

SENATOR SMOOT AND HIS ENEMIES

"Truth" Reviews the Outlook Politically in the State Of Utah.

IT IS GENERALLY CONCEDED

That One Mormon and One Gentle Should Sit in the Senate—Who Will Be the Man?

Under the heading of "Will Senator Smoot Be a Candidate for Re-election?" Truth of Jan. 11 says:

The above question is being asked all over the country. Who should not Reed Smoot be a candidate for re-election, his friends ask. Has he done anything that bars him? Has he on account of being an apostle of the Mormon Church been unfair to the non-Mormons of Utah? We say, no. Senator Smoot has done good for the west, and has had without question as much influence, if not more, than any other senator in this region, and still retains it.

Senator Smoot is now chairman of the committee of patents, a position that Senator Platt of Connecticut had held previous to his death for a term of nearly 20 years.

Length of service in the senate is the qualification for advancement on committees. Nearly 20 Republican senators have passed out of the senate on account of death, resignation, etc., since Reed Smoot took his seat. This accounts for his rapid advancement to the chairmanship of the committee of patents, one of the most important committees of the senate.

THE OPPOSITE PROVEN.

It was claimed by the opponents of the senator that he would have no influence for the good of his state on account of being an apostle of high churchman. The apostle has been proven, and now his enemies howl that he would do nothing of that material on account of holding that position. The fact is that whatever influence Senator Smoot has is on account of his being a strong man. The mere fact of being an apostle gives Smoot no influence in the senate, and takes none from him. He is simply judged on his merits as a man. A number of people in this state are opposed to Senator Smoot on account of his apostleship, and think that he ought to resign that position if he intends to succeed himself. The same people admit that it would be easy if not easier for Smoot to be re-elected if he was not an apostle, thus admitting that the apostleship does not help him politically, even at home. An apostle in the Mormon Church engages in business and worldly affairs in common with his people, and why should not he hold office in common with them?

Christian ministers everywhere claim that Mormonism is a religion, but a business corporation, a fraud. No person objects to directors of leading corporations and trusts being elected to the senate. Why is Reed Smoot called a high churchman, and why are ministers who claim that Mormonism is no part of Christianity, if it is not for the purpose of deception?

ONE MORMON, ONE GENTILE.

It is generally conceded in this state that one Mormon and one Gentile should sit in the senate. This is the way it stands today. If Reed Smoot withdraws, it would be understood that a Mormon would take his place. Will some one tell us what is the difference between a Mormon and a Mormon apostle? Our learned ministers are sure to their leaders, and that an apostle is a little more intelligent than the common herd.

The election of Apostle Smoot had nothing to do with the starting of the American party. The Tribune even admits this. The Christian ministers in common are bitterly opposed to the Mormon Church, and yet they are in the chance of joining hands with Tom Kearns, Dave Keith and Perry Heath, proprietors of the Tribune, in raiding that organization.

Senator Smoot has only been a cir-

cumstance in the raid. The center of the fire was directed at the president of the Mormon Church. The reasons of the infatuation for the raid are well known, and not worth while repeating. Tom Kearns, Dave Keith and Perry Heath's reasons are worth mentioning again.

TOM KEARNS' ASPIRATIONS.

When Tom Kearns was elected senator he openly proclaimed that he intended to be "in" in this state, and he intended to make himself a political boss. He and Dave Keith, seeing how easy it was to land an ignorant lubber like Kearns, both entered the race for senator unknown to each other and both being assured of the support of Kearns, which one was to be thrown down by Tom never came to light? Heavily left his native state to obtain a residence in Utah, and Keith went to his for a cruise on the Mediterranean sea, both being assured of the plumb by Kearns. The plan was to let President Smith on their side by honeyed words and the praise of the Tribune, and then to turn on him and make him come to time. They did not succeed so Perry and Dave were consigned to the ash pile, and Smoot elected. Kearns seeing his own seat in danger, then made overtures to the Mormon leader, promising to buy out Heath's interest in the Tribune, which at this time was pouring out diatribes against the Mormon leader and his people. Kearns promised at the time to give payment Mormon stock in the Tribune and either allow a certain apostle or a very prominent Mormon who was then publicly accused of being a new polygamist to be consigned to the ash pile, or to get Joseph F. Smith either by honeyed words or threats and abuse. Kearns, with his unsavory record, intended to dictate to the Mormon leader, and in turn force him to dictate to the Mormon people. The election of Reed Smoot and the failure of this unsavory trio to force Joseph F. Smith into such a disreputable position, is the real and only cause of the organization of the American party. Without the support of the Tribune and Kearns and Keith's money, the American party would not have been born.

