NO IMPROVEMENT.

Opened Dull and Drooping With

A Few Specialties Showing

Small Gains.

U. S. STEEL AGAIN A FEATURE.

Principal Specialties Moved Irregu-

larly, but Dealings Generally Were Firm.

New York, May 13 .- A dull and drooping

market characterized the opening stock market today, with a few specialties, in-cluding United States Steel preferred,

showing small gains. A block of 1.200

shares of Southern Pacific and of 2,300 shares of Pennsylvania, carried those

stocks down an eights. There were no

Indications of support in United States

Steel and some large purchases of Amal-

gamated strengthened the market. Most

of the important stocks sold fractionally above yesterday's close. United States

Steel preferred gained %, Republic Steel

preferred 14, and Amalgamated 14. St.

The railroad stocks generally lost their

gains with a reaction in the market after 11 o'clock. United States Steel sold down to 8%, a new low record. The market steadied later and made slight recoveries, but became very dull. National Lead rose 1%, Just before noon United States Steel

agged again to 8%. Dealings in the general market showed

some firmness despite irregular move-ments in the principal specialties. United States Steel preferred was sold freely to below 52. Amalgamated rose resolutely to 51

to 51, Buying of the railroads ceased and prices reacted on the heavy liquidation in United States Steel. The common broke to 8%, and the preferred to 51%. Re-actions elsewhere were smalt, the buying generally holding around last night's level. Anaconda moved up 2 points.

R. R. Co. DEPART.

A NEW APPOINTMENT. Walter S. Kelly Named as General Superintendent of Yampa Properties. Announcement was made yesterday ternoon of the appointment of Walter afternoon of the appointment of Walter S. Kelly as general superintendent of the properties of the Tintic Mining & Development company and the Yampa Snaelting company at Bingham. Mr. Kelly comes here from San Francisco, but formerly served on the Heinze staff in Montana, The work of overhauling the smelter is in charge of Herman C. Bellinger, of Spokane, Washington. It is the intention of G neral Man-ager Robinson to devote much of his time this year in personally directing the Brittania mines in British Colum-bit.

MINING, BUSINESS AND STOCKS

## SALE OF IDAHO MINE.

Big Mill Near Gibbonsville Goes With it As a Sacrifice.

The Salmon City Recorder contains the following concerning the transfer of mining property: "Ernest Benedict and E. E. Edwards

of mining property: "Ernest Benedict and E. E. Edwards of Gibbonsville passed through here the last of the week on their way to Red-rock, where they were joined by F. W. Vogler. We understand that the three went to Butte to complete the purchase of the A. D. & M. mines and mill at Gibbonsville. Negotlations have been in progress for some time in regard to this valuable property, which was sold last fall by the receiver. F. W. Bacorn. The deal includes 39 patented mines and the fully equipped cyanide mill created at a cost of over \$200,000, and the mines are among the most valuable in the camp. This property has been tied up in litigation for the last four or five years. This once lively camp will take on new life when these mines are again being worked. The price agreed upon is said to be \$10,009. The latest additions to the mill machinery cost more than that amount."

## IN HARNESS AGAIN.

concerning the report to the effect that Manager A. L. Jacobs in Active Charge of Butler-Liberal.

Butter-Liberal. Manager A. L. Jacobs of the Butler-Liberal mine of Bingham is back in the harness again. Mr. Jacobs visited that property yesterday, when Acting Manager L. U. Colbah, who has direct-ed affairs during the past few months, turned the keys over to him. The roads are getting in good condi-tion again and the movement of ore from the mine to the Dewey mill has commenced. Owing to a slight mis-hap, tre compressor machinery was not in operation yesterday. time no policy has been outlined for the future. One of the heaviest stockholders in the proprty is John Heimerick one of the original "Mercur Crowd" and who served for a good many years on the board of directors of the old Mercur company, Mr. Heimerick is now lo-cated in Seattle where he is engaged in the banking and real estate business. He has practically quit mining entire-ly and is not taking day more chances

Conditions in the mine, Mr. Jacobs says, are in splendid order and every-thing looks favorable for a good sea-son of production.

### AT THE UNION WELL.

#### Manager Bigger is Awaiting Important News Any Hour.

disposed to go ahead and develop the property and place it on a paying basis and carry all the burden. On the other hand, it is claimed, Mr. Heimrick has not felt disposed up to the present time News Any Hour. The management of the well being put down at Centerville by the Union Gas & Pipe Line company expects to hear of a large blow-out of gas almost any day. The drill is over 509 feet deep, and Manager Bigger believes it is geting down to the point where it may be expected to encounter gas. In sinking the old Driver wells several years ago in this yielnity, the first gas was encountered between 200 and 300 feet depth. to let his interests go at a figure which would be tempting to investors. So feet depth.

## Mining Suit Filed.

Sult to quiet title to the area in conbetween the mining claims plaintiff and defendant, located in the Little Cottonwood district, has been filed in the district court by Brockbank against the Albion Mining company.

MAKES A FINE CONCENTRATE Manager Jackling Expects to Make 40 Per Cent Copper Product - At Bingham Today.

This Company's Plant at Bingham

Is Now Treating Six Hundred

Tons of Ore Daily.

UTAH COPPER.

SUCCESS OF

Owing to the washout on the Rio Grande near Bingham last week, the Utah Copper company's big mill was forced to close down for several days. Consequently the May production will fall short of what it otherwise would have been. The plant is now running again and is grinding out about 600 tons of ore daily, reducing the same into concentrates.

two per cent copper and "75 cents in gold and silver to the ton.

gold and silver to the ton. The concentrate product, according to shipments made recently to the val-ley smelters, assays around 35 per cent copper, from \$7 to \$9 in gold and 2½ ounces in silver. Manager Jackling and Superintendent Janney have both expressed their ela-tion over the results obtained since the mill went into commission, but they fully expect to make a better record when they get everything going along in perfect order. They expect to furn out a 40 per cent copper product and maintain it close to that level while running on the present grade of ores. Messrs. Jackling and Janney are both at the mill today. The latter has been at the plant almost constantly since it went into commission.

## CONCENTRATES.

The Mammoth mine of Tintic has three cars of ore in today's market. Truman Schenck returned yesterday from the Wood River district of Idaho.

Manager W. C. Orem of the Uath-Apex is inspecting that Bingham prop-erty today.

Contractor James J. Burke is expect-ed to arrive home from a business trip into Idaho tomorrow morning.

Director W. S. Brown of the Con. Mercur expects to return to his Ne-braska home in a few days.

days.

The ores of the mine average about

Editor Sam L. Raddon of the Park City Record is in the city today.

ManagerJohn T. Hodson of the Lin-coln mine and mill in the Pearl, Ida., district, is down from camp for a few
