DEATH OF LEPROHON.

Many persons are now venturing the view that ex-Councilman LeProhon, the well known civil engineer, whose death occurred last week, was also a victim of spotted fever, or cerebro-spinal meningitis, as the symptoms manifest during the illness are said to have been identical with those of Alfred Bennion, Arthur Ball and young Fagergren.

The sale for Bernhardt's engagement at Saltair will open at the Clayton Mu-sic company store next Thursday morning at 10 o'clock. Theatre-"The Lion and the Mouse" engagement, which ended at the theater Saturday afternion and evening, broke all recent records of an attraction charging \$2, and giving seven consecu-tive performances. Their receipts ap-proximated \$5,000, and the visiting company, as well as the local management were naturally jubilant. Coming just at this time, when western theatrical routings are in a state of chaos, such a record cannot fail to be a powerful argument with the eastern magnates, in favor of establishing a new circuit with Portland, Salt Lake and Los Angeles as the three cardinal western points. Lyric—High class vaudeville is the order of business at the Lyric this week, and the bill throughout is a strong one. There are six numbers in all, and any one is worth a trip down town to see. The change from musical comedy to special "stunts" is refresh-ing to the patrons of the playhouse, and judging from the size of the audiences Saturday afternoon and evening, and the amount of applause which greeted the performers, it is safe to say that Manager Guiney will wear a broad smile when he counts the box office re-ceipts at the end of the week. MEMORIAL SERVICES.

Order of Eagles Paid Tribute to Their Departed Yesterday.

The order of Eagles held memorial services at Unity hall yesterday afternoon, and decorated the graves of their departed brethren at the cemeteries, The speaker at the hall was Rev. Frank F. Eddy, who said in part:

'By such an organization as that of by such an organization as that or the Fraternal Order of Eagles we enter into a certain community of life based on such great principles of truth, jus-tice, freedom and equality. These prin-ciples do not belong to us in any exclusive way; they come out of the in-spired heart of humanity. But we choose them and organize a fraternity on the foundation they offer. To do this means a getting together, shoulder to means a getting together, shoulder to shoulder; it means comradeship, broth-erhood. Those in whose memory we meet today were sharers with us of this larger life. For us this is the great significance of their living and their dying.

"How shall we erect a memorial to them. Let it not be an attempt to mark their last resting place by a monument designed to withstand the tooth of ime. Rather we will do well to place there flowers that will quickly wilt and fade and be resolved into the elements. as an emblem of mortality. The only imperishable monument we can build is by ourselves sharing in the nobler is by ourserves sharing in the hoper life, the larger and more satisfying life that can be attained by living true to the great principles of our order. By doing this we work together with God and make the time-vesture we call his.

and make the time-vesture we call his-tory our living memorial." The program included music from the Utah State band, and by the Unity quartet, comprising Mrs. Lillian Schau-felberger, soprano, Miss Nellie Mahan, alto: Joseph Poll, tenor: A. G. Mahan, bass, and Miss Edna Clark, accompan-ist, and a tenor solo by Joseph Poll. The roll call of deceased brothers showed the names of A. S. Watson, P. D. Huddart, Geo. D. Inman, C. S. NEW LUMBER TARIFF.

Harriman Roads to Increase Minimum Of Shipments on June 1.

Effective June 1 the Harriman lines will increase the minimum of lumber shipments to the east operative from all points in Oregon. Washington and Idaho. This action has been concurred in by other northwestern roads. The reason assigned for this move is the tremendous increase in lumber ship-ments from the Northwest and the growing demand for freight cars to handle the traffic.

handle the trainc. The new minimums depend alto-gether upon the size of the car to be loaded, and a long list of figures is submitted, with the anouncement by the railroad companies. With a cubic capacity of 1,500 feet and not more than 1,550 feet, cars must be loaded with at least 23,000 pounds of shingles, cedar lumber, fenceposts, or articles taking the same rate, or 34.500 pounds of fir, hemlock, larch or spruce timber, or articles in the same classification, in order to get the 40-cent rate.

Cars having a cubical capacity of 2.951feet or over must have a minimum of 45,500 pounds of shingles, cedar lumber, etc. or 67,000 pounds of other lumber. Between the two extremes,

humber. Between the two extremes, many other minimums are offered. Poles and piling on open cars, single car-lengths, will have a minimum of 40,000 pounds, except when loaded with poles, and piling less than 30 feet in length, when minimum will be actual weight, but not less than 30,000 counds. pounds.

In this connection a special to the New York Commercial from Seattle

Lumbermen throughout the Northwest are raising a storm of protest against the new tariff promulgated by the transcontinental freight bureau, which goes into effect on June 1. In Saettle there seems to be a general impression prevailing that the rate will be a blow to the industry in the north Pacific territory. The local com-mercial bodies may be called upon to take the matter up with the railroads, and the question is already slated for discussion at the next meeting of the Pacific Coast Lumber Manufacturers' association, which is to be held in this

ity. It is declared by a number of well posted manufacturers that freight charges on the better grades of fir, spruce and hemlock will be increased to an almost ruinous figure. They as-sert, further, that trade will be cut fully one-half on porch columns and fir gutters. One manufacturer says the new