These being the facts, it is really a matter of wonderment to well-informed persons how that any position of the people who stand for honor, capability and respectability in politics can be led into Tom Kearns' and his wagon. Any such who are there would do well to out on their thinking caps.

A HIGHER HEALTH LEVEL.

"I have reached a higher health level since I began using Dr. King's New Life Pills," writes Jacob Spillars of West Franklin, Maine. "I keep my stomach, liver and bowels working just right." If these pills disappoint you on trial, money will be refunded at Z. C. M. I. Drug Dept., 112-114 Main, Salt Lake City, 25c.

NEW OIL COMPANY.

Will Drill Near Juab, Utah—Officers Are Elected, All Salt Lakers.

A new oil company was organized under the name of the Juab Oil and Pipe Line company. Capital stock one million shares, per value \$1. The officers and directors elected today are as follows: Chas. B. Stewart, president; F. W. Dunn, vice president and manager; Walter Romney, treasurer; Geo. R. Raymond, secretary; Frank E. Welch, director. All are of Salt Lake City, Utah. The operating headquarters will be at Juab, Utah; Salt Lake offices are 217 Herald building, and 50 Main street.

This company has already negotiated for a full equipment of first class machinery and 2,500 feet of standard steel casing. It will drill through all the known strata of oil sands. The well will be at Juab station on the Salt Lake & San Pedro railway, where all experts who have visited the country are sure of favorable results. The Charles, Chambers and Hurst are arranging to drill in the same locality as well as some Colorado oil men.

During the long, dreary winter months months become tired, worn out, can't eat, sleep or work. Hollister's Rocky Mountain Tea is the best blessing for mothers. Makes them happy and well. 35c. Tea or Tablets. —Z. C. M. I. Drug Dept., 112 and 114 South Main Street.

RANKS COLORADO.

Judge Colborn Finds Much Growth in Mountain and Plain City.

Judge Colborn has returned from a two weeks' absence in Colorado. He reports a great interest there in the completion of the Moffatt road; and with the return of that railroad, Col. D. C. Dodge to active railroad life, the Colorado public is now ready to believe that there will be no further delay, either in financing or in construction of the Denver & Northwest line. The judge says the way east Denver is building up is most remarkable. City Park is no longer on the outskirts of the town, with handsome residences built away out to Montclair and spread over the prairie which locate the park now rather in the center of the East Denver residence district. Judge Colborn also remarks that Colorado is building a willing and largely untried state in mining output.

RETURNS FROM MEXICO.

L. S. Maringer Spent Some Time Looking Over Aztec Ruins.

W. S. Maringer has just returned from the City of Mexico after an absence from this city of about three weeks. He reports the climate as ideal, and the influx of Americans and American capital as continuous. Mr. Maringer spent considerable time looking over the ruins of an ancient Aztec city, 30 miles out toward Pachuca, where the government has 1,200 laborers at work uncovering the city supposed to be 2,000 years old, and which was overwhelmed by a volcanic eruption and earthquake, just as Herculaneum was. The lava rock is being taken out and largely used for building purposes in the Mexican capital. A marked feature of interest there is a stone pyramid 245 feet high, and covering six acres. The Aztecs built a series of stairways on the pyramid, so it was easy to mount it. From the apex could be seen the layout of a city of 800,000 inhabitants, with regularly laid out streets, and substantial buildings. Many of these have been uncovered and cleaned from rubbish, scoriae and accumulated soils, revealing dwelling rooms with painted walls, like the Italian cities that were overwhelmed, and large quantities of pottery, decorations, and utensils of various kinds have been found. Only a small quantity of human bones were found.

