subsidy, obstructions raised by Republican legislation to the growth and development of American commerce on the sea. We favor the up-building of a merchant marine attempt building of a merchant marine without new or additional burdens upon the people and without bounties from the public treasury.

RECIPROCITY.

We favor liberal trade arrangements with Canada and with the peoples of other countries where they can be en-tered into with benefit to American agriculture, manufactures, mining

MONROE DOCTRINE. We favor the maintenance of the Monroe doctrine in its full entirety, NAVY AND ARMY

We favor the reduction of the army and navy expenditures to the point historically demonstrated to be safe and sufficient.

PENSIONS.

The Democracy would secure to the surviving soldiers and sailors and their dependents generous pensions, not by an arbitrary executive order, but by legislation which a grateful people

under pretense of executing a great public policy which would have been more easily effected lawfully, constitumore easily effected lawfully, constitu-tionally and with honor. It forced strained and unnatural con-structions upon statutes, usurping ju-dicial interpretation and substituting congressional enactments. It withdrew from Congress their cus-tomers duties of furgeting mich

It withdrew from Congress their cus-ternary duties of investigation which have heretofore made the representa-tives of the people and states the ter-ritory of evil-doers. It canducted a secretive investigation of its own and boasted of a few sample convicts while it threw a broad cover-let over the bureaus which had been their chosen field of operative abuses and kept in power the superior officers under whose administration the crimes had been committed.

inder whose administration the crimes had been committed. It ordered assault upon some mono-polles, but paralyzed by its first vic-tory it flung out the flag of truce and declared that it would not "run amuck" leaving its future purposes beclouded by its vaculations. by its vacillations.

APPEAL TO THE COUNTRY.

Conducting the campaign upon this declaration of our principles and pur-poses we invoke for our candidate the support, not only of our great and time-honored organization, but also the citizens who, disregarding past differ-ences upon questions no longer in is-sue, desire the perpetuation of our constitutional government as framed and established by the fathers of the remultic republic.

CONTINUAL STRAIN.

Many men and women are constantly subjected to what they commonly term "a continual strain" because of some financial or family trouble. It wears and distresses them both mentally and physically, affecting their nerves badly and bringing on liver and kid-ney allments, with the atten-dant evils of constipation, loss of appetite, sleeplessness, low vi-tality and despondency. They cannot, as a rule, get rid of this "continual strain," but they can remedy its health destroying effects by taking frequent doses of Green's August Flower, It tones up the liver, stimulates the kid-Many men and women are constantly tones up the liver, stimulates the kid-neys, insures healthy bodily functions, gives vim and spirit to one's whole beis, and eventually dispels the physi-al or mental distress caused by that continual strain." EMPTIED THE CASH BOX.

Stranger is Seen Turning a Trick in a Back Alley.

F. Green, a dishwasher at the Occidental restaurant, 70 east Second South street, reported to the police yesterday

afternoon that he had seen a man rush into the alley in the rear of the restaurant, smash open a tin treasure box which he carried, empty all the coin it contained into his pockets and then contained into his pockets and then hasten back to the street again and make his escape. Detectives Chase and Burt went to work on the case and found the box in an old shed. The lock showed that it had been hurriedly tam-pered with and the only articles left in the box were two checks which the man probably overlooked. The detec-tives are still working on the case.

CONSTITUTIONAL GUARANTEES.

Constitutional guarantees are vioated whenever any citizen is denied the right to labor, acquire and enjoy property, or reside where interest or in enjoy duation may determine. Any denial tereof by individuals or organizations of government should be summarily re-buked and punished.

EXECUTIVE USURPATION.

We deny the right of any executive to disregard or suspend any constitu-tional privilege or limitation. Obedience the laws and respect for their the citizen and the official.

The military should be used only to apport and maintain the law. We unsualifiedly condemn its employment for the summary banishment of citizens without trial, or for the control of ections. We

approve the measure which ussed the United States senate in 1896, out which a Republican Congress has wer since refused to enact, relating to ontempts in federal courts and providis for trial by jury in cases of indirect ntempt.

MPROVEMENT OF WATERWAYS.

We favor liberal appropriations for the care and improvement of the wa-terways of the country. When any waterway like the Mississippi river is of sufficient importance to demand spe-ial aid of the al aid of the government, such aid should be extended with a definite plan continuous work until permanent imovement is secured.

We oppose the Republican policy of starving home development in order to feed the greed for conquest and the appetite for national "prestige" and display of strength.

ECONOMY OF ADMINISTRATION.

Large reductions can easily be made in the annual expenditures of the gov-erament without impairing the effi-clency of any branch of the public ser-vice and we will be a service, and we shall insist upon the strict-est economy and frugality compatible with vigorous and effective civil, mili-tary and naval administration for the people, too clear to be denied or with-heid.

