[SPECIAL TO THE DESERET NEWS.]

By Telegraph.

CONGRESSIONAL.

SENATE.

Pacific Railroad.

The Pacific bill was resumed. Wilson's amendment for a uniform five feet gauge from Marshall to San Diego was adopted. The amendment by Stewart, authorizing the Southern Pacific railroad of California to connect with the Pacific branch road, was adopted; also an amendment by Sawyer, that all the iron and steel used shall be purchased in the United States. The bill then passed and the Atlantic and Pacific bill was made the order for the morning hour of Tuesday.

TENNESSEE.

Killed by bed-bug poison.

MEMPHIS.—Harris Bailey, residing near Somerville, poisoned himself and three children, on Saturday, by giving them bed bug poison in mistake for whisky. The children have all died, he will probably recover.

WASHINGTON.

Cornell's nomination withdrawn—San Domingo programme not ready.

WASHINGTON.—The President has withdrawn the nomination of Cornell for Assistant Treasurer at New York.

The Senate refused to go into executive session to-day, the members desiring more time to consider the San Domingo reports.

RHODE ISLAND.

Another strike.

PROVIDENCE.—A strike of the laborers on the city water works, a few miles from this town, had occurred. There were alarming reports, and the mayor and a large posse of police went to the scene, but no serious breach of the peace has occurred.

CALIFORNIA.

Coin transmitted.

SAN FRANCISCO, 28. — Remittances overland, to New York, last week, amounted to eighty-eight thousand, principally coin.

The British gunboat *Sparrow Hawk* has sailed for Victoria.

VIRCINIA.

Will not accede to the mansion proposition.

RICHMOND.—The City Council have adopted a resolution declining to receive the mansion of Jefferson Davis, the confederate president, back on the terms proposed by the United States, namely, not to charge rent for the time it was occupied as headquarters for the military; they ask that the rent be paid and the building restored to its former condition.

INDIANA.

Revolting outrage and murder—Clearing off the State debt.

INDIANAPOLIS.—Last Saturday, two little girls, the eldest 11 years and the youngest 4 years old, were found drowned in the race or sluice way near White River. It was supposed at the time to be the result of an accident, but further developments by the coroner's jury reveals the horrible fact that the eldest girl had been outraged and murdered and the younger murdered to prevent her giving information. No arrests have been made, but the police think they are on the track of the guilty party.

Gen. Kimball, treasurer of the State, left this morning with checks on New York for nearly half a million dollars; this, with the half million sent for the same purpose, will nearly, if not entirely, liquidate the State debt.

OHIO.

Excursionists—Manufactures of Cincinnati.

CINCINNATI.—The New Orleans Fire Department excursion has reached this city; they were received by the Common Council. The Fire Department, this afternoon, witnessed an exhibition of the working of several of our engines.

According to the report of the Board of Trade, just published, the manufactures of Cincinnati for the last year amount to upwards of one hundred and nineteen million dollars.

S. S. L. Hemmeden has resigned the presidency of the Cincinnati, Hamilton and Dayton Railroad. It will take effect on the 4th of next month, the 22nd anniversary of his election to this position. A. McLaren, General Superintendent, was to-day elected his successor.

ILLINOIS.

Serious result of an experiment.

CHICAGO.—Gen. John B. Turchin, while experimenting with an invention of his own for loading cars, was so badly injured that his recovery is considered doubtful.

FOREIGN NEWS.

FRANCE.

Matrimonial.

PARIS.—The marriages of the Prince of Vicaro with a daughter of Lorillard Spencer, and of Wm. Degroat with Miss Hawley, of Stamford, Conn., are announced.

CREECE.

Corinth canal to be commenced.

ATHENS.—It is announced that work on the canal through the Isthmus of Corinth, which had been some time in contemplation, will be commenced at once.

GREAT BRITAIN.

Earl Clarendon's successor—Commissioners will hear the Fenians' complaints—Monsieur Lesseps honized—Amendment to the Irish Bill.

LONDON, 28.—The morning journals reiterate the statement that Earl Granville, Secretary of State of the Colonial Department, will succeed the late Earl Clarendon as the head of the Foreign Office. The *Post* says that if such is the case, Fortescue, Chief Secretary for Ireland, will probably succeed Granville in the Colonial office.

It is stated that an American has offered to purchase the residence of the late Charles Dickens, at Gadshill, for £20,000 sterling.

It is almost generally conceded that Sabinus will win the Goodwood cup next month; betting is now five to two against Kingcroft for the St. Ledger.

