

CITY IS SUED FOR DAMAGES.

Ezekiel Holman Estimates His Injuries at \$8,000.

FELL INTO AN EXCAVATION.

Plaintiff Testifies That on May 31, 1899, the Hole Was Entirely Unprotected.

Ezekiel Holman's suit for \$8,000 damages against the city and Stephen Hays is being tried before a jury in Judge Morse's court today. Mr. Holman was on the witness stand most of the forenoon and went into every detail of his accident. He is represented by Attorney Eugene Lewis, with Judge Twomey associated counsel. Both, Lee & Ritchie represent Mr. Hays, and Frank B. Stephens the city.

Mr. Holman's story is that he drove into town from Sandy on May 31, 1899, to bring his two little boys to a circus and also that he might advise with La Grand Young on some business matters. He started down Commercial street to catch a glimpse of the circus parade, and fell into an excavation in the sidewalk just as he was about to enter the crowd on the east side of the street. He says that the hole was entirely unprotected. The fall resulted, said Mr. Holman, in the breaking of his ribs, and a permanent injury to his shoulder, and otherwise lamed and disabled him. He testified that he was pulled out of the hole in an unconscious condition. His eyesight is not good and he has undergone an operation for cataract of both eyes.

Mr. Hays makes the plea that the accident was caused by Holman's negligence and contends in failing to use reasonable care. He states that the excavation was necessary for the erection of a building which was being erected on Commercial street, and that it was guarded by rails to prevent danger to pedestrians.

CHARGES BRUTALITY.

Wife Alleges Extreme Cruelty of Her Husband.

Anna E. Willis prays the district court to grant her a divorce from Frank H. Willis, because, she says, that her husband has been cruel and inhuman to her, and has treated her with extreme brutality. She says that on March 1 in this city he threatened to kill her. At Eureka on June 2 plaintiff alleges that her husband choked her, strangled her, and in the following days, bruising her and blackening her eye, and in July, at the same place, Mrs. Willis charges that the defendant, her husband, beat her, and made her life a torment. He presided over the Aarhus branch of the Church for three years, then he emigrated to Utah, arriving in Salt Lake in 1884. Later in the same year he came to Ogden, where he remained, located there, being the first Scandinavian settler in that town. He was for many years an intimate friend and co-laborer of the late Francis A. Hammond. He filled a very successful mission to Scandinavia in 1874-76, presiding with ability over the Christiania conference. His death is sincerely mourned by a host of people.

SITUATION AT THE ISTHMUS.

Consul-Gen. Gudgeon Says Traffic Is Moving Unmolested.

ENGLAND GIVES APPROVAL.

London Telegraph Says Time Will Come When American Forces Will Land to Stay.

Washington, Nov. 26.—A cablegram received by the state department at noon today from Consul-Gen. Gudgeon at Panama reports that traffic is moving unmolested, but gives no other details of the situation.

LONDON APPROVES.

New York, Nov. 26.—Concerning the troubles on the isthmus of Panama, the London correspondent of the Tribune says:

"The temporary occupation of the isthmian railway line by the United States troops is regarded with approval in London. It is recognized that American is acting in accordance with her strict diplomatic rights, but it is by no means certain that the continental powers look on the matter with a friendly eye."

"Continental apprehension," remarks the Telegraph, "is so far justified that the time must come sooner or later, when the American forces will land to stay."

AN ENGLISH VIEW.

London, Nov. 26.—"The course of events in Central America," says the Pall Mall Gazette, "is showing how inevitable it is that the United States should be the principal performer in these isthmian dramas. And that it is as well that their government and ours should have settled outstanding differences and be working amicably together for the preservation of an open door."

IN THE ISTHMUS.

Colon, Nov. 26.—The Colombian gunboat General Pinzon appeared in Colon harbor this morning. Her commander said there were only 100 men out of the original 800 troops landed by the vessel, now on board the gunboat. The others had been carried by Porto Bello, about ten miles distant from Colon. The presumption is that the 800 men were marching overland to join the government forces under Gen. Alban, now at Mamei. The ground they have to cover is difficult and the troops will doubtless occupy a few days in reaching their destination. The Panama railroad steamer Orizaba from New York, November 18, arrived at Colon this morning, having on board 100 marines, who are to relieve the time-expired men of the United States battleship Iowa now at Panama. The marines were embarked on board a train and were taken to Panama.

The liberal forces control San Pablo station and Barbacoa, where there is a long iron bridge over the Chagres river. This is a critical point, offering the liberals a splendid point of attack should the government forces attempt to cross the bridge. It is generally assumed that if Gen. Alban succeeds in crossing the river at Barbacoa his march toward Colon will be an easy task. Gen. Luzo, the liberal commander, is at Barbacoa.

The liberals retreated from Empressador owing to lack of ammunition. They admit having lost 100 men in the time-expired men of the United States battleship Iowa now at Panama. The marines were embarked on board a train and were taken to Panama.

Dr. McNeal, who was on deck watching the storm, went to his stateroom and called his wife to come on deck to see a passing steamship. The couple had been standing together for only a few minutes when an immense wave swept over the Belgenland, carrying the unfortunate woman overboard. No Assessment on Associated Lodges.

Pittsburg, Pa., Nov. 26.—President Shaver of the Associated Lodges of the city emphatically denies the report from Wheeling that the association lodges in that district are to vote on an emergency assessment for the creation of a new lodge. The association of lodges in the city has agreed with the United States Steel corporation to expire, eight months hence.

He says that about six or eight weeks ago he authorized the levying of an assessment of 10 per cent, but this was to make up a fund having for its purpose caring for men who, since the war, had been unable to find employment. Furthermore, the unions were without authority to vote on assessments, that authority being vested entirely in the officers of the Amalgamated association.

QUARANTINED.

Frazier Family Stricken With Diphtheria Needs Help.

A case of neglect on the part of the health authorities was reported today from the western part of the city down near the Jordan. Three children of Al Frazier and an eighteen-months-old child of Mrs. Gligi, all living at 813 West 1st St. South, have been stricken with diphtheria, and the Gligi baby is close to death's door. The Frazier children are Julia, aged eleven years; Edward, 9, and Matthew, 2. Julia has been quite dead as a result of the disease.

Last Thursday the house was quarantined, but although the health officer has cut off the family from communication with the outer world it has done nothing farther. Neither medical aid nor provisions of any kind have been supplied to the beleaguered family. All are in a sad state of destitution. Mrs. Woodmansee has talked over the fence with her sister, Mrs. Frazier, and has called upon County Physician Mayo, whose wife has promised to call the doctor's attention to this urgent case, but so far no relief has come to the stricken families and nothing has been done towards their relief.

AMUSEMENTS.

At the Grand last night there were afforded a number of realistic glimpses of life in Chinatown, and the High-binder, the opium smoker and the cute little "Chink" were shown and their subterranean environments made to do duty in the plot of a story more or less full of mingled amusement and thrills. "The King of the Opium" was a play full of interest to those who love that particular sort of thing, and its rendition is by a group of players about of the traveling average grade, who have been here for the first time. The couple had been standing together for only a few minutes when an immense wave swept over the Belgenland, carrying the unfortunate woman overboard. Her body was not seen after it had been carried away by the wave.