CHEYENNE WANTS IT.

Is a Candidate for Next Dry Farming Congress Convention.

(Special to the "News.") Cheyenne, Wyo., Jan. 14.—Cheyenne is a candidate for the next convention of the Dry Farming Congress, succeeding that to be held in Salt Lake this month. The Cheyenne Industrial club has taken the matter up, and a strong delegation

will attend the gathering in Salt Lake, and will work to secure the 100 meeting for this city.

From Flasher Harris, president of the Tri-State Dry Farming Congress, it is learned this afternoon that Cheyenne will not be alone in the fight for the convention. Several California cities are in the struggle in earnest and will do all in their power to land the convention.

The preparations for holding it continue to assume more definite shape. Dr. John W. Wilson, in addition to taking charge of decorating the club rooms with dry farm products, has offered to furnish the delegates with a special excursion can be planned for them. He further suggests that some person acquainted with the lay of the land along the route.

HORTICULTURAL SOCIETY.

Annual Election of Officers to be Held Jan. 10.

The Salt Lake County Horticultural society will meet Saturday, Jan. 10, at 1:30 p. m., on the third floor of the county building. The following program has been arranged for the meeting:

Lecture, "Berry Fruits for Commercial Orchards," by N. Byhoever.

Election of officers for 1908.

Appointment of delegates to the dry farming congress.

Questions and answers on general horticulture.

The meeting will be public and all are cordially invited to attend.

Eat anything you want, don't starve yourself, fearing it won't agree, for Hollister's Rocky Mountain Tea cleans the bowels and stomach, and makes digestion easy. 35c. Tea or Tablets.—Z. C. M. I. Drug Dept., 112 and 114 South Main Street.

TAKING NO CHANCES.

The Salt Lake Route takes no chances with those to whom the courtesy of free transportation over its line is given, as its annuals this year bear this proviso, "I hereby certify that I am within the provisions of the interstate commerce act permitting free transportation of specified classes and that I am not a member of any class to which the issue of free or reduced rate transportation is forbidden by the statutes of any state and I agree that I will not use this pass at any time in violation of the law."

A CARD.

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold, cures la grippe coughs and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. F. J. Hill Drug Co., "The never substitutes."

DEATH OF CON. DRISCOLL.

Deputy U. S. Marshal Julian Riley has received word of the death of his brother-in-law, Con Driscoll, whose demise occurred at Los Angeles last Saturday. The deceased was aged about 60 years, and formerly lived here. For many years he was one of the leading mining men of Utah, extensively interested at Bingham, and later had holdings in Nevada. For two years past his health had been impaired, and he was while seeking a climate that would be beneficial, that death came to him. The body will be brought to Salt Lake for interment.

AN INSIDIOUS DANGER.

One of the worst causes of kidney trouble is that which is insidious in its nature and before the victim realizes his danger he may have a fatal malady. "Take Foley's Kidney Cure at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes." F. J. Hill Drug Co., "The never substitutes."

PRISON WORK FEATURE.

Young People's Christian Union Elects Officers.

The Salt Lake Young People's Christian union held its annual meeting last evening, in the East Side Baptist church, Henry Jacobs was re-elected president; Renwick McNeice was chosen vice president; O. Rowland, secretary, and R. L. Kirk, treasurer. The chairman of the standing committees will be appointed at the next meeting. The report of the Christian Endeavor prison committee showed that the Endeavor work at the state prison is doing much good there, and the interest taken in that work was increasing among the city churches. Rev. D. A. Brown of the First Baptist church was present to state that Rev. R. A. Torrey, the noted evangelist, who was to have been here in March, was unable to come owing to an enforced change of program. But the hope and expectation was to have the doctor here early next winter. With this in view, the city churches are to begin preparations bright and early, with cotizations or neighborhood meetings at first, and more general meetings, to be followed by regular meetings in the churches. Further announcements would be made later.

D. McNICOL TO LECTURE.

Will Read Paper on Wireless Telephone Before Engineers Society.

