SPECIAL MEETING. Special meetings of the city council were held last Friday and this evening. The former met to act on the atment of superintendent of the municipal electric plant. Mayo Rebinson, who two months ago declared in his message to the council that the city plant should be kept out of politics, met an hour before the council meeting, with eight or ten local Republican leaders to caucus on the matter of the appointment he expected The upshot was that he placed two Republicans in nomination -E. R. South and Joel Ricks-both of whom were turned down, South receiving five out of ten votes, while Ricks only received three. It is only just to the latter to say that he had

the pledged support of Councilman J. W. Crawford, but failed to get it. The special meeting tonight was called to officially canvass the votes for and against the proposition to bond

the city for \$12,000 to complete the electric plant. MARRIAGE LICENSES.

Peterson Trial on the Third Week-Wit-Mrs. Hannah Reese, a patient at the county infirmary, 76 years of age, was examined as to her sanity yes-terday by Doctors Westwood and Tay-lor before County Commissioned Dunn. a nesses Recalled.

Special Correspondence.

Nephi, March 28 .- The Peterson murder case began on its third week this morning. The court opened at 11 o'clock, when Erick Wickman was again put on the stand for further cross-examination by Attorney Greenwood, but nothing new was developed. The fol-lowing were then recalled: Fred Sun-dall, Vick Nih d and Ed Gustavison, who testified on additional points, Fred Sunderland, Alfred Johnson and Mike Eastman were then sworn and testified for the defence. In the examination of Mike Eastman it developed that the socalled trouble between Andrew Smith and John Backman, wherein challenges were given to fight, that the thing was "huge joke" and that there was no oc-casion for believing that trouble was brewing, and it further developed that in the trouble between Vick Carlson and the defendant that the defendant was the aggressor. Miss Cronelove, the lady who was struck with the bottle that Backman threw from the stage, testified that there was no vulger language used, and she simply old the defendant to keep them a little more quiet. Fred Sunderland was the only witness that saw anything of a knife and he does not know whether it fell from the table or from John Backman's hand. He did not see the knife opened and it may of been used on the table to open bottles

Nephi, March 29 .- Most of the court's time has been taken up today in hearing testimony as to the character of the defendant. The evidence goes to show that Peterson has not been a heavy drinker, but has been mixed up in some

rows before.
Dr. Hansell of Eureka testified that he made an examination of John Backman, the deceased, before he was taken to the hospital in Salt Lake City, and he said that his wounds were not of such a nature to cause his death, had he received proper treatment at the proper time. His entire testimony went to show that the attending physicians either did not understand their case or were very neglectful.

Dr. Worthington has been sent for

and will be put on the stand by the state in rebutal of the evidence given It is expected that the defendant will take the witness stand tomorrow and will be the last witness for the defense, so that the case may wach the jury

ANNIVERSARY CELEBRATION.

Bryan, Ida., March 24.-Yesterday we celebrated the eighth anniversary of our ward organization. Everyone in ward was invited irrespective of creed and a most enjoyable time was

Bishop W. P. Lindsay and associates conceived the idea of working up a good social feeling among the people, also to show their appreciation of the efficient labors and zeal of the people in the constructions of the new hall, and also to hold in memory the organization, growth and development of the ward, hence the celebration. Neither did they stop with the idea of en-tertaining the members of their own ward only, but extended invitations to the stake presidency Elias Kimball. Lorenzo R. Thomas and Dan C. Walker. And the Bishops and counselors of the adjoining wards, also some others, leading members of other wards, who same and participated in the enjoy-

ENCOURAGING GROWTH Our school district was organized in 1896, we then had a population of about 40 and was valued at less than \$3,000, it now has 200 children and the valuation is over \$80,000. The school district was too weak in the beginning to build a school building and leased the old log meetinghouse. Four years ago necessity compelled the district to erect another building. During the year 1903 a much larger and very commodious building was constructed, which will accommodate almost the entire number of school children. Emergency drove the people in the year 1902 to build a frame structure, but this was moved to a remote part of the district, thus the district is equipped many more children than we have at the present time.

PROSPERITY IN VIEW. The prospects for the future growth of the community are very encouraging. Many new settlers have already located with us during the past winter and more of them are looking this way for homes in the future. Among the number we are pleased to note is Mr. M. P. Guymon of Lajara, Conejoes county, Colo., who has recently been

here, and who is representing five families, who he expects to locate here in the near future. Spring is somewhat backward owing to so many storms of rain and snow. Some of which have been very heavy. Mud! Well, that is getting to be an old cry, and is everywhere present.

Weather Conditions - Social Functions -Building and Other Enterprises.

Carey, Ida., March 24.-March came in like a lion, and has shown no dis-position to be "lamb-like" during its 24 days of trial. The worst weather of the winter has been during this month So much rain, wet snowing, frost and stock not sheltered or well protected. There is nearly a foot of snow yet on the ground,

Quite a bit of sickness from colds heumatism and la grippe has prevailed in the valley owing to changes in the weather, but most of those sick are on the improve. The Carey sheep shearing crew of

some 22 members, was reorganized last week, with Josiah Howard as captain and Parker Richards as secretary. The boys are now prepared for the rush of work, looked for in that line, as soon as the weather will permit the shear-

the children of the village assembled in the hall and had a royal time, dancing and eating pienic. Day school is well attended, and will continue for a week or two longer.

Some building is going on even in the winter time. Mr. Gibson A. Condle has his new

house and granary up and covered in. E. A. Gile has a two room from residence in the same shape. Bishop G. S. Harris has just had finished a long roomy machine and wagon shed, and will soon have a stock of agricultural implements, wagons, etc., in to put in said shed. Joseph Ainsworth, Edward Cameron and S. P. Richards have just finished the digging of wells on their home lots.
