FRONT ROOMS

In the American camp there are many troubles and they don't come from the outside. Of course there is a hierarch ried unanimously, which action was greeted with applause by the members of the library board, all of whom were in it, and as usual he is to blame. The McWhirter brothers must have heard of America from Morman missionaries according to American party people, and no doubt came here to entice an innocent bunco quartet to rob them out of \$8,200 and fleece them out of \$2,000 and also for the nine months of this year. During the past three months more, just so they could get the foney policemen who searched them to take them to the office of Chief Sheets, and shell out \$1,000 of the sum to satisfy the McWhirters and get the chief in-volved. The McWhirter Scotchmen Chief Sheets discovered that who wouldn't listen to a tale about a foney policeman who robbed them of \$8,200, right while one of the Scotchmen stood beside the foney policemon in the of-fice of the chief, should surely not be branded "tools of the hierarch." The American party members who are bolling over in the indignation of good citizenship, must also now be branded as "tools" because up to date there is no man whom Kearns has tried to use and failed, whom he has not assaulted with the full power of his reckless press. The "patriots" are going out of town onight. The smell of their graft in tonight. raising city laborers' wages to transfer the monty along to the barrel of the campaign leaders, and the stench of a chief of police who turns out of his office, unarrested, a member of a brace gang, whom an unsophisticated Scotch-man, has forced to accompany him there to learn whether he is a genuine officer of the law or not, are calculated smell less in the rarified air of Park City. An effort will be made to organize there tonight. A special train takes the drum corps and the speaking pa-triots, and there will be an effort to kick up a large time while they burn hierarchs and fricasee Mormons at will.

WOUNDS, BRUISES AND BURNS.

WOUNDS, BRUISES AND BURNS. By applying an ardiseptic dressing to wounds, bruises, burns and like inhuries before inflammation sets in, they may be heated without maturation and in about one-third the time required by the old treatment. This is the greatest discovery and triumph of modern surgery. Cham-berlain's Pain Balm acts on this same principle. It is antiseptic and when applied to such injuries, causes them to heat very quickly. It also allays the pain and soreness and prevents any danger of blood poisoning. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the in-convenience and suffering such injuries entail. For suc by all druggists,
