**CURTIS MODELS—PRICES REDUCED TO MEET THE TIMES!**—The merits of this system for Cutting all kinds of garments worn by Ladies, Gentlemen and Children are known by scores of ladies in this City and Territory; but the sure way is to prove it for one's self which may be done without charge. This system removes all anxiety regarding the FIT of garments, as all its directions are absolutely positive. There will be no altering—no taking up or letting out, which not only injures the material but destroys the proportions and often ruins the garment. The system is very simple and can be learned in a few hours. **CASH and PRODUCE taken.** **MRS. JOSEPH BULL, 17th Ward, Agent.** **CUTTING and FITTING** done in all its branches.

**RICHARD V. MORRIS,**

LATE U. S. ASSISTANT ASSESSOR, HAS been appointed Special Agent of the Globe Mutual Life Insurance Company, of New York, for Utah Territory. This Company commenced business, June 1st, 1864, with a cash capital of \$100,000. In the character and large amount of business done, it has been surpassed by no other company of the same age on the globe. It has issued more than 20,000 policies, and its cash assets, January 1st, 1870, amounted to more than two and a quarter millions of dollars! It has already paid to the representatives of deceased policy-holders, \$650,000, and its Cash Dividends to Policy-holders, for 1870, alone, amount to the sum of \$169,000!! All kinds of Life and Endowment Policies are issued, and all nonforfeitable (see rate book, page 8.)—Registered Policies issued, if desired, secured by the State of New York (see rate book, page 9). After two years from date of policy, an increasing annual cash dividend will be paid to each policy-holder. This dividend may be used in reduction of premium, or in the purchase of additions to the original policy, thus securing a decreasing premium, or an increasing policy. Branch office for Pacific Coast, 6 Montgomery St., San Francisco, Cal., **MERVIN TABOR, Manager.** d2523m-s65:2&w33:4

**THE DANFORTH**

**Non-Explosive PETROLEUM FLUID!**

THE terrible and fatal disasters, which are almost daily occurring by the careless use and explosions of kerosene oil, should call the serious attention of using it to its deadly qualities and induce them to procure a substitute for it. Thousands have perished by using kerosene oil, and thousands more will be offered a sacrifice to its death-dealing properties without its use is discontinued or its destructive element done away. If a fluid capable of a far more brilliant light, Cheaper, More Cleanly and Perfectly Free from the Danger of Explosion!

can be found, is it not perfectly suicidal to delay for a single day to use it? Such a fluid, by years of patient experiment and the expenditure of over fifty thousand dollars, has been provided by R. F. DANFORTH, of Cleveland, Ohio, and it has been introduced to the public with great success. For the Danforth Non-Explosive Petroleum Fluid it is claimed: 1st. That it is Non-Explosive and perfectly safe in whatever form used. 2d. That it is entirely free from filth and grease, and will not stain silks or fabrics of the most delicate colors or tints. 3d. That it is entirely free from all disagreeable odor. 4th. That it gives a purer, more brilliant and at the same time a softer light than any oil or fluid in use, and is fully equal to gas light. 5th. That it is (except daylight) the cheapest light ever discovered. Surely, if the fluid is as above represented kerosene oil should be discarded in every family where it is used, and the Danforth Fluid used in its stead. Not to use it would be trifling with the lives and property of every member of the family.

**THE CELEBRATED COOKING STOVES!**

**SUPERIOR! For Wood.**

They are really what their name indicates, SUPERIOR to any other Stove in the market, and for Economy, Durability, Convenience & Dispatch Are Unequalled!

**Kansas, Alaska and Improved American, For Coal,**

Which for Neatness of Design, Thoroughness of Combustion, Capacity of Oven, Economy in the Use of Fuel and Uniformity of operation, place them as the best Stoves in the market. They have been constructed specially for the use of our Western Bituminous Coal (for which all stoves of Eastern manufacture are so ill adapted). Enlarged Flues insure a perfect draft; the plates that line the fire chamber are unusually heavy, and combine certain peculiarities in their construction which give these Stoves superiority over all others in the consumption of their smoke, thus saving a large per centage of fuel.

**BRIDGE, BEACH & Co., ST. LOUIS**

Made the first Stoves ever made West of the Mississippi River. Deal in Metals! s87 w44 4mea

**BUCK'S PATENT STOVES.**

ARE MORE Durable, Bake Quicker Better AND WITH LESS FUEL THAN ANY STOVES MADE

**They Always Give Satisfaction.**

BUCK'S STOVES have taken the premium As the Best Cook Stoves at the four last Fairs held at St. Louis, and Gold Medal awarded to Buck's Stoves after two days' actual trial in competition with the leading stoves made in the United States, at the New Orleans Mechanics' and Agricultural Fair, January 14th 1868. Also, the GRAND GOLD Medal at the New Orleans, La., State Fair, April 28, 1870, over Eleven of the Principal Stoves made in the United States.

**BUCK & WRIGHT 720 & 722 N. Main St., St. LOUIS**