The next regular meeting of the Utah Society of Engineers will be held Friday, Jan. 17, at the physical building of the University of Utah. At this meeting Mr. D. McNicol, manager of the Postal Telegraph company in this city, will read a paper on wireless telephone, a synopsis of which is herewith enclosed. This paper will be illustrated with lantern slides, and demonstrated by special instruments. There will be an informal reception held from 7:30 to 8:15, in charge of Prof. A. L. Lymann of the entertainment committee.

A synopsis of the lecture to be delivered by Mr. D. McNicol is as follows: Experiments of Preece, Bell, Sherrington, Kellogg and others in transmitting by means of induction, electro-magnetic and electro-static, by looking through the earth's surface, and through the air.

Work of Ernst Ruhmer in Germany taking advantage of the peculiar properties of selenium, when acted upon by means of a beam of light transmitted by the ether from a distant point; Alexander Graham Bell's radiophone, using the heliograph relay; experiments of Prof. Simon of Erlangen university and of the Duddell in England in perfecting the "speaking arc," by means of which ordinary sound waves are being transmitted in the air circuit; pioneer work of wireless telegraph experiments in perfecting means of Hertz wave generation and propagation as applied to wireless telephony; development of the speaking arc, "frequency" of the speaking arc increased by operating the latter in an atmosphere of hydrogen gas; experiments showing method

of controlling their radiation; also of generating Hertz waves, and manner of demonstrating of methods employed to detect the presence of Hertz waves at distant points in space; modifications necessary with wireless telegraph installations in order to transmit spoken words; influence of Morse code signals; description of the experiments of Majorjona in Italy, showing method devised for controlling the length of spark gaps without affecting the frequency; late improvements of Lea Deforest, using the "audion" Hertz wave detector; work of Collins in perfecting wireless telephony for commercial purposes; commercial applications of the new art.

M'ENERY STILL GUARDIAN.

Echo of Notorious Case Comes in Decision of California Court.

Dr. William A. Mcenery, who has received much notoriety on account of the charges brought against him by Edith Evans, a trained nurse, and who was forced to resign in October as joint guardian with Prof. A. C. McLaughlin of the University of California, of the fortune and person of Isabel L. McLaughlin, as still guardian over the young Edith Evans, who comes from the young lady resides, and as the law reads that a guardian over the person of a ward may only be appointed in the district where she resides, this California court decision holds over that of the court in Summit county, and Prof. McLaughlin still holds his position as its custodian. It is probable that the evidence which was submitted to the California court as to Mcenery's unfitness will be taken before the California court in another effort to oust him.

BIG MORTGAGE PAID OFF.

Greek Community Lift Load of Debt From Local Church.

The Greek community of Salt Lake has just released its church from a mortgage of \$7,000 and this too at a time when many of the Greek laborers are not receiving their customary income. The Greeks borrowed \$7,000 out of \$12,000 that their church had rather two years ago, when it was completed, the movement to pay off this mortgage began. In two years the full amount has been raised.

Leon Skiliris said today that there were about 2,000 and 7,000 Greeks in the intermountain country, and that they had all contributed liberally to establish the church.

"Our people," he declared "did not rush home with the tidal wave this fall. Very few of them intend to make our homes here, to become good citizens, and respect the laws and customs of this country. Most of those that left were Italians, Greeks, and others generally called 'Greeks,' but really have no alliance with us."

Best Skating "Manmoth" Rink.

New Sleek Ice, State near Ninth South.

FRANCE AND MOROCCO.

French Government Will Confine Action to Protecting Frontier.

Paris, Jan. 12.—There has been published here a statement from an inspired source to the effect that the French government has decided to confine its action in Morocco to assuring the security of the Algerian frontier, and the retention of order at the ports in accordance with the Algerian act. No loan will be concluded with Mohammed Sidi, the Moroccan ruler, from the Moroccan coast and Gen. D'Arma, the military commander, has about 9,000 men including seven batteries.

REV. E. J. HANNA'S CASE.

Rome, Jan. 12.—The congress of the propaganda, after a prolonged discussion today, failed to appoint the Rev. Edward J. Hanna, N. Y., to the post of coadjutor archbishop of San Francisco. No action was taken because the report of Hanna's decision to accept the candidacy did not contain all the documents bearing on the charge that he is tainted with masonry. This report shall have been completed. There will be another meeting of the congressional which a definite decision will be arrived at.