HONEST PUBLIC SERVICE.

We favor honesty in the public service the enforcement of honesty in the public service, and to that end a thor-ough executive investigation of those departments of the service and ments of the government already known to teem with corruption,

PROTECTION DENOUNCED.

We denounce protection as a robbery of the many to enrich the few and we favor a tariff limited to the neces-sities of the government economically administered, and so levied as not to discriminate against any industry, class or section, to the end that the burdens of faxation shall be distributed act as equally as possible.

FOR TARIFF REVISION.

We favor a revision and a gradual reduction of the tariff by the friends of the masses and for the commonweal and not by the friends of its abuses, its extortions and its discriminations keeping in view the ultimate ends of "equality of burdens" and "equality of opportunities," and the constitutional purpose of raising revenue by taxation, to wit, the support of the federal gov-ernment in all its integrity and virility, but in simplicity.

TRUSTS AND COMBINATIONS.

We recognize that the gigantic trusts and combinations designed to enable capital to secure more than its just share of the joint products of capital and labor, and which have been fostered and promoted under Republican rule, are a menace to beneficial compe-tition and an obstacle to permanent business prosperity. A private monop-oly is indefensible and intolerable. Individual equality of opportunity and free competition are essential to a healthy and permanent commercial prosperity; and any trust, combinaprosperity; and any trust, combina-tion or monopoly tending to destroy these by controlling production, re-stricting competition or fixing prices, should be prohibited and punished by law. We especially denounce rebates and discrimination by the transporta-tion companies as the most potent agency in promoting and strengthening these unlawful constructes against

these unlawful conspiracies against trade

INTERSTATE COMMERCE.

We demand an enlargement of the powers of the interstate commission to the end that the traveling public and shippers of this country may have prompt and adequate relief for the abuses to which they are subjected in

the matter of transportation. We de-mand a strict enforcement of existing civil and criminal statutes against all such frusts, combinations and monopo-lies, and we demand the enactment of such further legislation as may be necessary to effectually suppress them. Any trust or unlawful combination Any trust or unlawful combination engaged in interstate commerce which is monopolizing any branch of busi-ness or production should not be por-mitted to transact business outside of the state of its origin. Whenever it shall be established in any court of compared juridiction that much mat

competent jurisdiction that such mo-nopolization exists such prohibition should be enforced through comprehen-sive laws to be enacted on the subject.

RECLAMATION OF ARID LANDS.

We congratulate our western citizens upon the passage of the law known as the Newlands irrigation act for the irri-gation and reclamation of the arid lands of the west-a measure framed by a Democrat, passed in the senate by a non-partisan vote and passed in the bouse against the opposition of almost a house against the opposition of almost all the Republican leaders by a vote the majority of which was Democratic. We call attention to this great Demo-cratic measure, broad and comprehensive as it is, working automatically throughout all time without further action of Congress, until the reclamation

stand ready to enact. Our soldiers and sailors who defend with their lives the Constitution and the laws, have a sa-cred interest in their just administra-tion. They must, therefore, share with

us the humiliation with which we have witnessed the exaltation of court fa-vorites, without distinguished service, over the scarred heroes of many bat-tles; or aggrandized by executive ap-propriations out of the treasures of a prosperous people, in violation of the act of Congress which fixes the compensation and allowances of military

officers. CIVIL SERVICE.

The Democratic party stands committed to the principles of civil service reform, and we demand their honest, just and impartial enforcement. We denounce the Republican party for its continuous encroachment upon the spir-it and operation of civil service rules, whereby it has arbitrarily dispensed with examinations for office in the in-terest of favorites and employed all manner of devices to overreach and set aside the principles upon which the civil service was established.

SCHOOL AND RACE QUESTION.

The race question has brought count. less woes to this country. The caim wisdom of the American people should see to it that it brings no more. To revive the dead and hateful race and sectional animosities in any part of our common country means confusion, distraction of business and the reopening of wounds now happily healed. North, south, east and west have recently stood together in line of battle from the walls of Pekin to the hills of Santiago and as sharers of a commo tiago and as sharers of a common glory and a common destiny, we should share fraternally the common burdens. We therefore deprecate and condemn the Bourbonlike selfish and narrow spirit of the recent Republican conven-tion at Chicago, which sought to kin-dle anew racial and fractional strife, and we appeal to the sober common sense ad patricitic spirit of the Amer-

sense and patriotic spirit of the American people REPUBLICAN ADMINISTRATION.

The existing Republican administration has been spasmodic, spectacular and arbitrary. It has made itself a sa-tirs upon the Congress, the courts and upon the settled practices and usages of national and international law. It summoned the Congress into hasty and futlle artice and virtually ad futile extra session and virtually ad-journed it, leaving behind its flight from Washington uncalled calendars and unaccomplished tasks. It made war, which is the sole power of Congress without its automatical