The commissioners appointed by the government to investigate the charges frequently made, lately, that the Fenians now in confinement in England and the colonies are harshly treated, will enter upon their work immediately, and the prisoners will have an opportunity to be heard privately before officers of the government; at such hearing the jailers will not be permitted to be present.

The *Times*, this morning, in its eulogy upon the late Earl Clarendon says, an ordinary man or a mere partisan could never have attained his position; others had to cram for news topics; he was always posted. In closing, it says he was a large-hearted statesman-like man.

In the House of Lords an amendment, offered by the Marquis of Clanricarde, to the Irish land bill, requiring the tenants or landlords to furnish evidence of improvements claimed or contested, was carried.

The felony bill passed.

In the Commons, Dixon moved an amendment, prescribing that scholars who decline to receive religious instruction shall receive secular teaching; it was rejected. Dixon then moved that religious and secular teaching be given in separate rooms; also rejected.

LIVERPOOL.—Mons. Lesseps and lady received addresses from the Chamber of Commerce and the India and China Association at the Town Hall. A great crowd was in and around the hall. He also visited the Exchange, where he was received with warm demonstrations of welcome by the merchants.

WEST INDIES.

Captured—Killed—Earthquake—Death sentences commuted—Schools closed.

HAVANA.—The Captain-General, in a card, denies being a member of any secret order.

The insurgents recently captured a party of marines sent from Puerto Principe on a foraging expedition, and killed them all soon after the capture.

A slight shock of earthquake occurred at Santa Cruz Del Sur on the 7th.

Seven more of the Upton filibusters have been killed; only eight more remain of the second expedition.

The Captain-General has commuted seventeen death sentences to imprisonment or exile.

The schools in Porto Rio have been closed for the want of funds.

The volunteers surprised twelve rebels near Santiago and shot them.

Correspondence.

SALT LAKE CITY,
June 28, 1870.

Editor Deseret News:—In Saturday's issue you draw attention to the fact that several hundred hides have been sent out of this Territory and ask the question: "Is there not something radically wrong about this question?" When we take into consideration that "several hundred hides" twice told have already been sent out of this Territory, and that every hide from the Meat Market is contracted for to go East or West; and still further, that all the tanneries have nearly suspended business, while numbers of men are walking about in search of employment, their families in anything but comfortable circumstances, we must come to the conclusion that there is something "radically wrong." But where is the evil and what the remedy? Those hides are certainly gone, and nothing but the money will bring them back in any shape whatever. The parties who have disposed of those hides may justify themselves in taking such a course, by saying that it is but a business transaction. Still it is bad policy to send those hides out the Territory.

You say, "If every hide produced in this Territory were tanned here there would still be a necessity for importing leather to supply our wants." That is even so, but there is something else to be considered under the present circumstances,—where is there a market for the little leather there is made here? It may appear strange, but allow me to inform you that as far as I can learn, the market is stocked with leather nearly all the time, so that the demand for our home-made leather is but very limited. The prejudice which once existed against our "Valley Tan" is fast wearing away. Good judges of leather from East and West pronounce our home-made leather (with some few exceptions,) to compare favorably with the imported article and that our style of manufacture (with our present facilities) cannot be surpassed in the East.

You still further ask, "Have we not a sufficient number of tanneries to make those hides into leather." I presume there are tanneries enough in this city alone, with vats and building capacity, to turn out 20,000 sides of leather a year; and were I to express an opinion I should say there is not one-fourth of that amount made, and yet thousands of hides have been sent out of this Territory. Not because there is not tanning material enough in the country (for the present at least) to tan those hides into leather; not because we lack men or skill to convert those hides into leather—and I may add, not because the leather is not needed in the Territory; but because there is so much imported. Shall I be far wrong in saying the evil may (in a great measure) be traced to this fact? I am well aware that certain arguments will be brought up in favor of importation, such as, "I can demand money for harness or saddles made of imported leather," "Imported sole leather commands a readier sale than Valley Tan," "The tanneries here have not always on hand the right kind or a sufficient supply to meet demands." In answer to these I have only to say they are poor arguments to be used by anyone having the welfare of this community at heart.

To remedy the evil and close the door which has now been opened will require more judgment than I have at my command; but I would suggest that our manufacturers and others make an effort, not to undervalue our home productions, but to put a proper and due appreciation on leather, cloth and all other goods made or manufactured in this Territory. I venture to assert the same pay that brings leather from east or west would in a very short time prove a stimulant among our own mechanics and stir up a spirit of emulation to vie with each other in producing just as good an article as can be imported; and if we could not entirely fill the bill we might come up considerably nearer the mark than we do at present.

Respectfully,
R. B.