AFTER FORTY YEARS.

Divorced Couple Met, Loved and Were Remarried.

Chicago, Jan. 13.—After having been divorced for 40 years, an accidental meeting brought Mrs. Benjamin Ackley, the latter for some years a music teacher in Chicago, together again, and now they are enjoying their second honeymoon.

Benjamin Ackley and Miss Allen A. Milwood were married at Minneapolis in 1871. One year passed and they separated after a quarrel, Mr. Ackley going to New York, where he remained for a year studying music. Later she came to Chicago, where she earned her living by teaching music.

Last week Mrs. Ackley visited Minneapolis and met her former husband by accident. He did not recognize her. Mrs. Ackley followed him and found he was staying at a hotel. She addressed a letter to him, and he wrote back about a meeting and reconciliation.

LAND FRAUD CASES.

Washington, Jan. 12.—Secy. Garfield, after a conference with President Roosevelt today, which also was participated in by the attorney general, announced that the prosecution of the land fraud cases will not be discontinued in any way.

PEACE REIGNS IN STREETS OF PRUSSIAN CAPITAL.

Berlin, Jan. 13.—There are few signs to be noticed this morning of the violent scenes of yesterday when the demonstrations for a general suffrage in Prussia resulted in a series of encounters with the police, excepting a certain effervescence in the districts of the city where the working classes live.

The city ambulance stations treated over 100 wounded. Of these 83 persons including three policemen were seriously injured. The police in their encounters yesterday had a difficult task in overcoming the tactics of the infuriated women among the demonstrators. They clung to the bridges of the policemen's horses, in efforts to stop the chariages.

Dispatches received here from the provinces declare that the demonstrations yesterday, in favor of suffrage reform, were enthusiastic. Resolutions in favor of manhood suffrage were telegraphed to Prince Von Buelow. In Essen 10,000 people paraded the streets, singing the "Marseillaise" and songs of freedom. The police made ineffectual attempts to bar the progress of the agitators. In Cologne, the police dispersed various processions by barring the streets and there were a few unimportant collisions. Frankfurt, however, was the scene of a street fight between the police and the manifestations in which a number of persons were injured.

At today's session of the Prussian Landtag, Minister of the Interior Von Moltke, referring to the events of yesterday, declared the Socialists alone will be responsible for the consequences in case of further demonstrations. He added that the government had decided to repress by every means in its power any attempt to disturb peace and order.

VISITED BY BURGLARS.

Rained Pictures, China, Rugs, Etc., to Value of \$25,000.

New York, Jan. 14.—When a caretaker visited the residence of Frederick Piney Earle, the artist, at Monroe, Orange county, yesterday, he discovered that burglars had paid the place a visit, stealing or ruining pictures, china, rugs and bric-a-brac valued at more than \$25,000. Mr. Earle's loss about three months ago for Italy, following domestic complications, which gained wide publicity at the time.

SUIT FOR LIBEL.

New York, Jan. 14.—Edwin S. Wallace, former consul of the United States at Jerusalem, has begun suit against D. Appleton & Co., publishers of Appleton's Magazine, for \$50,000 damages for an alleged libel. Mr. Wallace alleges that in an article on Jerusalem appearing in the magazine he was libeled. The company answers that it published the article in good faith, believing it to be true.

FIRE HOSE.

New York, Jan. 14.—As a result of Friday's fire in which the Parker building was practically destroyed and four men lost their lives, the Merchants' association has asked Mayor McCallan to order an investigation of the hose used by the fire department and the methods used to test it. An unusually large amount of hose burst under the high pressure put on it during the fire when attempts were being made to force water well up into the tall building. What amounts to almost a scandal has developed in the matter. It is said that more than 7 per cent of the lengths of hose put into use at the fire burst. The association, quoting a report recently made by a committee of the Underwriters' association, says that the ordinary tests for hose, which is purchased under specifications which call for hose to withstand a pressure of 300 pounds, under a four-year guarantee, have not been made of late years. It is also stated that a very large percentage of the hose now in use by the department is more than seven years old.
