

THE EVENING NEWS.

Thursday, June 29, 1871.

PRICE OF GOLD.

Price Daily by HOOPER, ELDREDGE & CO.,
Gardner,
SALT LAKE CITY, JUNE 28, 1871.
GOLD \$16.00 Selling at \$16.00.

LOCAL AND OTHER MATTERS.

WEATHER ITEM.—Ninety was the highest point reached by the thermometer to-day.

MRS. E. C. STANTON AND MRS. S. R. ANTINIO.—We remind the public that those talented ladies will lecture on "Woman Suffrage" in the Tabernacle, at eight o'clock to-night. We hope they have agreed on the platform their subsequent action in the advocacy of the cause they have espoused, have been eloquently spoken of by the press. They arrived last evening and are staying at the Townsend House.

CARPENTERS AND JOINERS ATTENTION! The carpenters and joiners are invited to meet on Friday evening at 7 o'clock, in the Mountain Hall, American Room, to make all necessary arrangements for participating in the forthcoming celebration. General attendance is requested.

W. H. FOLSON,
Chairman of Committee.

LEFT FOR THE EAST.—Bishop John Sharp left for the East this morning. He will visit, before his return, St. Louis, New York, Boston and Philadelphia.

CASE IN VALLEY.—Brother John King, of Millville, informed us yesterday that present prospects indicate that, in the aggregate, about half a crop will be raised in that settlement this season.

ITEM FOURTH.—The committees representing the various trades societies, met at the City Hall last evening. The audience was highly gratified and showed that the celebration is likely to be a great success. We understand the General Committee are busily engaged in preparing the programme which we expect to publish in tomorrow's issue.

We have been informed that the good people of Ogden purpose joining in the joyous demonstrations in this city, and that an excursion train will be run on the Utah Central at \$1.00 for the round trip. The collection box will be open for the benefit of grandmothers and most interesting of the kind ever witnessed in the Rocky Mountain States and Territories.

ENJOYING THEMSELVES.—Professor C. L. Thomas and the members of his theatrical company left town this morning to spend the day in Emigration Canyon. They, with their friends would constitute a lively party, and the musical facilities, the time was spent in general merriment and the party to feel joyous and free who would come to make their "out" a pleasant one.

ITEMS FROM THE OGDEN "JUNCTION."—The following items are from the Junction of yesterday:

On Monday evening last George M. Whitehead, oldest son of Mr. George Whitehead, of this city, was crushed to death while playing on the wheel of a millstone in First street. The boy had just returned home from school, and was being followed by his parents, but seeing some children running the wheel of the mill by tramping it with their feet, he stopped to join in the pastime, but fell into one of the millstones and was rolled around it, and died by death in an instant. Dr. Dinsdale, hearing of the accident, ran with an axe and chopped away the woodwork to extricate the unfortunate boy, but when taken out he was quite dead. Only three quarters of an hour after he left the house he was brought back to his parents a corpse.

Yesterday we were shown a little bar of tin, weighing 21 dwt., which was run out of a piece of rock from the "Morning Star" mine, about three miles east of Ogden. This is the first time that such a large bar of tin has been taken from the mine.

We hear of other miners

rolling out rich silver ore, and we are informed that a company will be here in a few days to put up a smelter. Fetch it along.

On Saturday last Mr. Eugene Callay was coupling two cars on the U. C. R. R., at Ogden. The headram was broken, causing the cars to come into near contact, wedging Mr. Callay in between them, breaking his back and chest, but fortunately not his spine.

The U. C. R. R. Co. are making a small side track near the engine house, at the foot of Fifth street.

LAW'S CIRCUS.—Madame Law's mammouth circus will open here-to-morrow. For array of splendidly trained horses, professional artists of the highest class, and general circus paraphernalia, it is said to be unequalled by any中外的 exhibition of the kind on the continent. A great feature in connection with this circus is the balloon ascensions, which will take place every afternoon from the circus lot, this part of the performances being free to the public. The circus will have made a successful tour of Wyoming and Colorado, the newspapers of those Territories stating that the people flocked everywhere to witness the grand performances.

The circus will remain in this city for one week only.

AN INTERESTING PAMPHLET.—We have received, from W. Lilley, a pamphlet entitled "A Trip from the Lehigh to the Pacific." It purports to give a description of the scenery and circumstances of travel on the journey. The noble pen-pictures are very forcible and elegant. It is a very interesting and readable little work, the style in which it is written being simple and unostentatious, yet forcible. Salt Lake City and the "Mormons" receive a somewhat lengthy and very kindly notice at the hands of the writer.

DISINFECTANTS.

S. L. City, June 20th, 1871.

Editor, Deseret News.—Now that something is being said about the "Earth Closet," as a disinfectant, it appears to be a favorable opportunity for reference to our system for this purpose.

The sulphate of lime has the power of rapidly destroying all noxious effluvia arising from the decomposition of organic matter, and that by fixing carbon and volatile elements as inodorous compounds. These compounds are fertilizers, artificial manures; while earth, alone, does not so readily nor so elegantly accomplish, if I may say so, the same effect.

The mixture of earth and lime, however, does not remove all the objectionable qualities that are reported to our senses when the compost is used as fertilizer. Gypsum is not open to these objections, and is equally efficient, especially to the arrangement of its constituents, and physically in its appearance. This will pay a disinfectant in these days of pestilence, and it will make our city what it appears to be, a healthy, sweet and clean. Sold in bags at low prices, "comparatively" by all; sold with simple directions for use; we may enrich our gardens and fields, by returning to them that which they have given us in our food, incorporated with other elements there wanting to be used for the common good.

Yours truly,

J. L. BARFOOT.

VISITORS COMMITTEE IN PROCHA.—The latest advice to us is that a committee of safety has been formed at Provo, and that it is the determination of the best citizens there to develop the lawlessness that has been ruling around that place.

They do not want us to be afraid if there is a place in the State that needs such an organization it is there. There are many persons there who have been a terror to the best class of people in half the towns in the mountains, and it is high time they were made to feel the consequences.

We hope that notices to quit will be more numerous than hangings, but the latter will probably be done, as it is usual to carry out the greatest extortions when an outraged people are organized.

Yours truly,

J. L. BARFOOT.

18 Maiden Lane,

CLOSING OUT A GRAND REMAINT SELL

Z. C. M. I.
RETAIL DRY GOODS DEPT.,
TUESDAY, JUNE 27, '71,

AND FOR

TEN DAYS:

NOTICE:
TO JOHN YOUNG AND ALL OTHERS
INTERESTED:
You are hereby notified that I will appear at the U. S. Land Office, Salt Lake City, Utah, before the 1st of July, 1871, at 10 o'clock A.M., to prove my right to enter the Lots 1 and 2 Sec. 11, and Lot 2 Sec. 9, Twp. H. W., at which time and place you can appear and contest if you see proper.

Witness my hand this 27th day of June, A. D. 1871.

CHRISTIAN PETERSON.

NEW REFORM.—The introduction of Soda Water and Sarsaparilla, by Day & Co., has done more in the way of a Temperance Reform than all the lectures that have been delivered in the country. The present condition of man is a thirty-eighth, and it has long been established that water will not cleanse these.

The question arises, can we find a substitute as harmless in its effects, and more delicious to taste than anything yet discovered? We find it in Day & Co.'s Soda and Sarsaparilla. If every one would sign the pledge and drink nothing but this Celebrated Beverage, much degradation, misery, shame and crime would be prevented in the world. If one doubts the truth of our remarks let them step into the first place they come to and try it. It will take only a few days to put up a smaller. Fetch it along.

On Saturday last Mr. Eugene Callay was coupling two cars on the U. C. R. R., at Ogden. The headram was broken, causing the cars to come into near contact, wedging Mr. Callay in between them, breaking his back and chest, but fortunately not his spine.
